The Powers to Lead

'A book that analyzes what leadership really means and how it relates to power. It will be invaluable for both political and business leaders alike. Nye developed the concept of hard and soft power, and now he shows how best leaders use both in a smart way'. Walter Isaacson, President, The Aspen Institute

The Powers to Lead

What qualities make a leader succeed in business or politics? In an era when the information revolution has dramatically changed the playing field, when old organizational hierarchies have given way to fluid networks of contacts, and when mistrust of leaders is on the rise, our ideas about leadership are clearly due for redefinition. With *The Powers to Lead*, Joseph S. Nye offers a sweeping look at the nature of leadership in today's world, in an illuminating blend of history, business case studies, psychological research, and more. As he observes, many now believe that the more authoritarian and coercive forms of leadership--the hard power approaches of earlier military-industrial eras--have been largely supplanted in postindustrial societies by soft power approaches that seek to attract, inspire, and persuade rather than dictate. Nye argues, however, that the most effective leaders are actually those who combine hard and soft power skills in proportions that vary with different situations. He calls this smart power. Drawing examples from the careers of leaders as disparate as Gandhi, Churchill, Lee Iacocca, and George W. Bush, Nye uses the concept of smart power to shed light on such topics as leadership types and skills, the needs and demands of followers, and the nature of good and bad leadership in terms of both ethics and effectiveness. In one particularly instructive chapter, he looks in depth at contextual intelligence--the ability to understand changing environments, capitalize on trends, and use the flow of events to implement strategies. Thoroughly grounded in the real world, rich in both analysis and anecdote, *The Powers to Lead* is sure to become a modern classic, a concise and lucid work applicable to every field, from small businesses and nonprofit organizations to nations on the world stage. This paperback edition includes a new preface by the author.

The Power to Lead

In a world where deceit, corruption, and lack of morals has seemingly pervaded every sector of society, individuals are asking the tough questions: What type of world will our children inherit? Is there any hope for leadership? What will our lives and leaders look like throughout the rest of the 21st century and beyond? *The Power to Lead* initiates this dialogue by ... challenging current misconceptions of leadership, identifying key components that leaders in any industry must possess in order to successfully impact a changing global society, and providing the keys to unlock better living and leadership in our world today. Government, faith and spiritual leaders, store managers, football and cheerleading team captains alike will benefit from these powerful principles for going from good to best in every area of -- not just their leadership -- but their lives.

The Power of Passion in Leadership

Do you do what you love and love what you do? How many of us are stuck in day jobs that really don't suit us? Has our heart left the building? It is so easy to go through the motions in leadership and management and lead with our heads, while our hearts long to be elsewhere. In this short new passion-packed book by Dr. Hans Finzel, you will learn what it means to work in your "passion zone." Hans explains from his own journey, how to find your passion zone and what action steps to take if you are far from that place of fulfillment. Specifically you will learn about how to match up your profile and wiring to just the right assignment. People love following leaders whose hearts are fueled by passion. This book will help you uncover what passion in your work really is, and how to find it, no matter what stage you are at in your career. The advice in this book is especially powerful for anyone in a role of leadership that is experiencing boredom or burn out. Life is too short to settle for less than the best—especially if we are called to lead other people. Leading from the heart is working and leading from your passion zone. Why does leading from the heart really matter? It can be natural to think, "If I am smart enough, gifted enough and work hard enough, of course people will respond to my leadership." The more gifted you are, and the smarter you are, the more that this can be a temptation and the easy default. The problem is, that kind of leadership does not inspire people and build deep loyalty. The opposite is often true. People follow people who they know, trust and believe. That trust is built between leader and follower within their hearts. People follow leaders who are operating in their "passion zone." There is some sort of a magnetic loyalty that grows in followers who respond to leaders who lead with passion out front. It seems that in today's fast paced always on digital world, less is more. So that is what the author is offering up this first in a series of mini books on big leadership topics.

