Principles of Marketing

A thorough update to a best-selling text emphasizing how marketing solves a wide range of health care problems. There has been an unmet need for a health care marketing text that focuses on solving real-world health care problems. The all new second edition of Strategic Marketing for Health Care Organizations meets this need by using an innovative approach supported by the authors' deep academic, health management, and medical experience. Kotler, Stevens, and Shalowitz begin by establishing a foundation of marketing management principles. A stepwise approach is used to guide readers through the application of these marketing concepts to a physician marketing plan. The value of using environmental analysis to detect health care market opportunities and threats then follows. Readers are shown how secondary and primary marketing research is used to analyze environmental forces affecting a wide range of health care market participants. The heart of the book demonstrates how health management problems are solved using marketing tools and the latest available market data and information. Since the health care market is broad, heterogeneous, and interconnected, it is important to have a comprehensive perspective. Individual chapters cover marketing for consumers, physicians, hospitals, health tech companies, biopharma companies, and social cause marketing – with strategies in this last chapter very relevant to the Covid-19 pandemic. Each chapter gives readers the opportunity to improve marketing problem-solving skills through discussion questions, case studies, and exercises.

Marketing Management and Strategy

The overall success of an organization is dependent on how marketing is able to inform strategy and maintain an operational focus on market needs. With an array of examples and case studies from around the world, Lancaster and Massingham's vital study offers an alternative to the traditional American focused teaching materials currently available. This second edition has been fully revised and updated, including a new chapter on digital marketing written by Dr Wilson Ouzem. Topics covered include: consumer and organizational buyer behaviour product and innovation strategies direct marketing Social media marketing Designed and written for undergraduate, MBA and masters students in marketing management classes, Essentials of Marketing Management builds on the successful earlier edition to provide a solid foundation to understanding this core topic.

Strategic Management: Concepts and Cases (13th Edition)

Marketing: A Relationship Perspective is back for a second edition and continues to set a benchmark for achievement in introductory marketing courses across Europe. It is a comprehensive, broad-based, and challenging basic marketing text, which describes and analyzes the basic concepts and strategic role of marketing and its practical application in managerial decision-making. It integrates the 'new' relationship approach into the traditional process of developing effective marketing plans. The book's structure fits to the marketing planning process of a company. Consequently, the book looks at the marketing management process from the perspective of both relational and transactional approach, suggesting that a company should, in any case, pursue an integrative and situational marketing management approach. Svend Hollensen's and Marc Opresnik's holistic approach covers both principles and practices, is drawn in equal measure from research and application, and is an ideal text for students, researchers, and practitioners alike.
