Prose Unseens for A-Level Latin

This volume is designed to accompany the OCR A-Level specification in Latin (first teaching September 2016), with practice unseen passages from Livy, the set prose for Paper 1, together with passages from a selection of other writers to support Paper 2, for which no author is set. A bank of 80 passages aims to take Sixth Form students from the level of heavily adapted post-GCSE ('AS'-equivalent) passages and develop their knowledge and skills to reach A-Level standard. But this is not just a book of unseen passages: there is a chronological progression through the unseens in order to give the reader a sense of the narrative of Roman history, exploring key events through the words of original texts. Every passage begins with an introduction, outlining the basic content of the passage, followed by a 'lead-in' sentence, paraphrasing the few lines before the passage begins. Part 1 passages are straight translation exercises on the model of the A-Level Paper 1. They also feature, however, a 'Discendum' box, highlighting a facet of Latin prose with which students may not be familiar, or extension questions on grammar and style. Part 2 passages are accompanied by questions on comprehension, translation and grammar, replicating the demands of Paper 2 in full. An extensive word list is provided in the form of checklists which build the reader's knowledge of the most commonly occurring words and phrases in Latin prose. The passages are punctuated with discussions of Roman history during the periods covered in the passages, and a comprehensive introduction includes portraits of the authors featured in the book, as well as grammatical reminders to help readers deal with both the trickier elements of unseen prose and with A-Level grammatical analysis questions.

Latin Unseens for A Level

This collection of Latin unseen passages forms a companion volume to Latin Momentum Tests for GCSE, and is intended to be used similarly by students preparing for examinations at AS, A2 and AEA levels. The largest section is set at AS level and comprises prose passages forming a coherent story based on original sources but simplified to maintain a level of difficulty appropriate for this level. The text assumes the student will have a working knowledge of a typical vocabulary list of about 1000 words. Most of the rest of the passages are, with rare exceptions, un-adapted Latin, both prose and verse, taken from the authors used in the examinations. Difficult or rare words are glossed. The last few passages are of a standard of difficulty appropriate to AEA level. All passages are of a similar length and format to those used in the examinations. One sample mark scheme has been included to give teachers and students some insight into how these unseens are marked in the examinations.

Advanced Latin

Advanced Latin offers a range of material to help students build and develop the knowledge and skills needed for A2 and Pre-U Latin. There are 24 translation/comprehension exercises, based on

passages taken predominantly from Livy, Caesar and Ovid. These match exactly the requirements of A2, but the passages work equally well as unseens for those working towards Pre-U. Six further passages are offered for unseen translation only, and are designed to stretch the most able. There are then 12 passages of continuous prose for translation into Latin, each supported by notes to help the student; and an appendix that contains a comprehensive English-Latin vocabulary. To support the study of A2 and Pre-U literature, there are short commentaries on sample passages from each of the prescribed authors, demonstrating a variety of interpretative approaches. In addition, for each author there is an annotated bibliography, to guide both teacher and student to the most useful secondary literature available. A separate section focuses on the Pre-U unseen literary criticism option and offers six practice passages.

Ovid Unseens

Ovid Unseens provides a bank of 80 practice passages of Latin verse, half elegiac and half hexameter. Taken from across Ovid's works, including the *Metamorphoses*, *Fasti*, *Heroides*, *Amores* and *Tristia*, the passages help build students' knowledge and confidence in a notoriously difficult element of Latin language learning. Every passage begins with an introduction, outlining the basic story and theme of the passage, followed by a 'lead-in' sentence, paraphrasing the few lines before the passage begins. The first set of passages are translation exercises of 12-16 lines, each accompanied by a Discendum box which highlights a key feature of poetic Latin, equipping students further with the skills to tackle ever more difficult verse passages at first sight. These are followed by longer passages with scansion exercises and questions on comprehension and stylistic analysis, replicating unseen verse exam questions in full. The comprehensive introduction provides an overview of Ovid's life and work, an account of some of the stylistic features of his poetry, and practical help in the form of tips on how to approach the more challenging lines of Latin verse and produce a fluent translation. A step-by-step guide to scansion, with practice exercises and answers, covers the essential principles for scanning lines of Latin verse, from the basics of understanding syllables, feet and types of metres, to coping with elision and caesurae. A guideline verse vocabulary list is provided which covers words particularly common in Ovid's works. Broken down into small 'checklists', each corresponding to a group of four passages, the vocabulary is learnt cumulatively and as it is encountered.

