

Of Planet Apes The Pierre Boule

[#planet of the apes](#) [#pierre boulle](#) [#science fiction novel](#) [#dystopian literature](#) [#ape civilization](#)

Explore the groundbreaking science fiction world envisioned by Pierre Boule in his seminal novel, *Planet of the Apes*. This classic narrative plunges readers into a dystopian future where human civilization has fallen, and intelligent, advanced apes dominate the planet, raising profound questions about humanity's place in the natural order and the fragility of our perceived superiority.

Planet of the Apes

In a spaceship that can travel at the speed of light, Ulysse, a journalist, sets off from Earth for the nearest solar system. He finds there a planet which resembles his own, but on Soror humans behave like animals, and are hunted by a civilised race of primates. Captured and sent to a research facility, Ulysse must convince the apes of their mutual origins. But such revelations will have always been greeted by prejudice and fear...

Featuring over forty black and white illustrations showcasing the the post apocalyptic world of the Planet of the Apes, with your favorite characters from the films like Doctor Zaius, Zira, Cornelius, Caesar and many more, waiting to be brought to colorful life!

Planet of the Apes

Planet of the Apes started life in 1963 as a quirky work by Pierre Boule, the French literary novelist famous for The Bridge over the River Kwai. His concept of a world where humans are ruled over by apes proceeded to become one of the biggest multi-media sensations in history. The 1968 Charlton Heston motion-picture adaptation of Boule's book was celebrated and successful but was just the beginning. By 1973, said picture had spawned four sequels. It then spun off a live-action TV series, which in turn spun off the animated TV show Return to the Planet of the Apes. With this, comic books, novelizations, and a tsunami of merchandising, the late '60s and first half of the '70s had a distinctly simian flavor. A new generation was introduced to the concept when, in 2001, Tim Burton's updating of the series appeared in cinemas. This itself was rebooted a decade later in the form of Rise of the Planet of the Apes and its two sequels. Yet despite all the fantasy (and money-chasing), the series has always been marked by thoughtfulness, exploring serious themes alien to most franchises. Planet of the Apes: The Complete History explores every aspect of this phenomenon—from books to films, comic books to

television shows, and video games to merchandise—providing an overview that is truly definitive. With the help of new and exclusive interviews with Planet of the Apes producers, directors, writers, actors, and makeup artists, Sean Egan attempts to gain an understanding of how a media property changed the world.

The Making of Planet of the Apes

FOREWORD BY FRASER HESTON In celebration of the fiftieth anniversary of Planet of the Apes, the classic science-fiction film from 1968, *The Making of Planet of the Apes* tells the film and offers exclusive, never-before-seen photographs and concept art. Based on Pierre Boulle's novel *La Planète des singes*, the original Planet of the Apes was one of the most celebrated films of the 1960s and beyond. Starring Hollywood icons Charlton Heston and Roddy McDowall, the movie struck a chord with the world and sparked a franchise that included eight sequels, two television series, and a long-running comic book. Now, five decades after its theatrical release, New York Times bestselling author J. W. Rinzler tells the thrilling story of this legendary Hollywood production—a film even Boulle thought would be impossible to make. With a foreword by Fraser Heston, Charlton Heston's son, *The Making of Planet of the Apes* is an entertaining, informative experience that will transport readers back to the strange alternate Earth ruled by apes, and bring to life memorable characters such as Cornelius, Dr. Zira, Dr. Zaius, and Taylor, the human astronaut whose time-traveling sparks an incredible adventure. Meticulously researched and designed to capture the look and atmosphere of the film, *The Making of Planet of the Apes* is also packed with a wealth of concept paintings, storyboards, and never-before-seen imagery—including rare journal pages and sketches from Charlton Heston's private collection—as well as color and black-and-white unit photography, posters, and more unique ephemera. Comprehensive in scope, *The Making of Planet of the Apes* is the definitive look at the original blockbuster film, a must-have for fans, film buffs, and collectors alike.

Planet of the Apes by Pierre Boulle (Book Analysis)

Unlock the more straightforward side of Planet of the Apes with this concise and insightful summary and analysis! This engaging summary presents an analysis of Planet of the Apes by Pierre Boulle, the pioneering work of science fiction in which three space travellers crash-land on a mysterious, earth-like planet, where apes are the dominant species and humans are wild animals subjected to rigorous scientific testing. The book not only had its first film adaptation just 5 years after its publication, but launched an entire media franchise which continues to inspire new films, series and merchandise even in the present day. It is one of Pierre Boulle's two main works, which are both highly successful and have both adapted into award-winning films and series, despite Boulle's being convinced they were unfilmable. Find out everything you need to know about Planet of the Apes in a fraction of the time! This in-depth and informative reading guide brings you: • A complete plot summary • Character studies • Key themes and symbols • Questions for further reflection Why choose BrightSummaries.com? Available in print and digital format, our publications are designed to accompany you in your reading journey. The clear and concise style makes for easy understanding, providing the perfect opportunity to improve your literary knowledge in no time. See the very best of literature in a whole new light with BrightSummaries.com!

