Your Road Map For Success

Defining success is a difficult task. Most people equate it with wealth, power, and happiness. However, true success is not a thing you acquire or achieve. Rather, it is a journey you take your whole life long. In a refreshingly straightforward style, John Maxwell shares unique insights into what it means to be successful. And he reveals a definition that puts genuine success within your reach yet motivates you to keep striving for your dreams. I want to help you discover your personal road map for success, teach you what it means to be on the success journey, answer many of your questions, and equip you with what you'll need to change yourself and keep growing. - John C. Maxwell

Your Road Map For Success Workbook

What is the definition of success? Some people believe it is defined through money and power. John C. Maxwell teaches that success is not something that can be acquired. Rather, it is a journey. Maxwell reveals that success is not limited to those with big bank accounts or special abilities. Success can be achieved by anyone willing to apply a few practical principles to their daily lives. An excellent enhancement for the book by the same name, this workbook teaches readers the keys to success and how to apply them to their everyday lives.

Your Road Map for Success (Summary)

getAbstract Summary: Get the key points from this book in less than 10 minutes. A popular leadership speaker and prolific author, John C. Maxwell has a great deal of experience in the process of personal growth, and he communicates it well. This book, published as *The Success Journey* in 1977, is a useful step-by-step guide to plotting your journey to success, right down to the thoughtful exercises at the end of each chapter. Maxwell does a nice job of mixing the personal and professional sides of success and encouraging you to redefine it. His definition is that success is following your true purpose and living up to your dreams and potential, rather than just accumulating wealth and possessions. The book is quite a fast read - probably because a good portion of it is devoted to quoting others - and its evangelical tone may not appeal to all readers. Maxwell also makes frequent use of catchphrases, which help fill a page but say little. getAbstract recommends this book to ambitious individuals looking for guidance on creating and following a workable, actionable life plan. You Can Get There from Here

You Can Get There From Here is a compilation of personal experience & research gathered by Elizabeth Jones over the last four decades. The book includes the basic success skills of the 90s & the "i can" Principle. While Mrs. Jones worked in insurance sales, she did motivational training. In the years since then, she has collected a home library full of motivational books & magazine articles. The problem with a lot of these books was that they were too wordy. The reader had to wade through a lot of text to get to the kernel of the idea. In addition, most motivational books address only one aspect of success & do not give practical information that the reader can really put to use in his or her life. Realizing that American readers rely on quick & visually stimulating information, Mrs. Jones felt it was time somebody wrote a complete guide to success that had quick information with a lot of graphics & lists that were easily used. *You Can Get There From Here* was born. *You Can Get There From Here* is a success guide that addresses all aspects of being successful from dressing & speaking well to building your public image. It is a 13-week course organized as a road map to success. In the back of the book is an Achiever's Kit that contains some aids which will help you on your way to success. It truly is a book about building the basic success skills of the 90s.

Three Simple Steps

How many self-help books are written by authors whose biggest success is selling self-help books? Three Simple Steps is different. Despite stock market crashes, dot-com busts, and the specter of recession, the author started a virtual company from home, using a few thousand dollars of his savings. A few years later, without ever hiring an employee or leaving his home office, he sold it for more than \$100 million. As the economy slipped into another free fall, he did this again with a company in a different field. He accomplished this through no particular genius. Rather, he studied the habits of the many successful men and women who preceded him, and developed three simple rules that, if followed diligently, virtually ensure success. Using them first to escape poverty, then to achieve a life of adventures, he finally turned them toward financial independence. Written in a straightforward and no-nonsense style, Three Simple Steps shows you how to take back control of your destiny and reshape your mind for increased creativity, serenity and achievement. While building on the wisdom of great thinkers and accomplished individuals from East and West, Three Simple Steps isn't a new age text or guide to esoteric fulfillment. Rather, it's a practical guide to real-life achievement by a pragmatic businessman who attributes his incredible successes to these very simple ideas. Three Simple Steps is a must-read guide for everyone who wants to achieve more, live better and be happier.

Roadmap

THESE HABITS WILL MAKE YOU EXTRAORDINARY. Twenty years ago, author Brendon Burchard became obsessed with answering three questions: 1. Why do some individuals and teams succeed more quickly than others and sustain that success over the long term? 2. Of those who pull it off, why are some miserable and others consistently happy on their journey? 3. What motivates people to reach for higher levels of success in the first place, and what practices help them improve the most After extensive original research and a decade as the world's leading high performance coach, Burchard found the answers. It turns out that just six deliberate habits give you the edge. Anyone can practice these habits and, when they do, extraordinary things happen in their lives, relationships, and careers. Which habits can help you achieve long-term success and vibrant well-being no matter your age, career, strengths, or personality? To become a high performer, you must seek clarity, generate energy, raise necessity, increase productivity, develop influence, and demonstrate courage. Instructions for Happiness and Success

You have a new venture in mind. And you've crafted a business plan so detailed it's a work of art. Don't get too attached to it. As John Mullins and Randy Komisar explain in *Getting to Plan B*, new businesses are fraught with uncertainty. To succeed, you must change the plan in real time as the inevitable challenges arise. In fact, studies show that entrepreneurs who stick slavishly to their Plan A stand a greater chance of failing-and that many successful businesses barely resemble their founders' original idea. The authors provide a rigorous process for stress testing your Plan A and determining how to alter it so your business makes money, solves customers' needs, and endures. You'll discover strategies for: -Identifying the leap-of-faith assumptions hidden in your plan -Testing those assumptions and unearthing why the plan might not work -Reconfiguring the five components of your business model-revenue model, gross margin model, operating model, working capital model, and investment model-to create a sounder Plan B. Filled with success stories and cautionary tales, this book offers real cases illustrating the authors' unique process. Whether your idea is for a start-up or a new business unit within your organization, *Getting to Plan B* contains the road map you need to reach success.

High Performance Habits

Do you want to get to the stage - soon - where you are truly financially independent, able to use your money in the way you'd like, and be completely confident in your ability to take care of yourself and your family? That is a universal desire, but many of us regard wealth and financial independence as a goal which we'll likely never achieve - there are just too many bills that need paying and there is a widespread belief that the money game is rigged. Even people who win the lottery or inherit money often seem to wind up losing it. The evidence suggests you can't win a game that you don't understand - even if you start out winning - because you never understood the game in the first place. So how can you win with money? How can you create independent wealth and hold on to it? This inspiring book by self-made multi-millionaire Rob Moore explains the rules of the game, shares simple tricks for managing money better, details how to create a plan for an ambitious future, and shows you the very best way to become a millionaire - to think and behave like one!

Getting to Plan B

Biography of Salman Khan, Indian motion picture actor.

