I've worked on the site for many years, for decades

These warriors are all life-sized like real soldiers

You can tell from their hair style, their head gear, you can tell that they are different ranks

The Terracotta Warriors were found accidentally

Originally in ancient China 3000 years ago they believed in the afterlife

What we discovered in pit three, very surprisingly, we found well preserved colours

When we lifted one Terracotta Warrior the very bright colours stuck to the soil

Very bright bright red and pink, blue, green

That's really revolutionary, that kind of technology, 2000 years ago in Qin dynasty times
