## Seeking Justice

The Westview series Case Studies in International Affairs stems from a major project of The Pew Charitable Trusts entitled "The Pew Diplomatic Initiative." Launched in 1985, this project has sought to improve the teaching and practice of negotiation through adoption of the case method of teaching, principally in professional schools of international affairs in the United States.

## Seeking Justice

Ethics and International Relations (IR), once considered along the margins of the IR field, has emerged as one of the most eclectic and interdisciplinary research areas today. Yet the same diversity that enriches this field also makes it a difficult one to characterize. Is it, or should it only be, the social-scientific pursuit of explaining and understanding how ethics influences the behaviours of actors in international relations? Or, should it be a field characterized by what the world should be like, based on philosophical, normative and policy-based arguments? This Handbook suggests that it can actually be both, as the contributions contained therein demonstrate how those two conceptions of Ethics and International Relations are inherently linked. Seeking to both provide an overview of the field and to drive debates forward, this Handbook is framed by an opening chapter providing a concise and accessible overview of the complex history of the field of Ethics and IR, and a conclusion that discusses how the field may progress in the future and what subjects are likely to rise to prominence. Within are 44 distinct and original contributions from scholars teaching and researching in the field, which are structured around 8 key thematic sections: Philosophical Resources International Relations Theory Religious Traditions International Security and Just War Justice, Rights and Global Governance International Intervention Global Economics Environment, Health and Migration Drawing together a diverse range of scholars, the Routledge Handbook of Ethics and International Relations provides a cutting-edge overview of the field by bringing together these eclectic, albeit dynamic, themes and topics. It will be an essential resource for students and scholars alike.

This topical and timely book critically explores contemporary liberal international relations theory. In the fifty years since the declaration of human rights, the language of international relations has come to incorporate the language of justice and injustice. The book argues that if justice is to become the governing principle of international politics, then liberals must recognise that their political preferences cannot be the preconditions of global ethics. The hierarchy of international political ethics must be constructed afresh so that the first principles of justice are accessible to all agents as political and ethical equals. This book will be essential reading for students and scholars in politics, international relations, political theory and ethics.

### Ethics, Justice and International Relations

While skepticism about the role of moral considerations in international politics has been influential within the discipline of international relations (IR), those writing on topics such as war, peace, rights and trade up until the twentieth century took seriously the importance of ethical values and moral debates. The 1990s and 2000s have seen a substantial growth of attention to the ways in which IR conceives and analyzes themes of an ethical nature, and how issues, problems and policies involving ethics are addressed by a variety of actors within the international system. This indispensable research companion widens the perspective from 'ethics and international relations' to 'ethics in international relations', redressing the (mis)perception that ethical concepts, principles, norms and rules are not in part constitutive of the international system and the agents acting within that system. Necessarily cross-disciplinary, expertise is drawn from IR and also philosophy, political theory, religious studies, history and law, making this an ideal volume for any library reference collection.

### The Ashgate Research Companion to Ethics and International Relations

Through an examination of the relationship between ethics and international coercion, *The Sword of Justice* compares the actual practice of the United States to the standards established by the just war framework. Historical cases are considered—from nuclear deterrence, conventional war and humanitarian intervention to covert action, economic sanctions and coercive diplomacy—analyzed from the perspective of the just war tradition to provide practical tools to improve the moral content of policy decisions. An enduring feature of the international system is the use or threat of force. The most systematic critique of this practice is found in the just war tradition, begun by Augustine and further elaborated by Aquinas. This book explores the relationship between ethics and international coercion by presenting historical case studies in which the United States has taken such measures to achieve their goals, and by comparing the actual practice of the United States to the standards established by the just war framework. Based on the comparison, a number of concrete recommendations are made about specific measures that could strengthen the moral content of policy decisions, and at the same time meet tests of political feasibility in the American system of government.

### The Sword of Justice

Bridging the contending theories of natural law and international relations, this book proposes a 'relational ontology' as the basis for rethinking our approach to international politics. Amanda Beattie challenges both the conventional interpretation of natural law as necessarily and intractably theological, and the dominant conception of international relations as structurally distinct from the ends of human good, in order to recover the centrality of other-directed agency to the promotion of human development. Offering an important contribution to the study of international political thought, the book contains a number of challenging and controversial ideas which should provoke constructive debate within international relations theory, political theory, and philosophical ethics.

### Justice and Morality

This volume offers a new dimension to realist theories about world politics. It questions both the theoretical and empirical foundations of much of traditional realist thought by offering realist-oriented analyses that emphasize the possibilities of cooperation and accommodation through agreement over common motivations and concerns. The articles in this volume demonstrate that moral considerations can and do play a significant role in shaping state behavior and that despair about the possibility of improving the systems and institutions within which we live is unwarranted. Specific points of normative convergence are raised in some detail, especially on issues of war, membership and authority, humanitarian concern and the social consequences of globalization. Three ethical concepts

form the core of the 'realism reconsidered' argued for here, namely, the ideas of pluralism, rights and fairness.

### Ethics and International Relations

As the essays in this new collection make clear, the division between what is in the national interest and what can be morally justified is often questionable. One reason is that the citizens who vote for the governments that make and carry out policy are not indifferent to the moral justifiability or lack of it of those policies.