Money

How do people of seemingly ordinary talent go on to achieve unexpected results? What can we learn from them? What are the ingredients for unreasonable success and how is it achieved? In this ground-breaking book, bestselling author Richard Koch charts a map of success, identifying the nine key attitudes and strategies can propel anyone to new heights of accomplishment. The pattern of success is fractal. It is endlessly varied but endlessly similar. Success does not require genius, consistency, all-round ability, a safe pair of hands or even basic competence. If it did, most of the people in this book would not have impacted the world as they did. Who could have predicted that Nelson Mandela, a once-obscure lawyer, could have averted disaster in South Africa, reconciling people of different heritages to each other and establishing a viable democracy? Or that Helena Rubinstein, a young woman growing up in the grotty ghetto of Krakow, could have changed the face of beauty throughout the world? Or that the illegitimate son of a notary would become one of the world's greatest painters, known universally by his first name, Leonardo? Successful people typically don't plan their success. Instead they develop a unique philosophy or attitude that works for them. They stumble across strategies which are shortcuts to success, and latch onto them. Events hand them opportunities they could not have anticipated. Often their peers with equal or greater talent fail while they succeed. It is too easy to attribute success to inherent, unstoppable genius. With this book, you can embark on a journey towards a new, unreasonably successful future.

Just Promoted! A 12-Month Road Map for Success in Your New Leadership Role, Second Edition

"Net Zero" has been an effective rallying cry for the green building movement, signaling a goal of having every building generate at least as much energy as it uses. Enormous strides have been made in improving the performance of every type of new building, and even more importantly, renovating the vast and energy-inefficient collection of existing buildings in every country. If we can get every building to net-zero energy use in the next few decades, it will be a huge success, but it will not be enough. In *Build Beyond Zero*, carbon pioneers Bruce King and Chris Magwood re-envision buildings as one of our most practical and affordable climate solutions instead of leading drivers of climate change. They provide a snapshot of a beginning and map towards a carbon-smart built environment that acts as a CO2 filter. Professional engineers, designers, and developers are invited to imagine the very real potential for our built environment to be a site of net carbon storage, a massive drawdown pool that could help to heal our climate. The authors, with the help of other industry experts, show the importance of examining what components of an efficient building (from windows to solar photovoltaics) are made with, and how the supply chains deliver all those products and materials to a jobsite. *Build Beyond Zero* looks at the good and the bad of how we track carbon (Life Cycle Assessment), then takes a deep dive into materials (with a focus on steel and concrete) and biological architecture, and wraps up with education, policy and governance, circular economy, and where we go in the next three decades. In *Build Beyond Zero*, King and Magwood show how buildings are culprits but stand poised to act as climate healers. They offer an exciting vision of climate-friendly architecture, along with practical advice for professionals working to address the carbon footprint of our built environment.

Two world-renowned strategists detail the seven leadership imperatives for transforming companies in the new digital era. Digital transformation is critical. But winning in today's world requires more than digitization. It requires understanding that the nature of competitive advantage has shifted—and that being digital is not enough. In *Beyond Digital*, Paul Leinwand and Matt Mani from Strategy&, PwC's global strategy consulting business, take readers inside twelve companies and how they have navigated through this monumental shift: from Philips's reinvention from a broad conglomerate to a focused health technology player, to Cleveland Clinic's engagement with its broader ecosystem to improve and expand its leading patient care to more locations around the world, to Microsoft's overhaul of its global commercial business to drive customer outcomes. Other case studies include Adobe, Citigroup, Eli Lilly, Hitachi, Honeywell, Inditex, Komatsu, STC Pay, and Titan. Building on a major new

body of research, the authors identify the seven imperatives that leaders must follow as the digital age continues to evolve: Reimagine your company's place in the world Embrace and create value via ecosystems Build a system of privileged insights with your customers Make your organization outcome-oriented Invert the focus of your leadership team Reinvent the social contract with your people Disrupt your own leadership approach Together, these seven imperatives comprise a playbook for how leaders can define a bolder purpose and transform their organizations.

The Crime of Living Cautiously

Luci Shaw writes about how to live fully in freedom and faith, responding to God's calling without fear.

An Essay on Crimes and Punishments

Reprint of the fourth edition, which contains an additional text attributed to Voltaire. Originally published anonymously in 1764, *Dei Delitti e Delle Pene* was the first systematic study of the principles of crime and punishment. Infused with the spirit of the Enlightenment, its advocacy of crime prevention and the abolition of torture and capital punishment marked a significant advance in criminological thought, which had changed little since the Middle Ages. It had a profound influence on the development of criminal law in Europe and the United States.

The Terror of Living

Hunt, an ex-convict, has spent the past twenty years on a small ranch with his wife, supplementing his income with the odd drug smuggling job. Drake, a deputy sheriff, is newly married and has almost escaped the shadow of his father, who was also a sheriff -- and no stranger to the drug trade himself... Drake is on Hunt's trail when a big drug deal in the mountains goes awry and so begins a terrifying race against time. Although Hunt evades Drake's attempts at capture the traffickers soon unleash a merciless hired killer to reclaim what's theirs. As the chase closes in and loyalties are tested, Drake's quest for justice contends with a hitman's quest for blood, and Hunt must face a terrible choice...

Our Life Our Way

Our Life Our Way, A Memoir of Active Faith, Profound Love, and Courageous Disability Rights explores an extraordinary love story grown out of engagement with both disability rights advocacy and Christian faith communities. This important memoir contains thoughtful, often-entertaining, and sometimes heart-wrenching anecdotes of a couple's journey to create their profoundly intimate relationship and Christian marriage, in a world not yet ready for them. William Rush and Christine Robinson's timely meeting, when the United States was close to granting civil rights to all Americans with disabilities, sets the stages for their intensely human and difficult journey of breaking down many societal and systemic barriers to full participation in the larger society. How will the couple deal with the local KKK grand dragon who is threatening William, an outspoken person with a significant disability? How will they respond to posturing state politicians using persons with disabilities as bargaining chips with potentially dire consequences? How will they react to well-meaning but not always well-informed government officials pushing quick fixes? Against such opposition, can they create their own life, supported by their local disability rights and Christian faith communities? Girded by a local Christian congregation's willingness to engage with this nontraditional couple, their faith is tested and grows stronger through much adversity. Faith-filled acts of mercy and grace and active and meaningful participation provide restoration on their arduous journey. Deepening their relationship with God results in a desire for a Christian marriage. Through a series of vignettes, several deeply human themes are explored: developing enduring relationships, standing up for one's rights and advocating for one's needs, and what it means to growing deeply in love with a faithful God while tribulations abound. Through sheer grit, they model for each of us how to create our own lives, our own way.

