Sunday-school Lessons on the Life of Jesus

The "project approach" has long been a tremendous tool for educators working with young children. This is not an activity book but a book about doing in-depth investigations about topics that interest your child and you. The project approach stimulates your child's curiosity, shows the advantages of learning academic skills such as reading, writing and math and helps you build a strong relationship with your child as you share the adventure of learning together. In this book, we have adapted the approach to show parents, grandparents and other caregivers how to do meaningful and exciting projects at home. Featuring many photos of children doing project work this book thoroughly explains the benefits to both you and your child of doing projects together. Ideas are given for transforming your home into a place to learn including guidance for collecting and storing materials, making time for projects, and documenting your child's work. Seven complete examples of at-home projects are shared. Chapters also show you how to coach your child to build skills for reading and writing, mathematical development, scientific thinking, and more. Direction is also provided for adapting the project approach for use in family child care centers, home schooling, and gifted education.

Kindness Is a Strength

Celebrating the Lectionary® is a supplementary catechetical resource that helps you bring the richness of the Lectionary and the liturgical year into your catechetical program. It can be used in Catholic school programs, during the process of preparing children for Christian initiation, or as a supplement to a traditional basal text for Catholic school or parish religious education programs. It has been changed from a school year annual to now follow the pattern of the Lectionary. It includes sessions for every Sunday of the liturgical year (Advent, Christmas Time, Lent, Easter Time, and Ordinary Time), sessions for each day of the Sacred Paschal Triduum, and sessions for holydays, solemnities, and feasts so that you can use it in a variety of catechetical settings. Each session is easily adapted to your specific needs and time constraints, with sessions designed so that you can lead class discussions and activities with minimal preparation and make use of the resources you have on hand. Each session includes:

- Background information for the catechists
- Ways to connect the children's lives with the liturgical year
- Full text of the day's Gospel reading and an age-appropriate guided reflection
- Gospel-related activities
- A take-home page for the families to do during the week

The Christmas Promise Sunday School Lessons

There remains a significant achievement gap for students of color across the K-12 spectrum. One area that needs increased and immediate attention is how we recruit, prepare, and retain teachers of color. This book asks: Why do teachers of color choose teaching? What are their expectations for the students they will teach? How do their past experiences shape their vision of teachers as role models, mentors, and advocates for children of all races and cultures? The authors detail how Minority Serving Institutions (MSIs)--nearly 800 colleges and universities across the nation that educate nearly 45% of all students of color--are preparing culturally proficient teachers using new methods centered on integrating culturally relevant pedagogy, creating a culture of belonging through faculty engagement and cohort models, enriching student teaching and clinical practice through residencies and school-university partnerships, and working closely with families and communities. Addressing timely and critical issues of educational equity, *For the Love of Teaching* is a call to action for all colleges and university to improve their teacher education programs. Book Features: Provides case studies of MSIs that are intentionally preparing culturally proficient teachers who are skilled and experienced with diverse groups of students. Offers lessons and approaches from four minority-serving colleges with programs that attract and serve non-White teacher candidates. Includes a broad overview of innovative practices in all aspects of learning to teach, making it relevant to almost any teacher education course. Focuses on serving the needs and maintaining the commitment of candidates of color, while also developing their academic skills and subject-specific content knowledge.

My Way to Kindness

"No." "Mine." "Gimme." This book has a simple but effective message about sharing. *The "mine" stage is perfectly normal *Teaching kids about sharing *Perfect read aloud to your Pre-K kids *Gentle teaching and patience *Show kids that sharing is a fun thing ***** This is just the perfect type of story I love reading with my daughter. - Sophia ***** Such a great short story to introduce children on how to share and that sharing is caring. For the Love of Teaching

Another superb novel for older readers from our bestselling author. In this moving exploration of what happens when a school student falls in love with a teacher, Jacqueline Wilson handles this emotional issue with her proven gift for writing sensitively and realistically about pre-adolescents learning to cope with their feelings.