What You Really Need to Lead

As Harvard Business School professor and business executive Robert Steven Kaplan explains in this new book, leadership is accessible to all of us—today—and it starts with an ownership mind-set. You don't need an invitation to lead. Leadership is a dynamic way of thinking and acting that anyone can take on. For Kaplan, acting as a leader is a function of three key questions: 1. Do you work to figure out what you believe as if you were an owner? 2. Do you take action based on those beliefs? 3. Do you focus on adding value to others and take responsibility for the impact of your actions on others—both positive and negative? The book is full of stories taken from the author's own leadership experience as well as from his work helping various types of leaders and organizations. What's revealed is that leadership is not a role reserved for an elite few blessed with the right skills and key positions—it's about a focus on taking ownership and adding value to others. What's more, leadership is a lifelong journey of learning for which you must take responsibility. It's about learning to ask the right questions and learning to understand yourself. As in his earlier books, Kaplan asks probing questions, provides exercises, and suggests follow-up steps that will help you develop your skills, create new habits, and move you toward reaching your unique potential. What You Really Need to Lead is your key to unlocking the power of thinking and acting like an owner"—

The Power to Lead with Empathy: Transforming Workplace Culture and Performance

In her #1 NYT bestsellers, Brené Brown taught us what it means to dare greatly, rise strong and brave the wilderness. Now, based on new research conducted with leaders, change makers and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Leadership is not about titles, status and power over people. Leaders are people who hold themselves accountable for recognising the potential in people and ideas, and developing that potential. This is a book for everyone who is ready to choose courage over comfort, make a difference and lead. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it and work to align authority and accountability. We don't avoid difficult conversations and situations; we lean into the vulnerability that's necessary to do good work. But daring leadership in a culture that's defined by scarcity, fear and uncertainty requires building courage skills, which are uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the same time we're scrambling to figure out what we have to offer that machines can't do better and faster. What can we do better? Empathy, connection and courage to start. Brené Brown spent the past two decades researching the emotions that give meaning to our lives. Over the past seven years, she found that leaders in organisations ranging from small entrepreneurial start-ups and family-owned businesses to non-profits, civic organisations and Fortune 50 companies, are asking the same questions: How do you cultivate braver, more daring leaders? And, how do you embed the value of courage in your culture? Dare to Lead answers these questions and gives us actionable strategies and real examples from her new research-based, courage-building programme. Brené writes, 'One of the most important findings of my career is that courage can be taught, developed and measured. Courage is a collection of four skill sets supported by twenty-eight behaviours. All it requires is a commitment to doing bold work, having tough conversations and showing up with our whole hearts. Easy? No. Choosing courage over comfort is not easy. Worth it? Always. We want to be brave with our lives and work. It's why we're here.'

Dare to Lead

The Power to Lead

How to stop chasing happiness and still live happily ever after Do you have everything you need, but still feel like something's missing? Do you frequently compare your life to others', wondering why they seem to have it all? Do you feel like you're just going after one high after the next, with no idea where

the end goal is? You may have a life many people dream of, but sometimes, you can't help but feel some form of discontent. It's not that you're ungrateful or unappreciative of what you have. It might just be that what you have is actually not what you need to feel fulfilled. And you're not the only one going through this. Despite having one of the highest standards of living in the world, the level of happiness among Americans is at its lowest. In fact, it has been declining for the past 20 years. Social media, reliance on drugs, and the endless pursuit of wealth are just some of the reasons for this phenomenon. We are constantly bombarded with messages and images of how life should look like, and we try to reach this aspirational goal through any means necessary. We can chase it through traveling, buying expensive things, achieving career success, or even getting married and starting a family. But why do you still feel unsatisfied, even after you have all this? What is it that makes us truly happy? Plenty of scientific research has been done to find the answer to this question. There is also a lot of advice from self-help books and motivational speakers on being happy. Thankfully, you don't have to go through all the studies and TED talks online to find the key to happiness. In *Happiness Power: How to Unleash Your Power and Live a Joyful Life*, you will discover: Why your present circumstances don't have to determine your level of happiness, and how you can take your well-being into your own hands The #1 factor that helps us live longer, healthier, and happier lives, according to a decades-long Harvard study on adult life How to have a more positive mindset through this daily habit that Oprah Winfrey believes has rewarded her a million times over How you can combat loneliness with these friendly suggestions on how to build and strengthen your social circle The secret to happiness that the Japanese have known and practiced for centuries, contributing to their high levels of satisfaction and long life spans Effortless mindfulness tricks to apply throughout the day that will help you get through stressful days and pessimistic emotions The simple generous act that has the same positive effects as food and sex, offering satisfaction not only to you, but also to your recipient And much more. Although happiness is not the be-all and end-all of life, it sure doesn't hurt to go through life being happy rather than dissatisfied and lonely. Our lives weren't meant to be lived in constant pursuit of an abstract vision of happiness. Chasing after happiness will only make it so much harder to obtain. It is when you are focused on genuinely living a life of truth, purpose, and meaning, that happiness will come to you. Find out what it takes to live a life that's true to your values and your innermost needs. If you're in search of a truly joyful and meaningful life rather than just conform to other people's idea of happiness, then scroll up and click the "Add to Cart" button right now.

