Mahatma Gandhi

Mohandas K. Gandhi, called Mahatma ("great soul"), was the father of modern India, but his influence has spread well beyond the subcontinent and is as important today as it was in the first part of the twentieth century and during this nation's own civil rights movement. Taken from Gandhi's writings throughout his life, *The Essential Gandhi* introduces us to his thoughts on politics, spirituality, poverty, suffering, love, non-violence, civil disobedience, and his own life. The pieces collected here, with explanatory head notes by Gandhi biographer Louis Fischer, offer the clearest, most thorough portrait of one of the greatest spiritual leaders the world has known. "Gandhi was inevitable. If humanity is to progress, Gandhi is inescapable. . . . We may ignore him at our own risk." —Dr. Martin Luther King, Jr. With a new Preface drawn from the writings of Eknath Easwaran In the annals of spirituality certain books stand out both for their historical importance and for their continued relevance. The Vintage Spiritual Classics series offers the greatest of these works in authoritative new editions, with specially commissioned essays by noted contemporary commentators. Filled with eloquence and fresh insight, encouragement and solace, Vintage Spiritual Classics are incomparable resources for all readers who seek a more substantive understanding of mankind's relation to the divine.

The Mind of Mahatma Gandhi

The world of socio-aesthetics is the serene world of human ascent and excellence. To Mahatma Gandhi, a poignant aesthetic visionary par excellence, the orbit of socio-aesthetics incorporates careful and cautions cultivation of nobler sentiments and finer sensibilities like Truth, Goodness, Beauty and so on for endless advancement of man in the efflorescence of myticism. The fusion of Sarvodaya, Non-violence, religion, education and symbolism for the desirable end-in-view of socio-aesthetics as Gandhi advocates and translates till the last day of his life, bears ample testimony to the socio-aesthetic fullness of vision of humankind.

The Gandhian Philosophy of the Spinning Wheel

This book presents a rethinking of the world legacy of Mahatma Gandhi in this era of unspeakable global violence. Through interdisciplinary research, key Gandhian concepts are revisited by tracing their genealogies in multiple histories of world contact and by foregrounding their relevance to contemporary struggles to regain the 'humane' in the midst of global conflict. The relevance of Gandhian notions of ahimsa and satyagraha is assessed in the context of contemporary events, when religious fundamentalisms of various kinds are competing with the arrogance and unilateralism of imperial capital to reduce the world to a state of international lawlessness. Covering a wide and comprehensive range of topics such as Gandhi's vegetarianism and medical practice, his successes and failures as a litigator in South Africa, his experiments with communal living and his concepts of non-violence and satyagraha. The book combines historical, philosophical, and textual readings of different aspects of the leader's life and works. Rethinking Gandhi in a New World Order will be of interest to students and academics interested in peace and conflict studies, South Asian history, world history, postcolonial studies, and studies on Gandhi.

Rabindrasangeet Vichitra

A Dominican-born academic tells the story of how the Great Books transformed his life—and why they have the power to speak to people of all backgrounds. What is the value of a liberal education? Traditionally characterized by a rigorous engagement with the classics of Western thought and literature, this approach to education is all but extinct in American universities, replaced by flexible distribution requirements and ever-narrower academic specialization. Many academics attack the very idea of a Western canon as chauvinistic, while the general public increasingly doubts the value of the humanities. In *Rescuing Socrates*, Dominican-born American academic Roosevelt Montás tells the story of how a liberal education transformed his life, and offers an intimate account of the relevance of the Great Books today, especially to members of historically marginalized communities. Montás emigrated from the Dominican Republic to Queens, New York, when he was twelve and encountered the Western classics as an undergraduate in Columbia University's renowned Core Curriculum, one of America's last remaining Great Books programs. The experience changed his life and determined his career—he went on to earn a PhD in English and comparative literature, serve as director of Columbia's Center for the Core Curriculum, and start a Great Books program for low-income high school students who aspire to be the first in their families to attend college. Weaving together memoir and literary reflection, *Rescuing Socrates* describes how four authors—Plato, Augustine, Freud, and Gandhi—had a profound impact on Montás's life. In doing so, the book drives home what it's like to experience a liberal education—and why it can still remake lives.

The book analyzes the operations of several high-profile religious orders that organize large-scale public blood-giving events and argues that blood donation has become a site not only of frenetic competition between different devotional movements, but also of intense spiritual creativity.

A living document, the core principles enshrined in the UDHR are as relevant as ever to better the human condition and societies worldwide. This collected volume is an open knowledge publication, freely accessible under a Creative Commons license, which includes 24 articles written by numerous well-informed stakeholders from across the globe, who include human rights scholars and practitioners, experts and activists, researchers and members of civil society and non-governmental organizations. It addresses particular aspects of the history of the UDHR, the expansion and implementation of its Articles, its role in the prevention of violence, and its potential to address a changing world. As a whole, the publication serves two goals: on the one hand, it clarifies why the UDHR continues to be strongly relevant to the contemporary values, dynamics, and conditions of human rights in the 21st century; and, on the other hand, it illustrates how the UDHR and its Articles can be further adapted and implemented to uphold and safeguard human rights even in times when global politics often follow the siren songs of populism, authoritarianism, nativism, and extremism.

The Book I Won't be Writing and Other Essays

Unconditional Equality examines Mahatma Gandhi's critique of liberal ideas of freedom and equality and his own practice of a freedom and equality organized around religion. It reconceives satyagraha (passive resistance) as a politics that strives for the absolute equality of all beings. Liberal traditions usually affirm an abstract equality centered on some form of autonomy, the Kantian term for the everyday sovereignty that rational beings exercise by granting themselves universal law. But for Gandhi, such equality is an "equality of sword"—profoundly violent not only because it excludes those presumed to lack reason (such as animals or the colonized) but also because those included lose the power to love (which requires the surrender of autonomy or, more broadly, sovereignty). Gandhi professes instead a politics organized around dharma, or religion. For him, there can be "no politics without religion." This religion involves self-surrender, a freely offered surrender of autonomy and everyday sovereignty. For Gandhi, the "religion that stays in all religions" is satyagraha—the agraha (insistence) on or of satya (being or truth). Ajay Skaria argues that, conceptually, satyagraha insists on equality without exception of all humans, animals, and things. This cannot be understood in terms of sovereignty: it must be an equality of the minor.
