Nellie's Reading Log

Hello, Nellie! Welcome to the world of books. This colorful, personalized keepsake is just for you. In Nellie's Reading Log, your family and friends will be able to record the first 200 books you read and prepare you for a lifetime of reading, achievement, and success. Sprinkled with great advice and inspiration, this memory book will remind you throughout your life of those books and people who inspired you. A note for adults: recording a child's first books creates a mindset of reading—the first steps to a lifetime of learning and growth.

Nellie

Nellie White (nee Askey) was born in 1906 and brought up in a working-class Darlaston family. Her daughter, Marion Rowley, has compiled this book from memories passed on by Nellie, and the result paints a vivid picture of the Darlaston that has disappeared. The folk who walked the streets of this bustling little town and lived in its back-to-back houses would not recognise it today. The changing face of Darlaston is discovered here, set against the backdrop of Nellie's own life, and we see her through childhood and schooldays, times of privation, teenage years and marriage. Nellie's memories were recorded during her old age, and she recalls in astonishing detail the minutiae of everyday life in this part of the Black Country during the first half of the twentieth century. This book will be a valuable record of days gone by and is sure to appeal to those interested in the social history of the Black Country.

Laura & Nellie

Laura tries to get even with Nellie, the meanest girl in school.

It Can't Be Done, Nellie Bly!

This is the true story of Nellie Bly, a bold woman, reporter, and adventurer who set a world record for her famous journey around the globe. Nellie Bly was a nineteenth century newspaper reporter for the New York World, but instead of writing about "ladylike" subjects like tea parties and charity balls, Nellie wrote about critical social problems of her day—poor job conditions, dilapidated housing, and dishonest politicians. If someone told her "It can't be done, Nellie Bly," she went right ahead and did it anyway. So when Nellie read Jules Verne's novel, *Around the World in Eighty Days*, she was inspired to circle the globe herself in an attempt to beat the record of the fictional character Phileas Fogg. But would she go too far in her quest? Young fans of history will cheer for Nellie Bly as she embarks on her 22,000-mile trip. Equipped only with one sturdy travel dress, a small satchel, and a pet monkey she picks up in Singapore, Bly travels by ship, train, and foot, experiencing incredible events and places—from a monsoon at sea to a leper colony in China. This delightful true story of a woman with an indomitable spirit will inspire a new generation of young women and adventurers. Back matter includes additional information about Nellie Bly's life.

She Persisted: Nellie Bly

Inspired by the #1 New York Times bestseller *She Persisted* by Chelsea Clinton and Alexandra Boiger comes a chapter book series about women who stood up, spoke up and rose up against the odds! Nellie Bly was a journalist and one of the first investigative reporters ever. She went undercover to expose wrongdoing and famously raced around the world so she could write about the experience for her newspaper. Reaching for her dreams wasn't easy. But Nellie never gave up, no matter how many obstacles she faced--and she helped others along the way. In this chapter book biography by New York Times bestselling author Michelle Knudsen, readers learn about the amazing life of Nellie Bly--and how she persisted. Complete with an introduction from Chelsea Clinton!

Nellie McClung

Writer, activist, and politician Nellie McLung (1873-1951) was a strong and effective voice for the women's movement. She was one of the Famous Five suffragists from Alberta whose court challenge in the Persons Case led to women in Canada being declared to be legal "persons" in 1929. | Margaret Macpherson holds a Masters Degree in Creative Writing from the University of British Columbia and has worked as a teacher and journalist in Halifax, Bermuda, and Vancouver. She currently lives in Edmonton with her husband and four children.

Following Nellie Bly

The remarkable story of one of the great pioneering women adventures of the 19th century. Intrepid journalist Nellie Bly raced through a 'man's world' — alone and literally with just the clothes on her back — to beat the fictional record set by Jules Verne's Phileas Fogg in *Around the World in 80 Days*. She won the race on 25 January 1890, covering 21,740 miles by ocean liner and train in 72 days, and became a global celebrity. Although best known for her record-breaking journey, even more importantly Nellie Bly pioneered investigative journalism and paved the way for women in the newsroom. Her undercover reporting, advocacy for women's rights, crusades for vulnerable children, campaigns against oppression and steadfast conviction that 'nothing is impossible' makes the world that she circled a better place. Adventurer, journalist and author, Rosemary J Brown, set off 125 years later to retrace Nellie Bly's footsteps in an expedition registered with the Royal Geographical Society. Through her recreation of that epic global journey, she brings to life Nellie Bly's remarkable achievements and shines a light on one of the world's greatest female adventurers and a forgotten heroine of history.

