[#guilty](#) [#culpable](#) [#moral wrongdoing](#) [#accountability](#) [#sinful acts](#)

The idiom "guilty as sin" vividly describes a state of undeniable culpability, where an individual's responsibility for a transgression is beyond any reasonable doubt. How hard could it be? For Jace Blackstone, idyllic Sinful, Montana, is the perfect escape. In this town, he's nothing but a reclusive, black-haired stranger with an Aussie accent and a bad attitude. Not the former pride of Australia's special forces, not a bestselling thriller writer, and not a man with no more faith in women. Right up until the day a mystery fan starts getting much too up-close and personal, and his neighbor comes back from her vacation with a personality change that knocks him sideways. Suddenly, Sinful is looking

downright dangerous. And the biggest danger of all might come in the form of flashing brown eyes, a rear view to stop a man's heart, and a wit sharp enough to slice him to the bone. Sinful could be getting serious.

I Stand Convicted

The cop busted through the door and I dove out the window and into the cold night air. It was 4am, mid-December, and all I was wearing was my underwear. A thin swirl of snow circled the ground, three floors below. With his gun in one hand, the cop grabbed my leg as soon as I was out the window. He held me in place, and I stood perpendicular to the outside wall of the building. I tried to kick off the wall with the foot that was free, but I kicked the cops hand instead, and he dropped his gun and loosened his grip on my leg. I pulled free and flew away, and as I floated in the air, time played a cruel trick on me. It let me fall so slow that I had plenty of time to think how bad it was going to hurt when I landed. I calmly wondered if I would be alive once I hit the ground. I was comforted by the thought, that; if I wasn't, I would have made good my escape. The cops would certainly have me then; but, at least I would be free. It felt good, sailing through that black void, expecting what was to come. Because, in that period of time, I was free ... I was as free as a bird in captivity.

The Spiritual Condition of Infants

What is the spiritual condition of infants? According to the Augustinian-Calvinist view, all people inherit from the first Adam both a sinful nature and his guilt. The result is that all infants are subject to the judgment of God against their nature before they knowingly commit any sinful actions. But is this the clear teaching of Scripture? In *The Spiritual Condition of Infants*, Adam Harwood examines ten relevant biblical texts and the writings of sixteen theologians in order to clarify the spiritual condition of infants. Although no passage explicitly states the spiritual condition of infants, each text makes contributions by addressing the doctrines of man, sin, the church, and salvation. If this biblical-historical analysis exposes the traditional Augustinian-Calvinist view to be inadequate, then is it possible to construct an alternate view of the spiritual condition of infants? Such a view should remain faithful to the biblical emphasis on humankind's connection to Adam and his sin but also recognize the guilt and condemnation of an individual only in the manner and time that God does in Scripture. That is the aim of this book.

Night Sins

Presents a translation of the Danish philosopher's 1844 treatise on anxiety, which he claimed could only be overcome through embracing it.

The Concept of Anxiety: A Simple Psychologically Oriented Deliberation in View of the Dogmatic Problem of Hereditary Sin

Why the West must overcome its guilty conscience to foster a better global future Fascism, communism, genocide, slavery, racism, imperialism—the West has no shortage of reasons for guilt. And, indeed, since the Holocaust and the end of World War II, Europeans in particular have been consumed by remorse. But Pascal Bruckner argues that guilt has now gone too far. It has become a pathology, and even an obstacle to fighting today's atrocities. Bruckner, one of France's leading writers and public intellectuals, argues that obsessive guilt has obscured important realities. The West has no monopoly on evil, and has destroyed monsters as well as created them—leading in the abolition of slavery, renouncing colonialism, building peaceful and prosperous communities, and establishing rules and institutions that are models for the world. The West should be proud—and ready to defend itself and its values. In this, Europeans should learn from Americans, who still have sufficient self-esteem to act decisively in a world of chaos and violence. Lamenting the vice of anti-Americanism that grips so many European intellectuals, Bruckner urges a renewed transatlantic alliance, and advises Americans not to let recent foreign-policy misadventures sap their own confidence. This is a searing, provocative, and psychologically penetrating account of the crude thought and bad politics that arise from excessive bad conscience.

Flesh and Blood

People in Merit, Wisconsin, always said Jimmy was . . . you know. But people said all sorts of stupid stuff. Nobody really knew anything. Nobody really knew Jimmy. I guess you could say I knew Jimmy as well as anyone (which was not very well). I knew what scared him. And I knew he had dreams—even if I didn't understand them. Even if he nearly ruined my life to pursue them. Jimmy's dead now, and I definitely know that better than anyone. I know about blood and bone and how bodies decompose. I know about shadows and stones and hatchets. I know what a last cry for help sounds like. I know what blood looks like on my own hands. What I don't know is if I can trust my own eyes. I don't know who threw the stone. Who swung the hatchet? Who are the shadows? What do the living owe the dead?

The Sin-Eater's Confession

The unthinkable has happened. A child is snatched out of her bed while in the care of her free-spirited grandparents, Pamela and Steve North, who are occupied downstairs hosting a swingers' party in their garage. Although a neighbor-Tom Nealy, who is middle-aged, divorced, reclusive and has thousands of images of child pornography on his computer-turns out to be the prime suspect, new information eventually surfaces indicating that another person, driven by a different kind of lust, may have also had a hand in the kidnapping. Even without a body but with other, hard evidence against Nealy, the police arrest him and believe they have an open and shut case. But another, seemingly unrelated event-the disappearance of a multimillionaire financier whose dead son had ties to the missing girl's mother-ultimately forces the police to look for a connection between the two cases. While the grandparents vehemently downplay their lifestyle as a contributing factor in their grandchild's abduction, massive searches and a substantial monetary reward produce nothing. Then, a jogger discovers the decomposing body of a little girl in a nearby suburban canyon. Is it the North girl or is it another unfortunate child who met with foul play?
