Kimia Kuantum Untuk Perekrayasa Nanomaterial

Nanomaterial adalah material berdimensi nano, yaitu dimensi antara 1 sampai dengan 100 nm. Ketika benda-benda diperkecil ukurannya memasuki dimensi nano maka sifat-sifat materi dapat berubah. Sebagai contoh, di ukuran meruahnyanya sebatang aluminium tidak dapat digunakan sebagai propellant. Akan tetapi, pada dimensi nanonya, serbuk nanoaluminium merupakan campuran propelant yang dapat meningkatkan kinerja bahan bakar roket. Karena ukurannya yang sangat kecil maka untuk dapat mempelajari nanomaterial secara lebih baik diperlukan pengetahuan kimia kuantum yang memadai. Kimia kuantum adalah salah satu cabang dari ilmu kimia yang mempelajari fenomena-fenomena kuantum material, mulai dari fenomena atom, molekul, magnetik, spektra atom, dan lain-lainnya. Dengan menggunakan kimia kuantum diharapkan peneliti bidang rekayasa nanomaterial dapat memperdalam pengetahuan dan keterampilannya tentang nanomaterial, baik fenomena, sintesis, karakterisasi, maupun produksinya dalam skala masif. Buku Kimia Kuantum untuk Perekrayasa Nanomaterial ini ditujukan untuk pembaca yang memiliki latar belakang yang mencukupi dalam bidang kimia, fisika, matematika, dan teknik, sehingga banyak konsep dan persamaan matematika yang ditulis cukup komprehensif untuk memudahkan pemahaman akan kimia kuantum. Di bagian awal buku disajikan konsep koordinat dan persamaan-persamaan matematika yang banyak digunakan dalam kimia kuantum, seperti diferensial orde dua, matriks, dan operator. Di bab-bab berikutnya disampaikan tentang sejarah kimia kuantum, teori atom, dan molekul. Di bagian akhir dipaparkan sedikit tentang ikatan kimia dan spektroskopi atom. Karena keterbatasan halaman maka aplikasi di bidang nanomaterial akan dibahas di jilid berikutnya.

BLURB Indonesia adalah satu pusat studi Islam di dunia saat ini selain Timur Tengah. Indonesia memiliki sejumlah Perguruan Tinggi yang didalamnya terdapat sejumlah pakar Keislaman termasuk bidang Pendidikan Islam. Para Guru Besar Pendidikan Islam yang dikaji dalam buku ini adalah sosok yang inspiratif dan kontributif dalam dinamika studi Islam secara umum dan pendidikan Islam secara khusus. Yang lebih unik, banyak diantara para pakar tersebut menempuh pendidikannya dengan penuh tantangan, namun mereka tetap konsisten dalam menjaga tradisi belajarnya hingga mampu meraih jabatan akademik tertinggi. Agar menghasilkan karya ilmiah yang bermutu di bidang pendidikan Islam selayaknya mengutip pendapat para pakar pendidikan Islam yang memiliki spirit keilmuan yang handal. Buku ini memberikan informasi awal para pakar tersebut sehingga layak dibaca dan menjadi salah satu referensi para peneliti dan pemerhati pendidikan Islam

Filsafat merupakan ilmu yang membantu kita menghadapi berbagai masalah dengan cara berpikir kritis. Banyak alasan orang mulai belajar filsafat, contohnya untuk memahami akar masalah dalam kehidupan, memperoleh wawasan tentang manusia, dan satu hal yang paling penting adalah untuk mengembangkan serta meningkatkan diri sendiri. Pada tingkat yang lebih dalam, mempelajari filsafat atau berusaha memahaminya lebih baik akan membuat seseorang tidak menjadi egosentris dan merasa selalu benar. Filsafat memiliki peran yang signifikan dalam kemajuan berbagai disiplin ilmu, dimana salah satunya adalah ilmu akuntansi. Dalam pengembangan ilmu pengetahuan, filsafat ilmu berperan dalam mencari akar penyebab yang mendasari serta akhir dari suatu fenomena. Tidak hanya itu saja, filsafat ilmu juga berperan dalam memberikan pemikiran kritis terhadap isu yang berkaitan dengan dasar-dasar ilmu dan interaksi ilmu dari berbagai aspek kehidupan manusia.

'Destined Statecraft enriches our understanding of global affairs by presenting a perspective where small powers are no longer in the periphery, but take up the main narrative. This standpoint is all the more valuable in an age where the proactive decision-making of small powers often goes unobserved. Professor Wong's *Destined Statecraft* offers a fresh lens for discerning world issues, helping to extend the reader's vision beyond the exterior towards a greater perception of the world we live in.'