Nellie's Memories

"One of the most cited collections of letters by a Civil War soldier, A Soldier's Letters to Charming Nellie was originally published in 1908. A unit history of the 4th Texas Infantry in epistolary form, Joseph B. Polley's letters make available the correspondence of a soldier who participated in virtually all military action in the Eastern Theater. Polley was an unusually gifted writer, with a talent for satire and humor unmatched by most Civil War diarists." "In this definitive, annotated edition, Richard B. McCaslin has prepared new transcriptions of the letters and compared variant versions of them, resolving many of the historiographical puzzles that surround this wonderful collection. McCaslin also includes an analysis of when, how, and why Polley wrote the letters." "The volume will aid historians interested in the activities of the Army of Northern Virginia and its commanders, and especially students of Hood's Texas Brigade."--BOOK JACKET.

Nelly's Grannies

NELLIE BLY (1864-1922) was a newspaper reporter who pioneered the field of investigative journalism. Before women even had the right to vote, she fascinated readers around the world with her adventures. In a stunning tale, she exposes abuse levied by doctors and nurses towards the poor women in their care. Around The World In 72 Days Nellie challenges Jules Verne and vows to travel around the world in less than 80 days. She encounters fascinating people and cultures, but also endures violent storms and obstacles that put her record and life at risk. Six Months In Mexico Nellie travels to Mexico to experience a country mostly unknown to 19th Century America. However, what starts as a travelogue becomes a story of government corruption with Nellie one step ahead of the Mexican police! The Mystery of Central Park Nellie Bly's one and only novel. When young lovers Richard and Penelope find a young woman's body in New York's Central Park, they set out to solve a mystery that will test their wits and love for each other.

Nellie's Book of Great Ideas and Thoughts

Nellie loves dressing up. She loves wearing pretty dresses, fun hats, cute shoes and long flowy scarves. Scarves are Nellie's very favorite accessory. But knotting neck scarves can be very tricky, with all the twists and turns and loopity loops required to get the knot just so. Not to worry, though. Clever little Nellie remembers a cute little story she once heard about a fox chasing a little rabbit. Their movements, through the forest, help her remember how to tie a "Necktie knot" in her scarf. This little story is called a mnemonic. Its purpose is to help you REMEMBER! Exercises in manual dexterity build self-esteem in children. Knowing how to tie shoe-strings, neckties, scarves or any other knot is a useful and rewarding skill. "Teach a child a useful skill. Build confidence and self-esteem that lasts a lifetime." Nellie Knows How To Knot A Neck Scarf

From the award-winning picture book biographer of Woody Guthrie comes the inspirational story of Nellie Bly. Born in 1864, during a time in which options were extremely limited for women, Nellie defied all expectations and became a famous newspaper correspondent. Her daring exploits included committing herself to an infamous insane asylum in New York City to expose the terrible conditions there and becoming the first American war correspondent of either sex to report on the front lines of Austria during World War I. In 1889, Nellie completed her most publicized stunt, her world-famous trip around the world in just 72 days, beating the record of Jules Verne's fictional hero in *Around the World in 80 Days*. With an informative text and pen-and-ink illustrations reminiscent of the graphic style of the late 1800s, *The Daring Nellie Bly* captures the independent spirit of America's first star reporter, Nellie Bly.

