Hong Kong Public Law Reports, Volume 4, Part 3 (1994)

The International Law Commission was established in 1947 with a view to carrying out the responsibility of the General Assembly, under article 13(1)(a) of the Charter of the United Nations, to "initiate studies and make recommendations for the purpose of ... encouraging the progressive development of international law and its codification." Since its first session in 1949, the Commission has considered a wide-range of topics of international law and made a number of proposals for its codification and progressive development, some of which have served as the basis for the subsequent adoption of major multilateral treaties. The Yearbook of the International Law Commission contains the official records of the Commission and is an indispensable tool for the preservation of the legislative history of the documents emanating from the Commission, as well as for the teaching, study, dissemination and wider appreciation of the efforts undertaken by the Commission in the progressive development of international law and its codification. Volume II (Part One) reproduces the edited versions of the official documents considered by the Commission at the respective annual session.

The Manitoba Reports

This paperback edition of the first of the twelve volumes of A Treatises of Legal Philosophy and General Jurisprudence, serves as an introduction to the first-ever multivolume treatment of all important issues in legal philosophy and general jurisprudence, consisting of a five-volume theoretical part

and a six-volume historical part. The theoretical part covers the main topics of contemporary debate. The historical volumes trace the development of legal thought from ancient Greek times through the twentieth century. All volumes are edited by the renowned theorist Enrico Pattaro.

Ontario Law Reports

Throughout his study, Bushnell investigates the question of the absence of an independent judicial tradition in Canada and the development of distinct legal doctrine by the Supreme Court. He analyses the nature and cause of the lack of independent thought that makes the Court "captive" to inherited traditions and legal doctrines and prevents it from achieving its true potential within the Canadian legal system. Previous studies of the Court have concentrated on the years after 1949; by expanding the coverage to include the first three-quarters of a century of the Court's existence, Bushnell has uncovered a critical aspect of Canadian legal history. Bushnell provides an analysis of more than eighty cases decided by the Court between 1876 and 1989. He examines the backgrounds and views of the sixty-seven judges who served on the Supreme Court during this period, evaluating both the role they felt they played in Canadian society and the role others expected them to play. He studies the question of the right of appeal to the Judicial Committee of the Privy Council and its effect on the Supreme Court, as well as the movement toward the abolition of appeal. In the concluding part of the study Bushnell considers the controversy over the demand for impartial justice, criticism of the judiciary, and the judges who will take the Court into the twenty-first century.

dv01 COVID-19 Loan Performance Report, Volume 5 - dv01 COVID-19 Loan Performance Report, Volume 5 by dv01 103 views 3 years ago 43 minutes - Total payment impairments have hit a near-term peak in the online lending universe and have begun to decline in earnest.

Intro

dvo1 is committed to bringing unparalleled transparency and intelligence into lending markets

Terminology

Size, Specs, and Methodology for Online Lending

Impairment rates are flattening

Delinquency and modification rates are decreasing

65% of all modifications occurred between March 29 and April 17

One-month modifications have the highest rates of repayment

Homeownership status and loan age also determining factors in performance

Size, Specs, and Methodology for Non-QM

Loan doc type shows the most significant differentiating factor between performance

There is little performance differentiation by DTI or geographic regions.
Updated LTV shows substantial differences between lower and higher LTV loans
Size, Specs, and Methodology for CRT
The impairment rate is currently 4.7%
Unlike non-QM, states show substantially differences in performance
Closing Remarks
