How to Start a Small Business

Starting your own business is always a good idea to have floating around your head. But there's a difference between fantasizing about it and actually getting around to making it happen. Even the smallest, simplest businesses have the potential to grow into success over time, and it's one of the most rewarding and worthwhile pursuits. The catch is, of course, that starting a business is a daunting undertaking for most people. A lot of people actually psyche themselves out before they even begin, believing that the prospect of entrepreneurship is only for the right kind of people, and that they're not one. But as the old saying goes, the first step is always the hardest. And in this case, planning out and piecing your business together from scratch is going to be the first step, and that's exactly what this book is designed to help you conquer. Together, we're going to walk through the logistics of starting a new business through a step-by-step process, from ascertaining the legal requirements to understanding your market, right up to the point when you're finally ready to open up shop. You will also learn what you lack and what you need to do in order to become ready to take on the challenge of entrepreneurship. By the end of this book, you'll realize that the first step to starting a business isn't so tough after all.

Start To Grow

If starting and growing your own business was easy, everyone would be doing it. And guess what? Not everyone is. Start-ups have notoriously high mortality rates. Most don't make it within the first couple of years. If your business is still around after two years, and you are too, then you have the equally difficult challenge of growing it. In light of this reality, how do you make sure you are making the right career move by becoming an entrepreneur? How do you significantly increase your chances of surviving the start-up phase? How do you then stay relevant and succeed in growing your business in a highly competitive environment? SIMPLE, READ THIS BOOK.

Business & Start-Up Ideas

This is the most comprehensive guide on going from business ideas to starting a business because the book is based on research of 300,000 entrepreneurs just like you! Prior to writing the book, I observed the experiences of 300,000 entrepreneurs who used my Problemio business apps to start a business. I personally talked to and helped over 1,000 entrepreneurs right on the apps or in my business coaching practice. This gave me a great understanding of what entrepreneurs go through. It helped me understand the kinds of problems you will run into as you start your businesses, and how to steer you clear of pitfalls and give you the proper fundamentals to maximize your chances of success. This book will help you by giving you step by step advice on almost every step you must take as you go from business ideas to eventually start your business. In my research, I noted every question entrepreneurs ever asked (my apps allow entrepreneurs to ask me questions) as they were going from business ideas and starting their businesses. I grouped those questions into general topics and subtopics. Those topics and subtopics became the chapters and subchapters of this book. The book starts by covering business idea fundamentals such as: - How to get business ideas - How

to protect business ideas, and whether you should protect business ideas - How to determine if a business idea is good - What to do if you have too many business ideas and can't decide which one is best - What next steps to take after you gave a great startup idea The book also teaches you about options to help you protect your business ideas and your intellectual property with: - Trademarks - Patents - Copyrights - Non-disclosure agreements (NDA) - Non-compete agreements After that the book teaches you about business planning and strategy topics such as: - How to write a business plan for your idea - How to incorporate great business strategy into your overall business model - Different revenue streams for your business to help you understand where your business might make the most money After that the book helps you understand how to start the business and covers: - Business registration and when to register a nonprofit and a for profit - How to start your business with solid fundamentals by learning from the methodologies business leaders like Eric Ries (Learn Start-up) and Steve Blank (Customer Development Methodology) - How to choose a good business name - How to cheaply create a website and start operating online The book also teaches you ways to raise money with: - Donations via crowdfunding - Loans - Grants - Investments - Other creative strategies Once you have solid business idea fundamentals, the book guides you through how to write a business plan for your business idea, and eventually the book covers the necessary steps, theories and methodologies to start your business. This book is unique and relevant because you get the benefit and experience of: - Author's experience starting and growing multiple businesses - 1,000 entrepreneurs whom the author personally helped - 300,000 entrepreneurs who have used the Problemio.com business apps to plan and start their businesses If you have any questions about the book and whether it addresses issues that are important to you, contact me with questions: alex@problemio.com

E-Girls Entrepreneurial Women Revised Edition

I am an Entrepreneur starting in 1979, the last time I worked on someone else's payroll. I've started and owned 9 businesses, including sole-proprietorship's, both kinds of corporations, and an LLC. (Limited Liability Company). In these last forty years each business has taught me and led me to the next. A journey that has carried my dreams heading to future dreams that I might not yet have even experienced. I wrote this Guide to become a handbook for women of all ages who have a desire to become an entrepreneur. I want it to be a resource for creating your team, and as a "Go-To" book that will be your friend for many years to come. It's for all of you who have a dream or an idea that inspires you to reach for potential success or create your own future by becoming engaged in structuring your own lives. When you are an entrepreneur at heart, sooner or later you will have questions. You'll need advice to rely on; need to call on the voices of past E-Girls called "experience," find networks to help you get over the hurdles, and become inspired by others who have gone before you. Entrepreneurs are not necessarily only engaged in "making money" as their sole purpose. They might also be volunteers, or organizers of food banks, rescue organizations collecting donations, or church activities needing leaders to reach goals just to name a few. The goal, your goal, must be bigger than just making money! The "mission of the company" is paramount to success. This is a place for God to show you the way if you reach out to HIM.

