

Welt Macht Geld

[#money and power](#) [#global economic influence](#) [#wealth dominance](#) [#world finance dynamics](#) [#financial impact](#)

Exploring the profound relationship between money and power, the phrase 'Welt Macht Geld' encapsulates how global economic influence shapes the modern world. It speaks to the wealth dominance that financial resources provide, illustrating their far-reaching financial impact on nations and policies. Understanding these world finance dynamics is crucial for grasping the forces that drive international relations and societal structures.

Chat with Traders Episode 27
 So I Said I Have this Idea Which Is More of a Viewed Mores of Math Mass Audience Book and More

of a Book That You Know Could Reach You Know Just Broader Audience and Be More Entertaining To Read and So Forth and I Told Him about the Market Wizard Concept and They Really Liked It So I Wasn't Intending To Do the Book but They Came Back with an Offer and Sort of that Was the Catalyst and that's How Market Whizzes Got Written the First Time Okay That's Really Interesting It's Good To Sort Of Know Where that Idea for that Book Came from I'D Like To Quote the Opening Line from the Newmarket Wizards Which Is the Second One in the Series Where You Said the Markets Are Not Random

That's Really Interesting It's Good To Sort Of Know Where that Idea for that Book Came from I'D Like To Quote the Opening Line from the Newmarket Wizards Which Is the Second One in the Series Where You Said the Markets Are Not Random and You Made It Very Clear that this Is a Statement that You Truly Believe but to What Extent Other Markets Not Random Well to the Extent that They'Re Not Random in a Couple of Ways and this Goes into the Whole like a You Know Whole Controversy or Which Has Been Going On for Decades between those Who Believe in the Efficient Market Hypothesis and and those Who Don't Oh the Latter Being You Know at Least in Serious Academia

And You Can Show Many Examples Where They Are Then the Idea that that Underlies the the Marc Hypothesis that that Market Prices Are Always Right and all New Information Is Immediately Discounted Doesn't Doesn't Hold Water because because if Market Prices Are Not Right the Whole Theory Falls Apart the One Place the Efficient Market Hypothesis Is Correct and the Reason Why There Is an Illusion that It's Correct Is because One of the Conclusions That Come How Do the Efficient Market Hypothesis Is that the Markets Would Be Very Difficult To Beat and that Is True the Markets Are Indeed Very Difficult To Beat but Not because the Markets Are Efficient They'Re Very Difficult To Beat

There Is an Illusion that It's Correct Is because One of the Conclusions That Come How Do the Efficient Market Hypothesis Is that the Markets Would Be Very Difficult To Beat and that Is True the Markets Are Indeed Very Difficult To Beat but Not because the Markets Are Efficient They'Re Very Difficult To Beat because What Moves Markets Are both Fundamentals and Human Emotion and Human Emotion Is Very Difficult To Gauge I Mean How Far Does a Bubble Go When Does the Bubble Break these Things Are Very Hard To Predict Them Very Hard To Trade so It's Not because the Markets Are Efficient that the Markets Are Difficult To Beat It's because There's Such a Big Influence of Upin Human Emotion