Communication is the absolutely indispensable leadership discipline. But, too often, leaders and professional communicators get mired in tactics, and fail to influence public attitudes in the ways that would help them the most. *The Power of Communication* builds on the U.S. Marine Corps' legendary publication *Warfighting*, showing how to apply the Corps' proven leadership and strategy doctrine to all forms of public communication — and achieve truly extraordinary results. World-renowned leadership communications expert, consultant, and speaker Helio Fred Garcia reveals how to orient on audiences, recognizing their centers of gravity and most critical concerns. You'll learn how to integrate and succeed

with all three levels of communication: strategic, operational, and tactical. Garcia shows how to take the initiative and control the agenda... respond to events with speed and focus... use the power of maneuver... prepare and plan... and put it all together, becoming a "habitually strategic" communicator.

Intentioning by best-selling author Gloria Feldt will help you envision the life and career you might have thought were impossible dreams, then give you the courage and actionable tools to achieve them. In the wake of the coronavirus pandemic and a pandemic of racial injustice that together shook our world to its core and revealed deep fault lines in our culture, Gloria Feldt, New York Times best-selling author, speaker, commentator, international leadership expert, successful CEO, and feminist icon, shows how we can seize the once-in-a-lifetime opportunity created by massive disruption to build back stronger with diverse women at the center of the recovery. In *Intentioning: Sex, Power, Pandemics, and How Women Will Take The Lead for (Everyone's) Good*, Feldt inspires diverse women to embrace their personal power to lead with intention, confidence, and joy. It comes as no surprise to her that women flexed their formidable muscles when needed most, representing a disproportionate number of essential workers during the darkest days of the coronavirus global outbreak and leading the charge against racism in the United States. But this book is decidedly about the future, taking the leadership lessons learned from this disruption and creating a better world for all. Feldt not only unveils the next step in advancing gender parity in all spheres of business and life, but she also lays out the vital next steps in the overall advancement of our economy and our civilization. The "Lead Like a Woman" framework and the "9 Leadership Intentioning Tools" she presents in this book will prepare, motivate, and propel women of all diversities and intersectionalities now so that by 2025, women will have attained their fair and equal share of leadership positions across all sectors of industry and society. We simply cannot squander women's talents when so much hangs in the balance. Women must be at the vanguard of reimagining and reconstructing a vibrant and sustainable future for us all.

Is America still Number 1? A leading scholar of international politics and former State Department official takes issue with Paul Kennedy and others and clearly demonstrates that the United States is still the dominant world power, with no challenger in sight. But analogies about decline only divert policy makers from creating effective strategies for the future, says Nye. The nature of power has changed. The real-and unprecedented-challenge is managing the transition to growing global interdependence.

Bound To Lead

Do you struggle with feeling like an impostor in your own leadership? Do you carry a secret anxiety about being revealed as a fraud? We all long to belong, especially those in positions of leadership. But deeply rooted shame can keep leaders from connecting authentically and vulnerably. Reverend Will van der Hart and Dr. Rob Waller—an experienced church leader and respected psychiatrist—integrate the story of Scripture with the science behind mental health, offering real steps for transformation. When leaders know that they belong to God—when they develop a deep sense of security in Him—they can overcome constricting shame and lead with confidence. Offering a psychological and biblical response to one of the most persistent problems in leadership, *The Power of Belonging* is a unique resource to

help you build success from your sense of security, allowing your unique leadership gifts to flourish and grow. Each chapter includes study guide questions for group or individual use.

