ROCK'N'ROLL! Wann und wo ist er entstanden? Wofür steht er? Gab es eine Kulturrevolution der Jugend? Welches waren die wichtigsten Songs? Wer waren die einflussreichsten Protagonisten? Essayistisch, erzählend, manchmal auch aufzählend und auf knappem Raum rauscht der Autor Kai Sichtermann, Bassist und Gründungsmitglied der Band Ton Steine Scherben, einmal durch die Rock'n'Roll-Geschichte - von den 1950er bis Ende der 70er Jahren. Ein intuitives Essay für die Enkelgeneration!

Johnny B. Goode im Weltraum

Die Anti-Springer-Kampagne (ASK) der 68er-Bewegung war nicht nur ein Kampf gegen das Meinungsmonopol des Springer-Verlags - sie war auch ein zentraler Faktor der Mobilisierung der Außerparlamentarischen Opposition (APO), deren Akteure die Marktmacht und Berichterstattung des konservativen Verlagshauses scharf kritisierten. Springer wurde als eine Gefahr für die Pressefreiheit in der Bundesrepublik imaginiert. Die ASK, die in der »Springer-Blockade« im April 1968 kulminierte, blieb

nicht ohne Wirkung - insbesondere in Hinsicht auf das Ende der Expansionsstrategie von Springer. Daß Jungs historische Studie zeichnet materialreich nach, wie die ASK zu einem zentralen Projekt vieler studentischer und nicht-studentischer Gruppen und damit zum gemeinsamen Nenner der APO werden konnte.

Jahrbuch für Kommunikationsgeschichte

Freiheit, Menschenschlepper und Abschiebeknast "Die Ausweise, bitte!" So angesprochen, fühlt sich jeder erst mal ertappt. Für Menschen ohne Papiere ist diese Aufforderung eine Katastrophe. Daher dürfen sie nicht auffallen, denn sonst sind sie am Ende. Sind sie Kriminelle? Wie Mörder oder Diebe? Was wissen Sie eigentlich über Ihre Putzfrau, die Pflegerin des Nachbarn, den Maurer von gegenüber? Daniel Gäsche hat sich auf Spurensuche begeben. Er hat "Illegale" begleitet, ihre Schicksale gehört und ihren täglichen Kampf mit der Angst miterlebt. Er war dort, wo diese Menschen Unterkunft, medizinische Versorgung und andere Hilfe finden. Er war auch dort, wo sie enden, wenn sie erwischt werden - im Abschiebeknast. Er befragte Politiker verschiedener Parteien, Kirchenvertreter der unterschiedlichen Konfessionen, Polizisten und Ärzte. Alle erkennen Handlungsbedarf. In packenden Reportagen, spannenden Interviews und berührenden Einzelschicksalen beleuchtet Gäsche die Fakten und Hintergründe zum Leben in der Illegalität in Deutschland. Alternativen zur gegenwärtigen Situation gäbe es. Mit einem Vorwort von Sabine Christiansen

Der Kampf gegen das Presse-Imperium

Ab 1968 strahlt das Schweizer Fernsehen farbig aus. Ab jetzt ist alles bunter. Die Tagesschau berichtet über Proteste in aller Welt. Sie kommen von Berkeley nach Bern, von San Francisco nach Solothurn. Auch in der Schweiz demonstrieren Tausende gegen den Krieg in Vietnam. Angehende Lehrerinnen streiken im Seminar in Locarno. Lehrlinge lehnen sich gegen autoritäre Lehrmeister auf. Die Stones schlagen neue Töne an. Fans schwingen mit und fordern autonome Jugendzentren. "Wehret den Anfängen!"

Deutsche Nationalbibliographie und Bibliographie der im Ausland erschienenen deutschsprachigen Veröffentlichungen

Die 68er polarisieren noch heute: Politisch gescheitert, erfolgreich in der Entwicklung neuer Lebensstile? Dabei gingen Kulturrevolution und Medienevolution Hand in Hand. Presse, Rundfunk und Fernsehen stilisierten Rudi Dutschke, die Kommune I, Che Guevara oder Mao neben den Rolling Stones oder Jimi Hendrix zu Ikonen einer jugendlichen Protestkultur. War die 68-Bewegung mehr als die Inszenierung von Ereignissen im Medienformat? Entlang der Stichworte Happening, Sit-in, Diskussionsfieber, Protestinszenierung u. a. vermittelt das Handbuch einen neuen Blick auf eine politische Strömung, die die Jahrzehnte danach entscheidend verändert und geprägt hat.