### Ethics in International Affairs

This edited volume addresses the key issues of ethics, war and international relations in the post-9/11 world. There is a lively debate in contemporary international relations concerning the relationship between statist obligations to one's own political community and cosmopolitan duties to distant others. This volume contributes to this debate by investigating aspects of the ethics of national military and security and intelligence policies in the post-9/11 environment. The discursive transformation of national militaries into 'forces for good' became normalized as the Cold War subsided. While the number of humanitarian military interventions and operations rose considerably in the immediate post-Cold War period, the advent of the 'war on terror' raised questions about exactly what we mean by ethical behaviour in terms of military and security policies. This volume interrogates this key question via a focus that is both distinctive and illuminating – on national military ethics; femininities, masculinities and difference; and intelligence ethics. The key objectives are to demonstrate the important linkages between areas of international relations that are all too often treated in isolation from one another, and to investigate the growing tension between cosmopolitan and communitarian conceptions of intelligence and security and the use of armed force. This book will be of much interest to students of security studies, ethics, gender studies, intelligence studies, and international relations in general. Mark Phythian is Professor of Politics in the Department of Politics and International Relations at the University of Leicester. He is the author or editor/co-editor of ten books. Annika Bergman-Rosamond is Senior Researcher at the Danish Institute for International Studies in Copenhagen.

### War, Ethics and Justice

This new volume moves beyond the limits of current debate to show how today's foreign policy is increasingly about values rather than interests and why ethics are now playing a central role. Rather than counterposing interests and ethics, trying to find 'hidden agendas' or emphasizing the double-standards at play in ethical foreign policy, this book brings together leading international theorists, and a variety of stimulating approaches, to develop a critical understanding of the rise of ethical foreign policy, and to analyze the limits of ethical policy-making on its own terms. They deal with the limits of 'ethical foreign policy' both in the light of the internal dynamic of these policies themselves, and with regard to the often unintended consequences of policies designed to better the world. This book also shows how the transformation of both the domestic and the international spheres of politics means that ethics has become a rallying point for non-state actors and experts who gather around values and norms in order to force institutions to justify their behavior. This process results from different structural changes and the transformation of the international system, the individualization of Western societies and the growing importance of expertise in the justification of decisions in risk adverse societies. It leads to a transformation of norms and to a redefinition of a global ethical framework that needs to be clarified. This book will be of great interest to all students and researchers of foreign policy formation, politics and international relations.

## Ethics and International Relations

The third edition of *Ethics & International Affairs* provides a fresh selection of classroom resources, ideal for courses in international relations, ethics, foreign policy, and related fields. Published with the Carnegie Council for Ethics in International Affairs, this collection contains some of the best contemporary scholarship on international ethics, written by a group of distinguished political scientists, political theorists, philosophers, applied ethicists, and economic development specialists. Each contributor explores how moral theory can inform policy choices regarding topics such as war and intervention, international organizations, human rights, and global economic justice. This book provides an entry point into these key debates and offers a platform for further discussion. Published in cooperation with the Carnegie Council for Ethics in International Affairs

## Rethinking Ethical Foreign Policy

*Universality Ethics and International Relations* introduces students to the key debates about ethics in international relations theory. This book explores the reasons why grappling with universality and ethics seems to be a profound endeavour and where we end up when we do. By offering a new way of thinking about ethics in International Relations, Pin-Fat shows that there are several varieties of universality which are offered as the answer to ethics in global politics; the divine universality of Hans Morgenthau, the ideal universality of Charles R. Beitz and the binary universality of Michael Walzer. Taking the reader on a grammatical odyssey through each, the book concludes that profound searches for the foundations of universality can't fulfil our deepest desires for an answer to ethics in global politics. Pin-Fat suggests that the failure of these searches reveals the ethical desirability of defending universality as (im)possible. An ideal text for use in a wide variety of courses, including ethics in international relations, international relations theory, and international political theory, this work provides a valuable new contribution to this rapidly developing field of research.

## Ethics & International Affairs

Arguing for a middle ground between idealism and realism, this book considers the most pressing ethical and moral issues in contemporary international politics, including intervention, human rights and aid, and sets about reasoning how to resolve them in politically realistic ways.

## Universality, Ethics and International Relations

This work offers a radical reformulation of the pluralist position in 'English school' theory, providing an account of world politics that is normatively progressive and rooted in the significance of multiple community membership to human lives.

## Ethical Reasoning in International Affairs

Offering a new interdisciplinary approach to global justice and integrating the insights of international relations and contemporary ethics, this book asks whether the core norms of international law are just by appraising them according to a standard of global justice grounded in the advancement of peace and protection of human rights.

## Ethics, Diversity, and World Politics

This collection of some of the best contemporary scholarship in ethics and international affairs explores the connection between moral traditions and decision making during and after the Cold War. Each author relates the timeless insights of philosophy and our collective historical experience to the hard choices of our own age. This volume should be of special interest to those working and teaching in international relations, diplomatic history, foreign policy, applied ethics, and related fields.

## The Thin Justice of International Law

This book examines the international political order in the post-Cold War era, arguing that this order has become progressively more punitive. This is seen as resulting from both a human-rights regime that emphasizes legal norms and the aggressive policies of the United States and its allies in the 'War on Terror'. While punishment can play a key role in creating justice in a political system, serious flaws in the current global order militate against punishment-enforcing global norms. The book argues for the necessary presence of three key concepts - justice, authority and agency - if punishment is

to function effectively, and explores four practices in the current international system: intervention, sanctions, counter-terrorism policy, and war crimes tribunals. It concludes by suggesting ways to revise the current global political structure in order to enable punitive practices to play a more central role in creating a just world order. This book will be of much interest to students of International Law, Political Science and International Relations.

#### Ethics & International Affairs

*Ethics and International Relations, Second Edition*, offers a comprehensive introduction to the philosophical issues raised by international politics. Presupposing no prior philosophical knowledge and deliberately avoiding the use of technical language, it is ideally suited for political philosophy, applied ethics and international relations courses. Revised and updated, new material includes coverage of the war on terror, the impact of globalization, and ideas of cosmopolitan governance. Clearly and thoughtfully organized, it proceeds logically from general morality and international relations to issues surrounding just war theory and global justice. A crisp, analytical treatment presented with a student-sensitive approach and informed by real world issues. Covers a wide array of subtopics.

