Wendy's Trip To The Beach

This is a fully-illustrated children's book written by a retired school teacher, Ruth Chornock. Based on her own cherished moments with her young daughter, Ruth captures the joys of motherhood in this storybook. This book is a slice of the life of a mother and daughter. It begins with the mother waking her young daughter up for a trip to the beach and slowly progresses through the quiet adventures of shell hunting early in the morning. The book peaks at mid-day describing the bustling beach and finishes with the humor and emotion of the daughter, Wendy. The illustrations breathe life to Ruth's words by creating visual emotion. Illustrations were hand painted with watercolor and ink by the artist and scientist, Katie Sokolowski PhD, DABT. Ruth has a passion for teaching young children through her stories and adores the stages of motherhood, which is often the subject of her stories. The dozens of stories written by Ruth in her 80s and 90s are now being published with the efforts of her daughter and editor, Wendy Streight,

PhD. Wendy is an accomplished scientist and business women who owned her own children's furniture stores with her husband. Wendy discovered the illustrator, Katie, through work-related functions. Katie is educated as a neuroscientist and toxicologist, but has always maintained artistic talents. After reading Ruth's stories, Katie saw the emotion and nostalgia in the stories that inspired the full page illustrations in this book. Wendy and Katie worked closely to bring Ruth's stories into this beautiful story book for you to enjoy with the children in your life!

Frozen in Ice: The Story of Walt Disney Productions, 1966-1985

When Walt Disney died in 1966, many predicted that it might be the end of Walt Disney Productions, but Walt had a number of ideas and concepts that lasted well into the next decade. He also left behind a well-established group of workers that hoped to continually answer the question, "What would Walt do?" with more magical creations that would dazzle and delight. With this book, author and historian Mark Arnold explores the major accomplishments of Walt Disney Productions during the years 1966 – 1985, paying particular attention to their theatrical film output, but also discussing the various new theme park attractions and the TV shows produced during that period. Things went well until the mid-1970s, when ideas started to run thin and repetition set in, causing shrinking box office success. By the 1980s, threats of corporate takeover were knocking at their door, at which time change had become unavoidable if Disney were to survive as an independent company. Disney had to change their already outdated methods of making movies and running a movie studio geared solely towards family entertainment. As a result, Michael Eisner took over and retooled Disney into the mega-empire that it is today. This is the story after Walt and before Michael...

Wheels Stop

Humanity's first reusable spacecraft and the most complex machine ever built, NASA's Space Shuttle debuted with great promise and as a dependable source of wonder and national pride. But with the Challenger catastrophe in 1986, the whole Space Shuttle program came into question, as did NASA itself, so long an institution that was seemingly above reproach. Wheels Stop tells the stirring story of how, after the Challenger disaster, the Space Shuttle not only recovered but went on to perform its

greatest missions. From the Return to Flight mission of STS-26 in 1988 to the last shuttle mission ever on STS-135 in 2011, *Wheels Stop* takes readers behind the scenes as the shuttle's crews begin to mend Cold War tensions with the former Soviet Union, conduct vital research, deploy satellites, repair the Hubble Space Telescope, and assist in constructing the International Space Station. It also tells the heart-wrenching story of the Columbia tragedy and the loss of the magnificent STS-107 crew. As complex as the shuttle was, the people it carried into orbit were often more so—and this is their story, too. Close encounters with astronauts, flight controllers, and shuttle workers capture the human side of the Space Shuttle's amazing journey—and invite readers along for the ride.

Stephen (Steve) Charles Hembry nearly drowned in the sea – but it has also sustained and fascinated him. In this memoir, he shares how he almost followed in the footsteps of his ancestors to make the sea his vocation. While he chose a different path, the sea remains relevant as a metaphor to the mission he chose, which is helping people cope with trauma. Whether it's within the realm of relationships, emotions, physical disease, injury, or in the spiritual domain, the author highlights how he has overcome or helped others cope with trauma, suffering, and pain. To carry out his work, he's relied on clinical hypnosis, eye movement desensitization and reprocessing, and counseling for those suffering from post-traumatic stress disorder. He's also administered various forms of pain relief, offered nutritional advice, removed skin lesions, sutured lacerations, and much more. Join the author as he looks back at his adventures throughout the world and the amazing things he's seen or done while being Drawn to the Sea.

