Littell's Living Age

The Word Biblical Commentary delivers the best in biblical scholarship, from the leading scholars of our day who share a commitment to Scripture as divine revelation. This series emphasizes a thorough analysis of textual, linguistic, structural, and theological evidence. The result is judicious and balanced insight into the meanings of the text in the framework of biblical theology. These widely acclaimed commentaries serve as exceptional resources for the professional theologian and instructor, the seminary or university student, the working minister, and everyone concerned with building theological understanding from a solid base of biblical scholarship. Overview of Commentary Organization Introduction—covers issues pertaining to the whole book, including context, date, authorship, composition, interpretive issues, purpose, and theology. Each section of the commentary includes: Pericope Bibliography—a helpful resource containing the most important works that pertain to each particular pericope. Translation—the author's own translation of the biblical text, reflecting the end result of exegesis and attending to Hebrew and Greek idiomatic usage of words, phrases, and tenses, yet in reasonably good English. Notes—the author's notes to the translation that address any textual variants, grammatical forms, syntactical constructions, basic meanings of words, and problems of translation. Form/Structure/Setting—a discussion of redaction, genre, sources, and tradition as they concern the origin of the pericope, its canonical form, and its relation to the biblical and extra-biblical contexts in order to illuminate the structure and character of the pericope. Rhetorical or compositional features important to understanding the passage are also introduced here. Comment—verse-by-verse interpretation of the text and dialogue with other interpreters, engaging with current opinion and scholarly research. Explanation—brings together all the results of the discussion in previous sections to expose the meaning and intention of the text at several levels: (1) within the context of the book itself; (2) its meaning in the OT or NT; (3) its place in the entire canon; (4) theological relevance to broader OT or NT issues. General Bibliography—occurring at the end of each volume, this extensive bibliography contains all sources used anywhere in the commentary.

Association Men

This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

Jonas Kortens ... Reise nach dem weiland gelobten nun aber seit siebenzehnhundert Jahren unter dem Fluche liegenden Lande, wie auch nach Egypten, dem berg Libanon, Syrien und Mesopotamien, von ihm selbst aufrichtig beschrieben und durchgehends mit Anmerckungen begleitet

This book discusses the depictions of the cult and its personnel in the twelve prophetic books commonly referred to as "The Book of the Twelve" or "The Minor Prophets." The articles in the volume explore the following questions: How did these prophetic writers envision the priests and the Levites? What did they think about the ritual aspects of ancient Israelite faith, including not only the official temple cult in Jerusalem but also cultic expressions outside the capital? What, in their views, characterized a faithful priest and what should the relationship be between his cultic performance and the ways in which he lived his life? How does the message of each individual author fit in with the wider Israelite traditions? Finally, who were these prophetic authors, in which historical contexts did they live and work, and what stylistic tools did they use to communicate their message?

The Church Almanac

The long-awaited companion volume to Gail Coffler's first book, *Melville's Classical Allusions*, has finally arrived. In this new volume, thousands of references to Judeo-Christian and other religions in Herman Melville's books are references. The index includes references to all of his novels, short stories, poetry, lectures, letters, and journals. With it, one can trace a given allusion through the entire canon, or research any individual work, such as *Moby Dick*, *Billy Budd*, or *Benito Cereno* from beginning to end. Readers interested in Melville's writing and philosophy as well as researchers of 19th century literature, culture, and religion will appreciate this book. This volume begins with a master index that lists all religious allusions and their location throughout Melville's works. Next, there is an alphabetical index and a sequential index of all allusions in each of the individual volumes. The sequential index lists allusions in their chronological page order and identifies many bible passages alluded to or quoted by Melville, citing the bible book, chapter, and verse. A supplementary index alphabetically lists the allusions in Melville's *Correspondence and Journals*. The book concludes with a glossary briefly explaining all allusions and gives cross references to related entries.