The Whole Language Catalog

Although her name today is synonymous with the women's suffrage movement in Canada, Nellie McClung's long and varied career covered several fields—from social activist to elected politician, from novelist to journalist. McClung was instrumental in Canadian women gaining the right to vote before their British and American counterparts—2016 marks the one-hundred-year anniversary of women's suffrage in Manitoba, Alberta, and Saskatchewan—and in women being recognized as persons eligible to sit in the Senate. McClung was a household name by the time she was elected to the Legislative Assembly of Alberta in 1921, a post she held for five years. When she settled on Vancouver Island in 1932, McClung was a highly esteemed public figure who had not only changed Canada's political landscape and influenced women's rights worldwide but had also raised five children and written a dozen best-selling books. From her beloved Island home, Lantern Lane, McClung continued to speak out against social injustice and inequality. In the late 1930s, she began to write a syndicated weekly newspaper column that served as social commentary for the years leading up to World War II. The

Valiant Nellie McClung highlights a selection of those columns—covering themes as grave as war, as fundamental as the strength of the family unit, and as whimsical as the pleasure of gardening—and offers a unique reflection of our country's history and an uncanny resonance today.

Nellie's FABULOUSLY AMAZINGLY BRILLIANT IDEAS

This smart, practical guidebook shows preschool, kindergarten, and primary teachers how to refine their literacy evaluation practices through careful kidwatching. By observing and recording children's literacy development, teachers also develop new understandings of the ways children think and learn. Ultimately, through kidwatching, teachers plan curriculum and instruction that are tailored to individual strengths and needs. Gretchen Owocki and Yetta Goodman are the perfect pair to guide teachers through the kidwatching process. Yetta coined the term in her seminal article in 1978 and has spearheaded the use of miscue analysis as a window into the reading process. Gretchen, Yetta's former graduate student, is an outstanding educator and published author on the ways young children develop literacy. Together, they have written a book that will serve as a professional development tool as well as a kidwatching handbook. In each chapter, they provide a clear description of how kidwatching enhances teaching and learning specific guidelines and suggestions for kidwatching practical tools and resources to be used in documentation and analysis empowerment for children-a chance to evaluate and revalue themselves by partnering with teachers to document and reflect on their knowledge. Kidwatching provides a framework for engaging in systematic, yet very personalized, data collection in all areas of literacy. High-quality kidwatching gives teachers the information they need to teach effectively and to share detailed, factual information with families and administrators. Kidwatching can also be used to strengthen school reform, to develop a common set of principles and practices that are in tune with local needs and interests. Learn to watch kids and see how effective you can be on these fronts.

Ahora, la autora decide buscar a lectores que con mayor detenimiento, como en cualquier libro, lean estas historias que tuvieron ya una vida en la red social.

A book that brings the habits of reading to life Great readers are not made by genetics or destiny but by the habits they build—habits that are intentionally built by their teachers. The early formal years of education are the key to reversing the reading gap and setting up children for success. But K-4 education seems to widen the gap between stronger and weaker readers, not close it. Today, the Common Core further increases the pressure to reach high levels of rigor. What can be done? This book includes the strategies, systems, and lessons from the top classrooms that bring the habits of reading to life, creating countless quality opportunities for students to take one of the most complex skills we as people can know and to perform it fluently and easily. Offers clear teaching strategies for teaching reading to all students, no matter what level Includes more than 40 video examples from real classrooms Written by Paul Bambrick-Santoyo, bestselling author of *Driven by Data* and *Leverage Leadership* Great Habits, Great Readers puts the focus on: learning habits, reading habits, guided reading, and independent reading. Great Habits, Great Readers

Reading fluency has been identified in the Common Core Standards as a foundational competency for reading proficiency. This resource provides teachers with approaches to fluency instruction that are effective, engaging, and easy to implement. The authors begin with a comprehensive definition of reading fluency, a discussion of why fluency has fallen out of favor in recent years, and evidence of its importance to literacy instruction. They follow up with authentic approaches to reading fluency that teachers and literacy interventionists can immediately use to improve students' overall proficiency in reading. A unique feature of the book are the participation sections "What do you think?" and "What we think," which challenge the reader to engage in issues related to fluency—from concept, to assessment, to instruction—and then check their views against those of the authors. This important new book updates and adds to Timothy Rasinski's classic text, *The Fluent Reader*. Book Features: Vignettes of teachers implementing research-based fluency instruction. Teaching strategies and classroom activities to help struggling readers. Full descriptions of the authors' original, highly successful approaches to improving fluency. Resources for assessment and instruction of reading fluency. A new concept of reading instruction as an art as well as a science. "How delighted I was to find . . . wonderfully doable assessments and classroom activities that would truly teach children to read fluently and develop expressive reading as the bridge between word identification and comprehension." —Pat Cunningham, Wake Forest University