—Mr Sungham Lim, Vice-Minister of Ministry of Foreign Affairs, Republic of Korea

This book considers the post-2010 strategic shifts in the Anglo-American geopolitical approach to Asia as a pivotal new strategy in the U.S. geo-strategic containment plan, which has been reformed to rebalance the rise of China and the Eurasian heartland in the course of the two decades since the disintegration of the Soviet Union in the early 1990s. At this critical global-historical juncture, the People's Republic of China has also devised a new counter-containment endeavor – the 'One Belt One Road' initiative, which aims to re-connect it with all the countries on the Eurasian landmass, forming a single community. Against this backdrop of the intensifying geopolitical and geo-economic competition between the U.S. and China, this book calls for the revival and reinvigoration of selected Eurasian small powers' embedded geopolitical, political-economic and strategic-cultural structures. Drawing on Pierre Bourdieu's notion of habitus, the book argues that these self-changing and unceasingly structuring structures do not only constrain and limit, but also enable and galvanize small powers' strategists and policy-makers to proactively generate creative means-and-ends calculations, conduct prudent security assessments, and devise measured and responsive strategic deployments. In this context, the book proposes that the small powers return to their own religious, cultural and intellectual roots. It also argues for the need to rediscover their own strategic cultures as an essential means of re-inventing and implementing their own unique models of national development. As a substantial contribution to the subfields of small power politics and strategic cultures in international relations, the book marks a paradigm shift in both theory and practice. Exploring historical case studies from such diverse African, Asian and European powers as the Philippines, Liberia, Myanmar, India, Nepal, Sri Lanka, Bangladesh, Pakistan, Thailand, Germany, Japan, Indonesia, Russia, the European Union, Ukraine, Poland and the United

Kingdom as well as China, the book presents engaging dialogues with a wealth of classical and contemporary Western and non-Western strategic thinkers, including: Thucydides, Sun Tzu, Halford Mackinder, Kautilya, King Solomon, Li Zongwu, King Bhumibol Adulyadej, Karl Haushofer, Carl Schmitt and the Malayo-Polynesian datu, as well as John Mearsheimer. In light of the post- 2017 U.S. 'America First' foreign policy agenda, this book represents an essential guide for small powers' strategists, foreign policy-makers, security practitioners and national development planners – introducing them to a broader spectrum of strategic options that will help them not just survive, but thrive in the constantly shifting geopolitical currents of our time.

Destined Statecraft

Ide awal buku ini lahir pada penghujung tahun 2020 saat kami menggagas perlunya mengundang ilmuwan sosial politik dari seluruh dunia untuk menulis refleksi bersama atas situasi demokrasi di Indonesia dalam rangka ulang tahun ke-50 LP3ES yang jatuh pada 19 Agustus 2021. Forum itu kemudian kami beri nama Forum 100 Ilmuwan Sosial Politik. Di forum itu, 3-4 orang ilmuwan sosial politik dari berbagai negara di dunia hadir setiap minggu, untuk berbicara di webinar LP3ES tentang berbagai tema, antara akhir Oktober 2020 hingga awal Juni 2021. Tercatat, ada 135 ilmuwan sosial politik (92 laki-laki dan 43 perempuan) yang bergabung bersama kami, baik berbicara dalam webinar, mengirimkan tulisan, ataupun berbicara dan mengirimkan tulisan sekaligus. Dari 135 ilmuwan tersebut, 77 orang (58 laki laki dan 19 perempuan) di antaranya menuliskan refleksi kritis dan mempercayakannya kepada kami untuk diterbitkan di dalam buku ini. Mereka tidak hanya ilmuwan sosial politik dari Indonesia, namun juga 19 Indonesianist dari berbagai negara: Kanada, Australia, Norwegia, Jerman, Tiongkok, Singapura, Inggris, Amerika, Belanda, Perancis, dan Jepang. Kami percaya para penulis itu hadir dengan satu niat tulus dan sederhana: memberikan kontribusi bagi kemajuan demokrasi di Indonesia. Dan barangkali, seperti halnya kami, mereka juga percaya bahwa satu generasi baru Indonesia yang dapat menjawab tuntutan zaman sudah saatnya untuk dilahirkan. Satu siklus dua puluh tahunan yang dimulai dari kelahiran Sumpah Pemuda 1928, Proklamasi Kemerdekaan 1945, pergerakan mahasiswa tahun 1965, Reformasi 1998, dan siapa tahu: 2021! Satu generasi yang lebih bercorak kosmopolitan, yang berisi orang-orang Indonesia ataupun bukan, yang berbagi nasib menyaksikan pandemi yang belum tentu 100 tahun sekali terjadi, yang benaknya prihatin memikirkan kemunduran Indonesia dan bersama-sama melakukan refleksi dalam buku ini! Semoga niat itu sampai ke langit lalu kembali turun ke bumi menjadi butiran-butiran air hujan yang menjadi satu penanda: generasi baru akan segera lahir!

