We provide you with the full version of Expatriate Life Chilean Culture completely free of charge.

Cultural Dimensions of Expatriate Life in Chile

"Are you the same kind of person I am? Good - now how about a Coke?" Margaret Mead wrote this line to sum up some typical American hometown feelings and apprehensions about being placed in a foreign environment. U.S. expatriates new to Chile will find no mirror image, but a breadth and diversity among their Chilean friends that is extremely attractive. There is something very special about Chile that incorporates the best of Old World style with New World receptiveness to innovation. Despite the distance and expense, many visitors find themselves returning again and again, and many of these folks wind up living here either in retirement or as working professionals or entrepreneurs. For most of us who know and love this country and its vibrant, intelligent people, there is a wistful sense that Chile is a little piece of heaven on earth, far away from the travails of the rest of the world. There are so many reasons why expatriates and travelers come to Chile, and there are so many different experiences that these people have, that this book is surely only a glimpse of the possibilities. Yet I am hopeful that, for you, reading this book and thinking about some of the points it raises will offer you the opportunity to go deeper and to gain more from your experiences in Chile than you otherwise would have been able to do. If that's the case, then I've done my job, with only one last task, and that is to wish you the experience of a lifetime as you come to know and love the graceful, raw, beautiful land of Chile and its unique, fun-loving, thoughtful people.

Cultural Dimensions of Expatriate Life in Thailand

If you are an American who is looking for a place to live away from "the homeland," you will find nowhere on earth where there is more appreciation for the idiosyncrasies of a foreigner who wants to adapt and fit into their host culture. This isn't to say that the Thai people are without faults - there are those who can be critical, rude, deceitful, even hostile to those who they call 'Farang,' but they can also be that way with their fellow Thais who come from another part of the country, or who are without money or social position, or who just rub them the wrong way. Thailand is not paradise - just the closest to it

that anyone not from Thailand is likely to find when searching for near-perfection. Farang have been coming to Thailand for centuries, and have provided an endless source of amusement and refreshment for the Thai people. In return, the Farang have been offered greater access to the homes and hearts of the Thai people than in any other country in Asia. Perhaps it is the self-confidence that comes of having been an independent people throughout their history - occasionally invaded, never conquered - that gives the Thais this extraordinary poise and self-assurance. For whatever reason the Thais are the open, friendly, warm-hearted people that they are, it is a privilege to live among them and share their sensual, mystical, emotional world, as I along with so many others from the West have done over the years. If you are planning to visit or live in Thailand for the first time all I can ultimately say to you is that you are a most fortunate person. Relax, take your time, learn to speak Thai, and you will find that their world is as open to you as if you had been born among them.

Work and Family Interface in the International Career Context

This book focuses on the interface of work and personal life of international professionals. The globalization of business has led to an increasing number of people who work in international roles either through working abroad on different kinds of assignments or through international travelling. This book provides novel knowledge on the topic from different perspectives, highlighting not only the inherent challenges but also the positive side of working in a modern globalized world. Moreover, the book contributes by bringing together international professionals' own experiences, family members' experiences, organizational aspects and new theoretical discussions and models. The book covers several different perspectives on the work and personal life interface offering insights on the areas like adjustment, social support, dual-career issues and organizational practices. The book examines the situations of several different types of international employee such as organizational expatriates, self-initiated expatriates and international business travellers. The new interesting research evidence is provided from various country contexts from North America, Europe and Asia by researchers around the world.

CultureShock! Chile

A complex portrait of postdictatorial Chile by one of that country's most incisive cultural critics, this book uses memoirs, photographs, the plastic arts, novels, and other texts--the "residues" of a culture--to analyze the political-cultural Chilean landscape in the wake of Augusto Pinochet's seventeen-year military rule. Such residual areas reveal the flaws and lapses in Chile's transition from violent military dictatorship to electoral democracy. Nelly Richard's analysis ranges from an exploration of false memories of the recent past--especially memories of violence--to a discussion of the university under neoliberalism; from debates about the use of the word "gender" to an examination of refractory texts and cultural activities such as Diamela Eltit's "testimonio" of a schizophrenic vagabond, Eugenio Dittborn's use of photography in art installations, and transvestite performances. In "Cultural Residues, each instance becomes a suggestive metaphor for understanding a rapidly modernizing Chile attempting to redemocratize its public life.