#### Punishment, Justice and International Relations

The truth commission is an increasingly common fixture of newly democratic states with repressive or strife-ridden pasts. From South Africa to Haiti, truth commissions are at work with varying degrees of support and success. To many, they are the best--or only--way to achieve a full accounting of crimes committed against fellow citizens and to prevent future conflict. Others question whether a restorative justice that sets the guilty free, that cleanses society by words alone, can deter future abuses and allow victims and their families to heal. Here, leading philosophers, lawyers, social scientists, and activists representing several perspectives look at the process of truth commissioning in general and in post-apartheid South Africa. They ask whether the truth commission, as a method of seeking justice after conflict, is fair, moral, and effective in bringing about reconciliation. The authors weigh the virtues and failings of truth commissions, especially the South African Truth and Reconciliation Commission, in their attempt to provide restorative rather than retributive justice. They examine, among other issues, the use of reparations as social policy and the granting of amnesty in exchange for testimony. Most of the contributors praise South Africa's decision to trade due process for the kinds of truth that permit closure. But they are skeptical that such revelations produce reconciliation, particularly in societies that remain divided after a compromise peace with no single victor, as in El Salvador. Ultimately, though, they find the truth commission to be a worthy if imperfect instrument for societies seeking to say "never again" with confidence. At a time when truth commissions have been proposed for Bosnia, Kosovo, Cyprus, East Timor, Cambodia, Nigeria, Palestine, and elsewhere, the authors' conclusion that restorative justice provides positive gains could not be more important. In addition to the editors, the contributors are Amy Gutmann, Rajeev Bhargava, Elizabeth Kiss, David A. Crocker, André du Toit, Alex Boraine, Dumisa Ntsebeza, Lisa Kois, Ronald C. Slye, Kent Greenawalt, Sanford Levinson, Martha Minow, Charles S. Maier, Charles Villa-Vicencio, and Wilhelm Verwoerd.

#### Ethics and International Relations

Global political actors, from states and NGOs to activist groups and individuals, exert influence in societies beyond their own in myriad ways--including via public criticism, consumer boycotts, divestment campaigns, sanctions, and forceful intervention. Often, they do so in the name of justice-promotion. While attempts to promote justice in other societies can do good, they are also often subject to moral criticism and raise several serious moral questions. For example, are there ways to promote one's own ideas about justice in another society while still treating its members tolerantly? Are there ways to do so without disrespecting their legitimate political institutions or undermining their collective self-determination? To understand the ethics of justice-promoting intervention, Lucia M. Rafanelli moves beyond the traditional focus of other scholarship in this area on states waging wars or employing other conventional tools of coercive foreign policy. Specifically, Rafanelli constructs a philosophically-grounded and nuanced ethics of intervention to determine when attempts to promote justice in foreign societies are morally permissible. *Promoting Justice Across Borders* develops ethical standards for justice-promoting intervention that call on us to rethink received notions about the ordinary bounds of politics, and to abandon the thought that politics does and should take place primarily within the state. These ethical standards also give us a model for how to engage in political struggles for justice on a global scale--not only in conditions of supreme emergency, but in the ordinary circumstances of

everyday global politics. They therefore form the basis of a cosmopolitanism that is neither premised upon nor aimed at bringing about the end of politics. Ultimately, Rafanelli shows how the promotion of justice everywhere can be the legitimate (political) concern of people anywhere.

#### Truth v. Justice

Thomas Pangle and Peter Ahrens Dorf provide a critical introduction to the most important conceptions of international justice, spanning 2,500 years of intellectual history from Thucydides and Plato to Morgenthau and Waltz. Their study shows how older traditions of political philosophy remain relevant to current debates in international relations, and how political thinkers through the centuries can help us deepen our understanding of today's stalemate between realism and idealism. Pangle and Ahrens Dorf guide the reader through a sequence of theoretical frameworks for understanding the moral basis of international relations: the cosmopolitan vision of the classical philosophers, the "just war" teachings of medieval theologians, the revolutionary realism of Machiavelli, the Enlightenment idealism of Kant, and the neo-realism of twentieth-century theorists. They clarify the core of each philosopher's conceptions of international relations, examine the appeal of each position, and bring these alternatives into mutually illuminating juxtaposition. The authors clearly show that appreciating the fundamental questions pursued by these philosophers can help us avoid dogmatism, abstraction, or oversimplification when considering the moral character of international relations. *Justice Among Nations* restores the study of the great works of political theory to its natural place within the discipline of international relations as it retrieves the question of international justice as a major theme of political philosophy. It provides our moral compass with new points of orientation and invites serious readers to grapple with some of the most perplexing issues of our time.

#### Promoting Justice Across Borders

This is the first comprehensive study of how different ethical traditions deal with the central moral problems of international affairs. Using the organizing concept of a tradition, it shows that ethics offers many different languages for moral debate rather than a set of unified doctrines. Each chapter describes the central concepts, premises, vocabulary, and history of a particular tradition and explains how that tradition has dealt with a set of recurring ethical issues in international relations. Such issues include national self-determination, the use of force in armed intervention or nuclear deterrence, and global distributive justice.

#### Justice Among Nations

*Justice, the State and International Relations* offers a review of historical traditions of international ethical and political theory in the light of modern developments in political philosophy. McCarthy provides a defence of natural law tradition, and, in response to the criticism of natural law that, along with Kantianism, it is too abstract to produce a substantive account of justice and rights, constructs an argument for basic, agency-grounded rights. Through his study, the author attacks 'realism' and the modern 'cosmopolitan' theories that until now have been too little debated.

