A Matter of Conscience

With a new century, there has emerged a new age in moral considerations. The Arab Spring, Facebook, and the Occupy Movement all point to an awareness of, and concern for, the moral character of the individual and the collective. The phrase, "it's the right thing to do", echoing throughout news media and one's daily exchanges, typically indicates a moral positioning. Presented in this book is the argument that now is the time to call it what it is, a matter of conscience, and to embrace the transformative power of a new vocabulary for moral and character education. In a more expansive approach than typically seen, this book examines the nature and function of conscience. Building upon the foundational work of Thomas Green (1999), the vocabulary of reflexive judgment, reflexive emotions, normation, and voices of conscience, are explored as they apply to moral formation, with examples and applications provided. Specific attention is given to the interrelationship of the collective conscience with democracy. Educating for conscience and the notion of the sacred are also examined. Written from an educator's perspective, this book offers a framework for moral education to both the secular and religious domains.

A Matter of conscience cuts right to the heart of one of the most vital issues of our time -- cancer research -- revealing how Dr John Nicholson overcomes guilt, corrupt colleagues, implacable bureaucracy and a heartbreaking personal tragedy.

Sherry Hoppe tells the story of her love for and the mystery surrounding her husband Bobby Hoppe, a hometown football hero with a dark secret from his past.

A Matter of Conscience

It's hard to imagine that an autobiographical detail of a Vietnam War draft dissenter, who chose to be imprisoned rather than fight a senseless war, could be an enjoyable read. However, fans of the 60's and early 70's will appreciate MATTER OF CONSCIENCE. Author Bruce Neckels gives us a picturesque account that is poignantly portrayed with just the right mix of fact, emotion, and humor. The memoir chronicles the life of the author leading up to his incarceration - attending San Francisco State College, the protest movements, choosing a career in acting, then landing his first role in Antonioni's "Zabriskie Point;" studying the history of Vietnam; reading Dalton Trumbo's, "Johnny Got His Gun," then meeting Trumbo and auditioning for a film about "Johnny" - ALL shaping his decision to oppose the Vietnam War.

A Matter of Conscience: A Contemporary Novel

"A broad array of Christians has wrestled with the subject of conscience from the beginnings of Christianity to the present time. Remarkably - given their differing nationalities, historical circumstances, and religious convictions -leading thinkers have regularly pursued similar questions about conscience. Sometimes they have reached overlapping conclusions. Often, however, concerning both large and small matters, they arrive at different or even radically different answers. But the persistence and correspondence of their inquiries remains a testament to the innate and universal importance of the matter of conscience"--

Could you shun your child to appease your God? What if you were told to forgo a life saving medical procedure forbidden by your religion, would your faith hold? Caden Ryan has been excommunicated from his religion and subsequently kicked out of the family home. As a result, his mother, Rebecca, finds her maternal instincts to protect her child conflicting with her religious doctrine to spurn him. Rebecca's personal struggle incites the ire of her husband Ray, a zealot with no qualms about forsaking his loved ones in the name of his God. Tragedy strikes at the height of the family conflict. Personal priorities are called into question as each individual is forced to challenge their core beliefs in a life or death situation.

A Matter of Conscience and Other Stories

After more than 500 years, Christian Desmonde is finally going to be reunited with Diana, his sister whom he never knew had joined the immortal world of the vampire. But Diana, who had also been deceived into believing her brother was killed in a bar brawl, discovers the truth by accident when Samuel, her companion, leads her right into his path. Immediately, Diana sees the lie for what it was. In an angry tantrum she disappears and runs to Niagar Falls where she believes no one will think to look for her. But she is discovered by the oldest, most vicious vampire in existence Gaetano Minotti, who is also the head of the MAFIA. Only Jesse, an angel and friend of the vampires, has a chance to save her. But, what will Minotti do once Diana is found missing? A Matter Of Conscience is a tantalizing novel that deals with the poer of love and the destructive potential of even the simplest lie. Human nature causes us to lie to avoid conflict, but we never see how devastating a lie will become if left unsettled in truth.