The Power of Real Confidence

This book examines the central role of negotiation in gaining, exercising, and retaining leadership within organizations, large and small, public and private. Its aim is to instruct readers on the way to use negotiation to lead effectively. For far too long conventional wisdom has proposed that strong leaders refuse to negotiate, viewing negotiation as a sign of weakness. Leading people requires charisma, vision, and a commanding presence, not the tricks for making deals. For many executives, negotiation is a tool to use outside the organization to deal with customers, suppliers, and creditors. Inside the organization, it's strictly "my way or the highway." Salacuse explains that leaders can increase their effectiveness by using negotiation in each of the three phases of the leadership lifecycle: 1) leadership attainment, 2) leadership action; and 3) leadership preservation and loss. Drawing on experience in wide variety of settings, including the author's own leadership positions, the book will examine high profile leadership cases such as the rise and fall of Carly Fiorina at Hewlett-Packard, the skillful negotiations by Warren Buffet to save Salomon Brothers from extinction, and the successful efforts by the partners at Goldman Sachs to negotiate a new vision and direction for that financial giant. Leaders and managers should pick up this book to learn how effective negotiation is essential to both gaining and exercising leadership and to overcoming threats to a leader's position.

Real Leaders Negotiate!

The great Nokia turnaround—universal business lessons for leaders in any industry Nokia once dominated the smartphone industry. It was to mobile phones as Kleenex is to facial tissues. Then iPhones and Androids appeared out of nowhere and pushed Nokia off the cliff. In just four years, the company lost over 90 percent of its value. Revenues were in freefall; massive layoffs became common. Pundits predicted that bankruptcy wasn't a matter of if, it was a matter of when. Then something equally shocking occurred. In record time, Nokia bounced back. With a vengeance. Nokia reinvented itself and is now the second-biggest player in the \$100 billion-dollar global wireless market. In *Transforming Nokia*, the man who orchestrated and led Nokia's comeback—Chairman of the Board Risto Siilasmaa—reveals the story of Nokia's fall and resurrection. He reveals the inside story of the collapse and provides survival strategies and change-management methods any business leader can take to the bank. You'll learn how to harness the power of what Siilasmaa calls "paranoid optimism" and apply his winning entrepreneurial leadership model to rise above any challenge and drive sustainable success. Whether you lead a team or a corporate division, head a start-up or a massive organization, and whether your business is on the rocks or running smoothly, *Transforming Nokia* provides everything you need to sharpen your foresight, expand your options, seize opportunities, and thrive, no matter what changes tomorrow brings.

"Bravo to Barbara Kellerman! Building upon a lifetime of scholarship and upon a popular course she has created at Harvard, Kellerman brings between the covers of a single volume the world's classic literature on leadership. Every thoughtful leader will find deep, rich rewards here." -- David Gergen, Director, Center for Public Leadership Harvard Kennedy School, Former Presidential Adviser Bolster your leadership literacy—and improve your performance as a leader or manager. Leadership, says author, leadership expert, and Harvard Professor Barbara Kellerman, "is all about what leaders should learn—but it is decidedly not, deliberately not, about what leadership education has lately come to look like." Instead, Leadership is a concise yet expansive collection of great leadership literature that has stood the test of time. As Kellerman makes clear in her extensive, authoritative commentaries,

every single selection has had, and continues to have, an impact on how and what we think about what it means to lead. And every single one has had an impact on leadership as an area of intellectual inquiry—as well as on the course of human history. Part I of Leadership consists of writings about leadership: Lao Tzu—on how to lead lightly Plato—on tyrants and philosopher-kings Machiavelli—on the preservation of power In Part II, you'll find examples of what Kellerman uniquely identifies as writing as leadership—works and words that thanks to their persuasiveness and power, changed the world: Thomas Paine—Common Sense Elizabeth Cady Stanton—"Declaration of Sentiments" Rachel Carson—Silent Spring Part III presents leaders in action—individuals who seized the moment to captivate, motivate, and lead with their singular personal power to persuade: Abraham Lincoln—on war and redemption Elizabeth I—on gender and power Vaclav Havel—on the power of the powerless The selections themselves, each a classic of the leadership literature, together with Kellerman's expert commentary, make Leadership required reading for those who want to learn about, reflect on, and even apply the greatest leadership literature lessons, ever. Barbara Kellerman is the James MacGregor Burns Lecturer in Public Leadership at Harvard University's John F. Kennedy School of Government. Her writing has appeared in The New York Times, The Washington Post, The Boston Globe, The Los Angeles Times, and Harvard Business Review, and she has appeared on CBS, NBC, NPR, and CNN. She is author and editor of many books on leadership, most recently Bad Leadership and Followership. Kellerman is ranked by Forbes.com as among the "Top 50 Business Thinkers" (2009), and by Leadership Excellence in the top 15 of 100 "best minds on leadership" (2008-2009).