The Girl's Guide to Starting Your Own Business (Revised Edition)

Are you one of the many women out there who needs a brand-new model for your business career? Are you looking for entrepreneurial alternatives to the world of big business, but aren't sure where to start? A transition into small business is a natural progression for countless women who have invested the first phase of their careers in large companies. Many mid-career women dream of starting their own businesses, but until now there hasn't been a book that gives them the sense of multiple choice that helps them find the right entrepreneurial fit—options that go beyond starting a venture to include buying an independent business or a franchise, joining or consulting for small businesses, or working with partners. There's a confusing array of how-to books out there with general advice about starting a business, conducting a job search, or balancing work and family. But what entrepreneurial women really need are the strategic tools for choosing and growing a business that will not only make them money, but make them happy as well. Women need direct, gender-specific advice about succeeding financially in their businesses; they also crave the feeling that their work matters, and they want flexibility and control over their professional lives in order to achieve a healthy work-life balance. This book offers them the womenfriendly business advice they need and numerous true-life role models to identify with and emulate. Author Ginny Wilmerding opens women's eyes to the advantages of buying, joining, or consulting for existing small businesses, fully explaining the alternatives to starting from scratch. If you lack an original business idea, this book will give you the confidence you need to get excited about pursuing a business idea other than your own. But if you do want to start a company from the ground up, there's plenty of food for thought for you here, too. Wilmerding not only shares her own stories and outside experts' advice but also includes insightful vignettes from women who have found their niches and are succeeding financially. If you're wondering how to finance your small business, Wilmerding steers you toward success in obtaining SBA loans and other financing. Finally, if you're considering partnering with others to share the risk and the fun, she prepares you for partnership success, and explains the importance of good advisers and mentors. The goal of this book is to get you started on the

path to a successful career in the small business world, a world that needs experienced, smart, versatile women like you to join its ranks. *Smart Women and Small Business* is the ultimate professional guide for mid-career, business-minded women who want to achieve the same independence and success as their entrepreneurial male peers—but in their own way.

Minding Her Own Business

The comparative numbers between male- and female-led start-ups are stark. Ninety-one per cent of venture capital money continues to fund businesses founded solely by men, with only one per cent of venture capital money invested in businesses founded solely by women. Yet being a female entrepreneur is not the preserve of Wonder Woman. It's for every woman who wants to make it happen. *Female Entrepreneurs: The Secrets of Their Success* encourages every woman who has dreamt of being an entrepreneur but hasn't yet taken the leap to take the first steps towards realising her dreams – as well as encouraging every woman who has not yet thought about running her own business to consider it. Additionally, it encourages governments and the corporate world to recognise and embrace the huge value that female entrepreneurs bring to society and the economy. John Smythe and Ruth Saunders reveal the secrets of the success of fifty-two female entrepreneurs. They outline wisdom and insights to inspire budding entrepreneurs to take the leap and offer practical advice on what to think about when setting your business up for success as well as when considering whether to scale. They also provide top tips on how to play to women's inherent strengths and avoid the weaknesses women face – as well as how to stay sane and enjoy the journey. This practical, unique guide provides the encouragement, support and motivation any aspiring female entrepreneur could need to make those first steps towards the realisation of their ambitions. John Smythe and Ruth Saunders are both entrepreneurs themselves and regularly advise start-ups on how to launch and scale up for growth.

The book includes first-rate advice and opinions from top business women, such as Anita Roddick, Martha Lane Fox, and Nicola Horlick, who show how gender has played a part in their journeys, and how they have made it to the top in the often male-dominated world of business. How to be Your Own Booking Agent and Save Thousands of Dollars

In Good Company is a must-read for all women who are thinking of starting their own business. Written by Rebecca Jordan and Kirsty Weir, Young Entrepreneurs of the Year 2003, In Good Company will inspire women of all ages and backgrounds to gain the confidence, contacts and knowledge they need to set up on their own. Using Rebecca and Kirsty's own experiences of setting up Gapwork.com, as well as featuring the experiences of other female entrepreneurs, In Good Company covers the essential elements of a successful business start-up. Direct, accessible and humorous, this book covers all you need to know about ideas, money, people and growth.

Our Turn!

The number of women entering small business ownership has increased significantly across the world in recent years. These women make a crucial contribution to the economic growth and development of local, national and global economies. Yet, despite their increasing numbers, they have received comparatively little attention from the academic community. This comprehensive and coherent book redresses the balance and provides an up-to-date, theoretical review of this important area of study. A distinguished group of international contributors presents the latest work from the USA, the UK, Australia, Canada, India and Singapore, which explores practical initiatives and strategies related to the experiences of women entering small business entrepreneurship. Providing a unique balance between theory and practice, this book will be welcomed by scholars and students of women in management and entrepreneurship as well as policymakers and small business service providers.