I Can Share

Described as 'the easy way to teach moral values to children', the Values books, since their launch in 2005, have been finding their way into schools and homes to teach the values of Truth, Love, Peace, Right-conduct and Non-violence by quotations and poems. Example of 'Love' The flame in our hearts grows with love But where do we find it? from up above? Some places I know of where you can look

You're sure to find it by hook or by crook. Start with school, make a friend, it's always a start Then another and another 'til you're all taking part Make a big friendship ring that goes round the school No-one's left out and everyone's cool. Example of 'Non-violence' We all need to think of the part that we play In things that happen to us It's good to remember every day To learn to forgive and to trust. See the world as a kind place It's on your side, even if it doesn't look that way There are always kind people of every race Who keep love alive every day. The books, available in Kindle or paperback from Amazon or all good book shops, can be used on their own or as part of the innovative product 'Values Friends' and are for children up to the age of 9 (2 books available for age 3-5 and two books for age 6-9). Pre-school nurseries and primary schools are using them in creative ways and you can read some testimonials below. The Values Friend is an educational doll puppet, available in both genders and two ethnicities. A door flap on the chest of the doll puppet opens to reveal the values printed inside, symbolically showing that the values are within every human heart. Available at www.ItsAllLight.co.uk

Testimonials "The books are priceless gems for our children. They have been used at a primary school in south London for four years to help children remember how fabulous they truly are. The books bring joy, fun, truth and comfort to the child. When the short poems are read a peace descends and the children's faces reflect joy and calm. The books are small, simple and inexpensive and should be in the possession of every child and school. We love them ! They are a wonderful extension to the Values Friends which comprises of a boy and girl doll, known as Values Friends, that are equally inspiring and comforting to the children and appreciated by boys and girls alike. These little books are an essential alternative to the sometimes negative and often pointless merchandise available to our children." Louise Collins - Shaftesbury Park Primary School, London, Volunteer Human Values Teacher

"Poppy and Todd were introduced to the nursery children as two children new to the district who had no friends and this provoked lots of discussion about being kind and friendly and thinking about how children feel.....We have found the dolls provide comfort and also increase a child's confidence. The words in the poems are also easy to understand and some we know off by heart. We want to continue using Poppy and Todd in our young children's social development and look forward to how this will go." Winchburgh Primary School, West Lothian, Scotland. "Felt comfortable using puppets - they fitted in well to our puppet family. Children had a lot to say/ask about them. Thought they were twins regardless of different skin colours! Could be used for race, humanity lessons, R.E., bullying, etc." Holy Family Primary School, West Lothian, Scotland "This session Todd has gone to Primary 1 with children from our nursery class, and has been a familiar face in class for the children who need reassurance. Poppy has now joined the nursery and will stay with them for the year and go with the children to P1 next session... ..The dolls have been a valuable resource in easing the transition to P1 for some children... ..The staff used Todd as an aid to discuss and explore the positive values that we promote in the nursery." St. Ninian's RC Primary School, Dundee, Scotland

This unique book features an array of approaches, strategies, and tools for teaching multiculturally in the early years. The teachers and classrooms portrayed here provide young children with rich educational experiences that empower them to understand themselves in relation to others. You will see how amazing teachers engage in culturally responsive teaching that fosters educational equity while also meeting state and national standards (such as the Common Core State Standards). This engaging book is sprinkled with questions for reflection and implementation that encourage educators to start planning ways of enhancing their own teaching, making their early childhood setting a more equitable learning space. Book Features: Multicultural education in action, including the everyday issues and tensions experienced by children and their families. Powerful vignettes from diverse Head Start, preschool, kindergarten, 1st- and 2nd-grade classrooms throughout the United States. Sections on "Getting Started" and "Considering Obstacles and Exploring Possibilities" in each chapter. A list of multicultural children's books and resources for further reading. Chapters: Multicultural Tools and Strategies for Teaching Young Children Multicultural Education as Transformative Education Interviews: Encouraging Children to Ask Questions Critical Inquiry: Supporting Children's Investigations Culture Circles with Multicultural Literature: Addressing Issues of Fairness Community Resources and Home Literacies: Developing Funds of Knowledge Technology: Media(ing) Multicultural Teaching Storytelling and Story Acting: Creating Spaces for Children to Negotiate Change Reflecting on the Possibilities of Teaching Multiculturally: What Next? What If? Mariana Souto-Manning is Associate Professor of Education in the Department of Curriculum and Teaching at Teachers College, Columbia University. "A profound, rich, and rewarding meditation and deep conversation with teachers fully engaging young children with culture, social history, and learning for the future. This wide-ranging book escapes