Cultural Residues

This handbook compiles the most up-to-date research on transnational families. It employs a dialogue between classical approaches and cutting-edge directions in transnational family research to identify continuities and changes in terms of socioeconomic disparities and actors, and to analyze coexistence. Further, the volume adopts a twofold global and international comparative perspective. On the one hand, it focuses on different migratory flows around the world and describes their entangled logics; on the other, it is written by an international group of contributors, with a diverse range of professional backgrounds. Their contributions are based on sound empirical research, and explore geographical regions around the world. The handbook presents different thematic perspectives on transnational families, including an analytical focus on gender, global sociodemographic inequalities, power asymmetries, and border- and mobility regimes, as well as the organization of transnational care, transnational fatherhood, ageing, family reunions and return. It also includes a variety of methodological approaches to transnational family research, ranging from ethnography, biographical research, and life-course methods, to multi-sited approaches and quantitative surveys. Investigating an emergent debate, it sheds new light on migratory fluxes, their common and specific determinants, the types of actors involved, and ways to empirically and methodologically approach them. This is a must-read reference

for social scientists interested in family research, migration, and gender studies. Chapter 7 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Handbook of Transnational Families Around the World

A comprehensive overview of the practical implications for organizations that manage international employees, and individuals who are currently or aspiring expatriates.

Global Mobility and the Management of Expatriates

Global Nomads provides a unique introduction to the globalization of countercultures, a topic largely unknown in and outside academia. Anthony D'Andrea examines the social life of mobile expatriates who live within a global circuit of countercultural practice in paradoxical paradises. Based on nomadic fieldwork across Spain and India, the study analyzes how and why these post-metropolitan subjects reject the homeland in order to shape an alternative lifestyle. They become artists, therapists, exotic traders and bohemian workers seeking to integrate labor, mobility and spirituality within a cosmopolitan culture of expressive individualism. These countercultural formations, however, unfold under neo-liberal regimes that appropriate utopian spaces, practices and imaginaries as commodities for tourism, entertainment and media consumption. In order to understand the paradoxical globalization of countercultures, Global Nomads develops a dialogue between global and critical studies by introducing the concept of 'neo-nomadism' which seeks to overcome some of the shortcomings in studies of globalization. This book is an essential aide for undergraduate, postgraduate and research students of Sociology, Anthropology of Globalization, Cultural Studies and Tourism Studies.

Global Nomads

Inchworms, tiger moths, underwings, owlet moths, silkworms, sphinx moths, grass moths, and butterflies. Collectively, these and many others are the Lepidoptera, one of the most diverse groups of animals on the planet. Lepidoptera can be found in the highest tropical canopies, the driest deserts, and at the leading edge of science. The adults include some of the most beautiful insects that have inspired artists and have sailed through the dreams of human cultures for millennia. The immature stages ("caterpillars"), like the underwing depicted on the cover, link together vital processes in diverse terrestrial ecosystems that are only barely documented let alone understood. The people that study these animals are lepidopterists, and the goal of this book is to introduce them with their own words. In twenty chapters, lepidopterists tell their stories, and these tales mirror the diversity of nature in their range and depth. You will find individuals that wrestle with the challenges of scientific careers, stories of far flung travel and close calls, and historical perspectives on recent decades of scientific breakthroughs.

The Lives of Lepidopterists

This popular and highly successful book helps readers understand the implications of world cultures in the workplace. The book takes the point of view that culture does impact the organization, and that it has its most significant impact at the micro level--at the level of people communicating, working, and negotiating with other people.

International Dimensions of Organizational Behavior

"This groundbreaking study examines the connection between what are arguably the two most distinguishing phenomena of the modern world: the unprecedented surges in global mobility and in the creation of politically bounded spaces and identities."--Jose C. Moya, author of *Cousins and Strangers*
"An excellent collection of studies connecting transnational migration to the construction of national identities. Highly recommended."--Luis Roniger, author of *Transnational Politics in Central America*
"The importance of this collection goes beyond the confines of one geographic region as it offers new insight into the role of migration in the definition and redefinition of nation states everywhere."--Fraser Ottanelli, coeditor of *Letters from the Spanish Civil War*
"This volume has set the standard for future work to follow."--Daniel Masterson, author of *The History of Peru Between the mid-nineteenth and mid-twentieth centuries*, an influx of Europeans, Asians, and Arabic speakers indelibly changed the face of Latin America. While many studies of this period focus on why the immigrants came to the region, this volume addresses how the newcomers helped construct national identities in the Caribbean, Mexico, Argentina, and Brazil. In these essays, some of the most respected scholars of migration history