A Matter of Conscience

Rebellion is brewing. Fifteen-year-old Jamie MacPherson is confused. Everyone seems to want change but can't agree as to how that change should come about. William Lyon Mackenzie is calling the people of Upper Canada to arm themselves and break free of British rule, and Jamie's friends and neighbours are all for joining Mackenzie and his army. His father is dead set against violence of any sort and has tried to pass that along to his son. Will Jamie follow his father's wishes and stay home or will he go along with popular opinion and join the rebels? Join Jamie as he struggles with the political issues surrounding the Upper Canada Rebellion of 1837. About the Author Mary Hosmar is a retired teacher who has spent many years in the classroom passing on her love of history to her students. She feels that one of the best ways to instill this love is to make history come alive by relating the stories around the facts. Although A Matter of Conscience deals with a small episode of Canadian history, it also addresses the conflict within when one's principles may not coincide with those of one's parents. Mary lives in Oshawa with her husband, John.

A Matter of Conscience

A novel of love and betrayal dealing with the biggest issues facing Canada's Indigenous peoples today. In the summer of 1972, a float plane carrying a team of child welfare officials lands on a river flowing through the Yellow Dog Indian reserve. Their mission is to seize the twin babies of an Indigenous couple as part of an illegal scheme cooked up by the federal government to adopt out tens of thousands of Native children to white families. The baby girl, Brenda, is adopted and raised by a white family in Orillia. Meanwhile, that same summer, a baby boy named Greg is born to a white middle-class family. At the age of eighteen, Greg leaves home for the first time to earn money to help pay for his university expenses. He drinks heavily and becomes embroiled in the murder of a female student from a residential school. The destinies of Brenda and Greg intersect in this novel of passion, confronting the murder and disappearance of Indigenous women and the infamous Sixties Scoop.

A Matter of Conscience

A celebratory party in middle-class, suburban New Jersey turns sour when a guest molests the young daughter of host David Sheerin. He and three neighborhood men chase down the offender. Rather than calling the police, however, they opt to beat the offender severely. The men and their wives are unaware that the molester has been found dead on a bus until later they hear a news report of an investigation. The couples caucus and agree on silence. David concurs for the sake of protecting his child from public attention, but is influenced also by peril to a new job. He cannot, however, endure his conscience. When he announces his intention to come forward the other men raise fierce objection and threaten to put all blame on him. As each of the couples confronts the crisis in their individual ways, David proceeds anyway and faces prison and the prospect of having to testify against his friends. The ascendancy of chance is a sub-theme in the story.

A matter of Conscience Henry VIII: the Aragon Years Judith Arnopp 'A king must have sons: strong, healthy sons to rule after him.' When Arthur Tudor, Prince of Wales dies unexpectedly, his brother, Henry, becomes heir to the throne of England. The intensive and often bewildering education that follows offers Henry a model for future excellence; a model that Henry is doomed to fail. On his accession, he chooses Catalina of Aragon, his dead brother's wife, to be his queen. Henry plans to reinstate the glory of days of old and fill the royal nursery. The country erupts in joyful celebration when he quickly impregnates his bride. But the king's golden dreams are tarnished when their first child is stillborn, the second dies at just a few months old, and subsequent babies are born dead or perish in the womb. Christendom mocks the virile prince. Caterina's fertile years are ending yet all he has is one useless living daughter, and a baseborn son. He needs a solution but as Rome turns its back, stubborn to the end, Catalina refuses to step aside. And then his eye is caught by a woman newly arrived from the French court. Her name is Anne Boleyn. A matter of Conscience: the Aragon Years offers a unique first-person account of Henry VIII; the 'monster' we love to hate is set aside to show a man on the edge of despair; an amiable man made dangerous by his own impossible expectation.