#### Traditions of International Ethics

Is it justifiable to make any basic moral distinction between 'insiders and outsiders'? Do we have substantive duties of 'justice' to all human beings or merely Humanitarian duties of aid and assistance? These are two of the most crucial questions confronting world politics and the field of international ethics today. *International Ethics: A Critical Introduction* provides an engaging and accessible introduction to these foundational questions. In a cogent and carefully argued analysis, Richard Shapcott critically examines the theories of cosmopolitanism, communitarianism, realism and pluralism and scrutinises their approaches to the various obligations which members of 'bounded' communities, primarily nation-states, have to 'outsiders' and 'foreigners'. He then takes the theoretical approaches in context by discussing the ethics of hospitality and membership of political communities, issues of mutual aid and humanitarianism abroad, the ethics of harm related to interstate international violence, and the challenge of severe global poverty. The book concludes by suggesting that the terms of international ethical life in the 21st century require reframing in a way that focuses more intently on the nature of harm between communities and individuals. This book provides students and scholars with a conceptual framework with which to analyse the policies, actions and philosophy of governments, NGOs and international corporations. Above all, it offers the means whereby individuals can assess their own

positions on contemporary ethical issues such as global poverty, humanitarian intervention, migration and refugees and global warming.

### Justice, the State and International Relations

Ethics and International Affairs explores the extent and limits of contemporary international ethics and examines the ways in which the international community has responded to some of its most crucial challenges since the end of the cold war. At the center of the book is a discussion of how responsibility is viewed at individual, national, and international levels when facing the problems of human rights, humanitarian intervention, environmental issues, gender considerations, international economic justice, matters of war and peace, and the plight of refugees. While some authors revisit the conception and interpretation of international ethics, others focus on the necessity to push for the better implementation and improvement of existing international norms. The result is an examination of how ethics are defined in today's specific contexts and how an understanding of the ethical may be developed from the articulation of the dilemmas encountered. The issues tackled in the book were already topical a decade ago, at the time of the first edition. Following the tumultuous first decade of this century, they have only gained in importance.

### International Ethics

This volume argues that a wide range of policies in the international system today economic sanctions, military intervention, and counter terrorism policy are part of a punitive ethos' that has arisen since the end of the Cold War. While that ethos is linked to the protection of human rights and the promotion of international liberalism, it violates standards of justice that it should otherwise be protecting. The book is premised on the assumption that while punishment in principle is justifiable, the ways it is being meted out in the current international order are not just. It draws on cases in which members of the international system seek to protect human rights and uphold international law by imposing punishments on those who violate the shared international norms. But while these punitive practices are designed to create a just international order, they tend to be unjust in practice. For Anthony Lang, these unjust punishments result from conceptual confusions about agency, responsibility, legitimacy, and authority. He thus identifies a dilemma in the current international system: attempts to promote human rights and international law through punishment are creating an unjust global order. Punishment, Justice and International Relations will be of much interest to students of international ethics, security and international relations in general.

### Ethics and International Affairs

Global justice and international affairs is perhaps the hottest topic in political philosophy today. This book brings together some of the most important essays in this area. Topics include sovereignty and self-determination, cosmopolitanism and nationalism, global poverty and international distributive justice, and war and terrorism.

### Punishment, Justice and International Relations

This text presents the concepts, theories, methods, and traditions of ethical analysis and then applies them to case studies in the areas of human rights, military force, foreign intervention, economic statecraft, and global political justice.

### Global Justice and International Affairs

'A lucid, comprehensive analysis of normative approaches to international relations, and an original contribution to critical theory' - Andrew Linklater, University of Keele  
'Hutchings combines a valuable account of the current state of the art with a lucid exposition of her own, highly distinctive, position. This will be required reading for students in international political theory, and indeed anyone interested in normative issues in international relations' - Chris Brown, London School of Economics and Political Science  
Providing an invaluable overview of the competing schools of thought in traditional and contemporary international theory, this book seeks to path the way forward for new ways of thinking about international political morality. First, the role and place of normative theory in the study of international politics is explained before a discussion of mainstream approaches within international relations and applied ethics. Here the student is introduced to the central debates between realists and idealists, and cosmopolitans and communitarians. Second, the conceptual challenges of contemporary

approaches in critical theory, postmodernism and feminism are outlined and then used as a platform to develop the author's own Hegelian-Foucauldian approach for doing normative international theory. Third, the insights drawn from each approach are applied to the study of two key topics in contemporary theoretical debate: the right to self-determination, and the idea of cosmopolitan democracy, and conclusions drawn for transcending the theoretical deadlock in international relations. Accessibly written and wide-ranging, this text will quickly become essential reading for all students and academics of politics and international relations seeking a deeper understanding of the underlying tensions and future potential of international theory today.

### International Ethics

This provocative and original book challenges the commonplace that contemporary international interactions are best understood as struggles for power. Eschewing jargon and theoretical abstraction, Mervyn Frost argues that global politics and global civil society must be understood in ethical terms. International actors are always faced with the ethical question: So, what ought we to do in circumstances like these? Illustrating the centrality of ethics to our understanding of global politics and global civil society with detailed case studies, Frost shows how international actors constitute one another in global social practices that are underpinned by specific ethical commitments. Case Studies examined include: The War on Iraq The 'Global War on Terror' Iran Human Rights Globalization and Migration The use of Private Military Companies. Global Ethics forces readers to confront their own necessary ethical engagement as citizens and rights holders in global society. Failure to understand international relations in ethical terms will lead to misguided action. This book should be read by all scholars and students of international relations as well as the general reader seeking an accessible account of the importance of ethical decisions in world affairs.

### International Political Theory

1 2 Andreas Follesdal and Thomas Pogge 1 The Norwegian Centre for Human Rights at the Faculty of Law and ARENA Centre for 2 European Studies, University of Oslo; Philosophy, Columbia University, New York, and Oslo University; Centre for Applied Philosophy and Public Ethics, Australian National University, Canberra This volume discusses principles of global justice, their normative grounds, and the social institutions they require. Over the last few decades an increasing number of philosophers and political theorists have attended to these morally urgent, politically confounding and philosophically challenging topics. Many of these scholars came together September 11–13, 2003, for an international symposium where first versions of most of the present chapters were discussed. A few additional chapters were solicited to provide a broad and critical range of perspectives on these issues. The Oslo Symposium took Thomas Pogge's recent work in this area as its starting point, in recognition of his long-standing academic contributions to this topic and of the seminars on moral and political philosophy he has taught since 1991 under the auspices of the Norwegian Research Council. Pogge's opening remarks — "What is Global Justice?" — follow below, before brief synopses of the various contributions.

