A poignant, heart-lifting graphic memoir about anorexia, eating disorders and the journey to recovery Like most kids, Katie was a picky eater. She'd sit at the table in silent protest, hide uneaten toast in her bedroom, listen to parental threats that she'd have to eat it for breakfast. But in any life a set of circumstance can collide, and normal behaviour might soon shade into something sinister, something deadly. *Lighter Than My Shadow* is a hand-drawn story of struggle and recovery, a trip into the black heart of a taboo illness, an exposure of those who are so weak as to prey on the vulnerable, and an inspiration to anybody who believes in the human power to endure towards happiness. 'Even at its most heartbreaking it never feels sombre ... Inspiring, plucky and, in the end, consoling, it's hard to put down' Observer

"There is a substantive body of research that indicates formative assessment can significantly improve student learning. Yet, this same research shows that the features of formative assessment that impact student achievement are sadly missing from many classrooms (Black, et al., 2003). This book provides teachers with guidance and suggestions for using formative assessment to improve teaching and learning in the mathematics classroom, and identifies and describes practical techniques teachers can use to build a rich repertoire of formative assessment strategies. The acronym, FACT, is used to label the techniques included in this book. FACT stands for Formative Assessment Classroom Technique. Through the varied use of FACTs, explicitly tied to a purpose for gathering information about or promoting students--thinking and learning, teachers can focus on what works best for learning and design or modify lessons to fit the needs of the students"--

Gujarat Files is the account of an eight-month long undercover investigation by journalist Rana Ayyub into the Gujarat riots, fake encounters and the murder of state Home Minister Haren Pandya that brings to the fore startling revelations. Posing as Maithili Tyagi, a filmmaker from the American Film Institute Conservatory, Rana met bureaucrats and top cops in Gujarat who held pivotal positions in the state between 2001 and 2010. The transcripts of the sting operation reveal the complicity of the state and its officials in crimes against humanity. With sensational disclosures about cases that run parallel to Narendra Modi and Amit Shah's ascent to power and their journey from Gujarat to New Delhi, the book tells you the hushed truth of the state in the words of those who developed amnesia while speaking before commissions of enquiry, but held nothing back in the secretly taped videos which form the basis of this remarkable read.

Providing easy-to-use alternatives to the "stand and deliver" approach to teaching that causes so many students to tune out--or even drop out--*Total Participation Techniques* presents dozens of ways to engage K-12 students in active learning and allow them to demonstrate the depth of their knowledge and understanding. The authors, P rsida Himmele and William Himmele, explain both the why and the how of Total Participation Techniques (TPTs) as they explore the high cost of student disengagement, place TPTs in the context of higher-order thinking and formative assessments, and demonstrate how to create a "TPT-conducive classroom." Readers will learn how to implement field-tested techniques they can use on the spot (e.g., Quick-Draws, Quick-Writes, Chalkboard Splash); with Hold-Up cards (e.g., True/Not True, Selected Response); with movement (e.g., Bounce Cards, Line-Ups, Simulations); and to guide note-taking and concept analysis (e.g., Picture Notes, 3-Sentence Wrap-Up, Debate Team Carousel). Each TPT is presented in four parts: * A descriptive overview * How It Works--step-by-step instructions for implementation * How to Ensure Higher-Order Thinking--ideas for advancing students beyond surface-level thinking * Pause to Apply--suggestions for how to adapt and personalize the technique for specific contexts and content areas Filled with examples from real classrooms, *Total Participation Techniques* is an essential toolkit for teachers at all levels and for administrators who want a model for analyzing lessons to ensure that they are relevant, engaging, and cognitively challenging.

Popular musicians acquire some or all of their skills and knowledge informally, outside school or university, and with little help from trained instrumental teachers. How do they go about this process? Despite the fact that popular music has recently entered formal music education, we have as yet a limited understanding of the learning practices adopted by its musicians. Nor do we know why so many popular musicians in the past turned away from music education, or how young popular musicians today are responding to it. Drawing on a series of interviews with musicians aged between fifteen and fifty, Lucy Green explores the nature of pop musicians' informal learning practices, attitudes and values, the extent to which these altered over the last forty years, and the experiences of the musicians in formal music education. Through a comparison of the characteristics of informal pop music learning with those of more formal music education, the book offers insights into how we might re-invigorate the musical involvement of the population. Could the creation of a teaching culture that recognizes and rewards aural imitation, improvisation and experimentation, as well as commitment and passion, encourage more people to make music? Since the hardback publication of this book in 2001, the author has explored many of its themes through practical work in school classrooms. Her follow-up book, *Music, Informal Learning and the School: A New Classroom Pedagogy* (2008) appears in the same Ashgate series.

