Alexander Outland

In space, nobody can hear you scheme. . . . Sometimes piracy just doesn't pay. Captain Alexander Outland of the Sixty-Nine (short for Space Vessel 3369, of course) is the best pilot in the galaxy. He's also a pirate, a smuggler, and loved and loathed by women in umpteen solar systems. His crew of strays and misfits includes an engineer of dubious sanity, a deposed planetary governor, an annoyingly unflappable Sexbot copilot, and a slinky weapons chief who stubbornly refuses to give the captain a tumble. Outland just wants to make a decent living skirting the law, but when an invisible space armada starts cutting into his business, he soon finds himself in hot water with the military, the mob, mad bombers, and an extended family of would-be conquerors. And that's not counting an occasionally telepathic spy.... Like any sensible scoundrel, he hates heroics. They're risky and they don't pay well. But to keep his ship and crew in one piece, and make time with a certain hard-to-get weapons chief, he might just have to make an exception—and save the galaxy despite himself! “Laugh-out loud, read until you drop. Alexander (the) Outland is my favorite space pirate.” —New York Times bestselling author Patricia Briggs

The Bandits of Orion

CHAPTER 1 "ALL ABOARD!" A metallic voice rasped over the loud-speakers and echoed through the lofty marble and aluminum concourse of the New Chicago Monorail Terminal. "Atom City express on Track Seven! Space Academy first stop! Passengers for Space Academy will please take seats in the first six cars!" As the crowd of people waiting in the concourse surged through the gate leading to Track Seven, three boys in the royal-blue uniforms of the Space Cadet Corps slowly picked up their plastic space bags and joined the mass of travelers. Wearily, they drifted with the crowd and stepped on the slidestairs leading down to the monorail platform. In the lead, Tom Corbett, the command cadet of the unit, a tall, curly-haired boy of eighteen, slouched against the handrail and looked back at his two unit-mates, Roger Manning and Astro. Manning, a slender cadet, with close-cropped blond hair, was yawning and blinking his eyes sleepily, while Astro, the third member of the unit, a head taller than either of his unit-mates and fifty pounds heavier, stood flat-footed on the step, eyes closed, his giant bulk swaying slightly with the motion of the slidestairs.

Using his characteristic ingenuity and wit, Niko manages to take back control of his spaceship and his story. If the victim can survive until dawn, they may go free. But the rich and powerful don't care to have their will thwarted, and so the Hoorka must deal with the consequences of their own ethics. Gyll, the leader of the Hoorka, also has dreams of taking the guild offworld into the growing society of the Alliance, which is trying to reconstruct a shattered, worlds-spanning empire. Is that dream a genuine possibility, or will exposure to other cultures doom the Hoorka entirely? Gyll must confront internal struggles within his own people, the dangerous politics of Neweden, and the twinned threat and promise of the Alliance. The Hag of Death dances around them, mockingly. Can the Hoorka survive to see the dawn of their own success, an Assassins' Dawn?

An explosive insider account of grime, from subculture to international phenomenon. ***** A group of kids in the 2000s had a dream to make their voice heard - and this book documents their seminal impact on today's pop culture. DJ Target grew up in Bow under the shadow of Canary Wharf, with money looming close on the skyline. The 'Godfather of Grime' Wiley and Dizzee Rascal first met each other in his bedroom. They were all just grime kids on the block back then, and didn't realise they were to become pioneers of an international music revolution. A movement that permeates deep into British culture and beyond. Household names were borne out of those housing estates, and the music industry now jumps to the beat of their gritty reality rather than the tune of glossy aspiration. Grime has shaken the world and Target is revealing its explosive and expansive journey in full, using his own unique insight and drawing on the input of grime's greatest names.

Space Pirate Troy :

Armchair fiction presents extra large paperback editions of the best in classic science fiction novels. "Brigands of the Moon" is by one of the founding fathers of modern science fiction, Ray Cummings. It's a tale about two planets clashing over Lunar treasure. Gregg Haljan was well aware that there was a certain amount of risk in having the enormous spaceship Planetara touch down on the moon to pick up Grantline's special cargo of moon ore. For that decidedly rare metal-which was invaluable in keeping Earth's technology running-was the target of many greedy eyes. And those who desired it would certainly stop at nothing in order to obtain it. But Haljan couldn't have figured on the devilishly special twist the clever Martian brigands would soon employ. So when he found both the Planetara and himself suddenly in Martian hands, he knew that there was only one way in which he could hope to save that precious cargo and his own secret-and that would be by turning space-pirate himself and paying the "Brigands of the Moon" back in their own interplanetary coin.

Grime Kids

The majority of the known civilizations have formed a multi-cultural mega organization called the United Stars of Galaxies. This Union is protected by the brave men and women of the United Stars Space fleet against external threats. Eric Olafson, born and raised under harsh conditions of the traditional and inward looking society of Nilfeheim, left his planet to fulfill his dreams of becoming a Starship captain. When Eric gets kidnaped by an unknown organization and brought to Sin 4, a lawless Planet deep in free space, he slowly starts to discover his central role in an ancient conflict of cosmic proportions. "This is what Sci-Fi is all about. Reads like early Heinlein. In the style of Space Cadets. No esoteric problems..but good ol blaster and space action with a host of relatable characters." - Reed T "This story has all the right things such as strong appealing characters, great world building, aliens mystery, and more." - Fran L

The relationship between public and private spheres is one of the key concerns of the modern society. This book investigates this relationship, especially as manifested in the urban space with its social and psychological significance. Through theoretical and historical examination, it explores how and why the space of human societies is subdivided into public and private sections. It starts with the private, interior space of the mind and moves step by step, through the body, home, neighborhood and the city, outwards to the most public, impersonal spaces, exploring the nature of each realm and their complex, interdependent relationships. A stimulating and thought provoking book for any architect, architectural historian, urban planner or designer.

The classic work on the music of Afrofuturism, from jazz to jungle More Brilliant than the Sun: Adventures in Sonic Fiction is one of the most extraordinary books on music ever written. Part manifesto for a militant posthumanism, part journey through the unacknowledged traditions of diasporic science fiction, this book finds the future shock in Afrofuturist sounds from jazz, dub and techno to funk, hip hop and jungle. By exploring the music of such musical luminaries as Sun Ra, Alice Coltrane, Lee Perry, Dr Octagon, Parliament and Underground Resistance, theorist and artist Kodwo Eshun mobilises their concepts in order to open the possibilities of sonic fiction: the hitherto unexplored intersections between science fiction and organised sound. Situated between electronic music history, media theory, science fiction and Afrodiasporic studies, More Brilliant than the Sun is one of the key works to stake a claim for the generative possibilities of Afrofuturism. Much referenced since its original publication in 1998, but long unavailable, this new edition includes an introduction by Kodwo Eshun as well as texts by filmmaker John Akomfrah and producer Steve Goodman aka kode9.