Whether you're on the front line or in the executive suite, you can build your "Change Intelligence®"—and create results that matter at all levels of the organization. In today's business world, everyone knows that we all face constant change, whether it's the implementation of a new IT system, a reorganization, or a full merger or acquisition. We also know that the ability to handle such change makes the difference between success and failure—and has a direct effect on the bottom line. Because we understand this, twenty-first century executives, supervisors, and project managers have plenty of methodologies for managing change. Yet, somehow, our failure rate when we try to implement major organizational change is still shockingly high. In this innovative guide, Barbara Trautlein argues that our current approaches are inadequate when they are not used in tandem with a deep understanding of Change Intelligence®, or CQ®—the skill set that allows you to lead your team or company through vital transformations. You'll explore how to lead change by engaging the Heart, enlightening the Head, and equipping the Hands, which when combined enable you to overcome resistance and achieve results. And once you learn your own Change Leader Style, you'll go on to discover practical strategies for leveraging your strengths and shoring up your weak spots. Trautlein, a leading authority on change leadership, keeps the theory light and delves into insightful case studies drawn from her decades of experience working with hundreds of top organizations as well as from her research derived from the global Change Intelligence/CQ Assessment® database of thousands of change leaders around the world. Her example- and evidence-based approach will help you plainly see how you can start driving real transformation—not by adopting yet another new tool but by bolstering your own capacity for change leadership.

Lead to Leadership

We have moved past the Information Age and are now living in the Imagination Age. Intuitive and creative thinking skills are as valuable as "hard skills" and are unique to each one of you. You have these innate skills—all you have to do is unleash them. Join up. What does imagination have to do with leadership? Ever since he was in college, Brian Paradis has been intrigued by the question, "What does imagination have to do with leadership?" For thirty years, he studied this puzzle as he

honed his business and leadership skills, and one thing became crystal clear: imagination has a powerful influence on leadership. The compelling combination of leader + imagination = an opportunity to unleash all kinds of potential. The world is increasingly complex, knowledge is advancing at an unfathomable rate, and the problems in our world seem unsolvable. Organizations are in near constant and disruptive transition, and the cultures that define them are disconnected, disaffected, and divisive. Too many leaders show up to work wondering if any of it matters. We are “smarter” than any generation in history, but that isn’t the problem. The problem is imagination is not advancing at the same pace. But where there’s a closed door, there’s an open window of opportunity for those willing to walk through, to take a risk, and see what others don’t. Lead with Imagination promises three returns on your investment of time from reading it: You will be inspired by the possibilities and strengthened against the challenges. You will gain power and confidence to imagine, create, and innovate. We are all born with innate imagination and curiosity—learn how to use it. You will release your fullest potential and help release the potential of those you lead. We all learned as kindergarteners to assimilate quickly by giving the teacher (society) the desired answer, and to “fit in.” That colored our thinking from that moment forward and restricted our thinking and use of imagination. But now, it’s time to color outside the lines.

