Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture. Despite numerous developments in technological manufacture and computational design that provide new grounds for designers, the act of drawing still plays a central role as a vehicle for speculation. There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world. In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world, the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation. Drawing Futures will present a compendium of projects, writings and interviews that critically reassess the act of drawing and where its future may lie. Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments. The book coincides with an international conference of the same name, taking place at The Bartlett School of Architecture, UCL, in November 2016. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas.

Cool Story Programs for the School-Age Crowd

As much as any individual, Ray Bradbury brought science fiction's ideas into the mainstream. Yet he transcended the genre in both form and popularity, using its trappings to explore timely social concerns and the kaleidoscope of human experience while in the process becoming one of America's most beloved authors. David Seed follows Bradbury's long career from the early short story masterpieces through his work in a wide variety of broadcast and film genres to the influential cultural commentary he spread via essays, speeches, and interviews. Mining Bradbury's classics and hard-to-find archival, literary, and cultural materials, Seed analyzes how the author's views on technology, authoritarianism, and censorship affected his art; how his Midwest of dream and dread brought his work to life; and the ways film and television influenced his creative process and visually-oriented prose style. The result is a passionate statement on Bradbury's status as an essential literary writer deserving of a place in the cultural history of his time.

The best cartoonists jam-pack their work with action that moves the story along. So how do you capture this kind of motion in your work? Whoosh 250 Ways to Get Motion into Your Drawings can help. Cartoonist and illustrator Carlos Gomes Cabral shares his tips and tricks to help you create attention-grabbing drawings that practically leap off the pages. It's all in the details: sometimes simplicity, rhythm, the position of a shadow, the use of a speed line, or even an exaggerated expression can make all the difference. Cabral walks you step-by-step through 250 fantastic techniques, including: The importance of a good silhouette Using lines of action to help create character's gestures How to use basic shapes to suggest movement The best positions to increase drama in a scene How to tell a compelling narrative with art alone And if all that isn't enough, ten great artists share their trademark secrets for bringing their own drawings to life Whether you work digitally on a computer or at a drawing table with a good old-fashioned pencil, this book will help you develop the skills you need to create movement and drama--and take your dynamic drawing skills to a whole new level.

Whoosh! 250 Ways to Get Motion Into Your Drawings

This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

Strange things exist on the periphery of our existence, haunting us from the darkness looming beyond our firelight. Black magic, weird cults and worse things loom in the shadows. The Children of Old Leech have been with us from time immemorial. And they love us... Donald Miller, geologist and academic, has walked along the edge of a chasm for most of his nearly eighty years, leading a charmed life between endearing absent-mindedness and sanity-shattering realization. Now, all things must converge. Donald will discover the dark secrets along the edges, unearthing savage truths about his wife Michelle, their adult twins, and all he knows and trusts. For Donald is about to stumble on the secret... ..of The Croning. From Laird Barron, Shirley Jackson Award-winning author of The Imago Sequence and Occultation, comes The Croning, a debut novel of cosmic horror. Skyhorse Publishing, under our Night Shade and Talos imprints, is proud to publish a broad range of titles for readers interested in science fiction (space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark, sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more. While not every title we publish becomes a New York Times

bestseller, a national bestseller, or a Hugo or Nebula award-winner, we are committed to publishing quality books from a diverse group of authors.

The Croning

“One of the most profound and illuminating studies of this century to have been published in recent decades.”—John Gray, New York Times Book Review Hailed as “a magisterial critique of top-down social planning” by the New York Times, this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail—sometimes catastrophically—in grand efforts to engineer their society or their environment, and uncovers the conditions common to all such planning disasters. “Beautifully written, this book calls into sharp relief the nature of the world we now inhabit.”—New Yorker “A tour de force.”— Charles Tilly, Columbia University

Seeing Like a State

Mills & Boon presents the complete Betty Neels collection. Timeless tales of heart-warming romance by one of the world’s best-loved romance authors. She wanted a complete break.

The Publishers Weekly

Over the course of two award-winning collections and a critically acclaimed novel, *The Croning*, Laird Barron has arisen as one of the strongest and most original literary voices in modern horror and the dark fantastic. Melding supernatural horror with hardboiled noir, espionage, and a scientific backbone, Barron's stories have garnered critical acclaim and have been reprinted in numerous year's best anthologies and nominated for multiple awards, including the Crawford, International Horror Guild, Shirley Jackson, Theodore Sturgeon, and World Fantasy awards. Barron returns with his third collection, *The Beautiful Thing That Awaits Us All*. Collecting interlinking tales of sublime cosmic horror, including "Blackwood's Baby," "The Carrion Gods in Their Heaven," and "The Men from Porlock," *The Beautiful Thing That Awaits Us All* delivers enough spine-chilling horror to satisfy even the most jaded reader.