examine the range of responses--some welcoming, some xenophobic--to the newcomers. They also look at the lasting effects that Jewish, German, Chinese, Italian, and Syrian immigrants had on the economic, sociocultural, and political institutions. These explorations of assimilation, race formation, and transnationalism enrich our understanding not only of migration to Latin America but also of the impact of immigration on the construction of national identity throughout the world. Contributors: Jürgen Buchenau | Jeane DeLaney | Nicola Foote | Michael Goebel | Steven Hyland Jr. | Jeffrey Lesser | Kathleen López | Lara Putnam | Raanan Rein | Stefan Rinke | Frederik Schulze

Immigration and National Identities in Latin America

This vast three-volume Encyclopedia offers more than 4000 entries on all aspects of the dynamic and exciting contemporary cultures of Latin America and the Caribbean. Its coverage is unparalleled with more than 40 regions discussed and a time-span of 1920 to the present day. "Culture" is broadly defined to include food, sport, religion, television, transport, alongside architecture, dance, film, literature, music and sculpture. The international team of contributors include many who are based in Latin America and the Caribbean making this the most essential, authoritative and authentic Encyclopedia for anyone studying Latin American and Caribbean studies. Key features include: * over 4000 entries ranging from extensive overview entries which provide context for general issues to shorter, factual or biographical pieces * articles followed by bibliographic references which offer a starting point for further research * extensive cross-referencing and thematic and regional contents lists direct users to relevant articles and help map a route through the entries * a comprehensive index provides further guidance.

Encyclopedia of Contemporary Latin American and Caribbean Cultures

The first comprehensive and statistically significant analysis of the predictive powers of each cross-cultural model, based on nation-level variables from a range of large-scale database sources such as the World Values Survey, the Pew Research Center, the World Bank, the World Health Organization, the UN Statistics Division, UNDP, the UN Office on Drugs and Crime, TIMSS, OECD PISA. Tables with scores for all culture-level dimensions in all major cross-cultural analyses (involving 20 countries or more) that have been published so far in academic journals or books. The book will be an invaluable resource to masters and PhD students taking advanced courses in cross-cultural research and analysis in Management, Psychology, Sociology, Anthropology, and related programs. It will also be a must-have reference for academics studying cross-cultural dimensions and differences across the social and behavioral sciences.

Cross-Cultural Analysis

German Jewish novelist Grete Weil fled to Holland, but her husband was arrested there and murdered by the Nazis. Chilean novelist Isabel Allende fled her country after her uncle Salvador Allende was assassinated, and she later lost her daughter to disease."

The Text is Myself

"International Retailing reflects contemporary research and current practice, focusing on what is happening in the field, who is making it happen, why it is happening in the way it is, and how it is happening. Structured around four parts, this textbook guides students through the internationalization process, considering international markets, and how retail companies operate within them. It concludes by exploring future trends and challenges of the international retail marketplace." "The text is packed with a wealth of international examples and familiar case studies, clearly showing how the theory translated into practice."--BOOK JACKET.

International Retailing

Covers critical issues in the effective management of human resources, which can be used for class discussions, or be given as homework problems, or used as essay questions on tests.

Applied Human Resource Management

Worldwide, more people are on the move now than ever before, yet many refugees and migrants face poorer health outcomes than the host populations. Addressing their health needs is, therefore, a global health priority and integral to the principle of the right to health for all. The key is to strengthen and maintain health systems by ensuring that they are refugee- and migrant-sensitive and inclusive.

Health outcomes are influenced by a whole host of determinants. However, refugees and migrants face additional determinants such as precarious legal status; discrimination; social, cultural, linguistic, administrative and financial barriers; lack of information about health entitlements; low health literacy; and fear of detention and deportation. This groundbreaking publication outlines current and future opportunities and challenges and provides several strategies to improve the health and well-being of refugees and migrants. It is an advocacy tool for national and international policy-makers involved in health and migration. Evidence on the health of refugees and migrants remains fragmented – comparable data across countries and over time are urgently needed to track progress towards the health-related United Nations Sustainable Development Goals. With only 8 years until the 2030 target date to transform our world, the time to act is now.

