John Deere X475 to X595 Instrument Cluster Testing - John Deere X475 to X595 Instrument Cluster Testing by GotDeeres 10,574 views 3 years ago 9 minutes, 13 seconds - This video shows how to test **John Deere**, X475 to **X595**, Instrument Clusters without removing them from the tractor.

This is showing a Yanmar diesel engine. Models with a Kawasaki engine have the sensor on the front of the engine.

The orange wire controls the cutoff relay

The switch was operating at 175 degrees F which is the normal operating temperature of the engine.

This over temp device is only on the liquid cooled Kawasaki engines

This wiring is on the left side of the tractor behind the side panel.

The black white wire is connected to pin 8 of instrument cluster 20 pin connector