Foreseeing enormous profits to be made, the head of a large pharmaceutical company pressures James to hasten the release of the 'wonder drug', before the secret manipulation process is leaked and competitors can duplicate his research. But 'Arthrixine' could have serious side effects. Threats are made against the woman James loves. Test results are falsified; against advice human trials are implemented, and people die. A catastrophe is imminent. Dr Sanders must decide! Should he follow the dictates of his conscience? Or listen to the urgings of his heart?

A Matter of Conscience is a romantic thriller based around the conflict between Israel and Palestine. Through pure coincidence, a young Englishman who was bought up in Saudi Arabia meets an Israeli scientist at a university party and during their ensuing romance finds himself accidentally placed in a position to bring great pressure on politicians who dictate the plight of millions of people. A fictional story that highlights one of the World's ongoing problems and some of the real facts surrounding it. Also a chilling reminder of how a small breach of security can escalate to enormous proportions.

A Matter of Conscience: Education as A Fundamental Freedom examines issues surrounding education as a matter of conscience, compulsory school attendance laws, and regulation of home-based education. Written by a home-education activist and writer, **A Matter of Conscience** looks at government policy on and media coverage of these issues in the United States, Canada, and the U.K. "I think this could well be one of the most important books on homeschooling in decades." Orphaned early in life and brought up by a housekeeper, Sir Ronald Wilson left school at 14 to earn a living as a messenger in the local Geraldton courthouse before subsequently enjoying a meteoric rise in the legal profession to become a justice in the highest court in Australia. Best known for **Bringing Them Home** - his moving and controversial 1997 report on the 'Stolen Generations' of Aboriginal children - Sir Ronald was also Crown Prosecutor, Counsel, and Solicitor-General in a number of high profile criminal, civil, and constitutional cases, including the trials of Eric Cooke (the last man hanged in Western Australia), John Button, and Darryl Beamish. **A Matter of Conscience: Sir Ronald Wilson** will be of immense significance and interest, containing great insights into this highly complex, thoughtful, and talented man.

A Matter of Conscience

When Serena Connolly is expelled from the prestigious Jacaranda College, close to the little town of Zeerust in South Africa, her parents are astounded by the catalogue of misdemeanours their daughter has apparently committed - and which Serena stubbornly denies. Something does not seem right, so they ask their friend, Bethany Gallagher, recently resigned from the police service, to intercede on their behalf. Beth willingly accepts the commission. A visit to the college, far from clarifying matters, serves only to arouse Beth's suspicions that something is certainly amiss. With the help of her partner, Paul, and her former police colleague, Charl Pienaar, she sets out to investigate further - and the more she does, the more the college's account of events unravels. Her suspicions are further piqued when she discovers that the Principal of Jacaranda, Philip Stonehouse, has a shady past in Britain and the Headmistress, Madeleine Winstanley, was far from a model of propriety in her previous life. Furthermore, from where have they acquired their inordinate wealth: Stonehouse basking in the lifestyle of an English gentleman and Winstanley indulging a passion for designer clothes and French erotic literature? It seems the only way to prise open the secret world of Jacaranda College is through new teacher, Jeffrey Butler, but he, too, is quickly discovering that nothing at Jacaranda is as it appears to be - and that the concept of loyalty has a special meaning at the college. The rewards and privileges for loyalty, both for staff and students, stretch his credibility, but the price for disloyalty can be very

unpleasant. A confused Butler finds himself trapped between the Devil, in the shape of Gallagher, and the deep blue sea, in the shape of Stonehouse and Winstanley, but Beth does manage to get to the truth behind Serena's expulsion. However, the real reason for Jacaranda's existence only becomes apparent to Butler - and Beth - when he is asked to accompany a German trip to Namibia. With the aid of Paul, Pienaar and Butler, Beth follows the party across the Kalahari Desert to uncover the secret of Jacaranda College, but who are her friends and who her enemies? Can she really trust Butler? Can she get the evidence she needs to prove her case - and if she can, will she be allowed to reveal it?