Death of the Planet of the Apes

The official, never-revealed adventures of astronaut George Taylor from the movie Planet of the Apes In *Beneath the Planet of the Apes*, Col. George Taylor (played by Charlton Heston) disappears into the Forbidden Zone, only to return in the film's climactic scene. For forty-eight years, the question has remained—what happened to Taylor? Finally the truth is revealed. Beneath the irradiated wasteland, the astronaut faces the deadly wonders of a gleaming city and its inhuman citizenry. On the surface the gorillas—led by General Ursus—launch an all-out assault to exterminate the savage animals known as humans. And out in the desert, the chimpanzee scientist Milo strives to reconstruct the spacecraft that brought the humans from the past. Events spiral at a breakneck pace, with the fate of a world at stake.

Planet of the Apes and Philosophy

What makes humans different from other animals, what humans are entitled to do to other species, whether time travel is possible, what limits should be placed on science and technology, the morality and practicality of genetic engineering—these are just some of the philosophical problems raised by

Planet of the Apes. Planet of the Apes and Philosophy looks at all the deeper issues involved in the Planet of the Apes stories. It covers the entire franchise, from Pierre Boulle's 1963 novel *Monkey Planet* to the successful 2012 reboot *Rise of the Planet of the Apes*. The chapters reflect diverse points of view, philosophical, religious, and scientific. The ethical relations of humans with animals are explored in several chapters, with entertaining and incisive observations on animal intelligence, animal rights, and human-animal interaction. Genetic engineering is changing humans, animals, and plants, raising new questions about the morality of such interventions. The scientific recognition that humans and chimps share 99 percent of their genes makes a future in which non-human animals acquire greater importance a distinct possibility. Planet of the Apes is the most resonant of all scientific apocalypse myths.

Planet of the Apes: Ursus #4

As Ursus' mysterious past comes to light, we learn the truth about his hatred of mankind.

Bridge Over the River Kwai

The magnificent story of Colonel Nicholson, who built the perfect bridge - for the enemy. On its publication in France, this brilliant novel was awarded the Prix Ste. Beuve. Since its appearance in the USA and its presentation as a film, this compelling story has been awarded a succession of prizes in both the fields of entertainment and literature. This is a historical novel. It is based in part on factual events. It was made into the greatest movie ever made. Although hard to believe, the book is based on actual real historical events, except that vastly more people died building the real bridge and the railroad to the bridge than are shown in the movie. The book and movie have slightly different names. The book is "The Bridge Over the River Kwai." The movie is "The Bridge On the River Kwai." In Thailand, they call it the River Kwae.

War for the Planet of the Apes

David F. Walker (*Tarzan on the Planet of the Apes*) and illustrated by Jonas Scharf (*Warlords of Appalachia*) present an original story set between 20th Century Fox's films, 2014's *Dawn of the Planet of the Apes* and the *War for the Planet of the Apes* film. As Caesar and his apes recoup and recover after the Koba-led attack on the human compound in San Francisco, the military begins moving in, setting the stage for the momentous war to come. Even as humans and apes come to violent conflict, the virus that wrecked the world has begun to evolve... Collects the complete limited series.

Planet of the Apes Visionaries

Based on the original screenplay for Planet of the Apes by The Twilight Zone's Rod Serling. On the road to making the landmark science-fiction classic, 20th Century Fox commissioned Rod Serling to adapt the source material. Serling's first draft, which was drastically revised before filming, is a radically different vision of the franchise than the one the world has come to know and love. Now, for the first time in any medium, that vision is fully realized as a graphic novel with Planet of the Apes: Visionaries from acclaimed actor/comedian/writer Dana Gould (*The Simpsons*) and Chad Lewis (*Avengers Origins*). This is the world you know from the acclaimed Planet of the Apes film series, but with key differences - Taylor is Thomas, and Ape City isn't a crude, primitive grouping of huts; instead, it's a bustling and urbane metropolis filled with cars and skyscrapers and a vibrant Ape culture. In a world where Apes wear modern clothes, drive modern cars and rule the late night talk show scene, the arrival of one man will forever change how Apes - and Humans - view themselves.