Power to Lead

The year is 1994. I am barely 22 years old, with a newborn daughter and a wife, and I am terrified. Terrified of how I am going to support my new family, terrified of what the future holds. Terrified of working tireless hours just to get by. Lately, I have been thinking and praying about something. Something crazy, something that I have always dreamed of, but not yet had the courage to attempt: I want to start my own business, and I wanted to focus my business on the aggressive, dog-eat-dog world that is the automotive industry. You see, my father had become quite successful in this business. I felt like if I could just work hard at it, then I would be pretty much set after a couple of years or so! I was young and naïve, I had no idea that to accomplish such a task would take everything out of me. To me, the concept of a leader was just the person that hires people and tells them what to do. I did not yet understand the true meaning of a leader. Looking back today, I smile at the thought of it. A young guy who had almost no experience, but who had passion. The Dave that was in 1994 was hungry. He did not WANT to succeed, he HAD to succeed. He needed this to work. This was his last shot, his last hurrah. To be honest, I had no other alternative. So I set out to chase this crazy dream, and today, almost 24 years later, I am still chasing, but from a much better starting position. After all of this time, I have learned how to do things and how not to do them. All of the success and failure, all of the people who have come and gone, every situation that I have been faced with was for a reason. I believe that God works in mysterious ways, and has taught me how to lead in an effective manner through these ups and downs that I have faced. This book is my way of jotting these instances down, and applying them to others who are involved or otherwise interested in becoming a strong, effective leader. Leadership in any industry is not an easy job. It is stressful, and you are always on the clock. But every team needs a leader, and if not you then who? There is a finesse to being a leader, but there is no set path to follow. To be a solid leader, you will have to learn much of it on your own. But I believe that if you incorporate some of the aspects that we will discuss in later chapters, that you will have a much easier road ahead of you than if you simply go on your own and learn the hard way as I had. This book, and these stories and concepts in it, will be for you to learn from my mistakes, and for you to strengthen the parts of your approach to leadership that may need a bit of refining. These stories and ideas are purely from my heart and meant to help you in your quest to lead others. Whether you are looking to become a better leader of a small group, or looking to start your own business from the ground up, I believe that you will be able to find ideas in these pages that you will be able to utilize to your advantage in whatever it is that you decide to do in life. In this book, I will help to teach you how to inspire rather than discourage, how to teach with actions rather than tell, how to help rather than hinder, and how to lead before you become lunch!

L'Ombre de ma voix

Vous avez la vie de Patricia Kaas entre les mains. Celle qui, à 17 ans, chante dans les bals de Lorraine, avant de devenir une célébrité dans le monde entier. Celle qui, issue d'une famille de sept enfants, fera tout pour réaliser le rêve d'une mère appelée à disparaître prématurément. Mais la notoriété

s'accompagne aussi de douleurs : deuils, trahisons, solitude, autant de coups que la chanteuse accuse chaque fois. On aime l'artiste, mais on méconnaît, on abuse, on traque la femme qui se cache derrière. De sa voix rauque, elle cesse aujourd'hui de chanter pour parler, tout simplement. L'ombre de ma voix, l'incroyable histoire d'une fille de l'Est, complexe et riche de ses paradoxes.

Voix Ferrees Par L'ombre

This book contains the English and French texts and a complete record of the genesis of each. Besides *Comment C'est How It Is*, O'Reilly has included *L'Image* and an excerpt from *Comment C'est* that was published later in another volume.

Comment C'est

Giacomo Meyerbeer, one of the most important and influential opera composers of the nineteenth century, enjoyed a fame during his lifetime hardly rivalled by any of his contemporaries. This ten volume set provides in one collection all the operatic texts set by Meyerbeer in his career. The texts offer the most complete versions available. Each libretto is translated into modern English by Richard Arseny; and each work is introduced by Robert Letellier. In this comprehensive edition of Meyerbeer's libretti, the original text and its translation are placed on facing pages for ease of use. The eleventh volume presents the fourth of Meyerbeer's grands opéras, and his final work. By 1860 long-imposed labor had started to tell upon the composer's health: he knew that he must concentrate on the "navigator project" which he had started twenty years earlier if he intended to finish it. Meyerbeer died on 2 May 1864, the day after the completion of the copying of the full score of this his last opera, *Vasco da Gama*. Minna Meyerbeer and César-Victor Perrin, the director of the Opéra, entrusted the editing of a performing edition to the famous Belgian musicologist François-Joseph Fétis, while the libretto was revised by Mélesville. The original title of *L'Africaine* was restored out of deference to public expectation. Much of the music and action was suppressed, in spite of the strain this inflicted on the internal logic of the story. While *L'Africaine* is not lacking in the grandeur of statement and stirring climaxes for which the composer was so famous, there is a new intimacy, a new intensity of melancholic lyricism. Like its famous predecessors, it is basically an historical work, derived from the period of sixteenth-century Renaissance. The account of Vasco da Gama's voyage of discovery around the Cape of Good Hope and conquest of Calicut (1497-98) is subjected to a fictional treatment that raises many interesting issues. The framework is historical, but most of the characters and course of action are not; in fact the end of the opera, in the suicide of the heroine, suddenly leaves the terra firma of reality, and transports us into the mystical realms of the spirit. It is this mixture of modes that is central to the dramaturgy of *L'Africaine*, a confusion of history and fairytale, ancient certainties and challenging discoveries, in the creation of a new mythology. There is also originality in formal developments, with the great tenor scene in act 4 providing a new malleability in handling the constraints of shape and genre: recitative, arioso and cabaletta have a fluent integration in trying to explore the text more pointedly. *L'Africaine* was produced on 28 April 1865, a great posthumous tribute to its famous creators. The Ship Scene, the exotic Indian act, and the Scene of the Manchineel Tree exerted a fascination on audiences, and elicited new praise. The work full of melodic beauty and rapturous lyricism, began a triumphal progress through the world, beginning with the big stages of London and Berlin.