World report on the health of refugees and migrants

Appropriate for introductory management courses in Canadian colleges and universities. Written in an accessible, conversational style, Management takes a global approach to the subject. The book profiles Canadian managers, contains Canadian examples and cases throughout. Improvements to existing topics have been incorporated into this edition, including a new chapter on Managing Communication and information technology. This edition has re-worked the writing style to speak to the student by showcasing a "Young Canadians" section for managers less than 40 years of age. In addition, there is more emphasis on small business and entrepreneurial ventures and will as improved visual delivery of material through effective application of charts, diagrams and tables.

Management

A growing number of people in the world have embraced globalization and actively seek opportunities to live, study, and work in other cultures. Highly talented and deeply motivated, they have been shaped by the new political/economic opportunities, technological realities and personal choices that have configured their lives. They are the Global Cosmopolitans. Professor Linda Brimm, whose last book, *Global Cosmopolitans: The Creative Edge of Difference*, defined and named this phenomenon, now introduces the Global Cosmopolitan Mindset and Skillset and examines what are the dilemmas and opportunities of composing a global life over time. Dr. Brimm has interviewed Global Cosmopolitans at different life stages and has garnered insights from those on the front line of the global economy. She describes how they understand the life dilemmas and opportunities implicit in navigating the rapidly changing global environment and how they learn from the lives they are creating. While these are people using the expertise developed over their global journey to manage change, lead organizations, make a difference in the world, or create their own ventures, she helps us understand what they have learned and how this global learning opportunity has contributed to the development of a Global Cosmopolitan Mindset and Skillset. This book relates some of the stories that global leaders and entrepreneurs have shared with Dr. Brimm. These concrete examples help us understand what the individuals have learned from their personal experience. Emerging from these stories are the unique attitudes and skills that are necessary to confront life challenges, embrace change and take steps to create new life chapters. Whether you are a Millennial considering joining this 'Cosmopolitan Club', an existing Global Cosmopolitan reflecting on what is next, someone in mid-career contemplating an international move, part of an organization trying to develop its responses to a global workforce, or a leader considering who can best run global organizations, this book provides a unique insight into the Global Cosmopolitan Mindset and Skillset – as well as the challenges and rewards of pursuing a global life.

The Global Cosmopolitan Mindset

As the economies of many countries become more interrelated, international managers are facing huge challenges and unique opportunities associated with their roles. Now in its fifth edition, Sweeney and McFarlin's *International Management* embodies a balanced and integrated approach to the subject, emphasizing the strategic opportunities available to firms on a global playing field, as well as exploring the challenges of managing an international workforce. Integrating theory and practice across all chapter topics, this book helps students to learn, grasp, and apply the underlying principles of successful international management: Understanding the broad context of international business, including the critical trends impacting international management, the legal and political forces driving international business, and the ethical and cultural dilemmas that can arise Mastering the essential elements of effective interaction in the international arena, from cross-cultural understanding and communication to cross-border negotiation Recognizing and taking advantage of strategic opportunities, such as entering

and operating in foreign markets Building and leading effective international teams, including personal and behavioral motivation, as well as taking an international perspective on the hiring, training, and development of employees These principles are emphasized in the text with current examples and practical applications, establishing a foundation for students to apply their understanding in the current global business environment. With a companion website featuring an instructor's manual, powerpoint slides, and a testbank, International Management, 5e is a superb resource for instructors and students of international management.

International Management

This new in paperback edition of World Encyclopedia of Contemporary Theatre covers the Americas, from Canada to Argentina, including the United States. Entries on twenty six countries are preceded by specialist introductions on Theatre in Post-Colonial Latin America, Theatres of North America, Puppet Theatre, Theatre for Young Audiences, Music Theatre and Dance Theatre. The essays follow the series format, allowing for cross-referring across subjects, both within the volume and between volumes. Each country entry is written by specialists in the particular country and the volume has its own teams of regional editors, overseen by the main editorial team based at the University of York in Canada headed by Don Rubin. Each entry covers all aspects of theatre genres, practitioners, writers, critics and styles, with bibliographies, over 200 black & white photographs and a substantial index. This Encyclopedia is indispensable for anyone interested in the cultures of the Americas or in modern theatre. It is also an invaluable reference tool for students and scholars of a wide range of disciplines including history, performance studies, anthropology and cultural studies.