temporal, spatial, and disciplinary boundaries. Read it and reflect on how you can take it into your own life of learning.” —Shirley Brice Heath, Professor Emerita, Stanford University “Early childhood educators will experience this unique book as a warm and detailed invitation to engage in multicultural education. The emphasis throughout is on “multi”—multiple pedagogical approaches, from culture circles to podcasts to story acting, and multiple cultural heritages embodied by active children and teachers. From a critical perspective and alongside creative teachers who aspire to be transformative, Souto-Manning links accessible theory with rich and thoughtful practices.” —Celia Genishi, Professor of Education, Teachers College, Columbia University “Mariana Souto-Manning’s Multicultural Teaching in the Early Childhood Classroom rightly places the use of deficit thinking and ineffective teaching strategies in the wasteland of classroom instruction. The author superbly documents and explains ways of teaching multiculturally that will richly benefit the learning of all students and make teaching become the fun that teachers dreamed it would be when they first said, ‘I want to teach because I love kids.’” —Carl A. Grant, Hoefs-Bascom Professor, University of Wisconsin-Madison “Multicultural Teaching in the Early Childhood Classroom encourages teachers to honor, affirm, and challenge even our very youngest children to think inclusively, critically, and democratically—a necessity if we are to help develop knowledgeable, caring, and empowered learners.” —Sonia Nieto, Professor Emerita, University of Massachusetts, Amherst

Daisy's adventures and lessons in love begin here in the debut book of her brand new family series for parents and their precious children. She's a curious, fun loving, sweet as can be child who's here to share her stories of dos and don'ts, tips on proper etiquette, family life and loves, caring for our environment, and a whole lot more--while having an awesome time doing it all. Beautifully illustrated using original hand drawn and painted art by artist LaLita Olivia King and co-authored by her husband, Steven A. King, with a story inspired by their own daughter, makes this a true family fun-time read along story for preschool aged children and toddlers. We all need to receive the message of love of self and unconditional love for others--and the earlier we receive it, the better! Hence, these are common threads sewn throughout the Oopsie Daisy book series. The benefits of these messages for parents and children alike have been witnessed firsthand by the creators as their own daughter, Aurora, has listened to "Our Perfect Little Child," and other stories being crafted in the series, for the past 2 years.

This book explores what writing for pleasure means, and how it can be realised as a much-needed pedagogy whose aim is to develop children, young people, and their teachers as extraordinary and life-long writers. The approach described is grounded in what global research has long been telling us are the most effective ways of teaching writing and contains a description of the authors' own research project into what exceptional teachers of writing do that makes the difference. The authors describe ways of building communities of committed and successful writers who write with purpose, power, and pleasure, and they underline the importance of the affective aspects of writing teaching, including promoting in apprentice writers a sense of self-efficacy, agency, self-regulation, volition, motivation, and writer-identity. They define and discuss 14 research-informed principles which constitute a Writing for Pleasure pedagogy and show how they are applied by teachers in classroom practice. Case studies of outstanding teachers across the globe further illustrate what world-class writing teaching is. This ground-breaking text is essential reading for anyone who is concerned about the current status and nature of writing teaching in schools. The rich Writing for Pleasure pedagogy presented here is a radical new conception of what it means to teach young writers effectively today.

Lessons for the Sunday Kindergarten

"Learn to Love & Love to Learn" is the autobiography of a Hoosier lad born in 1933, depicting his struggles to overcome strict limitations imposed on him while growing up in an ultra-conservative environment. The story begins with the author questioning how a kind and loving Father-God could allow the innocent death of loved ones. The story then reverts directly to the 'nitty-gritty,' to the growing and learning processes – from pre-school to the present. The book is filled with questions,

many common and many stupid mistakes, guesses, selfish choices, and funny as well as sad and heart-wrenching experiences. It uncovers valuable discoveries as: 'Why?' is not only permissible, but an absolutely necessary question needed to understand life's meanings. This discovery and many more are revealed in bits and pieces, in lessons that can make the reader's life a much richer, much more meaningful, and much happier experience!

