Integrated, Change **Control**, from the PMBOK Guide. Video course of the PMBOK guide. #PMBOK #ProjectManagement ...

Perform Integrated Change Control is the process of reviewing all change requests; approving changes and managing changes to deliverables, project documents, and the project management plan; and communicating those decisions.

Work performance reports of particular interest to the Perform Integrated Change Control process include resource availability schedule and cost data, earned value reports, and burnup or burndown charts

Government or industry standards • Legal and regulatory requirements and/or constraints • Organizational governance framework • Contracting and purchasing constraints

In order to facilitate configuration and change management, manual or automated tools may be used. We want to • Identify configuration item . Record and report configuration item status • Perform configuration item verification and audit

Change requests are processed according to the change management plan by the project manager, CCB, or an assigned team member