Pondok Pesantren identik dengan Kiai yang merupakan figur sentral berdiri dan berkembangnya lembaga pendidikan ini. Sebagai Power and Authority, Kiai memiliki gaya kepemimpinan fundamental sekaligus visioner. Manajemen Pondok Pesantren merupakan interpretasi visi Kiai yang sudah ditetapkan jauh sebelum berdirinya tembok dan kamar kecil (bilik) yang menjadi sarana dan prasarana santri. Pada awalnya manajemen Pondok Pesantren sangat sederhana dan mudah dimengerti oleh siapapun. Kiai merencanakan tujuan pendirian Pondok Pesantren untuk melestarikan ajaran Islam. Rencana ini terlaksana secara alami dengan terisinya bangunan dan santri. Kiai hanya menginginkan santri belajar sungguh-sungguh dan mendapat ilmu yang bermafaat. Proses ini dilakukan oleh Kiai untuk memastikan perkembangan pengetahuan keagamaan (tafaqquh fiddin) santri pada tahap tertentu. Proses ini disebut kontrol kegiatan yang merupakan rencana visi Kiai. Tahap terakhir adalah evaluasi dan pengembangan santri. Kemampuan santri diuji dengan hafalan dan nalar yang kuat sebelum dinyatakan lulus dan mendapatkan ijazah khusus Pondok Pesantren. Evaluasi ini berguna untuk meningkatkan program santri selama di Pondok Pesantren. Saat ini banyak Pondok pesantren yang sudah menerapkan manajemen modern yang tidak hanya berpaku pada sosok Kiai. Buku ini memberi pandangan permulaan munculnya Kiai sebagai manajer Pondok Pesantren dan perkembangannya.

Manajemen Pondok Pesantren

Bagi sebagian awam, berfilsafat tidak jarang dipandang sebagai permainan kata-kata untuk memuaskan dahaga intelektual semata. Tidaklah demikian bagi seorang filsuf. Bagi seorang filsuf, berfilsafat tidak cukup hanya untuk mengenyangkan rasa ingin tahu, tetapi untuk dihidupi dan dilakoni. Tepatnya, berfilsafat diperlukan untuk membantu manusia menemukan kebenaran, berpikir kritis dan rasional, menata relasinya dengan alam, memahami ilmu pengetahuan secara tepat, menyadari keberadaan dirinya dan perubahan sosial yang terjadi di luar dirinya, menata relasinya dengan sesama supaya berjalan dengan baik dan benar. Berfilsafat dibutuhkan juga untuk membangun peradaban manusia melalui pendidikan. Ditulis dengan gaya bahasan yang berbeda-beda dan tanpa upaya untuk menggurui, artikel-artikel dalam buku kecil ini merupakan ajakan bagi para pembaca untuk berfilsafat demi hidup dan tidak untuk kepuasan intelektual semata.

Melangkah dengan Akal Budi, Karsa, dan Karya

Buku yang didasari oleh kerja riset selama tahun 2020 ini membangun satu argumen bahwa situasi kemunduran demokrasi yang disebabkan oleh problem struktural semakin terkonsolidasinya oligarki, problem agensi di mana pemimpin terpilih secara demokratis justru memunggungi demokrasi, serta problem kultural masih setengah hatinya publik mendukung demokrasi ditambah dengan makin melemahnya masyarakat sipil, telah menjadi prakondisi yang menjelaskan serangkaian blunder kebijakan pemerintah selama pandemi dari mulai komunikasi krisis yang buruk, pemaksaan new normal, pengesahan omnibus law hingga pelaksanaan pilkada langsung di tengah pandemi. Di balik rangkaian blunder kebijakan itu adalah kepentingan segelintir elit oligarki untuk mengamankan kepentingan ekonomi politik mereka dan abai pada nyawa dan keselamatan warga semestinya menjadi panglima. Di sisi hukum, kuasa oligarki ini termanifestasi dalam wujud lumpuhnya pemberantasan korupsi hingga praktek buruk pembentukan hukum yang mencerminkan legalisme otokratik, serta impunitas dan sistematiknya kejahatan negara melalui praktik yang kian memanfaatkan peradilan dalam memfasilitasi bekerjanya kuasa represif. Pada saat yang sama, ekonomi solidaritas runtuh seiring dengan kemerosotan demokrasi yang kian mengarah pada otoritarianisme. Namun di tengah mendung nestapa yang menggelayuti demokrasi Indonesia selama 2020, ada secercah harapan untuk merangkai asa menapaki 2021. Itu adalah perlawanan masyarakat sipil yang terus bermunculan pada setiap kebijakan yang bermasalah, di antaranya seperti terefleksi dalam ruang publik digital, yang menciptakan semacam resistensi terhadap kemunduran demokrasi (*resistance to democratic regression*). Untuk itu, yang diperlukan adalah memperkuat dan memperluas perlawanan, membangun sinergi dan kolaborasi, sehingga masyarakat sipil bisa menjadi penantang yang mampu mengimbangi kekuatan oligarki. Buku ini adalah undangan untuk tidak hanya mendiskusikan hal-hal di atas, namun juga merumuskan langkah konkret untuk bergerak bersama demi menyelamatkan demokrasi Indonesia.