Eye of the Beholder

Luci Shaw is now 90 years old. The author of more than 35 collections of poetry and creative non-fiction over the last five decades, she describes her dedication to this art as a burden to "speak into a culture that finds it hard to listen." This collection of new poems — all composed over the last two years — is in many ways the culmination of a stunning career. The joy and responsibility of the poet is to focus on particulars within the universe, finding fragments of meaning that speak to the imagination. Ordinary things may reveal the extraordinary for those willing to take time to investigate and ponder. In this fresh collection of poems, Luci Shaw practices the art of seeing, and then writing what she sees, realizing that beauty is often focused in the Eye of the Beholder. *Eye of the Beholder* is meant to awaken in readers awareness of the extraordinary in the ordinary. They will find in this collection a focus for meditation and be excited into their own imaginative writing.

The Genesis of It All

Presents the Old Testament story of God's creation of the world in seven days.

Disastrous

After struggling with the loss of yet another person so dear to her heart, Mia Sullivan channeled her frustration and loneliness into focusing on her future career. At the top of her class at Harvard Law, she was nervous and excited when given the opportunity to work as a summer extern at one of the top firms in Boston. Her new boss was the young, extraordinarily handsome, and successful Marcus DeLuca. As she falls for his charms, she discovers he is keeping something from her. Marcus DeLuca was living two separate lives: one that involved his successful career and the other that could potentially ruin his entire reputation. His secret could jeopardize not only his life but everyone he loves. There was no room in his life for a serious romantic relationship, but after meeting Mia, he makes room. He cannot resist her. She is innocent, humble, and pure—the total opposite of him. She distracts him from all of his deep dark secrets. He knows once Mia finds out the things he has done and who he truly is, she will never want to look at him again. Deep down he knows he must stay away, but he can't. Mia and Marcus are heading down a path of love, lies, heartbreak, and betrayal. Can their love conquer all, or will the web of deceit be too much to overcome?

Gold from the Fire

Maxine Hancock has become well known among Christians in Canada for her conference speaking, broadcasting and writing. In these devotional and inspirational pieces, she draws on her many years of experience on an Alberta farm and her deep connections to the land, the community, and the small village church. "Maxine Hancock, a brilliant scholar and teacher and a gifted public communicator, here lets us into her inner heart and life. Her insights come one by one, the way they do in daily living, but each of these very personal, earthbound essays are informed by a heavenly vision of a superintending God who loves her and leads her. Beautifully and poignantly written, *Gold From the Fire* never dodges the hard questions, but Hancock's faith shines through them." -Luci Shaw, Author of *The Crime of Living Cautiously* "Maxine Hancock is one of those few scholars who is comfortable and competent debating in a television studio, speaking to a packed conferenced assembly, giving a reasoned presentation to scholars or encouraging a young student in their walk of faith. Her gift of ministry in writing greatly enriches our lives as followers of the Lord." - Brian C. Stiller, Tyndale University College & Seminary Maxine Hancock is Professor of Interdisciplinary Studies and Spiritual Theology at Regent College in Vancouver, British Columbia. Among her other books are several on family relationships, including *Living on Less and Liking in More*, *Re-evaluating Your Commitments*, and *Creative, Confident, Children*.

Pilgrims of Christ on the Muslim Road

Paul-Gordon Chandler presents fresh thinking in the area of Christian-Muslim relations, showing how Christ—whom Islam reveres as a Prophet and Christianity worships as the divine Messiah—can close the gap between the two religions. He illustrates his perspective with examples from the life of Syrian novelist Mazhar Mallouhi, who seeks to bridge the chasm of misunderstanding between Muslims and Christians through his novels.

Finally Feminist

Provocative, clear, and honest, this is a constructive Christian understanding of gender that moves the conversation forward.

God Is Dead and I Don't Feel So Good Myself

In this pertinent and engaging volume leading Christian philosophers, theologians, and writers from all over the denominational map explode the black-and-white binaries that characterize both sides of the New Atheism debate. They transcend the self-assured shouting matches of this latest expression of

the culture wars by engaging in rigorous, polychromatic Christian reflection that considers the extent to which the atheistic critique—both new and old—might help the church move toward a more mature faith, authentic spirituality, charitable witness, and peaceable practice. With generous openness and ferocious wit, this collection of essays, interviews, memoir, poetry, and visual art—including contributions from leading intellectuals, activists, and artists such as Stanley Hauerwas, Charles Taylor, John Milbank, Stanley Fish, Luci Shaw, Paul Roorda, Merold Westphal, and D. Stephen Long—provides substantive analysis, incisive critique, and a hopeful way forward for Christian dialog with atheist voices.

The Sacred Place of Exile

The person of exile may be considered a wanderer, a nomad, a refugee, or a rebel. People of exile can be the marginalized, the disenfranchised, the outcast, the left out, and the pushed away. Different terms are used, but what defines them all is separation. Exile is a dangerous and dominant theme that runs through Scripture, through the lives of the people of Israel, and through the universal church. Women who have known the sacred place of exile are uniquely qualified to form a women's mission. The case is made for a momentum shift in missiological thinking. There is a desperate and aching need for a women's mission, which could lead the way to a women's missionary movement. The emergence of such a mission/movement is indeed fraught with skepticism and suspicion from many of those inside the church and leaders in the missionary world. But the radical, disruptive, costly following of Jesus to those outside the camp is our calling.

The Corner

A devastating portrait of the American drugs war, from the creators of *THE WIRE*.

No More Jellyfish, Chickens or Wimps

The Blue Umbrella

Moses was a misfit. Are you? Has your sense of self been buffeted by trauma, mental illness, culture shock, post-modern ideologies, and the like? If so, you are kindred spirits to this biblical patriarch. Journeying through the book of Exodus, Nikki T. White explores the topic of identity crisis in the life of Moses, inviting us to discover-through the ordinary, extraordinary, and unthinkable events of our lives-a new identity of purposed and purposeful mission. In the ancient story of Moses, White finds many modern parallels to the stories of this current generation. She examines the different forms of identity crisis faced by millennials, missionaries, migrants, the marginalized, and the grievously misunderstood. Interspersing their stories throughout the book, White offers well-researched insights into some of the sources of identity crisis in North America. Relating the ways in which God has woven her own personal brokenness into his overarching story of redemption, she leads readers to see how God can impart profound meaning to the seemingly random chapters of life. This book helps us to find our identity and calling within the bigger scope of God's divine narrative. For we, like Moses, are being sent.

Moses was a misfit. Are you? Has your sense of self been buffeted by trauma, mental illness, culture shock, post-modern ideologies, and the like? If so, you are kindred spirits to this biblical patriarch. Journeying through the book of Exodus, Nikki T. White explores the topic of identity crisis in the life of Moses, inviting us to discover-through the ordinary, extraordinary, and unthinkable events of our lives-a new identity of purposed and purposeful mission. Utopia is a work of fiction and socio-political satire by Thomas More published in 1516 in Latin. The book is a frame narrative primarily depicting a fictional island society and its religious, social and political customs. Many aspects of More's description of Utopia are reminiscent of life in monasteries.