Latin Beyond GCSE

Latin Beyond GCSE covers all the linguistic requirements for the OCR AS and A Level in Latin. It aims to bring students to a point where they can tackle original Latin texts with confidence. Although designed as a continuation of Latin to GCSE, it is self-contained and can be used independently. This new edition is brought in line with the new OCR specifications and benefits from a completely redesigned layout, with added colour and images. The answer key is available on a companion website. The first part of the book introduces new constructions and the translation of sentences from English to Latin, with reading passages at AS standard. The next sections provide translation and comprehension passages at AS and A-level, including verse unseens, scansion, and a list of 300 common poetic words. Next come longer unadapted extracts from a range of authors. Finally there is a reference section including a summary of all constructions, a comprehensive grammar, and a general vocabulary of about 1200 Latin words.

Latin Prose Composition

This book helps students to write Latin using increasingly complex forms of expression. Part 1 gives guidance and practice exercises for the new sentences required at GCSE, while Parts 2 and 3 contain a series of chapters of grammatical introduction and exercises for translation into Latin leading up to A Level and Pre-U. Part 4 takes students into more advanced areas of composition. Continuous passages are included from an early stage alongside stand-alone sentences. Leigh gives clear guidance on the characteristic features of Latin prose, such as word order and subordination, as well as more advanced grammatical complexities. At the back of the book, lists of vocabulary and accidence provide reference and revision tools for students at all levels. Working through the book the rewards of learning to write Latin are clear: not merely a challenge to be overcome, prose composition gives a heightened appreciation of how Latin authors used the language to express themselves in their own particular styles.

Greek Unseen Translation

This is a useful collection of 120 passages from Greek authors, ideal for students at GCSE and A level. The first half contains twenty adapted passages building up to GCSE level, thirty lightly adapted ones for AS, and ten easy unadapted passages to introduce the translation of verse. The second half contains thirty prose and thirty verse passages of A level standard, unadapted except by minor omissions. Vocabulary beyond the core assumed at each level is glossed.

Key to Advanced Latin

"Key to Advanced Latin" provides answers to the exercises that form a substantial part of our new Latin language textbook, "Advanced Latin: Materials for A2 and Pre-U"

Greek to GCSE: Part 1

First written in response to a JACT survey of over 100 schools, and now endorsed by OCR, this textbook has become a standard resource for students in the UK and for readers across the world who are looking for a clear and thorough introduction to the language of the ancient Greeks. Revised throughout and enhanced by coloured artwork and text features, this edition will support the new OCR specification for Classical Greek (first teaching 2016). Part 1 covers the basics and is self-contained, with its own reference section. It covers the main declensions, a range of active tenses and a vocabulary of 250 Greek words to be learned. Pupil confidence is built up by constant consolidation of the material covered. After the preliminaries, each chapter concentrates on stories with one source or subject: Aesop, Homer's Odyssey and Alexander the Great, providing an excellent introduction to Greek culture alongside the language study. Written by a long-time school teacher and examiner, this two-part course is based on experience of what pupils find difficult, concentrating on the essentials and on the understanding of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. It aims to be user-friendly, but also to give pupils a firm foundation for further study.