### Global Ethics

This book articulates a systematic vision of an international legal system grounded in the commitment to justice for all persons. It provides a probing exploration of the moral issues involved in disputes about secession, ethno-national conflict, 'the right of self-determination of peoples,' human rights, and the legitimacy of the international legal system itself. Buchanan advances vigorous criticisms of the central dogmas of international relations and international law, arguing that the international legal system should make justice, not simply peace, among states a primary goal, and rejecting the view that it is permissible for a state to conduct its foreign policies exclusively according to what is in the 'the national interest'. He also shows that the only alternatives are not rigid adherence to existing international law or lawless chaos in which the world's one superpower pursues its own interests without constraints. This book not only criticizes the existing international legal order, but also offers morally defensible and practicable principles for reforming it. Justice, Legitimacy, and Self-Determination will find a broad readership in political science, international law, and political philosophy. Oxford Political Theory presents the best new work in political theory. It is intended to be broad in scope, including original contributions to political philosophy and also work in applied political theory. The series contains works of outstanding quality with no restrictions as to approach or subject matter. Series Editors: Will Kymlicka, David Miller, and Alan Ryan

### Real World Justice

The ethics of hospitality – the welcome of the foreigner – is implied in all moral debate in international relations ranging from questions of asylum to those of humanitarian intervention. Why then has there been so little reflection on hospitality in the study of international relations to date? Seeking to correct this striking omission, and making an important and original contribution to debates about ethics in international relations in the process, Baker outlines a theory of cosmopolitanism as hospitality which goes beyond existing cosmopolitanisms. He argues that we must understand cosmopolitanism not as the pursuit of a world in which there are no more foreigners but as the welcome of the foreigner. However, though hospitality calls for a welcome, there is always a decision on the welcome to be made. Cosmopolitanism as hospitality is therefore always as much a politics as it is an ethics. Addressing issues of central concern for those who seek to understand our obligations to strangers, this book will be of interest to students and scholars of international relations, security studies, ethics, and political and international theory.

#### Justice, Legitimacy, and Self-determination

Ethical constraints on relations among individuals within and between societies have always reflected or invoked a higher authority than the caprices of human will. For over two thousand years Natural Law and Natural Rights were the constellations of ideas and presuppositions that fulfilled this role in the west, and exhibited far greater similarities than most commentators want to admit. Such ideas were the lens through which Europeans evaluated the rest of the world. In his major new book David Boucher rejects the view that Natural Rights constituted a secularisation of Natural Law ideas by showing that most of the significant thinkers in the field, in their various ways, believed that reason leads you to the discovery of your obligations, while God provides the ground for discharging them. Furthermore, the book maintains that Natural Rights and Human Rights are far less closely related than is often asserted because Natural Rights never cast adrift the religious foundationalism, whereas Human Rights, for the most part, have jettisoned the Christian metaphysics upon which both Natural Law and Natural Rights depended. Human Rights theories, on the whole, present us with foundationless universal constraints on the actions of individuals, both domestically and internationally. Finally, one of the principal contentions of the book is that these purportedly universal rights and duties almost invariably turn out to be conditional, and upon close scrutiny end up being 'special' rights and privileges as the examples of multicultural encounters, slavery and racism, and women's rights demonstrate.

#### Politicising Ethics in International Relations

Lebow shows how and why foreign policies consistent with ethical norms are more likely to succeed, and those at odds with them to fail.

#### The Limits of Ethics in International Relations

In a time of eroding sovereignty and resurgent nationalism, this collection provides a searching investigation of the moral foundations of the international order. Drawing on diverse philosophical and theological perspectives, the contributors debate the character of international society, the authority of international law and institutions, and the demands of international justice. In a series of philosophical essays, each followed by a critical commentary, the book considers the contributions of legal positivism, natural law, Kantian ethics, contractarian theory, and moral cosmopolitanism to the discussion of law and justice in international society. It also includes commentaries by experts in Jewish, Christian, and Islamic moral theology, and a concluding chapter that compares and contrasts the views presented without seeking to adjudicate their differences. Because of its comprehensive approach and the diversity of its viewpoints, the volume serves as an introduction to the topic and as a resource for scholars, journalists, policy makers, and anyone else who wants to understand better the range of moral perspectives that underlies discussion of the current international order. In addition to the editors, the contributors are Brian Barry, Chris Brown, John Charvet, Richard Friedman, Robert P. George, Sohail Hashmi, Pierre Laberge, David Miller, David Novak, Max L. Stackhouse, Fernando R. Tesón, and Frederick G. Whelan.

#### Ethics and International Relations

This collection of essays cuts to the quick of the most pressing moral issues facing decision-makers today, from the actions of ordinary soldiers in a combat zone to presidents deciding when and where to use force. Ethics lie at the heart of human and therefore also international affairs, compelling nations to get involved "over there" and dedicate resources to intervention or to justify detachment. The politics

and rhetoric of ethics constrain decision-makers, greatly complicating international situations. This third edition of *Ethics and Statecraft* addresses the moral reasoning behind the art of peacemaking as well as the ethics and statecraft of conducting war. The coverage ranges from historical transformations of whole eras of diplomatic and international history to issues of ethics of bombing and the laws of war. Specific attention is paid to emerging issues such as armed humanitarian intervention and sanctions, drone wars, war crimes, and economic justice. The work is ideally suited for undergraduate and graduate students of international relations, history, political science, and ethics. It will also be useful for NGO officials and military officers struggling with these issues in the field. General readers will find illumination of highly relevant historical issues—including Allied bombing of civilians during World War II—that set precedents for both expansion and limitations on the laws of war. They will also encounter pressing modern-day quandaries, such as the conditions that permit or even require military or humanitarian intervention, and the impact of new technologies on old moral problems.

