Advances in Small Animal Practice

A world list of books in the English language.

Advances in Small Animal Practice

The BSAVA Guide to Procedures in Small Animal Practice provides practical, step-by-step guidance on how to perform the diagnostic and therapeutic procedures commonly performed in small animal

veterinary practice. In addition, routine clinical examination of the major body systems, and protocols for the management of selected emergencies, are described. In addition to the actual technique, each procedure has information on indications and contraindications, equipment required, and potential complications, together with the editors' own hints and tips. Details of BSAVA Manuals where wider information can be found, such as interpretation of results, are given throughout. All procedures have been reviewed and updated to ensure that this remains a truly useful resource for the veterinary team. New for this edition: Edrophonium response test Gall bladder aspiration Gastric decontamination Local anaesthesia Peritoneal dialysis Separate section on system examinations Additional illustrations, many in full colour

Books in Print

First multi-year cumulation covers six years: 1965-70.

British Small Animal Veterinary Association Congress Proceedings

This Manual provides a daily reference book for veterinary surgeons and managers in practice, to aid with all aspects of the organisation and delivery of clinical veterinary care in companion animal practice. It is also a useful resource for current and aspiring practice owners, veterinary nurses and vet and VN students.

The Cumulative Book Index

The BSAVA Small Animal Formulary is the Gold Standard for information on drug use in small animal practice. All the information in this edition has been reviewed by an editorial panel of experts in particular fields, to ensure that it is as accurate and up to date as possible. In the three years since the last edition there has been a considerable change in the classification of medicines. The details of this are presented in the Introduction and the new classification is used throughout. A to Z monographs Generic and Trade Name indices General handling comments included Health and safety considerations