Eulenspiegel

Wer Lust auf den Wahnsinn des Alltags und der Politik hat sowie Interesse an Satire und Überraschungen hat, wird nicht enttäuscht werden. Das kann sogar böse enden. Die schrägen Geschichten sind aber keine moralisierenden Märchen. Die Schrägheit der Geschichten nährt sich von makabrer Phantasie, sodass dem Leser das unterhaltungsgetränkte Schmunzeln vergehen kann. Die Tiefgründigkeit hinter den Übertreibungen ist in den Abgründen des Alltäglichen verankert, zumal schwarzer Humor die tabuisierten Grenzen des sozialen Anstands bewusst überschreiten darf.

Eingereist und abgetaucht

Bierstadt räumt auf: Um den Zustrom der zumeist bulgarischen Prostituierten zu stoppen, wird gleich der ganze Straßenstrich geschlossen. Reporterin Maria Grappa ist frühmorgens vor Ort, um über die Polizeiaktion zu berichten und stolpert prompt über eine Leiche. Die junge Frau wurde grausam zugerichtet und regelrecht abgeladen. Bald ist klar, was alle schon vermuteten: Die Tote ist eine der vielen Romafrauen, die vor dem Elend in ihrer Heimat geflüchtet sind, um im gelobten Deutschland ihre Körper gegen Geld zu verkaufen. Aber warum musste sie sterben und dann auch noch vorher so leiden? Grappa lernt Ivana Rose kennen, die früher selbst auf den Strich gegangen und nun als

Dolmetscherin tätig ist. Die Journalistin erfährt viel über das Selbstbild der bulgarischen Romafamilien - und sie hört von den "Bulga-Twins"

68 – was bleibt?

It was a year of seismic social and political change. With the wildfire of uprisings and revolutions that shook governments and halted economies in 1968, the world would never be the same again. Restless students, workers, women, and national liberation movements arose as a fierce global community with radically democratic instincts that challenged war, capitalism, colonialism, and patriarchy with unprecedented audacity. Fast forward fifty years and 1968 has become a powerful myth that lingers in our memory. Released for the fiftieth anniversary of that momentous year, this second edition of Philipp Gassert's and Martin Klimke's seminal 1968 presents an extremely wide ranging survey across the world. Short chapters, written by local eye-witnesses and historical experts, cover the tectonic events in thirty-nine countries across the Americas, Europe, Asia, Australia, Africa, and the Middle East to give a truly global view. Included are forty photographs throughout the book that illustrate the drama of events described in each chapter. This edition also has the transcript of a panel discussion organized for the fortieth anniversary of 1968 with eyewitnesses Norman Birnbaum, Patty Lee Parmalee, and Tom Hayden and moderated by the book's editors. Visually engaging and comprehensive, this new edition is an extremely accessible introduction to a vital moment of global activism in humanity's history, perfect for a high school or early university textbook, a resource for the general reader, or a starting point for researchers.

Zitty

Anschaulich, detailreich und ein wenig nostalgisch portraitiert der Autor Leben und Alltag der Wirtschaftswundergeneration, die in den 50er- und 60er- Jahren Deutschland neu aufbaute.