Telekomunikasi telah mengubah peradaban umat manusia. Kehadiran secara fisik sosok manusia, dalam sepuluh tahun terakhir, untuk beberapa hal, tidak diperlukan lagi dan telah digantikan dengan bantuan teknologi telekomunikasi. Transaksi perbankan secara on line, transaksi jual beli melalui internet, sekolah jarak jauh, telemedication, e-ticketing, merupakan contoh-contoh yang sekarang telah lazim dilakukan oleh masyarakat luas baik di kota besar maupun di kota kabupaten. Pedagang sayur keliling, tukang becak, tukang pijit, penjual makanan di pinggir jalan, tukang jahit keliling, pedagang cinderamata, pengrajin batik, pengrajin gerabah, juga telah menikmati kemudahan menawarkan usahanya melalui internet, sms, BlackBerry, whatsapp, line, face book, twitter, dan media telekomunikasi lain yang sesuai dengan kebutuhannya. Pertumbuhan industri jasa telekomunikasi yang sangat besar di Indonesia, telah mengundang para investor asing untuk ikut menikmati pasar yang begitu besar, yakni hampir 250 juta pelanggan jasa telekomunikasi diakhir tahun 2012 yang lalu. Apabila kita asumsikan bahwa 250 juta pelanggan tersebut hanya mempunyai satu gadget dengan harga rata-rata 1 juta rupiah, maka saat ini terdapat pasar perangkat telekomunikasi yang nilainya sekitar 25 triliun rupiah. Disisi jaringan telekomunikasi, menurut Menkominfo, total belanja modal seluruh operator untuk perangkat telekomunikasi pada akhir 2012 mencapai 45 triliun. Dengan demikian, di bidang perangkat telekomunikasi terdapat opportunity sekitar 70 triliun rupiah yang saat ini dinikmati oleh pengusaha asing, oleh karena perangkat telekomunikasi tersebut sebagian besar masih diimpor.

An intriguing examination of the extraordinary—and little known meeting between St. Francis of Assisi and Islamic leader Sultan Malik Al-Kamil that has strong resonance in today's divided world. For many of us, St. Francis of Assisi is known as a poor monk and a lover of animals. However, these images are sadly incomplete, because they ignore an equally important and more challenging aspect of his life -- his unwavering commitment to seeking peace. In *The Saint and the Sultan*, Paul Moses recovers Francis' s message of peace through the largely forgotten story of his daring mission to end the crusades. In 1219, as the Fifth Crusade was being fought, Francis crossed enemy lines to gain an audience with Malik al-Kamil, the Sultan of Egypt. The two talked of war and peace and faith and when Francis returned home, he proposed that his Order of the Friars Minor live peaceably among the followers of Islam—a revolutionary call at a moment when Christendom pinned its hopes for converting Muslims on the battlefield. The Saint and the Sultan captures the lives of St. Francis and Sultan al-Kamil and illuminates the political intrigue and religious fervor of their time. In the process, it reveals a startlingly timely story of interfaith conflict, war, and the search for peace. More than simply a dramatic adventure, though it does not lack for colorful saints and sinners, loyalty and betrayal, and thrilling Crusade narrative, *The Saint and the Sultan* brings to life an episode of deep relevance for all who seek to find peace between the West and the Islamic world. The Canon of Medicine (al-Q nkn F+'l-mibb)

"As . . . newer approaches [to biblical criticism] become more established and influential, it is essential that students and other serious readers of the Bible be exposed to them and become familiar with them. That is the main impetus behind the present volume, which is offered as a textbook for those who wish to go further than the approaches covered in *To Each Its Own Meaning* by exploring more recent or experimental ways of reading." „from the introduction This book is a supplement and sequel to *To Each Its Own Meaning*, edited by Steven L. McKenzie and Stephen R. Haynes, which introduced the reader to the most important methods of biblical criticism and remains a widely used classroom textbook. This new volume explores recent developments in, and approaches to, biblical criticism since 1999. Leading contributors define and describe their approach for non-specialist readers, using examples from the Old and New Testament to help illustrate their discussion. Topics include cultural criticism, disability studies, queer criticism, postmodernism, ecological criticism, new historicism, popular culture, postcolonial criticism, and psychological criticism. Each section includes a list of key terms and definitions and suggestions for further reading.

