The Origin of the Elements - Ivanna Escala - 06/02/2017 - The Origin of the Elements - Ivanna Escala - 06/02/2017 by Caltech Astro 7,675 views 5 years ago 1 hour, 47 minutes - Find out what's special about the interiors of stars and supernovae explosions for forging the elements of the periodic table.

The universe has a diversity of elements

The first elements formed shortly after the Big Bang

Some elements form inside of stars in stable burning

Core-collapse supernovae result in explosive burning

Neutron capture results in elements heavier than iron

Neutron star collisions could also result in rapid-neutron capture elements

An astronomer's periodic table

Measurements of the heavy elements can come from a star's light

The elements imprint signatures in the star's spectrum

For distant galaxies, we can also look at their spectra