A Matter of Conscience - Henry VIII, the Aragon Years

But when the case takes an unexpected turn, Jake's continued representation of the client puts his law license in jeopardy and Jake has a decision to make. It all begins with a courthouse shooting and a set of bizarre circumstances that eventually entangle Jake in a far-reaching conspiracy involving a notorious drug cartel and a corrupted legal system. With help from Tommy Shoo and Linda Chow, and support from Gracie, Jake struggles to keep on the right side of justice.

A Matter of Conscience

Twenty years on from the abrupt ending of his military career, Jerry Singirok has had much time to ruminate on the past. Another strength of his manuscript is, in my view, the extent to which he does stand back and reflect, often quite critically, about his own decisions, as well as more broadly about politics, leadership, corruption, faith, family and many other facets of public and personal life in PNG. While coverage of the Sandline Affair and his military deployments to Bougainville may be action-packed, it is also a thoughtful work. While still largely remembered for his act of defiance and rebellion, Singirok's actions also heralded the beginning of the Bougainville Peace Process. The book will be of considerable interest to many readers, and not just for those with a Pacific focus.

A Matter of Conscience

In a novel of devastating power and tenderness, a seventeen-year-old boy, Warrick Hedley, is threatened with six years' imprisonment, without the option of a fine, for refusing to do his army training. This is the harshest sentence for conscientious objection anywhere in the world. In this raw and tragic story, award-winning author Lawrence Bransby traces the life of Warrick Hedley and his friend Gift Mchunu, growing up together on a farm in rural Natal, South Africa, playing together, developing a bond of friendship that will be tested to breaking point when Warrick is faced with the decision: Will I serve an unjust and repressive government by reporting for National Service or refuse and face a possible six years' imprisonment? Only in Apartheid South Africa was a punishment of such severity imposed on young White lads who, as soon as they had finished school, were required to "report for duty"

A Matter of Conscience

A Matter of Conscience, is the story of a young man's journey through the most turbulent years this country has ever experienced. Growing up on the upper Cumberland River in south central Kentucky in the mid nineteenth century, Martin, accepted slavery as a normal part of life. Although the river was somewhat of a dividing line between large Tennessee plantation farmers who owned slaves, and Kentucky farmers who had no need for slaves on their small farms across the river, arguments often ended in bloodshed as hot headed men took the law into their own hands and spoke with a gun and a knife. Martin, a man of peace, only wished to be left alone to raise his growing family, but fate intervened and he was thrust headlong into the bubbling brew that became know as the Civil War.

MATTER OF CONSCIENCE

In this inspiring, uplifting and timely book, Harold Kushner addresses our craving for significance, the need to know that our lives and choices mean something. We sometimes confuse power, wealth and fame with true achievement. We can do great things, and occasionally terrible things, to reassure ourselves that we matter to the world. We need to think of ourselves as good people and are troubled when we compromise our integrity to be successful and important. In *Living a Life That Matters*, Rabbi Kushner suggests that the path to a truly successful and significant life lies in friendship, family, acts of generosity and self-sacrifice, as well as in God's forgiving nature. He describes how, in changing the life of even one person in a positive way, we make a difference in the world, give our lives meaning, and prove that we do, in fact, matter.

Examination of Conscience

The first edition of the new Catechism went out across the world in many language versions. This gave the local Churches the chance to study it in depth. Through their bishops and teachers they responded with comments on texts that needed refinement. The present edition was developed in the light of these comments and published in Latin as the definitive Editio Typica. This book is the English translation of the Editio Typica.

Handbook of Prayers (Student Edition)

This is an excellent examination of conscience, focusing on a different virtue each month of the year. January is Faith February is Hope March is Charity or the Love of God April is proper Reverence for God May covers the positive aspects of Love of Neighbor June covers the negative aspects of Love of Neighbor July is on Justice August discusses Chastity September covers Temperance October covers Obedience November covers Meekness and finally December covers Humility After each instruction is a prayer to be said each day of the month. This is followed by an examination of conscience, where the mortal and venial sins against the virtue are considered. This section is followed by a practical list of suggestions to help in the practice of virtue. This book is excellent for the Catholic who is serious about becoming a saint.