World Encyclopedia of Contemporary Theatre

This collection explores the perpetually changing notion of Latin American identity, particularly as illustrated in literature and other forms of cultural expression. Editor Elizabeth Montes Garcés has gathered contributions from specialists who examine the effects of such major phenomena as migration, globalization, and gender on the construct of Latin American identities, and, as such, are reshaping the traditional understanding of Latin America's cultural history. The contributors to this volume are experts in Latin American literature and culture. Covering a diverse range of genres from poetry to film, their essays explore themes such as feminism, deconstruction, and postcolonial theory as they are reflected in the Latin American cultural milieu.

Relocating Identities in Latin American Cultures

The newest volume of the benchmark bibliography of Latin American studies.

Handbook of Latin American Studies, Vol. 76

McFarlin and Sweeney provide students with an accessible, application-oriented approach to international management, focusing on key challenges including motivation, leadership, and communication across cultural boundaries. The book gives students a global perspective on the process of hiring, training, and developing employees, as well as strategic decision making in relation to foreign markets. Questions, case studies, examples of creative problem solving, and testimonials from real-world managers operating in the international arena are just a few of the tactics McFarlin and Sweeney use to help students begin to think about applied theory on a global level. All chapters have been updated with recent articles from leading business sources and academic journals, and new case studies have been incorporated.

International Management

The second volume of the World Encyclopedia of Contemporary Theatre covers the Americas, from Canada to Argentina, including the United States. Entries on twenty-six countries are preceded by specialist introductions on Theatre in Post-Colonial Latin America, Theatres of North America, Puppet Theatre, Theatre for Young Audiences, Music Theatre and Dance Theatre. The essays follow the series format, allowing for cross-referring across subjects, both within the volume and between volumes. Each country entry is written by specialists in the particular country and the volume has its own teams of regional editors, overseen by the main editorial team based at the University of York in Canada headed by Don Rubin. Each entry covers all aspects of theatre genres, practitioners, writers, critics and styles, with bibliographies, over 200 black & white photographs and a substantial index. This is a unique volume

in its own right; in conjunction with the other volumes in this series it forms a reference resource of unparalleled value.

World Encyclopedia of Contemporary Theatre

Specifically tailored to business students, this undergraduate textbook features a "how-to" approach and is filled with current, lively examples and well-crafted learning tools. It takes readers from the kind of leadership they can exhibit in supervisory roles to the visionary leadership they must exhibit in management and executive roles.

The Business of Leadership

"The thirteen articles presented here originated with a conference on emigre feminism held at Trent University in October 1996. The authors, most of them now living in Canada, are scholars from South Africa, Uganda, Chile, Trinidad and Tobago, Greece, Hungary, the Czech Republic, Poland, Turkey, Iran, Finland, and New Zealand.

Emigré Feminism

Papers presented at various conferences and articles; some previously published.

Communication and Conflict

This book provides a cultural history of Spanish politics from the civil war of 1833 to the Spanish adoption of the Euro in 2002, a period dominated for the most part by violent military interventions in the political process, a succession of weak, unstable, but repressive governments, and the ever-present threat of rebellion from below, and culminating in the victory and repressive dictatorship of General Franco. Using a wide range of sources, both textual and material, Mary Vincent focuses on the question of how ordinary people came to identify themselves both as citizens and as Spaniards throughout this turbulent period. She argues that a weak state rather than a weak sense of nation was the key to Spain's problematic development and that this is the key to explaining both the persistence of political violence and the strength of regional nationalism in modern Spain. But, as Vincent shows, from the 1970s, with modernization of the state and the introduction of democratic politics, all Spaniards - including Catalans and Basques - enthusiastically adopted an additional identity, that of Europeans. And, while questions over the territorial unity of the Spanish state have still not been wholly resolved, nevertheless the political choices facing Spaniards today are very similar to those of other western European nations - and Spanish singularity appears, at last, to be consigned to the past.

Living Abroad

This book reveals how boxing and boxers became sources of national pride and sparked debates on what it meant to be Mexican, masculine, and modern.

Spain, 1833-2002

In an interconnected and globally competitive environment, faculty mobility across countries has become widespread, yet is little understood. Grounded in qualitative methodology, this volume offers a cutting-edge examination of internationally mobile academics today and explores the approaches and strategies that institutions pursue to recruit and integrate international teachers and scholars into local universities. Providing a range of research-based insights from case studies in key countries, this resource offers higher education scholars and administrators a comparative perspective, helping to explain the impact that international faculty have on the local university, as well as issues of retention, promotion, salaries, and the challenges faced by these internationally mobile academics.