Deep Survival makes compelling, and chilling, reading."—Denver Post Over a decade since its original publication, Laurence Gonzales's bestselling *Deep Survival* has helped save lives from the deepest wildernesses, just as it has improved readers' everyday lives. Its mix of adventure narrative, survival science, and practical advice has inspired everyone from business leaders to military officers, educators, and psychiatric professionals on how to take control of stress, learn to assess risk, and make better decisions under pressure. Now with a new introduction on how this book can help readers overcome any of life's obstacles, Gonzales's gripping narrative is set to motivate and enlighten a new generation of readers.

Deep Survival: Who Lives, Who Dies, and Why

A woman on her own in Texas struggles to overcome hardships. A man alone on the rugged frontier works to overcome prejudices. Through frontier hospitality, faith in God, and shared trouble, they forge an untraditional and potentially dangerous friendship - a friendship they strive to keep from becoming a relationship, each locking deeper feelings inside for the sake of the other. But it seems as if God has other plans, and it isn't long before they realize they have a decision to make: they can choose to labor together and face their problems as partners, or they can insist on remaining apart and fight their battles alone. Their story is a heartwarming tale about how God's laws and love supersede man's, how man's obstacles are God's opportunities, and how doubts in oneself become faith in Him.

Though Pakistan has made progress toward achieving its education, gender equity, and health Millennium Goals, it is unlikely to reach 2015 targets. In general, achievements were lower in rural areas and in lower-income households. Pakistani girls still have lower enrollment in primary and secondary schools, and do not perform as well as boys on tests. Adult female literacy varies widely by province. Women continue to face many forms of gender-based violence, and often are restricted from leaving their homes. While employment rates among women have doubled in the last decade, women are more likely to be unemployed than men, and lack access to finance or assets.

This book presents a feminist mapping of the articulation and suppression of female desire in Hindi films, which comprise one of modern India's most popular cultural narratives. It explores the lineament of evil and the corresponding closure of chastisement or domesticity that appear as necessary conditions for the representation of subversive female desire. The term 'bad' is used heuristically, and not as a moral or essential category, to examine some of the iconic disruptive women of Hindi cinema and to uncover the nexus between patriarchy and other hierarchies, such as class, caste and religion in these representations. The twenty-one essays examine the politics of female desire/s from the 1930s to the present day - both through in-depth analyses of single films and by tracing the typologies in multiple films. The essays are divided into five sections indicating the various gendered desires and rebellions that patriarchal society seeks to police, silence and domesticate.

One of the most enduring divas of Hindi cinema, a producer and director for films and television, dancer and choreographer par excellence, magazine editor, an active member of Parliament and now a singer, Hema Malini wears many hats with admirable ease. No other industry name comes close to matching the breadth of her achievements. In an industry where the male star has traditionally driven the commercial success of films, Hema was an exception, with her name alone sufficing to ensure a film's box-office glory. She was, arguably, India's first female superstar. Apart from starring in mainstream super-hits like Johny Mera Naam, Jugnu, Andaz, Seeta Aur Geeta, Sholay and, more recently, Baghban, she received critical acclaim for her performances in Lal Patthar, Khushboo, Kinara, Meera, Ek Chadar Maili Si and Razia Sultan. But there is much more to her than just her Bollywood journey. From her efforts at reviving and sustaining classical dance to her graceful handling of her personal life and the controversies that have plagued her in her political avatar, from her relationships to her religious beliefs and her recent tryst with singing, Hema Malini: Beyond the Dream Girl covers it all. With detailed interviews and exclusive anecdotes from her family, friends and co-actors, this is an inside look at the remarkable life of one of our greatest cinema icons, someone who has truly lived life on her own terms.