Essential GCSE Latin

Essential GCSE Latin is a practical and accessible guide for students. Covering all the linguistic requirements (grammar, syntax and vocabulary) for GCSE Latin, the book is closely linked to OCR's current syllabus. This immensely useful textbook provides straightforward and easy to understand explanations of every grammatical construction needed for GCSE, from ablative absolutes to result clauses. Each point of grammar is generously illustrated with examples and practice sentences. The book concentrates on understanding the principles behind accidence and syntax, reducing the need for rote learning. 650 practice sentences provide ample opportunity for the student to get to grips with every point of grammar as it is introduced. Essential GCSE Latin can be used on its own, or as a revision guide for a fast but comprehensive recap of the language. Helpful, concise and clear, the book has an

easily navigable structure which breaks down the language into bite-sized sections. Essential GCSE Latin also includes a list of all the vocabulary needed for the exam and a glossary of grammar terms for quick and easy reference. An appendix of 15 practice passages provides further experience and helps equip the student for the current Language 2 paper. This new edition includes revised exercises throughout the book and updated vocabulary.

Latin to GCSE Part 1

Latin to GCSE is a complete course in two volumes, of which this is Part 1. The course covers all the ground necessary for those studying for a GCSE in Latin. The authors concentrate on imparting an understanding the principles of grammar (both *accidence* and *syntax*) without getting bogged down in minor irregularities. Like its companion course, Greek to GCSE, the books include a good range of reading passages and the background material necessary to their understanding. Revision material is included at the end of Part 2.

Latin Stories

Latin Stories is an ideal first reader for students of Latin. It offers 100 self-contained passages of manageable length, chosen for their intrinsic interest and adapted from a wide range of ancient authors. Generous help is given, with a short introduction to each story and glossing of all proper names and non-GCSE vocabulary. The collection will also be attractive to older students beginning or returning to the language. Updated to match the 2016 OCR specification, this edition has been restructured to reflect the new examinations, which now have a single language paper. Section 1 provides 30 passages, starting with very short and simple stories and building up to the level of the current OCR GCSE. Section 2 provides 30 differentiated passages of increasing difficulty on historical and miscellaneous topics. Section 3 provides 20 shorter passages of uniform length on mythological topics, with comprehension questions, in the style of Section A of the new GCSE language paper. Section 4 provides 20 passages on historical topics, with comprehension and unseen sections, in the style of Section B of the new GCSE language paper. The new edition is supported by a companion website with an answer key and additional passages.

Ossa Ostensa

Ossa Ostensa is the world's first comprehensive example of how to teach and learn the Latin language using the unique teaching system of the internationally recognized authority Reginald Foster. Laura Pooley – prize-winning graduate of the University of Oxford and currently a supervisor at the University of Cambridge, brings to life the year she spent in Rome studying Latin with Reginaldus. His inspiring and transformative method of teaching combines with Laura's twenty years of teaching experience to produce concise and crystal-clear explanations of the language. The three 'experiences' of Latin: beginners, intermediates and advanced, are divided between three user-friendly workbooks. Each workbook comprises around thirty lessons, where the language is presented in hand-out form requiring very little modification by prospective teachers. Each language area is then illustrated by translated reading examples. After each lesson, Laura provides translation practice targeted to the taught content. These Latin passages are divided into Classical and Post-Classical literature, to appeal to the interests of all Latin students. Not only that, but each passage is accompanied by teaching questions and translation hints, the mainstay of Reginaldus' classroom persona and pedagogy so famously encapsulated in his *Ludi*. Students therefore can exercise recent language content and develop deep and spontaneous fluency in the Latin language. For the first time, the experience of learning with Reginaldus is available to everyone.

Learn to Read Latin

Learn to Read Latin helps students acquire an ability to read and appreciate the great works of Latin literature as quickly as possible. It not only presents basic Latin morphology and syntax with clear explanations and examples but also offers direct access to unabridged passages drawn from a wide variety of Latin texts. As beginning students learn basic forms and grammar, they also gain familiarity with patterns of Latin word order and other features of style. Learn to Read Latin is designed to be comprehensive and requires no supplementary material. It explains English grammar points and provides drills especially for today's students. It offers sections on Latin metrics and includes numerous unaltered examples of ancient Latin prose and poetry. It incorporates selections by authors such as Caesar, Cicero, Sallust, Catullus, Vergil, and Ovid, presented chronologically with introductions to each

author and workoffers a comprehensive workbook that provides drills and homework assignments. This enlarged second edition improves upon an already strong foundation by streamlining grammatical explanations, increasing the number of syntax and morphology drills, and offering additional short and longer readings in Latin prose and poetry.

