Contes Francais

Many books were written in the Middle Ages about Alexander the Great and still more books have been written about those books in the last hundred years. In this classic study of the medieval Alexander, first published in 1956, George Cary approached the problem from an altogether different angle, using material which none of his predecessors had exploited. He asked himself the simple question: What did people really think about Alexander in the Middle Ages? The resultant answers proved various and unexpected, changing from age to age and from group to group. Published posthumously, Cary's study was edited by D. J. A. Ross, who corrected certain details, added some footnotes and included an additional section on the Histoire ancienne jusqu'a Cesar. To this were also added a number of illustrative plates and an appendix on the origins of the Greek Alexander Romance.

The Pan-American Exposition

Devastated by the collapse of her marriage, Helen Bradshaw flees London for Achill Island on the West Coast of Ireland hoping that her new job researching painter, Grace Henry, will offer her an escape. Achill is wild and beautiful, but island life poses many challenges, she feels isolated, lonely.

An Epitome of the Synthetic Philosophy

Few architects have had a vision of architecture as provocative as that of Claude-Nicolas Ledoux. In 1847 Daniel Rame assembled 300 plates by Ledoux in two volumes. The Rame edition is now scarce, but has been reproduced here in a one-volume format. Princeton Architectural Press's Reprint Series was established in 1981 to make rare volumes on architecture available to a wider audience. The books' beautiful reproductions and finest quality printing and binding match those of the originals, while their 9-by-12-inch format makes them accessible and affordable. New introductions bring a modern voice to these classic texts, updating them to become invaluable contemporary resources. These critically acclaimed books are an essential addition to any library.

Bataille's first novel, published under the pseudonym 'Lord Auch', is still his most notorious work. In this explicit pornographic fantasy, the young male narrator and his lovers Simone and Marcelle embark on a sexual quest involving sadism, torture, orgies, madness and defilement, culminating in a final act of transgression. Shocking and sacrilegious, Story of the Eye is the fullest expression of Bataille's obsession with the closeness of sex, violence and death. Yet it is also hallucinogenic in its power, and is one of the erotic classics of the twentieth century.

From health and economic consequences to exposure assessment and detoxification, this reference comprehensively covers the formation, characteristics, and control of various toxins that occur in the production, storage, handling, and preparation of food. The author discusses toxin sources, mechanisms, routes of exposure and absorption, and their chemical and biochemical components to prevent contamination of food products and reduce epidemics of foodborne disease. The book contains more than 3000 references to facilitate further research, as well as recent guidelines from the FDA and World Health Organization regarding food hygiene and safety.

A Dictionary of English Homonyms

Excerpt from The Broken Lance Suddenly a great star, like a sun, appeared high in the air over the temple...; and a great song arose from the men in white... At the farther end, a throne stood upon a platform. On the throne sat a majestic-looking figure, whose posture seemed to indicate a mixture of pride and benignity as he looked down on the multitude below... I made my way through the crowd to the front, while the singing yet continued, desirous of reaching the platform while it was unoccupied by any of the priests... When I arrived on the platform the song had just ceased, and I felt as if all were looking toward me. But, instead of kneeling at its foot, I walked right up the stairs to the throne, laid hold of a great wooden image that seemed to sit upon it, and tried to hurl it from its seat. In this I failed at first, for I found it firmly fixed. But in dread lest, the first shock of amazement passing away, the guards would rush upon me before I had effected my purpose, I strained with all my might; and, with a noise as of the cracking, and breaking, and tearing of rotten wood, something gave way, and I hurled the image down the steps. Its displacement revealed a great hole in the throne, like the hollow of a decayed tree, going down apparently a great way. But I had no time to examine it, for, as I looked into it, up out of it rushed a great brute, like a wolf, but twice the size, and tumbled me headlong with itself down the steps of the throne.
