This guide for leaders of workshops on self-appraisal for university teachers presents a process that is being developed in Australia and the United Kingdom to help members of professional groups monitor their effectiveness in conjunction with their peers. The approach has been used in Australia, the United Kingdom, Canada, and Japan. The method allows individuals to define criteria of competence for their work, monitor their daily professional activities, review their individual performance with their peers in the group, and make plans for modifying their practice in the light of their appraisal. The role of facilitator or group leader is to guide participants through each stage, to help individuals and the group make decisions about which steps are most relevant for them, and encourage adequate time for the process to unfold. Eighteen steps of the approach are discussed, and a flow diagram summarizing the steps is presented. Possible variations of the approach are also identified. (SW)

Business Review A Complete Guide - 2020 Edition

For lovers of Sloane Crosley and Samantha Irby, this hilarious and raw essay collection paints a recognizable and relatable portrait of life in the early aughts. Former Senior Editor for Gothamist Rebecca Fishbein's adult life has been a dramatic reflection of New York media itself—constantly evolving in unexpected ways and seemingly always on the edge of disaster. In short, Rebecca has seen it all—from 3 bedbug infestations, to being fired, to being yelled at while working at American Apparel, to losing all her stuff in a freak fire, to being bullied online by angry Taylor Swift fans. But the real humor and meat of the collection come from Rebecca's unwavering honesty and unflinching examination of her struggles with alcohol, anxiety, depression, compulsive lying, female beauty standards, and a slew of failed coworker/roommate/friend semi-relationships are dark, insightful, and hilarious. As Jia Tolentino commented, the era of the personal essay ended with the election—this is not your grandmother's millennial essay collection. Rebecca's writing is relatable without being preachy and conveys a message of resilience by example, not by moral. Readers will recognize the world they themselves see—a disastrous president and a scary socioeconomic landscape—in Becca's writing and find comfort in her humor and a snarky but incisive friend in her writing.