Three Good Things

Sisterhood, motherhood, marriage, baking, and books—these are a few of the things that make this delightful novel a recipe for getting through the tough stuff of life—from the author of *The Summer Sail* and *The Summer of Good Intentions*. Ellen McClarety, a recent divorcée, has opened a new bake shop in her small Midwestern town, hoping to turn her life around by dedicating herself to the traditional Danish pastry called kringle. She is no longer saddled by her ne'er-do-well husband, but the past still haunts her—sometimes by showing up on her doorstep. Her younger sister, Lanie, is a successful divorce attorney with a baby at home. But Lanie is beginning to feel that her perfect life is not as perfect as it seems. Both women long for the guidance of their mother, who died years ago but left them with lasting memories of her love and a wonderful piece of advice: “At the end of every day, you can always think of three good things that happened.” Ellen and Lanie are as close as two sisters can be, until one begins keeping a secret that could forever change both their lives. Wearing her big Midwestern heart proudly on her sleeve, Wendy Francis skillfully illuminates the emotional lives of two women with humor and compassion, weaving a story destined to be shared with a friend, a mother, or a sister.

Wendy woke up on the helicopter as it flew through the night in blackness. No lights could be seen and the blades were muffled so that it could fly over someone on the ground a thousand feet below and no sound would be heard by the man on the ground. Something was pressed hard against her left buttock, but Wendy stayed quiet until she knew where she was. She could hear the faint noise of the helicopter and make out the green screen at the front of the helicopter. She soon realized the thing pressing sharply into her buttock was the end of the mounted machinegun's bullets belt. Wendy tried to inch away, but when she did she felt the butt of a rifle smash down on the middle of her right hand almost causing her to pass out from pain. "You move again, and I'll break every finger on your right hand, Wabba." The soldier spat out the name Wabba as if it were a foul word he had to get out of his mouth in a hurry. Wendy never moved for the next hour as she listened to the talk among the soldiers. Getting up the courage she finally spoke to no one in particular. "Where are you taking me?" He didn't break every finger, but she thought he had when the rifle butt again smashed into her hand. This time she did pass out for a few seconds. When she came to, she heard one soldier laughing and saying something about her not lasting too long with old slice and dice. A sliver of pain and fear crawled down her spine at the mention of a name she knew all too well from years of living among the people and hearing the stories of him and Rasafeh Prison.

The American Amusement Park

Many years ago, as I was describing the latest saga in my bizarre life to a dear friend, she suggested I write a book about my life. Eventually, over a period of several years, I started writing down these short stories and finally put them together into a book. It was then that I realized that many of my life experiences had a profound impact on who I was and how I thought. I started out as a quiet, shy person who was unsure of herself and her abilities. Even though I had grown up attending church every Sunday, trying to follow the teachings of the Bible, I knew something was missing in my life. Eventually I married a United Methodist minister and we raised two children together. The challenges we faced during our years in the ministry allowed me to grow in strength and confidence. I was continually learning new life lessons as God put me in positions where I could be of help while caring for the needs and problems of others. As God led me to take on leadership roles, I found I could depend on His guidance and continual support. I was energized as He guided me to use my creative and artistic talents. Then one day the doctor told me I had a tumor and needed major surgery, all at the same time my husband was being put on trial by the church for behavior unbecoming of a minister. When you are down and out is when you find out about your faith and God's power to turn things around. Never before had I envisioned the challenges I was yet to face. I knew that God was not finished with me and that I had much more to accomplish. Praise God!