Sallust's *Bellum Catilinae*

In his *Bellum Catilinae*, C. Sallustius Crispus or Sallust (86-35/34 B.C.) recounts the dramatic events of 63 B.C., when a disgruntled and impoverished nobleman, L. Sergius Catilina, turned to armed revolution after two electoral defeats. Among his followers were a group of heavily indebted young aristocrats, the Roman poor, and a military force in the north of Italy. With his trademark archaizing style, Sallust skillfully captures the drama of the times, including an early morning attempt to assassinate the consul Cicero and two emotionally charged speeches, by Julius Caesar and Cato the Younger, in a senatorial debate over the fate of the arrested conspirators. Sallust wrote while the Roman Republic was being transformed into an empire during the turbulent first century B.C. The *Bellum Catilinae* is well-suited for second-year or advanced Latin study and provides a fitting introduction to the richness of Latin literature, while also pointing the way to a critical investigation of late-Republican government and historiography. Ramsey's introduction and commentary bring the text to life for Latin students. This new edition (updated since the 2007 printing) includes two maps and two city plans, an updated and now annotated bibliography, a list of divergences from the 1991 Oxford Classical Text of Sallust, and revisions in the introduction and commentary.

The Aeneid, Book Eleven

This book contains the complete text of Aeneid XI, together with a rendering into Latin prose and a running summary of the whole in English. Its main intended audience is A-Level Latin students in England. Aeneid XI is one of the set texts by the OCR Board for 2020 and 2021. A larger and less easily defined audience is anyone, in any time or place, who wants to read Vergil, but whose Latin is not ready for the challenge. I have reordered the words in a more obvious sequence. I have replaced many words with more natural alternatives. I have supplied pronouns and verbs and prepositions that could not be fitted into the metrical structure. I have broken up the paragraphs, and formatted the whole as if it were a novel. The advantage is that the result is still Latin. It is Latin that most A-Level students will be able to read without too much looking in a dictionary - and not too much head-scratching thereafter. Unlike any English version, it is obviously related to the original, and is a fair key to understanding the original. It also gives students a piece of Latin that they can read at length, and that will be good practice for the unseen translation. Other Classical Texts by Sean Gabb on Amazon: Acts of the Apostles: A Parallel Text - Greek, Latin, English Aeneid VI: Text with Notes and English and Latin Prose Versions Ars Grammatica Stories from Paul the Deacon Stories from the Life of Christ From the Amazon Reviews: This text is a great collection of passages from the life of Christ that perfectly fills the need for an intermediate reader, and has a great selective dictionary at the end with just the words used in the texts, so it is quick to use. This suited my level perfectly as the passages were not too

complex, but beyond beginner level, and include enough repetition in the stories and dialogue to help memory retention. (Stories from the Life of Christ) [G]oing from Latin lessons to real Latin texts is a huge jump. Here the author has chosen later texts written by Paul the Deacon.... The Latin is simpler as a result and it makes the book a very useful stepping stone.... [My Latin has now] gone rusty, and this book looks an ideal way for me to recapture some of that lost prowess. Also it has a vocabulary.... Yes I have a Latin dictionary, but experience... has shown me the value of having a vocabulary or dictionary at the back. (Stories from Paul the Deacon)

Political Speeches

'Two things alone I long for: first, that when I die I may leave the Roman people free...and second, that each person's fate may reflect the way he has behaved towards his country.' Cicero (106-43 BC) was the greatest orator of the ancient world and a leading politician of the closing era of the Roman republic. This book presents nine speeches which reflect the development, variety, and drama of his political career, among them two speeches from his prosecution of Verres, a corrupt and cruel governor of Sicily; four speeches against the conspirator Catiline; and the Second Philippic, the famous denunciation of Mark Antony which cost Cicero his life. Also included are On the Command of Gnaeus Pompeius, in which he praises the military successes of Pompey, and For Marcellus, a panegyric in praise of the dictator Julius Caesar. These new translations preserve Cicero's rhetorical brilliance and achieve new standards of accuracy. A general introduction outlines Cicero's public career, and separate introductions explain the political significance of each of the speeches. Together with its companion volume, Defence Speeches, this edition provides an unparalleled sampling of Cicero's oratorical achievements.