### The Book of Gourmet Traveler

This book of recipes that I have collected from all over the world. Since I work for a large multinational corporation, I am on duty in different cities and on different continents. Wherever I have been, I became acquainted with the people and wrote down the recipes that I liked the most. The main condition that I chose was ease of preparation, so when I'll be able to return home, I can cook these dishes and please your family and friends.

### Gourmet Travel Journal

For the first time, Gourmet Traveller has compiled a collection of its most dazzling travel photography. Visit some of the world's most beautiful and exotic places through the lenses of the world's finest photographers. The book traverses the globe making stops along the banks of the Yangzi River, on the streets of Cuba and at the grand turquoise minarets of Uzbekistan. Immerse yourself in the architecture, the food and the culture of the places you've been to and the ones you long to visit. A visual feast on every page.

### Simple Cake Recipes for Vegan and Raw Diet

First published in 1997 by Kyle Cathie Ltd. Most visitors to Italy flock to the crowded tourist centers, but in Italy for the Gourmet Traveler Fred Plotkin takes us beyond the traditional tourist experience and lures us to special places, whether in big cities or out-of-the-way villages, often overlooked by the uninitiated. Under his discerning eye, we learn about the food, wines, local bakeries, olive oil distilleries, ice cream parlors, cheeses, markets, restaurants and best kept secrets of Italy's culinary world. Lovingly drawn portraits of the people who make her world-famous regional specialties, and a smattering of local history make each village, town and city come alive. Maps encourage the intrepid traveler to head off the beaten track, while evocative black and white photographs add to the immense charm of this vastly readable guide.

In Moro East, Sam and Sam Clark renew their passion for the food of Spain and the Muslim Mediterranean, but this time they find their inspiration a little closer to home... in an East End allotment. Moro East follows a year in the life of this East End allotment, reflected in recipes that are unusual without being daunting. Many of the recipes reflect everyday activities at the allotment — Turkish women rolling flatbreads or clipping the young vine leaves to make dolmades, families gathering to grill kebabs at the weekend — and the spirit of the community is captured in the photographs and the dishes. The 150 imaginative and seasonal recipes include Moro favourites and new combinations.

### The Road to Oxiana

The world's most famous food editor shares more than 100 treasured recipes that restored her spirit after the abrupt closing of Gourmet magazine. 'Ruth is one of our greatest storytellers. No one writes as warmly and engagingly about the all-important intersection intimate journey told through recipes, as only Ruth can do.' - Alice Waters My Kitchen Year follows the change of seasons as Ruth Reichl heals through the simple pleasures of cooking after the abrupt closing of Gourmet magazine. Each dish Reichl prepares for herself - and for her family and friends - represents a life's passion for food: a blistering ma po tofu that shakes Reichl out of the blues; slow-cooked beef, wine and onion stew that fills the kitchen with rich aromas; a rhubarb sundae to signal the arrival of spring. Part cookbook, part personal narrative, part paean to the household gods, My Kitchen Year reveals Reichl's most treasured recipes, to be shared over and over again with those we love.

### Moro East

For over 25 years, chefs from all over Australia have generously shared recipes that readers have requested through the Fare Exchange column in Australian Gourmet Traveller. Now in book form, this wonderful collection of recipes will inspire people to cook restaurant food at home. Some of these chefs are now famous faces, others ply their trade more modestly - but all share recipes and ideas to those around them. "Fare Exchange has been an integral and much loved regular fixture in the pages of Australian Gourmet Traveller," says Andy Harris, Editor. "We hope the Fare Exchange book will become as much a familiar fixture every few years on the book scene."

### Moving Out, Eating In

"In the world of preserving, Joel MacCharles and Dana Harrison are the masters, the authority. Batch packs everything you'll ever need to know about preserving into one cohesive bible. Joel and Dana's passion project takes a deep dive into the fundamentals of preserving and offers both simple and adventurous, and totally flavor-forward recipes." —Chef Curtis Stone, New York Times bestselling author and chef/owner of Maude Restaurant Joel and Dana's journey into preserving began with an innocent lesson in making jam. Almost a decade later, WellPreserved.ca is an extraordinary resource for both beginners and experts alike. Their much-anticipated first cookbook showcases seven different preserving techniques—waterbath canning, pressure canning, dehydrating, fermenting, cellaring, salting & smoking, and infusing—and takes readers on a trip to the market in twenty-five ingredients. Within each ingredient chapter, you'll find multiple preserving recipes using the different methods. From apples, pears, peaches and rhubarb, to asparagus, peppers, mushrooms, and tomatoes, and covering a variety of meat and fish, Batch teaches you everything you need to know to get the most out of your kitchen. With their signature approachable and fun style, Joel and Dana showcase techniques for a variety of skill levels, explain how to batch your recipes to make two preserves at once, give you multiple options for preserving in ten minutes or less, and serve up mouthwatering center-of-the-plate meals that take your preserves from the pantry to the table. With personal anecdotes, creative and incredible recipes, and beautiful photography and illustrations, Batch will show you how to incorporate preserving into your life and your community.