Examination of Conscience

Because many Catholics are unhappy with, or just don't understand their confessions, here is a booklet you can offer to your parishioners to help them with this sometimes difficult practice. This wonderful, faith-filled booklet is designed to help readers gain a deeper understanding of how to make a more meaningful confession. It helps them unmask deep attitudes which lie at the root of sin. Through soul searching, readers can begin the process of self-discovery and reconciliation that will lead to more satisfying and meaningful confessions. Referenced to the Catechism of the Catholic Church, it is useful for Catholics of any age -- even those who may have left the Church. "Making a Better Confession" will serve as a special reminder that you care about your parishioners' well-being. Those who receive it will surely appreciate it.

Catechism Of The Catholic Church Popular Revised Edition

This work contains several examinations of conscience from Catholic classic books. It also contains Saint Alphonsus' instruction on Confession from his Catechism. Further notes are contained on modern sins and on conversion. One examination of conscience distinguishes between mortal and venial sins. In preparing for the Sacrament of Confession it is easy to get into a rut, using the same examination

of conscience for every Confession. These examinations are from various sources and are provided to help us shake up our spiritual life. By varying our routine, we can more easily identify our sins and bring them to the tribunal of Penance where we can present them before the Divine Physician and His human representative, the duly authorized priest. In this way our confessor can prescribe the remedies for our sins, so that we can heed the advice of Jesus: "Go now and sin no more, lest some worse thing happen to you." (John 5:14) Since these come from timeless older works, they have been updated by this author to include the sins that are so easily committed with modern technology, such as radio, television, movies, the computer and the internet. We hope all will benefit from the sage advice contained in this book.

Examination of Conscience for Adults

This book includes a thorough and complete examination of conscience for teens between 13 and 19 years old, based on the Ten Commandments. It is a must have confession guide for every teen. It is designed in a question format that is easy to understand and prepare for confession.

Daily Examination of Conscience

An Examination of Conscience of the Understanding: Empirical Proof of the Existence of God by Richard L. Scott Seeking his own utmost depth of comprehensive understanding, the author sets out to prove empirically that God exists. The seed of proof is the Birth Paradox, its florescence a faith grounded in his spirituality disposed soul: As empirically real as his conscious self, as mathematically certain as the probability laws of genetic science, as necessary as that the universe requires a creator for its rational possibility, as immanently intuitive as the Divine Allegory he mirrors. The Birth Paradox is the contingency of personal conscious existence on the body. Is there any scientific or commonsense belief as certain of itself? And yet, as a practical proposition, it is an utterly impossible conjunction! Personal consciousness is necessary specific to its own experience, a subtly profound tautology! How is it, then, that one's necessary being can be dependent on a chance body?

Making a Better Confession

The only book you will need as a parent, to teach the commandments to your child. It is designed in a simple question format that can be easily read and understood by a child. It is relevant for our times and goes deeper into each commandment and helps your child prepare for confession. It is also a guide to instill good Catholic and moral values in your child. It is detailed and thorough.

Examinations of Conscience

Alexander Murray has long had an intellectual interest in the history of religion - struggling between his inbuilt anti-clericism and his pronounced monastic leanings. The five essays in Conscience and Authority in the Medieval Church take on this dialectic, addressing the difficult relationship between private conscience and public authority in the twelfth and thirteenth centuries. In any organization, political, military, commercial, or religious, the relationship of conscience and authority is always potentially fraught, and can create dilemmas both for those in authority and those without. This volume records how our European predecessors approached and dealt with the same dilemmas as we face in the modern world.

Examination of Conscience Upon Special Subjects, Tr. and Abridged. Ed. by O. Shipley

In this book the author turns to the Catholic Church's teaching on confession and forgiveness. He argues that the sacrament of confession is the key to spiritual growth, more relevant than ever in these times of anxiety and uncertainty. He reveals the scriptural heart of a traditional teaching, in a way that is both wholly original and wholly orthodox.

