Live Your Dream & Never Stop Dreaming is aimed to motivate a person into going ahead and pursuing their worst fear, which is their dream, without having any more doubt about what the person can do or worrying about how they are going to do it. Just start and make it happen, and watch it come together.

To the person that have started and stopped, get back in the lane of success; and this time, give it your all. Others have done it, so you can too. You just have to get it in your mind that you are unstoppable, but the only way you can be unstoppable is if you get moving on your dream. See that he trusted you with this task, and no one else can do it the way you do it without making excuses for not fulfilling your dream. Stop making excuses for what you dont know; there no longer is an excuse for being a dummy! There is too much information out there these days for anyone not to pursue their dreams. The Rime of the Ancient Mariner

The starting point of all achievement is desire. Napoleon Hill Mastering a job means we are proficient at performing that particular task successfully. It is also useful to note here that the word "success" has different meanings to different people. Success can mean, among other things: fame, fortune, emotional or skillful achievement. Proceeding through our growth years to maturity, we spend time and effort accumulating knowledge and resources, assessing our strengths and limitations, and taking action based on what we have learned. As we grow, so does our appetite for adventure and success. So, fortified with our initial progress, we set out to test our strength against the world. For those who achieve mastery of one job, the taste of success and the confidence it generates often propels them to attempt to master other tasks. To accomplish a chosen undertaking is synonymous with success; however, learning to master more significant tasks is often our real challenge. That's where the Celebrity Experts(R) in this book come in. They have achieved mastery in their various fields and are willing to share their secrets and methods of mastery with you. An integral quality of successful people is their willingness to help others succeed. One of the finest secrets for Mastering the Art of Success can be found in the following quote: I have not failed. I've just found 10,000 ways that won't work. Thomas Edison

The Way of Kings

This book contains powerful philosophies and theological perspectives in simple yet enlightening ways. If you were waiting for the right time, this is the time for the best to come out from you. If you read this book and complain about the same things, then you might as well go lie in the graveyard and don't invite us to the funeral. I laugh, but I phrase it this way because I was the same way. I'm coming to you as a young man who had a dream to impact people's lives and who endured so much emotional distress to achieve my dreams. When I told my friends what I wanted to accomplish—that I was going to become an author, I was going to have my own company, I was going to win a scholarship, I was going to speak and host events, I was going to travel around the USA attending conferences—many friends looked at me and laughed because I was saying all those things when I didn't even have a car, much less any plan to go after what I wanted. Some friends discouraged me because I have an accent, and they said nobody is going to listen to me when I speak. But I held on to the one person who always says it's possible. You can live your dream. This book is about finding someone whose voice inspires you, makes you stronger, and kicks you into action to work toward your dreams. Yes, God is our redeemer, he is our savior, and he makes a way when there seems to be no way. I am a firm believer that God always helps those who help themselves. God wants to see you go out there and have a mentor who

can train you, coach you, and work with you. If God sees how much you are dedicated in making your life better, he will always be around to guide you in the right direction. Are You Living Your Dream?

The Gettysburg Address is a speech by U.S. President Abraham Lincoln, one of the best-known in American history. It was delivered by Lincoln during the American Civil War, on the afternoon of Thursday, November 19, 1863, at the dedication of the Soldiers' National Cemetery in Gettysburg, Pennsylvania, four and a half months after the Union armies defeated those of the Confederacy at the Battle of Gettysburg. Abraham Lincoln's carefully crafted address, secondary to other presentations that day, was one of the greatest and most influential statements of national purpose. In just over two minutes, Lincoln reiterated the principles of human equality espoused by the Declaration of Independence and proclaimed the Civil War as a struggle for the preservation of the Union sundered by the secession crisis, with "a new birth of freedom" that would bring true equality to all of its citizens. Lincoln also redefined the Civil War as a struggle not just for the Union, but also for the principle of human equality. Beginning with the now-iconic phrase "Four score and seven years ago"—referring to the United States Declaration of Independence in 1776—Lincoln examined the founding principles of the United States as stated in the Declaration of Independence. In the context of the Civil War, Lincoln also memorialized the sacrifices of those who gave their lives at Gettysburg and extolled virtues for the listeners (and the nation) to ensure the survival of America's representative democracy: that "government of the people, by the people, for the people, shall not perish from the earth." Despite the speech's prominent place in the history and popular culture of the United States, the exact wording and location of the speech are disputed. The five known manuscripts of the Gettysburg Address in Lincoln's hand differ in a number of details, and also differ from contemporary newspaper reprints of the speech.

Les Brown addresses each of these questions in his updated publication of 'Up Thoughts for Down Times.' From his examples of people who found opportunity in times of crisis (like during the recent devastating hurricanes) to his insistence that we live without regrets, he has managed through cleverly-written chapters to reassure us that even in what we consider unbearable circumstances, that there is a way to move forward.

Long Life and Good Days

In her #1 NYT bestsellers, Brené Brown taught us what it means to dare greatly, rise strong and brave the wilderness. Now, based on new research conducted with leaders, change makers and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Leadership is not about titles, status and power over people. Leaders are people who hold themselves accountable for recognising the potential in people and ideas, and developing that potential. This is a book for everyone who is ready to choose courage over comfort, make a difference and lead. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it and work to align authority and accountability. We don't avoid difficult conversations and situations; we lean into the vulnerability that's necessary to do good work. But daring leadership in a culture that's defined by

scarcity, fear and uncertainty requires building courage skills, which are uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the same time we're scrambling to figure out what we have to offer that machines can't do better and faster. What can we do better? Empathy, connection and courage to start. Brené Brown spent the past two decades researching the emotions that give meaning to our lives. Over the past seven years, she found that leaders in organisations ranging from small entrepreneurial start-ups and family-owned businesses to non-profits, civic organisations and Fortune 50 companies, are asking the same questions: How do you cultivate braver, more daring leaders? And, how do you embed the value of courage in your culture? Dare to Lead answers these questions and gives us actionable strategies and real examples from her new research-based, courage-building programme. Brené writes, 'One of the most important findings of my career is that courage can be taught, developed and measured. Courage is a collection of four skill sets supported by twenty-eight behaviours. All it requires is a commitment to doing bold work, having tough conversations and showing up with our whole hearts. Easy? No. Choosing courage over comfort is not easy. Worth it? Always. We want to be brave with our lives and work. It's why we're here.'