Harry Starke, Two for the Money, Hill House. The first three gripping novels in Blair Howard's best selling series: If you love thrillers, mysteries, suspense and non-stop action with a touch of humor and romance, then it's time you met Harry Starke. Harry Starke "" Book 1 Why did Tabitha Willard throw herself from the Walnut Street Bridge? It was bitterly cold, midnight in mid-winter. Tabitha Willard makes the ultimate choice and throws herself from the Walnut Street Bridge into the unforgiving waters of the icy Tennessee River. Her jump was witnessed, and almost stopped by Harry Starke, a private detective with as much attitude as talent. Unfortunately, he was unable to halt her plunge, instead plunging himself headlong into a mystery that grows with every passing second, one that makes him question everything he thought he knew. Soon Harry finds himself embroiled in an investigation that involves a local United States Congressman, a Senior Senator from Boston, a dangerous crime boss and several other unsavory individuals, all wrapped up in sex, extortion, high finance, corruption and topped off with three murders. It's a case unlike any Starke has taken so far, a case that will push him to the extremes of the law and thought as he has to work his way through a web of deceit and deception so deep it could rock the very heights of Government and threaten everything Harry holds dear. Two for the Money - Book 2 Who Killed Tom Sattler? Who Stole \$350 Million from New Vision Strategic Investments? It's up to Harry Starke to Figure it out The call came on a Tuesday evening in the middle of August at around nine-thirty. It was from an old school friend that Harry Starke hadn't heard from in almost five years, and he hadn't thought about him in almost as long. Tom Sattler wanted to meet with Harry urgently, and it wouldn't wait until morning. When Harry arrived at Sattler's luxury home less than an hour later, he found him dead, lying in a pool of blood, a single gunshot wound to the head, and .22 revolver lying close to his hand. Suicide? If he was going to do that, why the hell did he call me? The search for an answer to that question plunges Harry into a wide ranging investigation that involves murder, corruption, organized crime, and deception. Hill House - Book 3 For more than ten years, she lay beneath the floorboards of Hill House. For more than ten years, she waited. Who was she? Who put her there? Why? Harry Starke vows to find the answers to those questions, but to do so he must embark upon an investigation that will put him and those close to him in deadly danger, take him deep into the underground city, the Dark Web, murder, organized crime, prostitution, and human trafficking. One by one, he peels back the layers, and with each one he sinks a little deeper into the morass, the seamy underbelly of a world few people know about, and even fewer want to be a part of. Hill House has many doors. None of them lead anywhere but into darkness and despair. Scroll up and grab a copy today.

Pamela Gillilan was born in London in 1918, married in 1948 and moved to Cornwall in 1951. When she sat down to write her poem *Come Away* after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. Her first collection *That Winter* (Bloodaxe, 1986) was shortlisted for the Commonwealth Poetry Prize.

"Nepal has the third highest rate of child marriage in Asia, with 37 percent of girls marrying before age 18, and 10 percent marrying before the age of 15, despite the fact that the minimum age of marriage is 20 under Nepal law. This report is based on 149 interviews conducted across Nepal, most with married girls and young women who married as girls. It describes the devastating effects of child marriage, including denial of access to education, serious health consequences of early pregnancy, and domestic abuse. A complex web of factors drives these child marriages, including poverty, lack of access to education, child labor, social pressures, and harmful practices. Cutting across all of these is entrenched gender inequality, and damaging social norms that make girls less valued than boys in Nepali society. In July 2014, Nepal's government pledged to end child marriage by 2020. By 2016, this goal has shifted to ending child marriage by 2030. But the government has yet to take the concrete steps needed to achieve either goal. The report calls on Nepal to release a comprehensive plan to combat child marriage, and seeks to support that process with recommendations drawn directly from the experiences of the married children who continue to be deeply harmed by this practice"--Page [4] of cover.

Dear Reader: I hope my debut thriller will take you on a ride filled with edge-of-your-seat excitement as you immerse yourself into the action, a feeling of deep compassion and true camaraderie as you fight alongside brave Polish stay-behind fighters, and... Well, let's make it short: I hope you will really enjoy the book. As an author (and thriller / spy literature addict) I was very much influenced by Tom Clancy's Jack Ryan series, Lee Child's Jack Reacher, Philip Kerr's Bernie Gunther, Robert Ludlum's Jason Bourne, Ian Fleming's James Bond (of course!) and also the books by Mark Greaney, Olen Steinhauer, Len Deighton, John le Carré, Anthony Horowitz, Stieg Larsson, Jussi Adler-Olsen, and Volker Kutscher. Some readers have compared my writing to the styles of Tom Clancy, Brad Thor, Vince Flynn, David Baldacci, and Daniel Silva. Reviewers have commented very positively on the

complexity of my characters, the realism of the scenario, the research I put into bringing alive the world of espionage, hybrid warfare, and geo-politics. I would be very happy to also hear from you here, on my Facebook page, on Bookbub, or on Goodreads. Thank you for your consideration, Joseph
