Intro

Warren's Giant Pots - the inspiration for this experiment

Detail possible with new weatherproof paper mache clay

Problem when I tried Warren's recipe

My successful test of Warren's recipe

Why I simplified the recipe

Why I created two different recipes for weatherproof paper mache clay

Test pieces for both recipes, after letting them soak in water

Recipe 1: Weatherproof paper mache clay with drywall joint compound

Testing the mix to see how long it would stay workable

Recipe 2: Weatherproof paper mache clay without drywall joint compound

The different texture between the two recipes

Why we need more experiments in different climates

Things to remember when experimenting with the recipes

Seal your sculptures before putting them outside

Why it takes longer for these sculptures to dry

Why the inside of the sculpture should also be weatherproof

Why you should never wash your bowl or utensils in the sink

Summary and my plans for making an outdoor sculpture