A History of Boxing in Mexico

The book examines Peruvian migration to the United States, Spain, Japan and Argentina and uses a multi-sited field research design to make ethnographic in-depth descriptions of Peru's many migrant communities in America, Europe and Asia, explore the politics of immigration that the Global North employs to control migration from the Global South and rethink current attempts to theorize transnational migration.

International Faculty in Higher Education

Women filmmakers in Mexico were rare until the 1980s and 1990s, when women began to direct feature films in unprecedented numbers. Their films have won acclaim at home and abroad, and the filmmakers have become key figures in contemporary Mexican cinema. In this book, Elissa Rashkin documents how and why women filmmakers have achieved these successes, as she explores how the women's movement, film studies programs, governmental film policy, and the transformation of the intellectual sector since the 1960s have all affected women's filmmaking in Mexico. After a historical overview of Mexican women's filmmaking from the 1930s onward, Rashkin focuses on the work of five contemporary directors—Marisa Sistach, Busi Cortés, Guita Schyfter, María Novaro, and Dana Rotberg. Portraying the filmmakers as intellectuals participating in the public life of the nation, Rashkin examines how these directors have addressed questions of national identity through their films, replacing the patriarchal images and stereotypes of the classic Mexican cinema with feminist visions of a democratic and tolerant society.

Peruvians Dispersed

The Routledge Handbook of Graffiti and Street Art integrates and reviews current scholarship in the field of graffiti and street art. Thirty-seven original contributions are organized around four sections: History, Types, and Writers/Artists of Graffiti and Street Art; Theoretical Explanations of Graffiti and Street Art/Causes of Graffiti and Street Art; Regional/Municipal Variations/Differences of Graffiti and Street Art; and, Effects of Graffiti and Street Art. Chapters are written by experts from different countries throughout the world and their expertise spans the fields of American Studies, Art Theory, Criminology, Criminal justice, Ethnography, Photography, Political Science, Psychology, Sociology, and Visual Communication. The Handbook will be of interest to researchers, instructors, advanced students, libraries, and art gallery and museum curators. This book is also accessible to practitioners and policy makers in the fields of criminal justice, law enforcement, art history, museum studies, tourism studies, and urban studies as well as members of the news media. The Handbook includes 70 images, a glossary, a chronology, and the electronic edition will be widely hyperlinked.

Rediscovering the New World

Anglicanism can be seen as irredeemably English. In this book Kevin Ward questions that assumption. He explores the character of the African, Asian, Oceanic, Caribbean and Latin American churches which are now a majority in the world-wide communion, and shows how they are decisively shaping what it means to be Anglican. While emphasising the importance of colonialism and neo-colonialism for explaining the globalisation of Anglicanism, Ward does not focus predominantly on the Churches of Britain and N. America; nor does he privilege the idea of Anglicanism as an 'expansion of English Christianity'. At a time when Anglicanism faces the danger of dissolution Ward explores the historically deep roots of non-Western forms of Anglicanism, and the importance of the diversity and flexibility which has so far enabled Anglicanism to develop cohesive yet multiform identities around the world.

Dissertation Abstracts International

Relatively affluent individuals from various corners of the globe are increasingly choosing to migrate, spurred on by the promise of a better and more fulfilling way of life within their destination. Despite its increasing scale, migration academics have yet to consolidate and establish lifestyle migration as a subfield of theoretical enquiry, until now. This volume offers a dynamic and holistic analysis of contemporary lifestyle migrations, exploring the expectations and aspirations which inform and drive migration alongside the realities of life within the destination. It also recognizes the structural conditions (and constraints) which frame lifestyle migration, laying the groundwork for further intellectual enquiry. Through rich empirical case studies this volume addresses this important and increasingly common form of migration in a manner that will interest scholars of mobility, migration, lifestyle and culture across the social sciences.

Women Filmmakers in Mexico

Covers world authors from many periods and genres, building an understanding of the various contexts -- from the biographical to the literary to the historical -- in which literature can be viewed. Identifies the significant literary devices and global themes that define a writer's style and place the author in a larger literary tradition as chronicled and evaluated by critics over time.

Routledge Handbook of Graffiti and Street Art

A History of Global Anglicanism