The Living Church

Does your child speak a different language? Sometimes they waver for your attention, and other times they ignore you completely. Sometimes they are filled with gratitude and affection, and other times they seem totally indifferent. Attitude. Behavior. Development. Everything depends on the love relationship between you and your child. When children feel loved, they do their best. But how can you make sure your child feels loved? Since 1992, Dr. Gary Chapman's best-selling book *The 5 Love Languages* has helped millions of couples develop stronger, more fulfilling relationships by teaching them to speak each others' love language. Each child, too, expresses and receives love through one of five different communication styles. And your love language may be totally different from that of your child. While you are doing all you can to show your child love, he may be hearing it as something completely opposite. Discover your child's primary language and learn what you can do to effectively convey unconditional feelings of respect, affection, and commitment that will resonate in your child's emotions and behavior.

Preschool boys and girls will learn lessons about growing up with Thomas and his engine friends in this all-new hardcover storybook collection! Train-loving boys and girls ages 2-5 will love to learn important lessons about growing up with Thomas the Tank Engine in this 96-page beautifully illustrated hardcover collection featuring four stories about feelings, being kind, respecting rules, and making friends. In the early 1940s, a loving father crafted a small blue wooden train engine for his son, Christopher. The stories that this father, the Reverend W. Awdry, made up to accompany the wonderful toy were first published in 1945 and became the basis for the Railway Series, a collection of books about Thomas the Tank Engine and his friends--and the rest is history. Thomas & Friends(TM) are now a big extended family of engines and others on the Island of Sodor. They appear not only in books but also in television shows and movies, and as a wide variety of beautifully made toys. The adventures of Thomas and his friends, which are always, ultimately, about friendship, have delighted generations of train-loving boys and girls for more than 70 years and will continue to do so for generations to come.

Oopsie Daisy in Our Perfect Little Child

My experience as an elementary school substitute teacher has taught me about the need to remind children to be kind to one another in the classroom. *BumbleBlossoms* is a series of children's educational books (Pre-K through 2nd grade) that contain lessons of kindness taught by bumble bee characters. Through these characters, children learn how to recognize kindness and take more action towards being kind to their friends, classmates, and family members. Kindness is inherent in human nature but must be reinforced at a very young age to help create a peaceful environment where future generations can survive and thrive.

Writing for Pleasure

SHORTLISTED FOR THE POLARI FIRST BOOK PRIZE Next Lesson is a new play by Chris Woodley, about the challenges of growing up gay. In 1988, 14-year-old Michael comes out as gay. Later he returns to the same school as a teacher. In the background: the notorious Section 28 of Thatcher's Local Government Act, which prohibited schools from "promoting homosexuality" and divided teachers and parents. The narrative of the play spans from 1988 to 2003. Ideal for drama students, colleges, amateur theatre groups, local theatres. Publishing to coincide with LGBTQ History Month, February 2019. Reviews 'How has being queer in the classroom changed over the past thirty years? This informative play is your revision guide. Next Lesson is one school play that you won't want to miss.'

***** 'A Masterpiece' – Gay Times 'Section 28 was one of the most hateful pieces of legislation brought in by Margaret Thatcher in the 1980s. Next Lesson by Chris Woodley looks at the knock-on effects of this legislation in the same school between 1988 and 2006. It's funny, moving and heartwarming stuff. This excellent play is a great reminder of how fear and oppression can cause untold damage amongst vulnerable teenagers and that with love, honesty and unity we can overcome the curveballs life throws at us.'

***** 'Incredible' – attitude 'Definitely worth going back to school for.'

**** – DIVA 'The first thing to say about Chris Woodley's play Next Lesson is that it is very good. An A+, 10 out of 10, top marks, gold star and any other educational phrase that can be applied to 75 minutes of how relationships work: mother to son, teacher to pupil, friend to friend and lover to lover.'