Trish Deseine, former BBC cooking show host who has sold more than one million cookbooks worldwide, shares tips on food and entertaining in the true Parisian style. In The Paris Gourmet, Trish

Deseine serves up a definitive guide to French cuisine, divulging her secrets on all aspects of Gallic food and entertaining. Her practical advice covers everything from selecting produce at the market to setting a holiday table. She offers a sampling of her favorite French recipes and gives pointers for creating an authentic Parisian ambience in the dining room. Trish distills etiquette tips gleaned over two decades of living in France into lists of "rules" on all aspects of entertaining, from hosting a great cocktail party to being the perfect guest. Her extensive black book of foodie addresses in Paris and online is an essential resource for stocking your kitchen with indispensable cooking utensils and table trimmings, procuring the best French ingredients, or dining at her most treasured restaurants. There is a glossary of French cookery terms in this handsome book that features a leatherette binding and ribbon page marker. Trish has become one of France's most celebrated food writers thanks to her unpretentious approach to food. This accessible guide provides all the information you need to delight in French culinary traditions and to host like a true Parisienne.

#### My Kitchen Year

'Cookery Book of The Year' Guild of Food Writers Awards Shortlisted for the André Simon Awards Nominated for The Bookseller Cookery Book Award, Sponsored by Foyles What happened when one of today's best-loved food writers had a change of appetite? Here are the dishes that Diana Henry created when she started to crave a different kind of diet - less meat and heavy food, more vegetable-, fish- and grain-based dishes - often inspired by the food of the Middle East and Far East, but also drawing on cuisines from Georgia to Scandinavia. Curious about what 'healthy eating' really means, and increasingly bombarded by both readers and friends for recipes that are 'good for you', Diana discovered a lighter, fresher way of eating. From a Cambodian salad of prawns, grapefruit, toasted coconut and mint or North African mackerel with cumin to blood orange and cardamom sorbet, the magical dishes in this book are bursting with flavour, goodness and colour. Peppering the recipes is Diana's inimitable writing on everything from the miracle of broth to the great carbohydrate debate. Above all, this is about opening up our palates to new possibilities. There is no austerity here, simply fabulous food which nourishes body and soul.

One of two books in an exciting new series for the gourmet traveler - or just about anyone who enjoys mouth-watering island cuisine! This unique combination travel-food guidebook introduces you to the delicious cuisine of Jamaica. (The other book is Bahamas: A Taste of the Islands) First off, it takes a look at the island's culinary roots, seeing what has influenced the cuisine and the local ingredients that make it unique. The authors then detail the best places to eat - the largest section of the book - from five-star resorts to plush hotel restaurants to independently owned establishments. Telephone numbers, address, dress code, and reservation suggestions are given. Annual food festivals and culinary contests are listed. If you're staying home but wish you were Jamaica-bound, cook up one of the many recipes offered. Ingredient substitution charts are provided for hard-to-find island foods, and mail order resources are also given. Interviews with local chefs offer tips for the best results. As you're preparing your meal, fix yourself one of the tasty island cocktails featured!

Communist Gourmet presents a lively, detailed account of how the communist regime in Bulgaria determined people's everyday food experience between 1944 and 1989. It examines the daily routines of acquiring food, cooking it, and eating out at restaurants through the memories of Bulgarians and foreigners, during communism. In looking back on a wide array of issues and events, Albena Shkodrova attempts to explain the paradoxes of daily existence. She reports human stories that are touching, sometimes dark, but often full of humor and anecdotes from nearly one hundred people: some of them are Bulgarians who were involved in the communist food industry, whether as consumers or employees, while others are visitors from the United States and Western Europe who report culinary highlights and disappointments. The author made use of the national press, officially published cookbooks, Communist Party documents, and other previously unstudied sources. An appendix containing recipes of dishes typical of the period and an extensive set of archival photographs are special features of the volume.

Winner, James Beard Foundation Best Cookbook of the Year Award, 2015 James Beard Foundation Best International Cookbook Award, 2015 The Art of Eating Prize for Best Food Book of the Year, 2015 The Yucatán Peninsula is home to one of the world's great regional cuisines. With a foundation of native Maya dishes made from fresh local ingredients, it shares much of the same pantry of ingredients and many culinary practices with the rest of Mexico. Yet, due to its isolated peninsular location, it was also in a unique position to absorb the foods and flavors of such far-flung regions as Spain and Portugal, France, Holland, Lebanon and the Levant, Cuba and the Caribbean, and Africa. In recent years, gourmet magazines and celebrity chefs have popularized certain Yucatecan dishes and ingredients, such as Sopa de lima and achiote, and global gastronomes have made the pilgrimage to Yucatán to tantalize their taste buds with smoky pit barbecues, citrus-based pickles, and fiery chiles. But until now, the full depth and richness of this cuisine has remained little understood beyond Yucatán's borders. An internationally recognized authority on Yucatecan cuisine, chef David Sterling takes you on a gastronomic tour of the peninsula in this unique cookbook, *Yucatán: Recipes from a Culinary Expedition*. Presenting the food in the places where it's savored, Sterling begins in jungle towns where Mayas concoct age-old recipes with a few simple ingredients they grow themselves. He travels over a thousand miles along the broad Yucatán coast to sample a bounty of seafood; shares "the people's food" at bakeries, chicharronerías, street vendors, home restaurants, and cantinas; and highlights the cooking of the peninsula's three largest cities—Campeche, Mérida, and Valladolid—as well as a variety of pueblos noted for signature dishes. Throughout the journey, Sterling serves up over 275 authentic, thoroughly tested recipes that will appeal to both novice and professional cooks. He also discusses pantry staples and basic cooking techniques and offers substitutions for local ingredients that may be hard to find elsewhere. Profusely illustrated and spiced with lively stories of the region's people and places, *Yucatán: Recipes from a Culinary Expedition* is the long-awaited definitive work on this distinctive cuisine.