So You Want to Start a Business

Can a woman like me, with just the spark of an idea, actually start a business and make money? Can I have a meaningful career that fits into my life, instead of fitting my life into the cracks of my work schedule? If you're asking these questions, you've come to the right place —and the answer is a resounding YES! Sage Lavine is the CEO of Women Rocking Business, a consulting and coaching organization that has helped nearly 100,000 aspiring women entrepreneurs around the globe to build businesses that change the world. Her revolutionary approach is based on honoring innate feminine values: we become thriving entrepreneurs by empowering others rather than having power over them, working in a spirit of collaboration rather than competition, and prioritizing contribution rather than gain. In this book, Sage gives you the road map that has guided thousands of her clients —professional women in fields from health care to manufacturing to consulting, from therapists and artists to yoga teachers and real estate agents —to build their own successful and sustainable businesses on their own terms. You'll learn how to:

- Identify your gift to the world
- Heal your relationship with money
- Build a support network of entrepreneurial sisters
- Plan winning strategies for marketing, sales, and service
- Achieve success by working just 12 days a month (yes, it's true!)
- And much more

Filled with real-life case studies, integration exercises, and practical advice on every aspect of entrepreneurship, Women Rocking Business is an answered prayer for any woman who wants to get a business off the ground or take it to the next level. If you're ready to make the difference you were born to make, Sage is ready to show you the way. You've got this!

In Good Company

How women can "lean in" to entrepreneurship to create the life they want! Claudia Reuter left a promising corporate career to raise her two young children but realized, when re-entering the workforce, that the gap in her resume looked like a gap in ambition—not a purposeful plan. Instead of leaning into a corporate career and fighting the structures and systems designed by and for men decades ago, or leaning out and giving up income, Claudia took a different path. That decision ultimately led to success in the corporate world and at home. In Yes, You Can Do This!, Claudia shares her own reasons for starting a business and makes a call to action for women to consider entrepreneurship so that they can create businesses with the rules they want and change the playing field for others, making a significant impact in the world. More than a "how-to book" on building a business, Yes, You Can Do This! provides clear examples and practical resources to help others create the life they want through entrepreneurship. In Yes, You Can Do This!, you'll learn:

- How to develop and share your vision
- How to deal with stereotypes and unconscious bias
- How to leverage perceived weaknesses and turn them into strengths
- How to balance life at high speeds and avoid burnout
- How to cultivate the confidence to move from idea to creating a company with the culture and rules you want

Claudia provides women with an electrifying third career option: it's not just "lean in" or "lean out," but startup and change the playing field for others in the process. Praise for Yes, You Can Do This! "It's rare to

find a book on entrepreneurship that fuels your heart with inspiration and encouragement and your mind with practical, tangible things you can put into action immediately — but this is one of them. As a woman who has started three companies and been a senior team member of five startups, this is the guide I wish I'd read when I was starting out." —Nataly Kogan, Author of Happier Now and founder of Happier, Inc. "Combining compelling storytelling with practical, tactical advice, Reuter has created a manifesto for the next generation of female founders. Rooted in the research around gender and work, this is a must read for women looking to launch the next new thing." —Jennifer McFadden, Associate Director of Entrepreneurial Programs, Yale School of Management "A must-read for any woman considering taking the leap into entrepreneurship, You Can Do This brings together today's best thinking about women in the workplace with practical advice for creating your dream career and life - by starting a company. Whether you are just curious or ready to take the leap, this book is a great read and a valuable resource." —Anna Barber, Managing Director, Techstars "Claudia helps not just the female entrepreneur, but all entrepreneurs, find their footing in what can be an overwhelming whirlwind of starting a business. This book is not only inspiring and uplifting, but positively necessary for any woman looking to find success in the startup space!" —Shira Atkins, Co-founder & CMO Wonder Media Network "Stories of entrepreneurial success exist in abundance for men who receive 97.8% of venture funding and hold 95% of CEO roles. What is most inspiring about Claudia's book, making me want to shout from the rooftop, is that it is told from the perspective of an everyday woman who pushed hard through barriers, doubts, and setbacks that any entrepreneur would face. On top of all that, she overcame obstacles that are uniquely ours as women today. Claudia is now a standout among women, but with her book in hand, women who want to build a business to scale have a blueprint and path to do so. Here's to making dreams come true!" —Coco Brown, CEO and Founder, The Athena Alliance. "As I read through the book, there were multiple points where I thought, 'Every man in any startup or fast-growing business should read this.' As a man in technology, I took away lots of new ideas, along with examples that were explained in a way that I wouldn't have been able to do prior to reading Claudia's book" —Brad Feld, Managing Director, at Foundry Group, author of Venture Deals and Do More Faster "Reuter breaks the stigma about mothers that chose to leave the workforce. She provides practical tools to start a business, by showing the path to success for every woman that wants to write her own rules" —Sharon Kan, CEO of Pepperlane & Co-Founder of the WIN Lab "Reuter manages to put into words what women have been facing and feeling for decades. She leaves the readers with stories, steps and inspiration to create the career path they are worthy of no matter if it's starting from scratch or breaking glass ceilings. This book will fuel the next generation of women in leadership and entrepreneurship giving them guides and confidence as it has fueled me to start the business I have always wanted." —Elizabeth Presta, CD(DONA), CLD