Easy Latin Prose Exercises on the Syntax of the Public School Latin Primer (Classic Reprint)

Excerpt from Easy Latin Prose Exercises on the Syntax of the Public School Latin Primer Tms volume is intended as a Companion to the Syntax of the Public School Latin Primer, ' and as a First Latin Exercise Book for beginners. With this view, simplicity of plan, and facility of use, were clearly of primary importance. In securing the latter point, the aid given by the eye to the mind, presented itself as an obvious reason for pre fixing the several Rules of the Latin Primer to each Exercise, instead of simply

referring to them. The citation of the Rule, too, promised other advantages. The Rules of an Elementary Syntax are memorial; and, as such, some times almost unintelligibly curt.' Hence, in drawing up a Series of Exercises, the rules of which should be expository and illustrative, rather than memorial, it became, at times, needful to paraphrase the Grammar rules, and to add a few explanatory comments. Besides, a mere verbal reproduction of those Rules would have made it impossible to embody in the text some of the more suitable portions of the Notes on Syntax, ' appended to the Primer. The Exercises, down to page 68, traverse the various Chapters, and illustrate the several Sections, of the Primer. Latin Language Tests for Levels 1 and 2 and GCSE

This collection of tests provides practice for students preparing to take the new Latin language examinations at the WJEC examination board Levels 1 and 2. It also includes tests similar to those used in the OCR examination board GCSE examinations. The book is divided into five sections, each devoted to a different format or level of tests. Words that are not expected to be known at each level are glossed. The range of grammatical and syntactical features is similar to that found in the public examinations. The tests are designed to cover translation and comprehension of specially constructed stories in Latin. Readers are not expected to have familiarity with any particular course book, and the stories may also be used simply as a graduated Latin reader, if desired. Mother of Learning: ARC 1

Zorian Kazinski has all the time in the world to get stronger, and he plans on taking full advantage of it. A teenage mage of humble birth and slightly above-average skill, Zorian is attending his third year of education at Cyoria's magical academy. A driven and quiet young man, he is consumed by a desire to ensure his own future and free himself of the influence of his family, resenting the Kazinskis for favoring his brothers over him. Consequently, Zorian has no time for pointless distractions, much less other people's problems. As it happens, though, time is something he is about to get plenty of. On the eve of Cyoria's annual summer festival, Zorian is murdered, then abruptly brought back to the beginning of the month, just before he was about to take the train to school. Finding himself trapped in a time loop with no clear end or exit, he will have to look both within and without to unravel the mystery set before him. He does have to unravel it, too, because the loop clearly wasn't made for his sake, and in a world of magic even a time traveler isn't safe from those who wish him ill. Fortunately for Zorian, repetition is the mother of learning...

Latin Prose Composition

Building on and updating some of the issues addressed in *Starting to Teach Latin*, Steven Hunt provides a guide for novice and more experienced teachers of Latin in schools and colleges, who work with adapted and original Latin prose texts from beginners' to advanced levels. It draws extensively on up-to-date theories of second language development and on multiple examples of the practices of real teachers and students. Hunt starts with a detailed look at deductive, inductive and active teaching methods, which support teachers in making the best choices for their students' needs and for their own personal preferences, but goes on to organise the book around the principles of listening, reading, speaking and writing Latin. It is designed to be informative, experimental and occasionally provocative. The book closes with two chapters of particular contemporary interest: 'Access, Diversity and Inclusion' investigates how the subject community is meeting the challenge of teaching Latin more equitably in today's schools; and 'The Future' offers some thoughts on lessons that have been learnt from the experiences of online teaching practices during the Covid-19 lockdowns. Practical examples, extensive references and a companion website at www.stevenhuntclassics.com are included. Teachers of Latin will find this book an invaluable tool inside and outside of the classroom.