The Meyerbeer Libretti

A bilingual edition of one of Guillaume Apollinaire's most important volumes of poetry, with extensive commentary by the translators.

Calligrammes

Translating Apollinaire delves into Apollinaire's poetry and poetics through the challenges and invitations it offers to the process of translation. Besides providing a new appraisal of Apollinaire, the most significant French poet of WWI, Translating Apollinaire aims to put the ordinary reader at the centre of the translational project. It proposes that translation's primary task is to capture the responses of the reader to the poetic text, and to find ways of writing those responses into the act of translation. Every reader is invited to translate, and to translate with a creativity appropriate to the complexity of their own reading experiences. Throughout, Scott himself consistently uses the creative resource of photography, and more particularly photographic fragments, as a cross-media language used to help capture the activity of the reading consciousness.

Translating Apollinaire

Guillaume Apollinaire's final years exactly coincided with the clamorous advent of European Modernism and with the cataclysms of WWI. In *The Self-Dismembered Man*, poet Donald Revell offers new English translations of the most powerful poems Apollinaire wrote during those years: poems of nascent surrealism, of combat and of war-weariness. Here, too, is Apollinaire's last testament, "The Pretty Redhead," a farewell to the epoch that he—as poet, convict, art-critic, artilleryman and boulevardier—did so much to conjure and sustain until his death on Armistice Day in 1918. Readers of Apollinaire's more familiar early work, *Alcools* (Wesleyan, 1995), will find here a darker and yet more tender poet, a poet of the broken world who shares entirely the world's catastrophe even as he praises to the end its glamour and its strange innocence. This English translation, facing the original French, illuminates Apollinaire's crucial and continuing influence on the European and American avant-garde. The volume includes a short translator's preface.

The Self-Dismembered Man

Reading Apollinaire

«Vous paraîtrez-vous enfant si je clame cette inoubliable réplique du Petit Prince de Saint-Exupéry : On ne voit bien qu'avec le cœur, l'essentiel est invisible pour les yeux ?» Que diriez-vous d'évoluer dans un monde sans image, mais rempli de bruits, d'échos, de présences que l'on croirait toucher ? Ce brouillard opaque, c'est celui dans lequel vit Aurélie Dauvin. Aujourd'hui, elle est professeur de français dans un lycée. Elle apprend à ses élèves à comprendre le monde par les mots et les sensations qu'ils véhiculent. Portée par son rêve d'enseigner, Aurélie s'est dès l'enfance dotée d'une immense volonté d'aller au-delà de ce que les autres appelaient son «handicap». Dans un style lumineux et sensible, elle nous raconte son parcours exceptionnel et les épreuves qu'elle a dû surmonter. Elle a croisé sur son chemin des bonheurs simples, des regards amusés ou hostiles, des trahisons difficiles et finalement l'amour. Avec des mots d'une justesse roborative, elle nous prend par la main et nous guide dans le monde méconnu de la cécité. Plus qu'un témoignage, le récit d'un beau combat, où chaque chapitre est une leçon de dépassement de soi. Aurélie Dauvin a 36 ans. Elle enseigne la littérature dans un lycée du nord-est de la France.