"Christianity is a religion founded on the mystery of the cross of Christ." --Leo the Great At the center of Christianity sits the cross of Christ. From the beginning, Christ's followers celebrated the cross as a symbol of their faith. It was honored in church worship, carved into rough tombstones, pressed onto loaves of bread and set out as a sign of sanctuary. The cross represented what Christians believed, who they hoped for and how they approached life. In this thoughtful book Judith Couchman takes up forty images of the cross from early Christianity. As we discover the meaning and significance of each of these uses, we learn a little more about the early church. More than that, she helps us focus on the meaning of the cross and the Savior's sacrifice. Ideal for Lenten devotional reading and appropriate for any season of the church calendar, this book includes original illustrations of each cross image. The Mystery of the Cross will enrich your understanding of Christian tradition and draw you into Christ's presence.

The Soul Tells a Story

How insurgencies—enabled by digital devices and a vast information sphere—have mobilized millions of ordinary people around the world. In the words of economist and scholar Arnold Kling, Martin Gurri saw it coming. Technology has categorically reversed the information balance of power between the public and the elites who manage the great hierarchical institutions of the industrial age: government, political parties, the media. The Revolt of the Public tells the story of how insurgencies, enabled by digital devices and a vast information sphere, have mobilized millions of ordinary people around the world. Originally published in 2014, The Revolt of the Public is now available in an updated edition, which includes an extensive analysis of Donald Trump's improbable rise to the presidency and the electoral triumphs of Brexit. The book concludes with a speculative look forward, pondering whether the current elite class can bring about a reformation of the democratic process and whether new organizing principles, adapted to a digital world, can arise out of the present political turbulence.

The Revolt of The Public and the Crisis of Authority in the New Millennium

Where Faith Meets Culture is a Radix magazine anthology. What does Radix usually contain? Interviews and features. Reviews of significant books, films, and CDs. Informed opinions in "The Last Word." Eye-catching graphics. Mind-stretching prose. Image-rich poetry. Radix assumes that Christians live in the real world and takes lay Christians seriously. As one subscriber wrote: "Radix is a more worldly magazine than one would expect from its deep commitment to Christ." Radix monitors the cultural landscape, questions assumptions, and introduces new voices, remaining deeply rooted in Christ. Sociologist Robert Bellah wrote in a Radix article: "Though social scientists say a lot about the self, they have nothing to say about the soul and as a result the modern view finds the world intrinsically meaningless." Radix continues to talk about meaning and hope in a culture that has lost its way. The articles in this volume reflect the magazine's wide-ranging interests: literature, art, music, theology, psychology, technology, discipleship, and spiritual formation. They're written by some of the outstanding authors whose work has graced our pages over the years: Peggy Alter, Kurt Armstrong, Robert Bellah, Bob Buford, Krista Faries, David Fetcho, Susan Fetcho, Sharon Gallagher, David W. Gill, Joel B. Green, Os Guinness, Virginia Hearn, Walter Hearn, Donald Heinz, Margaret Horwitz, Mark Labberton, Henri Nouwen, Earl Palmer, Susan Phillips, Dan Ouellette, Steve Scott, and Luci Shaw.

Bestselling author Joe McGinniss chronicles every aspect of this horrifying and intricate crime and probes the life and psyche of the magnetic, all-American Jeffrey MacDonald—a golden boy who seemed destined to have it all. The result is a penetration to the heart of darkness that enshrouded one of the most complex criminal cases ever to capture the attention of the American public. It is a haunting, stunningly suspenseful work that no reader will be able to forget. Includes photographs and a Special Epilogue by the author OVER ONE MILLION COPIES SOLD

Fatal Vision

THERE'S NEVER BEEN A BOOK LIKE THE TWENTY-YEAR DEATH A breathtaking first novel written in the form of three separate crime novels, each set in a different decade and penned in the style of a different giant of the mystery genre. 1931— The body found in the gutter in France led the police inspector to the dead man's beautiful daughter—and to her hot-tempered American husband. 1941— A hardboiled private eye hired to keep a movie studio's leading lady happy uncovers the truth behind the brutal slaying of a Hollywood starlet. 1951— A desperate man pursuing his last chance at redemption finds himself with blood on his hands and the police on his trail... Three complete novels that, taken together, tell a single epic story, about an author whose life is shattered when violence and tragedy consume the people closest to him. It is an ingenious and emotionally powerful debut performance from literary detective and former bookseller Ariel S. Winter, one that establishes this talented newcomer as a storyteller of the highest caliber.

The Twenty-Year Death

In this fresh edition of the book which has inspired the global justice movement, Geoffrey Robertson QC explains why we must hold political and military leaders accountable for genocide, torture and mass murder - the crimes against humanity that have disfigured the world. He shows how human rights standards can be enforced against cruel governments, armies and multi-national corporations. This seminal work now contains a critical perspective on recent events, such as the invasion of Iraq, the abuses at AbuGhraib, the killings in Darfur, the death of Milosevic and the trial of Saddam Hussein. Cautiously optimistic about ending impunity, but unsparingly critical of diplomats, politicians, Bush lawyers and others who evade international rules, this third edition will provide further guidance to a movement which aims to make justice predominant in world affairs. 'A beacon of clear-sighted commitment to the humanitarian cause. . . impassioned. . . exemplary. . . seminal' Observer

The magnum opus by Japanese literary sensation Fuminori Nakamura, Cult X is a story that dives into the psychology of fringe religion, obsession, and social disaffection. When Toru Narazaki's girlfriend, Ryoko Tachibana, disappears, he tries to track her down, despite the warnings of the private detective he's hired to find her. Ryoko's past is shrouded in mystery, but the one concrete clue to her whereabouts is a previous address in the heart of Tokyo. She lived in a compound with a group that seems to be a cult led by a charismatic guru with a revisionist Buddhist scheme of life, death, and society. Narazaki plunges into the secretive world of the cult, ready to expose himself to any of the guru's brainwashing

tactics if it means he can learn the truth about Ryoko. But the cult isn't what he expected, and he has no idea of the bubbling violence he is stepping into. Inspired by the 1995 sarin gas terrorist attack on the Tokyo subway, Cult X is an exploration of what draws individuals into extremism. It is a tour de force that captures the connections between astrophysics, neuroscience, and religion; an invective against predatory corporate consumerism and exploitative geopolitics; and a love story about compassion in the face of nihilism.

Fear Is Not a Factor

Criminals and Victims analyzes economic decisions made by offenders and victims before, during, and after a crime or victimization.