Neue Folge. 60. Jahrgang 2008

Hardy Hanappi erinnert sich an die Musik, die gehört, und an die Bücher, die gelesen wurden, an Emanzipationskämpfe, an Sex and Drugs und den Summer of Love, an Karl Marx und was er mit der Revolution zu tun hatte. Während die ersten Menschen am Mond landeten, während eine halbe Million junge Soldaten nach Vietnam geschickt wurden, während schwarze Bürgerrechtskämpfer und anti-stalinistische Emanzipationsbewegungen in Osteuropa das jeweilige Establishment herausforderten, entwickelte die Jugend der 68er ein eigenes weltweites Lebensgefühl, eine Vision. Die meisten von ihnen leben noch heute und werden sich in diesem Buch wiederfinden, vielleicht sogar etwas klarer sehen, was damals vor sich ging. Das Buch leitet aber auch in die Gegenwart, ja in die Zukunft. Denn auch heute braucht eine Jugend nichts dringender als eine Vision, wie sie leben möchte. Das Vermächtnis der Generation 68 sind nicht nur unzählige kleine praktische Emanzipationsschritte, das wichtigste Vermächtnis für die heutige Jugend ist ebendiese Vision. Die Generation 68 ist kein lokales Phänomen, das nur im nationalen Kontext eines bestimmten Landes auftrat, ihre Entstehung war vor allem ein globales kulturelles Ereignis. Es konnte nur entstehen, weil eine genügend große Anzahl von Ländern eine genügend weit entwickelte Kommunikationstechnologie hervorgebracht hatte, die es gestattete, grundlegende kulturelle Verhaltensweisen weltweit zu übertragen und Imitation zu ermöglichen.

1968. Handbuch zur Kultur- und Mediengeschichte der Studentenbewegung

In this book, the glory days of progressive rock are relived in a series of insightful essays about the key bands, songwriters and songs that made prog-rock such an innovative style.

Magic, music, drugs and rock'n'roll in an early novel from George R. R. Martin, author of A GAME OF THRONES One-time underground journalist Sandy Blair has traveled far from his radical roots in the '60s - until the bizarre and brutal murder of a millionaire rock promoter draws him back. As Sandy sets out to investigate the crime, he finds himself on a magical mystery tour of the pent-up passions of his generation. For a new messiah has resurrected the once legendary rock band Nazgûl - but with an apocalyptic new beat that is a requiem of demonism, mind control, and death only Sandy may be able to change in time ...

Thomas Gottschalk

Biographical dictionary emphasizes classical and art music; also gives ample attention to the classics as well as Jazz, Blues, rock and pop, and hymns and showtunes across the ages.

Das Chamäleon der Zukunft

Music was integral to the profound cultural, social and political changes that swept the globe in 1968. This collection of essays offers new perspectives on the role that music played in the events of that year, which included protests against the ongoing Vietnam War, the May riots in France and the assassination of Martin Luther King, Jr. From underground folk music in Japan to antiauthoritarian music in Scandinavia and Germany, *Music and Protest in 1968* explores music's key role as a means of socio-political dissent not just in the US and the UK but in Asia, North and South America, Europe and Africa. Contributors extend the understanding of musical protest far beyond a narrow view of the 'protest song' to explore how politics and social protest played out in many genres, including experimental and avant-garde music, free jazz, rock, popular song, and film and theatre music.

Grappa lässt die Puppen tanzen

This collection brings together new and original critical essays by eleven established European American Studies scholars to explore the 1960s from a transatlantic perspective. Intended for an academic audience interested in globalized American studies, it examines topics ranging from the impact of the American civil rights movement in Germany, France and Wales, through the transatlantic dimensions of feminism and the counterculture movement. It explores, for example, the vicissitudes of Europe's status in US foreign relations, European documentaries about the Vietnam War, transatlantic trends in literature and culture, and the significance of collective and cultural memory of the era.

I can't get no

The life and works of one of the most difficult yet rewarding composers of modern time.

International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences

It also shows how work with a connection to Vienna by international stars like David Bowie, Wes Anderson, and Christoph Schlingensiefel has absorbed the same principles. While the overwhelming scale of technological development and the ensuing problems and crises may not have been deliberately designed to induce resignation, passivity, and despair, those who benefit from the related hyperobjects of financialization and climate change must find it convenient that they do, as demoralization reduces resistance to their profit-making machinations. It is in this context that Red Vienna's proud tradition of social engagement and long tradition of resistance and radicality deserves to be better known. Susan Ingram is Professor in the Department of Humanities at York University, Toronto, where she coordinates the Graduate Diploma for Comparative Literature and is affiliated with the Canadian Centre for German and European Studies and the Research Group on Language and Culture Contact. .

