Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

2 result of the attitudes characteristic of the small group of permanent residents at the schools, the academic scholars. This conservatism, however, was not everywhere equally efficacious. In the sixteenth century, the universities of northern Italy, Padua above all, had nurtured an intellectual ferment of considerable significance to the rise of the new science, and they continued to be penetrated by the influence of that science throughout the seventeenth century. The University of Oxford momentarily played host to leading members of the English scientific community during the Commonwealth period, and Cambridge was shortly to boast the genius of Isaac Newton. Indeed, a small number of the one-hundred-odd universities in Europe strove more or less purposefully to come to grips with the new science and to in at least, within the body of learning for which they corporate facets of it, 2 held themselves responsible. Among the most notable of these more progressive schools must be included the University of Leiden, recently founded by the Lowlanders in revolt against the King of Spain, Philip II. The doors of the University of Leiden had first opened, to be sure, in the midst of rebellion, and had been forced open, as it were, by rumors of peace. In 1572, the revolt, with the Calvinists now clearly in the van, acquired what was to prove an enduring foothold in the maritime provinces of Holland and Zeeland.

Travels in Europe and the East (Classic Reprint)

Excerpt from *Traits of Travel*, Vol. 3 of 3: Or, Tales of Men and Cities Me their readiness to notice. Faults of character, in preference to merits. They. Slide over the smooth sward of national virtues, without remark; but cannot see a pebble on their path without making it a stumbling block. They prefer what is Singular and striking to that which is general and passive. They find the former in national defects, for these, like indi' vidual failings, stand out in full relief. They are the beaked promontories, against which most voyagers are afraid of striking, which they describe with a Shudder, and y from without examining. But each jutting rock is furnished with its beacon, not only to warn the stranger of peril, but to light him to safety in many a verdant recess. In the French revolution, for instance, the most marked objects, view it from what point we will, are its crimes. But if we boldly enter on the scenes of their commission, how much redeeming softness, what a fund of downy virtues may the mind repose on, to save. Traits of Travel, Vol. 3 of 3

Excerpt from A General Collection of the Best and Most Interesting Voyages and Travels, Vol. 3: In All Parts of the World; Many of Which Are Now First Translated Into English; Digested on a New Plan The geese are plucked five times in the year; the first plucking is at lady-day, for feathers and quills, and the same is renewed, for feathers only, four times more between that and Michaelmas. The old geese submit quietly to the Operation, but the young ones are very noisy and unruly. I once saw this performed, and observed that goslings of six weeks old were not spared; for their tails were plucked, as I was told, to habituate them early to what they were to come to. If the season proves cold numbers of geese die by this barbarous custom. Vast numbers are driven annually to London, to supply the markets; among them, all the superannuated geese and ganders (called here Cagmags) which serve to fatigue the jaws of the good citizens, who are so unfortunate as to meet with them. A Collection of Voyages and Travels, Vol. 26 of 28

Excerpt from Fragments of Voyages and Travels, Vol. 2 of 3 The fervid activity of our excellent admiral, Sir Samuel Hood, in whose flag-ship I served as lieutenant from 1812 to 1815 on the Indian station, furnished abundant materials for journal-writing, had we only known how to profit by them. There was ever observable a boyish hilarity about this great officer which made it equally delightful to serve officially under him, and to enjoy his friendly companionship; in either case, we always felt certain of making the most of our opportunities. Recollections of Foreign Travel, Vol. 2 of 2: On Life, Literature, and Self-Knowledge (Classic Reprint)

Excerpt from Notes and Journal of Travel in Europe, Vol. 2 of 3: 1804-1805 I Have been for three or four days past engaged in examining the paintings in several of the palaces. In this employment I was accompanied by Mr Wilson - the young Scotch man whom I mentioned before as having seen at Mrs Birds. He very obligingly acted as cicerone and being acquainted with every painting of merit in Genoa he acquitted himself very well. To enter into a detail of the many fine pieces I have seen would be fatiguing. Among the finest are a Holy Family by Reubens in the Palace of Giacomo Balbi - Diogenes looking for an honest man - Rape of the Sabines - Perseus with Medusa's head - Jezabel devoured by dogs - all four by Luca Giordano a painter of great merit (It is one of the peculiarities of this painter that he continually changes his style in his different paintings) Magdalene with a death's head by Guido & c Sec all in the same palace. Fragments of Voyages and Travels, Vol. 2 of 3 (Classic Reprint)