On the day Nora discovered that her husband, Hugh, had gotten another woman pregnant, she made a vow: I will come back to life no matter how long it takes... It's taken Nora three years. With the help of her best friend, she fled New York City for a small resort town, snagged a job as the advice columnist for the local paper, and is cautiously letting a new man into her life. But when Hugh and his perfect new family move into a house nearby, Nora backslides. Coping with jealousy, humiliation, and resentment again is as hard as she feared. It's harder still when Hugh and his wife are shot to death in their home. If only Nora could account for the night of the murders. Unfortunately, her memories have gone as dark as her fantasies of revenge. But Nora's not the only one with a reason to kill--and as prime suspect in the crime, she'd better be able to prove it.

The Possibility of Everything

This deeply affecting, beautifully written memoir of a family's emotional journey explores what Edelman and her husband had gone looking for in the Central American jungle and what they ultimately discover.

The Possibility of Everything

BONUS: This edition contains a The Possibility of Everything discussion guide. In the autumn of 2000, Hope Edelman was a woman adrift, questioning her marriage, her profession, and her place in the larger world. Feeling vulnerable and isolated, she was primed for change. The Possibility of Everything is the story of the change that found her. A chronicle of her extraordinary leap of faith, it begins when her three-year-old daughter, Maya, starts exhibiting unusual and disruptive behavior. Confused and worried, Edelman and her husband make an unorthodox decision: They take Maya to Belize, suspending disbelief and chasing the promise of an alternative cure. This deeply affecting, beautifully written memoir of a family's emotional journey and a mother's intense love explores what Edelman and her husband went looking for in the jungle and what they ultimately discovered—as parents, as spouses, and as ordinary people—about the things that possess and destroy, or that can heal us all.

The AfterGrief

A validating new approach to the long-term grieving process that explains why we feel “stuck,” why that’s normal, and how shifting our perception of grief can help us grow—from the New York Times bestselling

author of *Motherless Daughters* “This is perhaps one of the most important books about grief ever written. It finally dispels the myth that we are all supposed to get over the death of a loved one.”—Claire Bidwell Smith, author of *Anxiety: The Missing Stage of Grief* Aren’t you over it yet? Anyone who has experienced a major loss in their past knows this question. We’ve spent years fielding versions of it, both explicit and implied, from family, colleagues, acquaintances, and friends. We recognize the subtle cues—the slight eyebrow lift, the soft, startled “Oh! That long ago?”—from those who wonder how an event so far in the past can still occupy so much precious mental and emotional real estate. Because of the common but false assumption that grief should be time-limited, too many of us believe we’re grieving “wrong” when sadness suddenly resurges sometimes months or even years after a loss. *The AfterGrief* explains that the death of a loved one isn’t something most of us get over, get past, put down, or move beyond. Grief is not an emotion to pass through on the way to “feeling better.” Instead, grief is in constant motion; it is tidal, easily and often reactivated by memories and sensory events, and is re-triggered as we experience life transitions, anniversaries, and other losses. Whether we want it to or not, grief gets folded into our developing identities, where it informs our thoughts, hopes, expectations, behaviors, and fears, and we inevitably carry it forward into everything that follows. Drawing on her own encounters with the ripple effects of early loss, as well as on interviews with dozens of researchers, therapists, and regular people who’ve been bereaved, New York Times bestselling author Hope Edelman offers profound advice for reassessing loss and adjusting the stories we tell ourselves about its impact on our identities. With guidance for reframing a story of loss, finding equilibrium within it, and even experiencing renewed growth and purpose in its wake, she demonstrates that though grief is a lifelong process, it doesn’t have to be a lifelong struggle.

Encyclopedia of Motherhood

In the last decade, the topic of motherhood has emerged as a distinct and established field of scholarly inquiry. A cursory review of motherhood research reveals that hundreds of scholarly articles have been published on almost every motherhood theme imaginable. The *Encyclopedia of Motherhood* is a collection of approximately 700 articles in a three-volume, A-to-Z set exploring major topics related to motherhood, from geographical, historical and cultural entries to anthropological and psychological contributions. In human society, few institutions are as important as motherhood, and this unique encyclopedia captures the interdisciplinary foundation of the subject in one convenient reference. The *Encyclopedia* is a comprehensive resource designed to provide an understanding of the complexities of motherhood for academic and public libraries, and is written by academics and institutional experts in the social and behavioural sciences.

The Promise of Happiness

The Promise of Happiness is a provocative cultural critique of the imperative to be happy. It asks what follows when we make our desires and even our own happiness conditional on the happiness of others: “I just want you to be happy”; “I’m happy if you’re happy.” Combining philosophy and feminist cultural studies, Sara Ahmed reveals the affective and moral work performed by the “happiness duty,” the expectation that we will be made happy by taking part in that which is deemed good, and that by being happy ourselves, we will make others happy. Ahmed maintains that happiness is a promise that directs us toward certain life choices and away from others. Happiness is promised to those willing to live their lives in the right way. Ahmed draws on the intellectual history of happiness, from classical accounts of ethics as the good life, through seventeenth-century writings on affect and the passions, eighteenth-century debates on virtue and education, and nineteenth-century utilitarianism. She engages with feminist, antiracist, and queer critics who have shown how happiness is used to justify social oppression, and how challenging oppression causes unhappiness. Reading novels and films including *Mrs. Dalloway*, *The Well of Loneliness*, *Bend It Like Beckham*, and *Children of Men*, Ahmed considers the plight of the figures who challenge and are challenged by the attribution of happiness to particular objects or social ideals: the feminist killjoy, the unhappy queer, the angry black woman, and the melancholic migrant. Through her readings she raises critical questions about the moral order imposed by the injunction to be happy.

No Future

In this searing polemic, Lee Edelman outlines a radically uncompromising new ethics of queer theory. His main target is the all-pervasive figure of the child, which he reads as the linchpin of our universal politics of “reproductive futurism.” Edelman argues that the child, understood as innocence in need

of protection, represents the possibility of the future against which the queer is positioned as the embodiment of a relentlessly narcissistic, antisocial, and future-negating drive. He boldly insists that the efficacy of queerness lies in its very willingness to embrace this refusal of the social and political order. In *No Future*, Edelman urges queers to abandon the stance of accommodation and accede to their status as figures for the force of a negativity that he links with irony, jouissance, and, ultimately, the death drive itself. Closely engaging with literary texts, Edelman makes a compelling case for imagining Scrooge without Tiny Tim and Silas Marner without little Eppie. Looking to Alfred Hitchcock's films, he embraces two of the director's most notorious creations: the sadistic Leonard of North by Northwest, who steps on the hand that holds the couple precariously above the abyss, and the terrifying title figures of *The Birds*, with their predilection for children. Edelman enlarges the reach of contemporary psychoanalytic theory as he brings it to bear not only on works of literature and film but also on such current political flashpoints as gay marriage and gay parenting. Throwing down the theoretical gauntlet, *No Future* reimagines queerness with a passion certain to spark an equally impassioned debate among its readers.