### A Change of Appetite

A classic collection of articles, book reviews, and travel essays from "the best food writer of her time" (Jane Grigson, *The Times Literary Supplement*). *An Omelette and a Glass of Wine* offers sixty-two articles originally written by Elizabeth David between 1955 and 1984 for numerous publications including the *Spectator*, *Gourmet* magazine, *Vogue*, and the *Sunday Times*. This revered classic volume contains delightful explorations of food and cooking, among which are the collection's namesake essay and other such gems as "Syllabubs and Fruit Fools," "Sweet Vegetables, Soft Wines," "Pleasing Cheeses," and "Whisky in the Kitchen." Elizabeth David's subjects range from the story of how her own cooking writing began to accounts of restaurants in provincial France, of white truffles in Piedmont, wild risottos on the islands of the Venetian lagoon, and odd happenings during rain-drenched seaside holidays in the British Isles. Here we can share her appreciation of books, people who influenced her, places she loved, and the delicious meals she enjoyed. Casually interspersed with charming black-and-white illustrations and some photographs, *An Omelette and a Glass of Wine* is sure to appeal to the 'Elizabeth David' book collector and readers coming to know Ms. David for the first time, who will marvel at her wisdom and grace. "Savor her book in a comfortable chair, with a glass of sherry." —*Bon Appétit* "Elizabeth David has the intelligence, subtlety, sensuality, courage and creative force of the true artist." —*Wine and Food*

From acclaimed writer AA Gill comes this collection of travel pieces selected from his monthly column in *Australian Gourmet Traveller* – 'AA Gill is away'. Witty, acerbic and often moving, these pieces are far from standard travel writing fare. Touching on tourism, airports, world cuisine and countries including Madagascar, Iceland and Albania, Gill's perspective is often controversial and always unique. He ponders Italy's ability to turn organised crime into a tourist attraction, stumbles upon lobster-shaped coffins in Ghana, contemplates the Darwinian drive of bastardised dishes around the globe, explains why Johannesburg is the luckiest place in the unluckiest continent and considers the great black lake of tears that immigration leaves behind. With an introduction and extra piece written exclusively for this collection, *Here and There* showcases the very best of Gill's hilarious and insightful travel writing, and is a must read for anyone who is curious about the world we live in.

Terry Weeks went back to Barnard at fifty, after raising three children, and got a degree in English literature and creative writing. Gourmet bought her first article in 1980, and she eventually became a contributing editor to the magazine. Over the next two decades, appearing regularly in Gourmet, she also wrote restaurant reviews in New York and KeyWest. A long-time resident of Stonington, Connecticut, Weeks currently lives in Baltimore near her son and daughter-in-law. The articles in this book, published in Gourmet between 1980 and 1993, are for all those readers with a passion for food and travel--be they cooks, diners, travelers, or bon vivants--who miss Gourmet.

Winner of the Observer Food Monthly Cookbook of the Year 2013. Yotam Ottolenghi and Sami Tamimi are the men behind the bestselling *Ottolenghi: The Cookbook*. Their chain of restaurants is famous for its innovative flavours, stylish design and superb cooking. At the heart of Yotam and Sami's food is a shared home city: Jerusalem. Both were born there in the same year, Sami on the Arab east side and Yotam in the Jewish west. Nearly 30 years later they met in London, and discovered they shared a language, a history, and a love of great food. Jerusalem sets 100 of Yotam and Sami's inspired, accessible recipes within the cultural and religious melting pot of this diverse city. With culinary influences coming from its Muslim, Jewish, Arab, Christian and Armenian communities and with a Mediterranean climate, the range of ingredients and styles is stunning. From recipes for soups (spicy frikkeh soup with meatballs), meat and fish (chicken with caramelized onion and cardamom rice, sea bream with harissa and rose), vegetables and salads (spicy beetroot, leek and walnut salad), pulses and grains (saffron rice with barberries and pistachios), to cakes and desserts (clementine and almond syrup cake), there is something new for everyone to discover. Packed with beautiful recipes and with gorgeous photography throughout, Jerusalem showcases sumptuous Ottolenghi dishes in a dazzling setting.

A great food and wine region of Italy—largely undiscovered by those who live to eat—Friuli-Venezia Giulia springs succulently from the pages of *La Terra Fortunata* by Italy expert Fred Plotkin. Friuli-Venezia Giulia was one of Italy's best-kept secrets—until now. Between Venice and Vienna, with Trieste as its capital, this region has the most varied and sophisticated food in Italy. No other regional kitchen uses more fruit or spices or a greater range of meat and seafood. In *La Terra Fortunata*, readers will discover gnocchi filled with plums or apricots; tagliolini tossed with poppy seeds and the region's superlative prosciutto di San Daniele; sea scallops with almond sauce; risotto flavored with a rainbow of spices, including ginger, star anise, and nutmeg; cinnamon-scented veal stew, and, of course, frico, the region's signature dish, a delectable cheese crisp that is positively addictive. Since Friuli-Venezia Giulia produces Italy's top white wines and outstanding reds, with more varieties than any other region in Italy, Fred Plotkin has included the most detailed list of the region's wines and their makers ever compiled. With more than 160 recipes and an indispensable list for wine lovers, *La Terra Fortunata* will come as a revelation to those who thought there was nothing new under the Italian sun.

One of two books in an exciting new series for the gourmet traveler - or just about anyone who enjoys mouth-watering island cuisine! This unique combination travel-food guidebook introduces you to the delicious cuisine of Jamaica. (The other book is *Bahamas: A Taste of the Islands*) First off, it takes a look at the island's culinary roots, seeing what has influenced the cuisine and the local ingredients that make it unique. The authors then detail the best places to eat - the largest section of the book - from five-star resorts to plush hotel restaurants to independently owned establishments. Telephone numbers, address, dress code, and reservation suggestions are given. Annual food festivals and culinary contests are listed. If you're staying home but wish you were Jamaica-bound, cook up one of the many recipes offered. Ingredient substitution charts are provided for hard-to-find island foods, and mail order resources are also given. Interviews with local chefs offer tips for the best results. As you're preparing your meal, fix yourself one of the tasty island cocktails featured!