The Law of Nations; Or, Principles of the Law of Nature, Applied to the Conduct and Affairs of Nations and Sovereigns

In October 1999, Abdurrahman Wahid, almost blind and recovering from a nearfatal stroke, was elected as Indonesia's fourth president. Referred to as 'Indonesia's surprising new president' by the Economist, the man who had commanded the highest respect of his fellow countrymen for his lifetime devotion to public service, liberal democracy and tolerant Islam, was impeached in humiliating and controversial circumstances less than two years later. Wise to some, insolent to others, Abdurrahman's mercurial style of leadership constantly confounded critics and ultimately caused him to be widely misunderstood by both domestic and international observers. For the first time, biographer Greg Barton delves beneath

the surface and gives us a unique insight into the man and his world drawn from his long relationship with Gus Dur - including being at his side during the final extraordinary months of the presidency. Those interested in the drama of modern Indonesian politics will find this book provides a fascinating and invaluable account of the enigmatic Gus Dur.

The Saint and the Sultan

In September, 1219, as the armies of the Fifth Crusade besieged the Egyptian city of Damietta, Francis of Assisi went to Egypt to preach to Sultan al-Malik al-Kâmil. Although we in fact know very little about this event, this has not prevented artists and writers from the thirteenth century to the twentieth, unencumbered by mere facts, from portraying Francis alternatively as a new apostle preaching to the infidels, a scholastic theologian proving the truth of Christianity, a champion of the crusading ideal, a naive and quixotic wanderer, a crazed religious fanatic, or a medieval Gandhi preaching peace, love, and understanding. Al-Kâmil, on the other hand, is variously presented as an enlightened pagan monarch hungry for evangelical teaching, a cruel oriental despot, or a worldly libertine. Saint Francis and the Sultan takes a detailed look at these richly varied artistic responses to this brief but highly symbolic meeting. Throwing into relief the changing fears and hopes that Muslim-Christian encounters have inspired in European artists and writers in the centuries since, it gives a uniquely broad but precise vision of the evolution of Western attitudes towards Islam and the Arab world over the last eight hundred years.

Public Policy Analysis

The increasing demand for halal products, including goods and services, every year, especially for food and beverages, has resulted in a growing need for products with halal guarantees. Along with the increasing trend of the global demand, it has resulted in an increase in producers of halal food and beverages in both Muslim and non-Muslim countries. In addition the demand for halal tourism is also increasing. Indonesia is one of the largest Muslim countries in the world. However, there are still many Muslim consumer actors and Muslim producer actors who do not yet have an awareness of the importance of complying with the provisions of Islamic law in consuming and producing goods and services. There are still many restaurants and hotels that serve food and drinks that are not certified halal. There are still many food, medicinal and cosmetic products that are not halal certified. But now many secular countries such as France, Canada, Australia, the United States, Britain are also halal certified with the aim of meeting the Muslim demand for halal products for food and beverage, including for halal tourism. Starting from the development of the halal industry both in the fields of food, beverages and services, an International Seminar was held, which provides a more complete understanding of halal products, current halal developments and can serve as motivation to produce halal products, providing research results from the topic of halal development. The international seminar, entitled International Conference on Halal Development, listed speakers from several countries able to provide an overview of the halal development of several countries. This book contains a selection of papers from the conference.

Saint Francis and the Sultan

Science Teaching argues that science teaching and science teacher education can be improved if teachers know something of the history and philosophy of science and if these topics are included in the science curriculum. The history and philosophy of science have important roles in many of the theoretical issues that science educators need to address: what constitutes an appropriate science curriculum for all students; how science should be taught in traditional cultures; how scientific literacy can be promoted; and the conflict which can occur between science curriculum and deep-seated religious or cultural values and knowledge. Outlining the history of liberal approaches to the teaching of science, Michael Matthews elaborates contemporary curriculum developments that explicitly address questions about the nature and the history of science. He provides examples of classroom teaching and develops useful arguments on constructivism, multicultural science education and teacher education.