In this an interdisciplinary study of a diverse set of public speeches given by major literary and cultural figures in the 1950s and 1960s, Sonja Boos demonstrates that these speakers both facilitated and subverted the construction of a public discourse about the Holocaust in postwar West Germany.

Generation Käfer

A spoof of 1930s movie musicals.

Generation 68

Cecil Clarke's adaptation for television has been used as the basis for the current revised version. While retaining all the well-known musical numbers, it allows a more fluid production, no longer dependent

on major scene changes, and, by omitting scenes incidental to the main plot, has concentrated on the central love story between penniless, unknown composer, Rudi Kleber, who leaps to fame in Vienna of 1911, and the operetta star who first befriends him, Maria Ziegler.

Progressive Rock Reconsidered

As the western world's most wanted terrorist, Osama bin Laden has fought to keep his personal life a mystery – loyalty and fear keeping those who know him from speaking out – until now. For the first time, two of Osama's closest family members, his first wife Najwa and their fourth son Omar, go behind the headlines to reveal the truth about the character and life of a man feared and revered around the globe. In gripping detail, they recount the drama, tensions, and everyday activities of the man they knew as a husband and father. Married at fifteen, Najwa describes the transformation of the quiet, serious young man she fell in love with into an authoritarian husband and stern father, an entrepreneur, and – finally – the leader of a complex international terrorist network. Uprooted from a life of extraordinary luxury and privilege in Saudi Arabia, they suddenly found themselves living life on the run, fleeing from country to country under assumed names and fake passports. Omar describes how he and his siblings were brought up in remote ranches and fortified Afghani mountain camps, handling Kalashnikovs and learning desert survival skills. Their eventual escape from Afghanistan would come just days before the terrible events of 9/11 changed the world forever. With unprecedented access and exclusive family photographs, Jean Sasson, author of the bestselling *Princess*, presents the story that we were never meant to hear.

The Armageddon Rag

'Institutional critique' is best known through the critical practice that developed in the late 1960s and early 1970s by artists who presented radical challenges to the museum and gallery system. Since then it has been pushed in new directions by new generations of artists registering and responding to the global transformations of contemporary life. The essays collected in this volume explore this legacy and develop the models of institutional critique in ways that go well beyond the field of art. Interrogating the shifting relations between 'institutions' and 'critique', the contributors to this volume analyze the past and present of institutional critique and propose lines of future development. Engaging with the work of philosophers and political theorists such as Michel Foucault, Judith Butler, Gilles Deleuze, Antonio Negri, Paolo Virno and others, these essays reflect on the mutual enrichments between critical art practices and social movements and elaborate the conditions for politicized critical practice in the twenty-first century.

The Harvard Biographical Dictionary of Music

Seeking to extend discussions of 9/11 music beyond the acts typically associated with the September 11th attacks"U2, Toby Keith, The Dixie Chicks, Bruce Springsteen"this collection interrogates the politics of a variety of post-9/11 music scenes. Contributors add an aural dimension to what has been a visual conceptualization of this important moment in US history by articulating the role that lesser-known contemporary musicians have played"or have refused to play"in constructing a politics of protest in direct response to the trauma inflicted that day. Encouraging new conceptualizations of what constitutes 'political music,' *The Politics of Post-9/11 Music* covers topics as diverse as the rise of Internet music distribution, Christian punk rock, rap music in the Obama era, and nostalgia for 1960s political activism.

Hair

As dazzling as the decade they dominated, The Beatles almost single-handedly created pop music as we know it. Today, their songs are cited as seminal influences by stars like Oasis, Blur and Kula Shaker. Eloquently giving voice to their time, The Beatles quite simply changed the world. Fully updated to include material from *The Beatles Live at the BBC* and the *Anthology* series, this acclaimed book goes back to the heart of The Beatles - their records. Drawing on a unique resource of knowledge and experience to 'read' their 241 tracks - chronologically from their first amateur efforts in 1957 to 'Real Love', their final 'reunion' recording in 1995 - Ian MacDonald has created an engrossing classic of popular criticism in which the extraordinary songs of The Beatles remain a central and continually surprising presence.
