Chilton's Motorcycle Repair Manual

An illustrated Owner's Workshop Manual for the TR2, TR3 & TR4 series of Triumph sports cars built between 1953 and 1965. This is a faithful reproduction of the Floyd Clymer Triumph Owners Handbook of Maintenance & Repair originally published in the US circa 1969. This manual includes complete technical data, service and maintenance information and detailed instructions for the repair and overhaul of all the major mechanical and electrical components including: Engine, Fuel System, Cooling System, Clutch, Gearbox, Propeller Shaft, Rear Axle, Front Suspension & Steering, Springs & Shock Absorbers, Wheels & Tires and Brake system. There is detailed information on the Electrical System and its component parts and a comprehensive tuning section and complete technical specifications. For the later series of TR4's there is an appendix that details the set up and adjustment of Stromberg carburetors. There is adequate detailed text and diagrams to assist in major refurbishing such as an engine rebuild or even a complete mechanical renovation, making it an invaluable resource for collectors and restorers of these classic Triumph sports cars.

Books and Pamphlets, Including Serials and Contributions to Periodicals

376 pages, with more than 300 illustrations, diagrams and charts, size 5.5 x 8.5 inches. Originally published under the title, Corvair Owner's Handbook of Maintenance & Repair by Floyd Clymer, this edition was republished in 2016 by VelocePress. Written in easy to understand language, this is possibly the most user-friendly and comprehensive owner's workshop manual ever published for all variations of the Chevrolet Corvair. There are detailed instructions for the overhaul, service and maintenance of the major mechanical and electrical components including a comprehensive section on the maintenance and repair of the turbocharger and the various carburetor systems fitted to this series of cars. In addition, there is a separate 100 plus page section that deals with the maintenance and repair of the mechanical modifications that are specific to the 1965 and later models. Out-of-print and unavailable for many years, this book is becoming increasingly more difficult to find on the secondary market and we are pleased to be able to offer this reproduction as a service to all Chevrolet Corvair owners, restorers and enthusiasts worldwide.

A reproduction of the Floyd Clymer Factory Workshop Manual, as published in Clymer's Metropolitan Owners Handbook, for the 1954-1962 Austin/Nash/American Motors Metropolitan. When Clymer published the Metropolitan Owners Handbook he had to reduce the overall size of the workshop manual to fit his 5 x 8 inch book size. This reduction in size resulted in extremely small images and text. The VelocePress edition has been restored to the original print size which is more than 200% larger than the Clymer publication and consequently, much easier to read! A profusely illustrated manual that includes all of the data you would expect from a factory publication for the repair and overhaul of all major and minor mechanical and electrical components. There are separate sections that deal with the repair and overhaul procedures for the engine, cooling system, carburetion, exhaust system, clutch, A & B series transmission, shifting system, brakes and wheels, hubs and drums, rear axle, drive shaft, front suspension, steering gear, weather eye system, a detailed electrical service section plus an exhaustive 62 page body section that deals with all facets of the bodywork including the correct procedure for fitting replacement panels! This is a - must have - reference for any Metropolitan enthusiast and would certainly assist in helping any potential purchaser better understand the inner workings prior to purchasing one of these classic automobiles. Out-of-print and unavailable for many years, this book is highly sought after on the secondary market and we are pleased to be able to offer this reproduction as a service to all Metropolitan enthusiasts worldwide.
