Forklift Maintenance - Forklift Maintenance by Eureka Forklifts 45 views 6 years ago 3 minutes, 36

seconds - For quality **repairs**, and **servicing**, contact the helpful and skilled professionals at Eureka **Forklifts**, for all your **Forklift**, and Tug ...

Safety is paramount when it comes to using a forklift.

Besides, a proper maintenance plan pays for itself: you'll often spot issues before they turn into costly repairs down the track.

DAILY INSPECTION Daily inspections and log book records are a key component of any maintenance plan.

it gives you a physical checklist to ensure nothing is missed during your inspection.

Secondly, it serves as an accurate record that you can check in the event of any breakdown or malfunction

The essentials of a pre-operational inspection Tyres-check for damage or wear, and pressure if applicable.

Warning devices-check horns, lights, reversing beeper and flashing light.

Hydraulic cylinders and hoses-check for any leaks.

Seating-check the condition and adjustment.

Maintenance and record-keeping It's important that you keep a schedule of all maintenance, servicing, cleanings

When any maintenance or repairs are required, ensure that only a qualified professional carries out the work.

For example, only a licensed gas fitter can repair or replace parts on an LPG-powered forklift.

operation, ensure a plan is in place for your staff to follow.