Napoleon the Third

The Strangers Book explores how various nineteenth-century African American writers radically reframed the terms of humanism by redefining what it meant to be a stranger. Rejecting the idea that humans have easy access to a common reserve of experiences and emotions, they countered the notion that a person can use a supposed knowledge of human nature to claim full understanding of any other person's life. Instead they posited that being a stranger, unknown and unknowable, was an essential part of the human condition. Affirming the unknown and unknowable differences between people, as individuals and in groups, laid the groundwork for an ethical and democratic society in which all persons could find a place. If everyone is a stranger, then no individual or class can lay claim to the characteristics that define who gets to be a human in political and public arenas. Lloyd Pratt focuses on nineteenth-century African American writing and publishing venues and practices such as the Colored National Convention movement and literary societies in Nantucket and New Orleans. Examining the writing of Frederick Douglass in tandem with that of the francophone free men of color who published the first anthology of African American poetry in 1845, he contends these authors were never interested in petitioning whites for sympathy or for recognition of their humanity. Instead, they presented a moral imperative to develop practices of stranger humanism in order to forge personal and political connections based on mutually acknowledged and always evolving differences.

The Life of Napoleon III.

For the past four centuries, five major languages have dominated Western literature. This domination has excluded or rendered marginal all other literatures — has, in effect, diminished literary diversity and endangered the existence of the literature of “smaller” cultures. In an illuminating defence for their preservation, François Paré reflects on the diversity of cultures and languages in the world and on the fantastic richness of “smaller” literatures. He offers us memorable samples of this diversity and, in his original and thought-provoking style, tantalizes us with critical musings on the complexity of “marginal”

literature and the regenerative power it can offer. *Exiguïté: Reflections on the Margins of Literature* reflects Paré's deep involvement with the development and preservation of minority cultures in Canada.

The presidency. The Coup d'Etat. Establishment of the empire

The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena; they are based on similarities that are related to a form of 'travelling' and imitation or adaptation of entire texts, genres, forms or contents. Transfer comprises all sorts of 'travelling', with translation as a major instrument of transferring literature across linguistic and cultural barriers. Transfer aims at the process of communication, starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading, and interpretation. Translation, therefore, forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across linguistic and cultural borders; thus, they pave the way for gaining prestige in the world of literature. The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature.

D'Histoire de la chauve-souris (1975) et Histoire du tableau (1977) à Nous sommes éternels (1990) et Allons-nous être heureux? (1994), l'oeuvre de Pierrette Fleutiaux continue à déployer aujourd'hui toute la force et toute la délicatesse d'une des grandes imaginations littéraires de notre temps. Déjà honorée par le prix Goncourt et le Prix Fémina et étonnamment diversifiée dans ses modes et fascinations, son oeuvre explore avec compassion et lucidité les interpénétrations, d'un côté, d'un inconscient et d'une visceralité qui, souvent, troublent et aveuglent, de l'autre d'une conscience inlassablement quêtante, prise entre peur et révélation. Voici une oeuvre qui nous offre toute la mouvance du réel, un fantastique peu conforme aux normes du genre, une quotidienneté plongée dans sa claire opacité mythique, une rythmique textuelle et psychologique tantôt sauvage, pulsionnelle, oppressive, tantôt sereine, plutôt contemplative, visionnaire. Satire et démystification se succèdent, hallucination et sentiment d'étrangeté persistent. L'étude de Bettina Knapp, exemplaire à la fois dans son sous-bassement théorique et la haute pertinence de sa lecture textuelle, nous offre les brillantes analyses qu'attendait patiemment et que mérite pleinement une pratique romanesque des plus extraordinaires.

The Scots Magazine

A French Song Companion is an indispensable guide to the modern repertoire and the most comprehensive book of French melody in any language. Noted accompanist Graham Johnson provides repertoire guides to the work of over 150 composers--the majority of them from France but including British, American, German, Spanish, and Italian musicians who have written French vocal music. The book contains major articles on Faure, Duparc, Debussy, Ravel, and Poulenc, as well as essays on Bizet, Chabrier, Gounod, Chausson, Hahn, and Satie, and important reassessments of such composers as Massenet, Koechlin, and Leguerney. The book combines these articles with the complete texts in English of over 700 songs, all translated by Richard Stokes, making it also a treasury of French poetry from the fifteenth through the twentieth centuries. The translations alone will prove invaluable to music lovers and performers; combined with the biographical articles, they become the ideal map for exploring this exciting and diverse repertoire.

The Scots Magazine, Or, General Repository of Literature, History, and Politics

This book contains the English and French texts and a complete record of the genesis of each. Besides *Comment C'est How It Is*, O'Reilly has included *L'Image* and an excerpt from *Comment C'est* that was published later in another volume.