In Search of the Dark Ages

Updated with the latest archaeological research new chapters on the most influential yet widely unrecognised people of the British isles, *In Search of the Dark Ages* illuminates the fascinating and mysterious centuries between the Romans and the Norman Conquest of 1066. In this new edition, Michael Wood vividly conjures some of the most important people in British history such as Hadrian, a Libyan refugee from the Arab conquests and arguably the most important person of African origin in British history, to Queen Boadicea, the leader of a terrible war of resistance against the Romans. Here too, warts and all, are the Saxon, Viking and Norman kings who laid the political foundations of England: Offa of Mercia, Alfred the Great, Athelstan, and William the Conqueror, whose victory at Hastings in 1066 marked the end of Anglo-Saxon England. Reflecting the latest historical, textual and

archaeological research, this revised and updated edition of Michael Wood's classic book overturns preconceptions of the Dark Ages as a shadowy and brutal era, showing them to be a richly exciting and formative period in the history of Britain.

Monkey Planet

How do political conflicts shape popular culture? This book explores that question by analyzing how the Planet of the Apes films functioned both as entertaining adventures and as apocalyptic political commentary. Informative and thought provoking, the book demonstrates how this enormously popular series of secular myths used images of racial and ecological crisis to respond to events like the Cold War, the race riots of the 1960s, the Civil Rights movement, the Black Power movement, and the Vietnam War. The work utilizes interviews with key filmmakers and close readings of the five Apes films and two television series to trace the development of the series' theme of racial conflict in the context of the shifting ideologies of race during the sixties and seventies. The book also observes that today, amid growing concerns over race relations, the resurgent popularity of Apes and Twentieth Century--Fox's upcoming film may again make Planet of the Apes a pop culture phenomenon that asks who we are and where we are going. Instructors considering this book for use in a course may request an examination copy [here](#).

Planet of the Apes as American Myth

Taking place before the original 1968 Planet of the Apes films, Ape Society has reached a new golden age, but there are ripples of dissent in both ape and human ranks. Tensions will rise and soon all will be caught in the chaos! Taking place before the original Planet of the apes movies, Ape and Human societies have reached a new golden age, but peace never lasts for long. Ripples of dissent are spreading in both the Ape and Human ranks and when a mysterious assassin guns down the beloved Lawgiver, tensions will reach a boiling point! Can one human solve the mystery of the Lawgiver's murder before war engulfs all of society? Or is this the beginning of the end for Apes and Humans alike? Find out what happens 1,300 years before the arrival of Colonel George Taylor, collecting the entire series for the first time from award winning novelist Daryl Gregory and critically acclaimed Carlos Magno, comes the story of the rise of the original Planet of the Apes!

Hide and Seek

"The definitive unauthorized chronology"--Cover.

Planet of the Apes Special Sales

Planet of the Apes Omnibus

THE OFFICIAL PREQUEL TO THE DRAMATIC NEW FILM FROM 20TH CENTURY FOX Caesar and his followers have escaped the clutches of man, fighting their way across the Golden Gate Bridge and taking refuge in the vast redwood forest known as Muir Woods. There they hope to establish a home, far from the humans who so horribly abused them. BUT MANKIND HAS FAR WORSE THINGS TO WORRY ABOUT The "Simian Flu" has begun to strike down unsuspecting innocents throughout San Francisco. What began as isolated cases quickly becomes a full-on epidemic. There are those who blame the apes, and would seek to take revenge, while others hunt Caesar and his troop for their own insidious reasons. Either way, the result will be the same... FIRESTORM The all-new bridge between Rise of the Planet of the Apes and Dawn of the Planet of the Apes

Timeline of the Planet of the Apes

Bridge the ten year gap between Rise & Dawn of the Planet of the Apes! It has been two years since the Simian virus wiped out humanity. With only a tenth of the population remaining, the civilization of man is no more! As Caesar sends out a pack of fierce primates to explore the world remaining, Malcolm and his family must venture across country to find salvation for his son and infected wife. Written by Michael

Moreci (Roche Limit) and illustrated by Dan McDaid (Jersey Gods), this six-issue series bridges the 10-year gap between the Rise of the Planet of the Apes and Dawn of the Planet of the Apes films, chronicling the fall of humanity and the rise of Caesar's ape civilization.

Planet of the Apes: Tales from the Forbidden Zone

A tale so full of imagination, originality, chilling credibility that it became an instant bestseller, an internationally popular film, and spawned numerous sequels.