Excerpt from Traits of Travel, Vol. 2 of 3: Or Tales of Men and Cities About nine o'clock in the evening the carriage stopped in a solitary but beautiful spot, at the entrance of a lawn, more brightly green than any I had ever seen in our own fertile valleys. Sweet smelling shrubs and flowers perfumed the path leading to a cottage, which was altogether a scene of enchantment to me. It was covered with jessamine, honeysuckle, and roses; and shaded by wide branching trees at all sides. When I entered the door I could not restrain the expression of my admiration and delight. The Penshurst Edition of an English Garner, Vol. 1

Excerpt from Travels Through France and Italy Of a school of professional writers, of which strange and novel class, after the Great Cham of Literature, as he called Dr. Johnson, he affords one of the first satisfactory specimens upon a fairly large scale. He is, indeed, a more satisfactory, because a more inde pendent, example of the new species than the Great Cham himself. The late Professor Beljame has shown us how the milieu was created in which, with no sub vention, whether from a patron, a theatre, a political paymaster, a prosperous newspaper or a fashionable subscription-list, an independent writer of the mid eighteenth, century, provided that he was competent, could begin to

extort something more than a bare subsistence from the reluctant coffers of the London book sellers. For the purpose of such a demonstration a better illustration could possibly be found, I think, than the career of Dr. Tobias Smollett. And yet, curiously enough, in the collection of critical monographs so well known under the generic title of English Men of Letters - a series, by the way, which includes Nathaniel Hawthorne and Maria Edgeworth - no room or place has hitherto been found for Smollett any more than for Ben Jonson, both of them, surely, considerable Men of Letters in the very strictest and most representative sense of the term. Both Jonson and Smollett were to an unusual extent centres of the literary life of their time and if the great Ben had his tribe of imitators and adulators, Dr. Toby also had his clan of sub-authors, delineated for us by a master hand in the pages of Humphrey Clinker. To make Fielding the centre-piece of a group reflecting the literature of his day would be an artistic impossibility. It would be perfectly easy in the case of Smollett, who was described by critics from afar as a Colossus bestriding the summit of the contemporary Parnassus. Excerpt from A Collection of Voyages and Travels, Vol. 27 of 28: From the Period of the Discovery of America, to the Commencement of the Nineteenth Century The commerce Merly carried on at Havre, was very extensive: it is still celebrated for its lace manufacture. The theatre is spacious, well arranged, and, safer as we could judge by day-light, handsomely decorated. The players did not perform during our stay. In the vegetable market-place, which is much crowded and large, we saw at this season or the year abundance of fine apples, as fresh in appearance as when first plucked from the tree. Travels Through Holland, Germany, Switzerland, But Especially Italy, Vol. 2 of 3 (Classic Reprint)

A General History and Collection of Voyages and Travels - Volume 01 by Robert Kerr In the midst of the profound ignorance and barbarism which overspread the nations of Western Europe, after the dissolution of the Roman empire in the West, a transient ray of knowledge and good government was elicited by the singular genius of the great Alfred, a hero, legislator, and philosopher, among a people nearly barbarous. Not satisfied with having delivered his oppressed and nearly ruined kingdom from the ravages of the almost savage Danes and Nordmen, and the little less injurious state of anarchy and disorganization into which the weakness of the vaunted Anglo-Saxon system of government had plunged England, he for a time restored the wholesome dominion of the laws, and even endeavoured to illuminate his ignorant people by the introduction of useful learning. In the prosecution of these patriotic views, and for his own amusement and instruction, besides other literary performances, he made a translation of the historical work of Orosius into his native Anglo-Saxon dialect; into which he interwove the relations of Ohthere and Wulfstan, of which hereafter, and such other information as he could collect respecting the three grand divisions of the world then known; insomuch, that his account of Europe especially differs very materially from that of Orosius, of which he only professed to make a translation. We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.

A General Collection of Voyages and Travels, From the Discovery of America to Commencement of the Nineteenth Century, Vol. 28 of 28 (Classic Reprint)

Excerpt from By-Ways of Europe The cause of my having travelled so extensively has been due to a succession of circumstances, of a character more or less accidental. My prolonged wanderings formed no part of my youthful programme of life. I cannot dis connect my early longings for a knowledge of the Old World from a still earlier passion for Art and Literature. To the latter was added a propensity, which I have never unlearned, of acquiring as much knowledge as possible through the medium of my own experience rathe. Than toaccept it, unquestioned, from anybody else. When I first set out for Europe I was still a boy, and less acquainted with life than most boys Of my age. I was driven to the venture by the strong necessity of providing for myself sources of education which, situated as I was, could not be reached at home. In other words, the journey Offered me a chance of working my way. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