Targeting Comprehension Strategies for the Common Core Grd 7

Accessible, hands-on RTI guidance and strategies for educators at all grade levels This practical, ready-to-use resource gives teachers and administrators the tools to successfully implement RTI or strengthen an existing program to target students' specific needs. Response to Intervention allows educators to assess and meet the needs of struggling students before they have fallen too far behind. Three expert authors explore this multi-tiered system of support (MTSS), offering over one hundred research-based, instructional techniques and interventions for use in diverse settings, advice on creating personal and positive learning environments, information on co-teaching, and approaches to purposeful grouping. Included in the book and as digital downloads are easy-to-use customizable forms to streamline assessment, implementation, and documentation. Also included is an extensive list of references and resources for further exploration.

The Fluency Factor

How can teachers make sure that all students gain the reading skills they need to be successful in school and in life? In this book, Karen Tankersley describes the six foundational "threads" that students need to study in order to become effective readers: phonemic awareness, phonics and decoding, vocabulary, fluency, comprehension, and higher-order processing. For each area, the author explains how students acquire the reading skills they need and offers a series of skill-building strategies and activities that teachers can use in the classroom. Although reading is perhaps most intensely taught in the kindergarten and 1st-grade classrooms, Tankersley emphasizes that helping students become lifelong readers is a task for all teachers, including content-area teachers in middle and high schools. *The Threads of Reading* addresses key questions about literacy, such as * What makes a difference in reading achievement? * How much reading time is enough? * How can teachers use writing to build reading skills? * How can teachers help students make meaning from their reading? The strategies in this book address many situations, from individual instruction to small- or large-group instruction, from kindergarten to high school. Teachers will appreciate the multitude of activities provided, and administrators will learn to better evaluate the reading programs in place in their districts and schools. Grounded in both research and "teacher lore" from actual classrooms, this book is a solid guide to helping students become lifelong readers. Note: This product listing is for the Adobe Acrobat (PDF) version of the book.

RTI Success

This trusted teacher resource and widely adopted text presents effective ways to demystify essential reading skills and strategies for K-8 students who are struggling. It has been fully revised to focus on the Common Core State Standards (CCSS) for English language arts. Following a concise introduction to the CCSS and explicit teaching, 30 engaging examples show how to be explicit when teaching each Literature, Informational Text, and Foundational Skills standard. Grounded in authentic reading tasks that teachers can adapt for their classrooms, the examples guide teachers to differentiate instruction, model and scaffold learning, assess student skills, and align reading instruction with Common Core writing standards. New to This Edition *Significantly revised and restructured with a CCSS focus. *The teaching examples are all new or revised. *Provides practical ways to develop "close reading" of text. *Incorporates recent research on authentic tasks and adaptive teaching.

The Threads of Reading

The Common Core State Standards (CCSS) provide a consistent, clear understanding of what students are expected to learn. Aligning each lesson in these six Common Core titles to the CCSS ensures that students are being taught and assessed on what they are expected to learn and know. The alignment helps educators think critically about their curriculum, instruction, and assessments as they work to ensure that their students meet the rigorous new standards. Beginning with foundational skills, the activities teach students what they need to learn. The alignments offer a progressive development of reading comprehension skills so that students advancing through the levels are able to gain more from whatever they read. Each title includes a table of contents, a CCSS alignment chart, 130 reproducible lessons individually aligned to the CCSS (each lesson contains a discrete alignment at the bottom of the page), a scope and sequence chart, and an answer key.

Explaining Reading, Third Edition

Based on IRA and NCTE standards, these classroom-tested reading activities will benefit all students in Grades 6-12, including gifted, special education, and ELL students.

