Life Lessons from the Little Red Wagon

Who would have thought that one of the most popular childhood toys held so many of life's answers. In *The Little Red Wagon*, prolific business leader and public servant Ron Simmons invites you to leave ordinary behind and glide into the richly meaningful life you were intended to live. From his humble beginnings in the rural South to the heights of influence as an entrepreneur, finance executive, and three-term member of the Texas House of Representatives, Simmons mines the depths of his triumphs and travails to provide a wealth of applicable insights. Whether you're out front holding the wagon's handle, shifting the direction from inside, riding along as cargo, or pushing from the rear, the place you occupy will set your course toward more of the same or to bold adventure. Simmons has learned that it isn't a lack of talent or ability that often holds us back. It's the lure of the safe, comfortable path that threatens to keep us stuck in a rut of fear and negativity, speeding along with no clear destination, or passively catching a ride instead of taking initiative and action.

A compassionate, shame-free guide for your darkest days "A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized."—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn't cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to "choose joy" and "pray more." So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you're left wondering if God has abandoned you. You just want a way out. But there's hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect.

The Dissolving Path is a semi-organized diary of sorts which combines three separate texts from the period of 2019-2020, including: Cactus Patch (composed of all the material that was cut from *Clyssus of Man* during editing), a collection of writings collectively regarded as The Ashland Texts which was maintained in the weeks leading up to Leviyey's final astragon, and lastly an untitled lot of notes written prior to and alongside *Clyssus of Man* as a means of exorcising all of the obsessive and traumatic thoughts for which he otherwise had no outlet. The Dissolving Path strips away the gloss coat of mythopoeia and allegory so prominent within Leviyey's other works to present a very stark, straightforward look into his innermost conflicts and motivations—with most of the focus being given to his strained relationship with human society. Though originally intended to be released as a supplementary text available only to avid readers of Leviyey's work, the author has chosen to bring it before a wider audience in the belief that it forms an indispensable part of his canon even if its contents no longer represent his stance and outlook. Since this book contains information that may spoil the events of *Clyssus of Man*, it is recommend that readers read *Clyssus of Man* before reading The Dissolving Path.

Writers write—but what do they do for money? In a widely read essay entitled "MFA vs NYC," bestselling novelist Chad Harbach (*The Art of Fielding*) argued that the American literary scene has split into two cultures: New York publishing versus university MFA programs. This book brings together established writers, MFA professors and students, and New York editors, publicists, and agents to talk about these overlapping worlds, and the ways writers make (or fail to make) a living within them. Should you seek an advanced degree, or will workshops smother your style? Do you need to move to New York, or will the high cost of living undo you? What's worse—having a day job or not having health insurance? How do agents decide what to represent? Will Big Publishing survive? How has the rise of MFA programs affected American fiction? The expert contributors, including George Saunders, Elif Batuman, and Fredric Jameson, consider all these questions and more, with humor and rigor. *MFA vs NYC* is a must-read for aspiring writers, and for anyone interested in the present and future of American letters.

The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the

federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film *In Debt We Trust* warned of the economic meltdown in 2006. He has since written three books on the subject including *Plunder: Investigating Our Economic Calamity* (Cosimo Books, 2008), and *The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail* (Disinfo Books, 2011), a companion to his latest film *Plunder The Crime Of Our Time*. Can't Hurt Me

For most people, the reasons for the sudden collapse of our economy still remain obscure. *I.O.U.* is the story of how we came to experience such a complete financial disaster, starting with the magical proliferation of credit that led to an explosion of lending on the global and local landscapes of banking and finance. Viewing the crisis through the lens of politics, culture, and contemporary history—from the invention and widespread misuse of financial instruments to the culpability of subprime mortgages—Lanchester deftly draws conclusions on the limitations of financial and governmental regulation, capitalism's deepest flaw, and most important, on the plain and simple facts of human nature where cash is concerned. With newly updated, superbly written reportage, Lanchester delivers a shrewd perspective and a digestible, comprehensive analysis that connects the dots for expert and casual reader alike. Part economic primer, part fiscal and historical analysis, *I.O.U.* is an eye-opener of a book.

Good Roads

A Room of One's Own is an essay written by Virginia Woolf. It was published in 1929 and is based on two lectures given by the author in 1928 at two colleges for women at Cambridge. In this famous essay, Woolf addressed the status of women, and women artists in particular. In this essay, the author also asserts that a woman must have money and a room of her own if she is to write. According to Woolf, women's creativity has been curtailed due to centuries of prejudice and financial and educational disadvantages. To emphasize her view, she offers the example of an imaginary gifted but uneducated sister of William Shakespeare, who, discouraged from all eventually kills herself. Woolf celebrates the work of women who have overcome that tradition and become writers, including Jane Austen, George Eliot, and the Brontë sisters, Anne, Charlotte, and Emily. In the final section Woolf suggests that great minds are neutral and argues that intellectual freedom requires financial freedom. The author entreats her audience to write not only fiction but poetry, criticism, and scholarly works as well.
