The information you provide on your resume should be placed in a specific order.

Make sure you use a simple but professional looking font such as Arial.

When **writing your resume**, focus on any previous ...

Where possible include numbers on your resume.

Any numbers will really stand out on your resume, and they allow a hiring manager to see how you
are going to ADD VALUE to their company.

LET ME NOW TELL YOU HOW TO STRUCTURE YOUR RESUME! THESE ARE THE DIFFERENT
SECTIONS TO INCLUDE.

Your resume should only be 2 pages in length. This makes it easy for the hiring manager to read it
and to quickly decide whether they want to invite you to interview.

Now, because you are only working with 2-pages you need to use a concise structure that covers
everything the hiring manager wants to see.

... At **the**, start **of your resume**, include **your**, name **your**, ...

The personal statement is the first thing the hiring manager will read. Therefore, it needs to grab their
attention. The personal statement should ideally, be approximately 150-200 words in length, and
contain powerful words and phrases that quickly explain who you are your values, and what you can
bring to the role

Previous Work Experience; This section details in chronological order any previous jobs you have
had. Make sure you include the job title, the name of the organization, and the years that you worked
Key Skills; Key skills are essentially the strengths you have that you can bring to the role These should
be in bullet points

Education & Qualifications; in the education section list the qualifications you possess and don't forget
to include brief details of any relevant courses you have attended and completed

References. At the end of your resume I strongly recommend you give the details of two people who
would be willing to act as a positive reference for you