The Cause and Cure of a Wounded Conscience

We don't like to think about it. But we are all sinners - every, single, last one of us. Yet, here on earth, we are all called to become holy, in the image and likeness of Christ. We are called to be the hands and feet and voice and light of Christ in the world. To truly do this, though, we must embody the Word of God. It is not enough to preach with words or post little memes on social media. We must heroically live out His law (the Ten Commandments) with our lives. Never, never, has this been more important - more urgent - than it is right now. St. Paul warned that, before the antichrist comes, there will first come "the great apostasy" (2 Thessalonians 2:3). This is a widespread abandonment of the faith. That means the rejection of God's law is a precursor to the great apostasy and the world's embrace of the lawless one. This should cause every Christian soul to shudder, considering the many ways the world has already legalized sin. It should also cause every Christian to consider a regular examination of conscience. It should urge all of us to perform a sort of spiritual audit asking ourselves, how have I been faithful, and where do I need to work harder? This book is a guide to help you do just that. But, it is not for the faint of heart. It is for those gallant souls committed to aligning their hearts and lives with Christ and thereby weakening the grip of the lawless one.

The tribunal of conscience

We all recognize that we are sinners. We constantly strive to do God's will, and when we fall short, we go to the confessional to experience God's healing mercy in the Sacrament of Reconciliation. Yet for all too many of us, when our sins are washed away, the shame of sin may linger on our hearts and plague us even as we resolve anew to follow Christ. This shame is one of Satan's most insidious means of separating us from God's love and forgiveness. With gentleness and wisdom, Fr. Wade Menezes of the Fathers of Mercy shows you how to overcome your shame of sin and surrender to God's mercy. Far from ignoring the reality of sin, Fr. Menezes illustrates the consequences of evil and vice, while reminding you that however great your sin may be, God's goodness is greater. At every moment, He is calling you to Himself. He seeks your love and desires you, with all your sins and all your shame.

An Examination of Conscience of the Understanding

What it means to be a man or a woman is questioned today like never before. While traditional gender roles have been eroding for decades, now the very categories of male and female are being discarded with reckless abandon. How does one act like a gentleman in such confusing times? The Catholic Gentleman is a solid and practical guide to virtuous manhood. It turns to the timeless wisdom of the Catholic Church to answer the important questions men are currently asking. In short, easy-to-read chapters, the author offers pithy insights on a variety of topics, including • How to know you are an authentic man • Why our bodies matter • The value of tradition • The purpose of courtesy • What real holiness is and how to achieve it • How to deal with failure in the spiritual life

Preparing for Confession

Following the example of St. Ignatius, we believe that praying the Examen will lead to a better life. The 500-year-old daily practice of honest self-assessment and reflection is a founding principle of Ignatian spirituality. What we don't know is if St. Ignatius ever felt like changing it up a bit. Jesuit speaker and author Mark Thibodeaux, SJ, is confident that St. Ignatius wouldn't mind a little flexibility in his prayer.

Join Thibodeaux as he guides you through new and unique versions of the Examen, totally flexible and adaptable to your life. In ten minutes, you can tailor your daily prayer practice to fit your personal and situational needs, further enhancing and deepening your meditation. Reimagining the Ignatian Examen—the only book of its kind—will lead you through a fresh and stimulating reflection on your past day, your present state of being, and your spiritual desires and needs for tomorrow.

Examination of Conscience

Koonz's latest work reveals how racial popularizers developed the infrastructure and rationale for genocide during the so-called normal years before World War II. Challenging conventional assumptions about Hitler, Koonz locates the source of his charisma not in his summons to hate, but in his appeal to the collective virtue of his people, the Volk.

Create in Me a Clean Heart

Tells the stories of dedicated U.S. citizens who have worked for the identification and deportation of Nazi war criminals living in America

Conscience and Authority in the Medieval Church

This study considers the relationship between the phenomenon of conscience and the practice of rhetoric as it relates to one of the most controversial issues of our time - euthanasia. The author offers an extensive treatment of Heidegger's and Levinas' philosophical investigations of conscience.