Dawn of the Planet of the Apes - Firestorm

Seminar paper from the year 2019 in the subject Communications - Movies and Television, grade: 1,30, University of Passau (Professur für Anglistik/Cultural and Media Studies), course: Remakes, language: English, abstract: "To liken human beings to beasts is to stress the animal within the man" (Jordan qtd. in Greene 50). This statement gets to the heart of the discussion about the relationship between apes and human beings in Pierre Boulle's French novel *La Planète des Singes*/Planet of the Apes, its first U.S.-American cinematic adaptation by director Franklin J. Schaffner and the homonymous U.S.-remake of 2001. Despite the texts' vast variety of discourses, of which most have been discussed extensively in the academic field, it is the aim of the present paper to focus solely on the question of how the relationship between the ape and human species is presented in PotA (1963), PotA (1968) and PotA (2001) with regard to the construction and challenging of limitations. The aim is to demonstrate that, despite the persistence of interspecies boundaries, the texts clearly progress in bringing the species closer together. In recent years, the rising awareness of human beings' close kinship to other primates as well as the ongoing extinction of species² have made it more relevant than ever before to study and, thus, preserve biodiversity of apes. The three texts mentioned above contribute to an understanding of the development of human-ape kinship over the past decades by illustrating "the human in the animal and the animal in the human" (Balaschak 20) in unique ways. The paper's approach is to, firstly, embed the texts in their historical and cultural environment by considering the impact of primatology and contemporary socio-political conflicts on the representation of the ape-human relationship. Then, attention is given to means of separating the species through the construction of intra- and interspecies hierarchies and the use of language to justify speciesism in the novel, its adaptation and the remake. This exploration is followed by an analysis of how these boundaries are challenged by taking a closer look at the respective interspecies relationships between the male human protagonist and the female chimpanzee lead. Ultimately, the paper closes with a summary of the results and, additionally, gives a brief outlook into the possible future direction of the ape-human evolution and impulses for further research.

Dawn of the Planet of the Apes

Just in time for Tim Burton's blockbuster remake comes this comprehensive guide to the original "Planet of the Apes". Includes interviews, reviews, complete cast and credit information, and a behind-the-scenes look at what made this quirky science fiction series an enduring classic.

Planet of the Apes

Garden on the Moon

Since 1968, PLANET OF THE APES (based on Pierre Boulle's French novel MONKEY PLANET) has spawned nine films, two television series, several novels, and one of the most respected franchises in pop-culture history. BRIGHT EYES, APE CITY, edited by the same team behind Sequart's SACRED SCROLLS: COMICS ON THE PLANET OF THE APES, examines every Apes film, TV show, and novel, from 1968 to the present. This anthology features insightful, analytical essays about the franchise's long history, from film historians, novelists, bloggers, and subject-matter experts. If you're eager to learn more about Apes lore, you'll need to get your stinkin' paws on this book. From Sequart Organization. More info at <http://sequart.org>

Planet of the Apes

Caesar's birth in the original Planet of the Apes films was a result of the time travel at the core of that story. Tim Seeley (Revival) and David Walker (Power Man and Iron Fist) relocate that birth to 19th century Africa, where Caesar crosses paths with Tarzan, leading to a much different fate for Man and Ape. Drawing deeply from the Tarzan novels and the Planet of the Apes films, Seeley and Walker run Caesar and the Lord of the Jungle through the enslavement of the Apes, through a century of war, and through the center of the earth.

Planet of the Apes Archive Vol. 4

To celebrate the 50th anniversary of the Planet of the Apes franchise: an illustrated life story of Caesar, the brave and extraordinary leader of the apes, as told by Maurice, Caesar's best friend. After the events of War for the Planet of the Apes, Caesar's tribe has finally found a safe refuge from the last remnants of the humans who wish to see them wiped out. It comes at a cost, however, as Caesar dies before he can see the apes thrive and prosper in their new home. Maurice, as a gift to Caesar's son Cornelius for when he grows older, decides to recount and chronicle Caesar's story so that his son can truly know what a unique and brave ape his father was, and inspire Cornelius in turn. Caesar's Story is this chronicle, and tells the story of Caesar from his earliest days under the care of scientist Will Rodman, as well his life with the ape colony in Muir Woods after the outbreak of the Simian Flu, his interactions with Malcolm and Ellie, the dangerous ape Koba, and his ultimate battle with and imprisonment by the vicious and unstable Colonel. The book also chronicles what happens in-between the events of Rise and Dawn of the Planet of the Apes, as well as the events between Dawn of and War for the Planet of the Apes. The book includes Maurice's personal thoughts and reflections of his long time spent alongside Caesar, and contributions from several other key apes that knew Caesar. The result is a truly one-of-a-kind celebration of the new Planet of the Apes trilogy and the franchise as a whole.

Bright Eyes, Ape City

In thirteen stories full of rope burns and brush scratches, the author of the classic Horse Tradin? tells of the days when he made a specialty of catching wild cows. ø Ben K. Green calls himself a ?stove-up old cowboy,? and readers of this book will learn soon enough where the broken bones came from. Green tells of his adventures with wild steers, sharing with readers the years he worked in thorny brush and canyon country delivering those animals that were too wily or too wild for the normal roundup. Finding them was hard, even dangerous, work. Few cowboys looked for such chores. Green declares, ?I got real good at it, but of course in those days I didn?t know any better.?

Tarzan on the Planet of the Apes

Planet of the Apes