Motherless Daughters

Ask any woman whose mother has died, and she will tell you that she is irrevocably altered, as deeply changed by her mother's death as she was by her mother's life. Although a mother's mortality is inevitable, no book had discussed the profound, lasting and far-reaching effects of this loss - until *Motherless Daughters*, which became an instant classic. Over twenty years later, it is still the book that women of all ages look to for comfort and understanding when their mothers die, and the book that they continue to press into each other's hands. Building on interviews with hundreds of mother-loss survivors, the author's personal story of losing her mother and recent research in grief and psychology, *Motherless Daughters* reveals the shared experiences and core identity issues of motherless women.

***** 'Motherless Daughters is a timeless source of consolation and information for all who grieve the death of their mother. It highlights that we bear this loss by remembering, not forgetting our mother.' JULIA SAMUEL, author of *Grief Works* 'Anyone who has lost their mother should read this remarkable, tender book, full of insight and consolation. This is one of those exceptional books that has the power to change your life.' CLOVER STROUD, author of *The Wild Other* 'Nothing has helped me make more sense of myself than *Motherless Daughters*; it's the book I go back to again and again, and find something new in it every time.' DECCA AITKENHEAD 'Intelligent, brave, consoling and wise . . . an essential and illuminating must-read for anyone who has lost a mother or loves someone who did.' CHERYL STRAYED, author of *Wild* 'This book has helped me heal my heart. Finding myself in the stories of other motherless daughters let me know I was not alone. If you have lost your mom - this book is essential.' ROSIE O'DONNELL 'Absorbing . . . insightful . . . a moving and valuable treatment of a neglected subject.' NEW YORK TIMES BOOK REVIEW

Boys Like That

Hope Edelman's iconic book, *Motherless Daughters*—in print for nearly twenty years—told the story of losing her mother to cancer at age seventeen. Now, in her first original e-book, Edelman chronicles the events leading up to and immediately following that crucial event. Set against the backdrop of suburban New York in the early 1980s, "The Sweetest Sex I Never Had" and "Bruce Springsteen and the Story of Us" tell the stories of a good girl gone raw and the two "bad" boys she turned to for escape. Part coming-of-age story and part cultural critique, *Boys Like That* weaves together the angst of adolescence, the discovery of sex, and the solace of rock and roll to create two unforgettable short memoirs about the exquisite pain of young love and the life-altering nature of loss.

Motherless Daughters (20th Anniversary Edition)

The classic New York Times bestseller that has helped millions of women cope with and heal from the grief of losing their mothers Although a mother's mortality is inevitable no book has discussed the profound lasting and far reaching effects of this loss until *Motherless Daughters*, which became an instant classic. More than twenty years later, it is still the go-to book that women of all ages look to for comfort, help, and understanding when their mother dies. Building on interviews with hundreds of mother loss survivors, Edelman's personal story of losing her mother, and recent research in grief and psychology, *Motherless Daughters* reveals the shared experiences and core identity issues of motherless women: Why the absence of a nurturing hand shapes a woman's identity throughout her lifespan How present day relationships are defined by past losses How a woman can resolve past

conflicts and move toward acceptance and healing Why grief really is not a linear passage but an ongoing cyclical journey How the legacy of mother loss shifts with the passage of time

The Measure of our Success

A beautiful gift edition of the number one New York Times bestseller—from the founder and president of the Children's Defense Fund.

Letters from Motherless Daughters

Letters from Motherless Daughters is a compilation of the letters Hope Edelman received in response to her groundbreaking New York Times—bestseller, *Motherless Daughters*. Reaffirming her precious link with motherless women across the country, Edelman presents these moving, honest, and often hopeful letters alongside her own insight to offer readers the opportunity to further learn from loss. The words of these brave women illustrate the profound pain, astounding strength, and undying perseverance of living through the loss of one's mother without ever outliving the need for her. Edelman has added a new introduction and new letters, tailoring this important book to a new generation.

Lee Edelman and the Queer Study of Religion

This book takes the groundbreaking work of Lee Edelman in queer theory and, for the first time demonstrates its importance and relevance to contemporary theology, biblical studies, and religious studies. It argues that despite extensive interest in Edelman's work, we have barely begun to understand the significance of Edelman's ideas both in their own right and with respect to the study of religion. Therefore, it offers fresh approaches to Edelman's work that necessarily complicate the established interpretations of his thinking. With essays by rising and established scholars, as well as a response by Edelman himself, it contends that by fully engaging Edelman, scholars of religion will have to confront negativity and its consequences in ways that will contribute to reshaping the terrain of scholarship on religion, race, sexuality, and social change. The insights provided in this book are new territory for much of the study of religion. As such, it will be of keen interest to scholars of religious studies, theology and Biblical studies as well as gender studies and queer, feminist, and critical race theory.

'Queer Optimism' presents a new paradigm for queer theory. Through fresh, perceptive, and sensitive readings of the poetry of Emily Dickinson, Hart Crane, Jack Spicer, and Elizabeth Bishop, Snediker reveals that each of these poets demonstrated an interest in the durability of positive affects.

Spanning nearly 50 years of family history, the book chronicles the remarkable lives of two creative talents, Martin Sheen and Emilio Estevez. It's a story of father and son set against the backdrop of Hollywood; this narrative is organized around their physical and spiritual journey along the Camino de Santiago, Spain, the thousand-year-old pilgrimage path which traverses Galicia. It is the area from which Sheen's father emigrated to the U.S. and to which Estevez's own son has returned. Along the Way will focus not just on the lives these men have chosen as artists, but also (and most importantly) on the one they have lived together. It is a story of family bonds and artistic advances and setbacks; of good choices and hard choices; of opportunities lost and opportunities found. Sheen and Estevez will share what they have experienced and learned from each other in their forty eight years as father and son, as fathers of sons, as actors and director, as spiritual seekers, and as concerned citizens of the world. Readers will meet them as real people rather than icons, as two men who have accumulated decades of wisdom and insight they are now ready to share.

