

Studies On The Collective And Feminine In Indo European From A Diachronic And Typological Perspective

[#Indo-European studies](#) [#Feminine collective](#) [#Diachronic linguistics](#) [#Typological analysis](#) [#Gender identity](#)

This comprehensive study delves into the fascinating interplay of collective and feminine dimensions across various Indo-European languages and cultures. Employing a rigorous diachronic approach, it traces the evolution of these concepts over time, while a typological perspective analyzes their diverse manifestations and structural patterns. This research offers valuable insights into the historical and comparative linguistics of gender and group identity within the Indo-European family.

Each syllabus includes objectives, reading lists, and course assessments.