**** 'A+' –Boyz 'What Woodley has achieved in his debut play is remarkable... Next Lesson is informative without being didactic, telling a very personal story as well as having clarity of the world at large, all the while wearing its heart on its sleeve.'

**** 'Remarkable' –Female Arts 'Brought in by the Thatcher regime, Section 28 of the 1988 Local Government Act forbade local authorities from promoting homosexual relationships as equal to heterosexual ones. This hated piece of legislation created confusion and caution in schools, undoubtedly prevented teachers from addressing homophobic bullying, denying lesbian and gay pupils appropriate sex and social education. Chris Woodley's excellent play charts the education system through those years, creating lesbian, gay and bi characters from both sides of the classroom and staff room.'

**** 'Highly entertaining' –British Theatre 'This short production touches on a number of key issues that affected countless people within the LGBT+ community (and their loved ones), not just in the wake of Section 28 but throughout history. 'Next Lesson' is an educational piece devoted to the examination of this vital part in legal discrimination's history, and will be eye-opening to many who perhaps did not know about this law and its damaging legacy.'

**** 'Impressive' –West End Wilma About the author Chris Woodley is an actor, writer, teacher and co-founder of Hyphen Theatre Company. Chris trained as an actor at Mountview Academy of Theatre Arts. As a writer, his credits include: The Soft Subject (A Love Story) (Assembly Hall), Bedtime Story (Theatre Royal Stratford East), Next Lesson (The Pleasance) and co-writer for My Boyfriend Jesus Christ (Karamel Klub) and When The Lights Went Out At Christmas (The BRIT School). His recent theatre credits include: KATE (Greenwich Theatre), You Should Be So Lucky (Above The Stag), Walking: Holding (The Yard), From Russia, For Love (Theatre Deli), An Enemy of the People (New Diorama), The Gay Naked Play (Above The Stag), This Child (The Bridewell Theatre) and Rainman (Karamel Klub). Television credits include: Extras.

This book consists of 19 chapters on heuristics – reflexive tools, designed to heighten awareness of actions and catalyze desired changes. Thirty-three heuristics address six foci: teaching and learning, learning to teach, emotions, wellness, contemplative activities, and harmony.

Learn to Love & Love to Learn

In response to highly publicized incidents of school violence, educators across the United States and in many other nations are seeking effective ways to prevent and modify aggressive and anti-social behaviors in students. One of the major recommendations of the research is that efforts to prevent cruelty need to begin early, during the early childhood years of birth through age eight. The focus of Teaching Compassion: Humane Education in Early Childhood is guiding young children to accept responsibility for and to be kind in their interactions with fellow human beings, animals and the environment. Although humane education is a relatively new concept in the field of early childhood education, professionals in the field are very familiar with many of the related concepts, including: promoting positive interpersonal interactions, teaching children the skills of self-regulation, giving children experience in caring for living things and protecting the environment. This edited volume is an interdisciplinary compendium of professional wisdom gathered from experts in the fields of education, child development, science, psychology, sociology and humane organizations. As the book amply

documents, the concept of humane education is powerful, integrative, timely and appropriate in work with young children. Teaching Compassion: Humane Education in Early Childhood shows how it is possible for adults dedicated to the care and education of young children to balance attention to the cognitive and affective realms and, in so doing, to elevate the overall quality of early childhood programs for children, families and communities.

The 5 Love Languages of Children

Starring an enthusiastic pooch whose joy, optimism and love know no bounds, this lively picture book is based on Emma Chichester Clark's own dog, and joyfully celebrates unconditional love. Plum has lots of favorite things—catching sticks, her bear, her bed—but really, LOVE is her absolute favorite thing. She loves her family and all the things they do together. Sometimes, however, Plum's exuberance causes trouble, and she just can't help being naughty. But fortunately, love is such a great thing that even when she makes mistakes, Plum's family still adores her.

Really Useful Stories for Growing Up (Thomas & Friends)

I'd like to share a story about sorrow, survival, strength, and success - the miracle of my life. This story is told as it was experienced by me, not someone else's version of what they thought was happening, but what I felt about what was happening with me and my siblings as we not only survived but flourished in spite of horrendous circumstances. This is a true story of one little girl's journey from sorrow to success. This is my story.