In her acclaimed New York Times bestseller, *Motherless Daughters*, Hope Edelman explored the profound and lasting effects of mother loss, as well as her own search for healing. Now, in her compelling new work, Edelman explores another complex, life-changing relationship, the intricate bond between generations. Drawing from her own experience and the recollections of over seventy other granddaughters, Edelman explores the three-generation triangle from which women develop their female identities: the grandmother-mother-daughter relationship. With eloquent personal testimony, she demonstrates the vital roles grandmothers have played in their granddaughters' lives, as a source of

unconditional love, family values and traditions, and backup parent, the ultimate safety net. Here are grandmothers in all their glory: The "Benevolent Manipulator"

The Magic of Memoir is a memoirist's companion for when the going gets tough. Editors Linda Joy Myers and Brooke Warner have taught and coached hundreds of memoirists to the completion of their memoirs, and they know that the journey is fraught with belittling messages from both the inner critic and naysayers, voices that make it hard to stay on course with the writing and completion of a book. Cruising Utopia

From an author who resigned from the Clinton administration: "Part memoir and part manifesto . . . a beautifully written call to renew the fight against poverty."?Jonathan Kozol, New York Times bestselling author of *Savage Inequalities* Peter Edelman has worked as an aide to Robert F. Kennedy, a lawyer, a children's advocate, and a policymaker. He has devoted his life to the cause of justice and to ending inequality. But in 1996, while serving in the Clinton administration as an expert on welfare policy and children, he found himself in an untenable position. The president signed a new welfare bill that ended a sixty-year federal commitment to poor children, and as justification invoked the words of RFK. For Edelman, Clinton's twisting of Kennedy's vision was deeply cynical, so in a rare gesture that sparked front-page headlines, he resigned. The nation, he believed, had been harmed. In this book, he shows that in an age of unprecedented prosperity, Americans have in many respects forsaken their fellow citizens, leaving behind a devastatingly large number of poor and near-poor, many of them children. Edelman shines a bright light on these forgotten Americans. Based in part on a firsthand look at community efforts across the country, he also proposes a bold and practical program for addressing the difficult issues of entrenched poverty, focusing on novel ways of braiding together national and local civic activism, reinvigorating our commitment to children, and building hope in our most shattered communities—creating a vision true to the legacy of Robert F. Kennedy. "Moving and insightful." —Atlanta Journal-Constitution "I have read a lot of books on inequality, but none offers a more thoughtful vision of poverty and welfare in America . . . compelling."?William Julius Wilson, author of *When Work Disappears*

Searching for America's Heart

Queer theory essays on time and becoming in the fields of literature, philosophy, film, and performance.

Queer Times, Queer Becomings

During the 2010s in Turkey, LGBTQ activists, groups, and individuals persisted against social, political, and legal adversity. Erasure during the Gezi Park Protests in 2013, a Pride parade ban in Istanbul in 2016, and indefinite ban on all LGBTQ events in Ankara in 2017 directly aimed at ending the activities, visibility, and existence of LGBTQ organization in the two biggest cities in Turkey. This work examines the ways in which LGBTQ activists engaged in talkback against these restrictions that impacted the lives of LGBTQ individuals and how said individuals endured such adversity. Focusing on the elements of discourse used by LGBTQ activists, this work argues oppositional discourses need to address

as well as remedy the various elements of normative discourses—constructions of space, time, and affect—in order to be deemed a talkback, instead of merely perpetuating the normativities of oppressive discourses.

Burgeoning advances in brain science are opening up new perspectives on how we acquire knowledge. Indeed, it is now possible to explore consciousness - the very centre of human concern - by scientific means. In this illuminating book, Dr. Gerald M. Edelman offers a new theory of knowledge based on striking scientific findings about how the brain works. And he addresses the related compelling question: does the latest research imply that all knowledge can be reduced to scientific description? Edelman's brain-based approach to knowledge has rich implications for our understanding of creativity, of the normal and abnormal functioning of the brain, and of the connections among the different ways we have of knowing. While the gulf between science and the humanities and their respective views of the world has seemed enormous in the past, the author shows that their differences can be dissolved by considering their origins in brain functions. He foresees a day when brain-based devices will be conscious, and he reflects on this and other fascinating ideas about how we come to know the world and ourselves.

Edelman wrote this book especially for young women whose mothers died at an early age.

USE YOUR WORDS introduces the art of creative nonfiction to women who want to give written expression to their lives as mothers. Written by award-winning teacher and writer, Kate Hopper, this book will help women find the heart of their writing, learn to use motherhood as a lens through which to write the world, and turn their motherhood stories into art. Each chapter of USE YOUR WORDS focuses on an element of craft and contains a lecture, a published essay, and writing exercises that will serve as jumping-off points for the readers' own writing. Chapter topics include: the importance of using concrete details, an overview of creative nonfiction as a genre, character development, voice, humor, tense and writing the "hard stuff," reflection and back-story, structure, revision, and publishing. The content of each lecture is aligned with the essay/poem in that chapter to help readers more easily grasp the elements of craft being discussed. Together the chapters provide a unique opportunity for mother writers to learn and grow as writers. USE YOUR WORDS takes the approach that creative writing can be taught, and this underscores each chapter. When students learn to read like writers, to notice how a piece is put together, and to question the choices a writer makes, they begin to think like writers. When they learn to ground their writing in concrete, sensory details and begin to understand how to create believable characters and realistic dialogue, their own writing improves. USE YOUR WORDS reflects Kate's style as a teacher, guiding the reader in a straightforward, nurturing, and passionate voice. As one student noted in a class evaluation: "Kate is a born writer and teacher, and her enthusiasm for essays about motherhood and for teaching the nuts and bolts of writing so that ordinary mothers have the tools to write their stories is a gift to the world. She is raising the value of motherhood in our society as she helps mothers build their confidence and strengthen their game as writers."

Despite feminism's uneven movements, it has been predominantly understood through metaphors of generations or waves. Feminism's Queer Temporalities builds on critiques of the limitations of this linear model to explore alternative ways of imagining feminism's timing. It finds in feminism's literary and cultural archive narratives of temporality that might now be diagnosed as queer, where queer designates modes of being historical that exceed the linear and the generational. Few theorists have looked to popular feminist figures, literature, and culture to theorize feminism's timing. Through methodologically creative readings, McBean explores non-generational, anti-linear, and asynchronous time in the figure of Antigone, Marge Piercy's *Woman on the Edge of Time*, the film *Ladies and Gentlemen: The Fabulous Stains*, Valerie Solanas and *SCUM Manifesto*, and Alison Bechdel's *Fun Home*. The first to substantially bring together the ways in which time has come to matter in both feminist and queer disciplines, this book will appeal to students and scholars of feminist, queer and gender studies, cultural studies and literary studies.