Close Reading in Elementary School

Reading for pleasure urgently requires a higher profile to raise attainment and increase children's engagement as self-motivated and socially interactive readers. *Building Communities of Engaged Readers* highlights the concept of 'Reading Teachers' who are not only knowledgeable about texts for children, but are aware of their own reading identities and prepared to share their enthusiasm and understanding of what being a reader means. Sharing the processes of reading with young readers is an innovative approach to developing new generations of readers. Examining the interplay between the 'will and the skill' to read, the book distinctively details a reading for pleasure pedagogy and demonstrates that reader engagement is strongly influenced by relationships between children, teachers, families and communities. Importantly it provides compelling evidence that reciprocal reading communities in school encompass: a shared concept of what it means to be a reader in the 21st century; considerable teacher and child knowledge of children's literature and other texts; pedagogic practices which acknowledge and develop diverse reader identities; spontaneous 'inside-text talk' on the part of all members; a shift in the focus of control and new social spaces that encourage choice and children's rights as readers. Written by experts in the literacy field and illustrated throughout with examples from the project schools, it is essential reading for all those concerned with improving young people's enjoyment of and attainment in reading.

Appealing to students and teachers alike, reciprocal teaching encompasses-

es social aspects of teaching and learning with modeling, think-alouds, and discussion. With a wealth of ideas to get you started—and keep you going—this is the all-inclusive resource you need to help students become active, engaged, and independent readers who truly comprehend what they read. Reviews and Testimonials "Literacy coach and author Lori Oczkus knows how to take the best of what works from long-established research and showcase it to make teaching and learning more effective, engaging, and enjoyable. In her latest edition of *Reciprocal Teaching at Work*, she demonstrates how to scaffold instruction so that all K–12 students can benefit from reciprocal teaching techniques, what she calls the "Fab Four"—predicting, questioning, clarifying, and summarizing—in whole-group, guided reading, and book club settings, for both fiction and informational texts. In clearly delineated lessons and minilessons, Lori deftly shares how to support students' learning, including English language learners and students who struggle, so they can successfully apply and monitor those four discussion strategies—as well as troubleshoot problems—to yield significant progress in their reading comprehension. Filled with great practical ideas, this gem of a book is a must-have for all literacy educators!" —Regie Routman, author of *Read, Write, Lead*; *Literacy Essentials*, and *Reading Essentials* "Reciprocal teaching works to push students into deeper learning. There are decades of research on the impact of this instructional approach, and this book shows you how to implement and refine the practice such that all students succeed." —Doug Fisher, author of *Checking for Understanding* and *Visible Learning for Literacy* "One of the great instructional research discoveries of the past three decades has been the efficacy of reciprocal teaching for improving student learning and reading comprehension. More than anyone, Lori Oczkus has explored practical ways for making reciprocal teaching an integral part of nearly any classroom setting. This current work by Lori represents the epitome of her work in translating reciprocal teaching research into practice. Readers will find this immensely readable book filled with strategies that can be easily implemented and that will improve student learning. If you are interested in improving your students' reading achievement, you need to read this book!" —Timothy Rasinski, author of *The Fluent Reader* and *Close Reading with Paired Texts* "In this new edition of *Reciprocal Teaching at Work*, Lori Oczkus offers new thinking while reinforcing the best practices that make her ideas timeless. Through these engaging lessons and smart instructional moves, you will empower your students to build the confidence and competence they need to become strong, independent readers." —Donalyn Miller, author of *The Book Whisperer* "On every page of this book, in every activity and plan, the voice of a gifted and empowering teacher inspires the reader. In a major revision of her classic work, Lori Oczkus engages the immediacy and demands of today's classrooms with the most robust constellation of strategies for teaching comprehension. She compellingly demonstrates how the "Fab Four" are engaged across the grades, and she powerfully scaffolds, supports, and reassures teachers in their efforts to incorporate reciprocal teaching across a broad communication, textual, and digital terrain." —Shane Templeton, Foundation Professor Emeritus of Literacy Studies University of Nevada, Reno, NV