"A competent, thorough assessment from a veteran expert in the field." —Kirkus Reviews *Income disparities in our wealthy nation are wider than at any point since the Great Depression. The structure of today's economy has stultified wage growth for half of America's workers—with even worse results at the bottom and for people of color—while bestowing billions on the few at the very top. In this "accessible and inspiring analysis", lifelong anti-poverty advocate Peter Edelman assesses how the United States can have such an outsized number of unemployed and working poor despite important policy gains. He delves into what is happening to the people behind the statistics and takes a particular look at young people of color, for whom the possibility of productive lives is too often lost on the way to adulthood (Angela Glover Blackwell). For anyone who wants to understand one of the critical issues of twenty-first century America, *So Rich, So Poor* is "engaging and informative" (William Julius Wilson) and "powerful and eloquent" (Wade Henderson).*

So Rich, So Poor

A fascinating exploration of the human brain that combines "the leading edge of consciousness science with surprisingly personal and philosophical reflection . . . shedding light on how scientists really think"—this is "science writing at its best" (Times Higher Education). In which a scientist searches for an empirical explanation for phenomenal experience, spurred by his instinctual belief that life is meaningful. What links conscious experience of pain, joy, color, and smell to bioelectrical activity in the brain? How can anything physical give rise to nonphysical, subjective, conscious states? Christof Koch has devoted much of his career to bridging the seemingly unbridgeable gap between the physics of the brain and phenomenal experience. This engaging book—part scientific overview, part memoir, part futurist speculation—describes Koch's search for an empirical explanation for consciousness. Koch recounts not only the birth of the modern science of consciousness but also the subterranean motivation for his quest—his instinctual (if "romantic") belief that life is meaningful. Koch describes his own groundbreaking work with Francis Crick in the 1990s and 2000s and the gradual emergence of consciousness (once considered a "fringy" subject) as a legitimate topic for scientific investigation. Present at this paradigm shift were Koch and a handful of colleagues, including Ned Block, David Chalmers, Stanislas Dehaene, Giulio Tononi, Wolf Singer, and others. Aiding and abetting it were new techniques to listen in on the activity of individual nerve cells, clinical studies, and brain-imaging technologies that allowed safe and noninvasive study of the human brain in action. Koch gives us stories from the front lines of modern research into the neurobiology of consciousness as well as his own reflections on a variety of topics, including the distinction between attention and awareness, the unconscious, how neurons respond to Homer Simpson, the physics and biology of free will, dogs, *Der Ring des Nibelungen*, sentient machines, the loss of his belief in a personal God, and sadness. All of them are signposts in the pursuit of his life's work—to uncover the roots of consciousness.

"Edelman illuminates the transformative power of understanding mother loss [and] offers essential wisdom." — Library Journal When Hope Edelman, author of the New York Times bestseller *Motherless Daughters*, became a parent, she found herself revisiting the loss of her mother in ways she had never anticipated. Now the mother of two young girls, Edelman set out to learn how the loss of a mother to death or abandonment can affect the ways women raise their own children. In *Motherless Mothers*, Edelman uses her own story as a prism to reveal the unique anxieties and desires that these women experience as they raise their children without the help of a living maternal guide. In an impeccably researched, luminously written book enriched by the voices of the mothers themselves—and filled with practical insight and advice from experienced professionals—she examines their parenting choices, their triumphs, and their fears, and offers motherless mothers the guidance and support they want and need.

Consciousness

The founder of the Children's Defense Fund and author of *The Measure of Our Success* presents prayers and meditations to inspire all those, such as parents, teachers, and ministers, who work on the behalf of children. Marian Wright Edelman, founder and president of the Children's Defense Fund, is one of the most important moral leaders in America. Her first book, *The Measure of Our Success* was a #1 New York Times bestseller—spending 16 weeks on the list, selling more than 450,000 copies and garnering spectacular praise from Hillary Clinton, Maya Angelou, and Oprah Winfrey. *Guide My*

Feet continues her crusade for the well-being of America's children by providing a counterweight to the lesson society is teaching this generation of children—to be soulless takers instead of empowered givers. *Guide My Feet* is a collection of prayers and meditations gathered from Edelman's own holiday rituals and experiences and the writings of such inspiring leaders as Dr. Martin Luther King Jr., Gandhi, and Frederick Douglass. It urges readers to commit to and pray for strength and patience, and offers solace and direction for parents troubled by the commercialism and violence running rampant in today's society. Filled with wisdom, compassion and understanding, it provides an important spiritual and moral resource all caregivers can turn to as they strive to instill values, integrity, self-discipline and faith in children.

Motherless Mothers

Letters from Motherless Daughters is a compilation of the letters Hope Edelman received in response to her groundbreaking New York Times–bestseller, *Motherless Daughters*. Reaffirming her precious link with motherless women across the country, Edelman presents these moving, honest, and often hopeful letters alongside her own insight to offer readers the opportunity to further learn from loss. The words of these brave women illustrate the profound pain, astounding strength, and undying perseverance of living through the loss of one's mother without ever outliving the need for her. Edelman has added a new introduction and new letters, tailoring this important book to a new generation.

However hopeless we often feel, we are creatures of hope. This collection of short accessible essays explores the ways in which hope is bound up with power in worlds that are composed through imagination, transformation and feeling. Hope is the most precious ingredient of power. The essays do not assume hope to be inherently good or emancipatory. Rather they reflect on how hope can both support and obstruct us in our efforts to make lives more livable, or futures more just. The essays draw on social research, philosophy, literature, music and film to show how hope might re-enchant writing and politics for a post-hopeful age. This is a book for those who want to remain hopeful but find it hard to see how. Problems of Hope

This book explores the intersection between the recent work on queer temporality and the experiments of literary modernism. Kate Haffey argues that queer theory's recent work on time owes a debt to modernist authors who developed new ways of representing temporality in their texts. By reading a

series of early twentieth-century literary texts from modernists like Woolf, Eliot, Faulkner, and Stein alongside contemporary authors, this book examines the way in which modernist writers challenged narrative conventions of time in ways that both illuminate and foreshadow current scholarship on queer temporality. In her analyses of contemporary novelists and critics Michael Cunningham, Jeanette Winterson, Angela Carter, and Eve Sedgwick, Haffey also shows that these modernist temporalities have been reconfigured by contemporary authors to develop new approaches to futurity.

Menopause Matters

This comprehensive reader does more than just analyze the problems of poverty and the issues that typically accompany it. It takes a giant step forward in exploring real solutions through public policy and faith-based organizations.

The Defense and Wellness Council is enmeshed in full-scale civil war between Len Borda and the mysterious Magan Kai Lee. Quell has escaped from prison and is stirring up rebellion in the Islands with the aid of a brash young leader named Josiah. Jara and the apprentices of the Surina/Natch MultiReal Fiefcorp still find themselves fighting off legal attacks from their competitors and from Margaret Surina's unscrupulous heirs -- even though MultiReal has completely vanished. The quest for the truth will lead to the edges of civilization, from the tumultuous society of the Pacific Islands to the lawless orbital colony of 49th Heaven; and through the deeps of time, from the hidden agenda of the Surina family to the real truth behind the Autonomous Revolt that devastated humanity hundreds of years ago. Meanwhile, Natch has awakened in a windowless prison with nothing but a haze of memory to clue him in as to how he got there. He's still receiving strange hallucinatory messages from Margaret Surina and the nature of reality is buckling all around him. When the smoke clears, Natch must make the ultimate decision -- whether to save a world that has scorned and discarded him, or to save the only person he has ever loved: himself.
