A gift of gratitude for those who do one of the hardest jobs in the world and impact our lives in ways that are forever being revealed: educators. As artist and writer Sandy Gingras so aptly points out in the introduction to her book Thank You, a life lived well is perhaps the highest form of thanks a person

can give to teachers as a way of repaying them for their attention and effort. A simple thank-you is also nice. Thank You is Gingras's own delightful way of conveying this sentiment. This charming keepsake book features her soft, sweet watercolor artwork and thoughtful original text celebrating teachers and all they do for us. Always striking the right tone of gratitude without being overly sentimental, Thank You is a wonderful way to show appreciation to teachers for their enduring gifts to us both great and small.

Thank You For Teaching

Many successful people can point to a single teacher whose talent and dedication made a crucial difference in their lives. Sometimes former students clearly recall a teacher's casually brilliant remark that produced an instant "aha!" response; sometimes they are affected by a teacher's passionate devotion to professional duty. The methods of a great teacher are as varied and distinctive as teachers themselves, but the result - inspired teaching - is a gift enjoyed for a lifetime. Those Who Can . . . Teach brings together personal reminiscences about gifted educators from a wide array of contributors, including writers, entertainers, business leaders, religious figures, politicians - and of course teachers themselves. Some are humorous, others irreverent, others sweet, still others passionately polemical. Based on interviews conducted by the editors, the book includes many excerpts culled from literature, personal letters, and film.

Thank You

This is the book that will save rookies' souls when they lose the strength to save their classrooms. With tales from more than one hundred veterans from across the country, teachers everywhere will find themselves laughing, maybe crying, and definitely taking notes. Readers at the toughest schools will be relieved to find a resource that deals specifically with their struggles instead of insisting that all teaching situations are the same. This is the book that will keep the great teachers of the future from quitting before they become great. Many new teachers have been waiting for someone to break the "stay positive!" code and talk about the parts of the job that make teachers question their career choices. While other books cover the eyes of readers to keep from scaring them, this one asks teachers to be brutally honest about how tough teaching truly is and whether the rewards are still worth it. The answer is yes. From the author: I have never understood why so many books for the new teacher show apples and paper airplanes on their covers. In six years of teaching, no one has ever given me an apple. Any snacks students have offered me have come from vending machines, and teachers are not allowed to accept unwrapped food anyway. I have never seen a paper airplane, either. This generation of students knows that crumpled-up-paper balls are faster to make and easier to aim. Some unlucky teachers have had books thrown at them. In at least one case, a teacher was hit in the back with chunks of plaster from her crumbling classroom wall. Even without serious discipline problems, new teachers often feel like failures. Not only do they take on all the issues plaguing the school system, they cause many of their own problems because of their inexperience. As a beginner, I sat through countless workshops listening to the heartwarming success stories of others. Then, carrying home piles of un-graded papers the night before report card day, all I could think was, "How did these poor students get stuck with a teacher like me?" I also remember some generous, experienced coworkers who shared their own first-year horror stories. One described a parent who threatened to "f___ (her) up" during class time. Another talked about a hard-working student who was tormented every time he turned in an assignment, and a third confided that she was so overwhelmed she repeatedly turned in the same lesson plan. These stories were not inspirational, but during my first year they kept me sane. These were people who had become top-notch professionals. If their start had been so rocky, maybe there was hope for me.

Every Year in May we celebrate NATIONAL TEACHER DAY and TEACHER APPRECIATION WEEK. It is also common to celebrate and Thank teachers during year-end holiday breaks (like Christmas, Hanukkah, etc.) and Summer break. But we believe that EVERYDAY is a good day to say THANK YOU to a Teacher! Teachers have such a profound impact on our lives and our future. Teachers help us to

recognize our potential, discover our passions and to follow our dreams. A compassionate and inspiring teacher is often the catalyst that propels a child to truly realize and explore his/her own personal talents, abilities, and greatness. This book is designed to let a special teacher know that you recognize just how impactful his/her role is in student development. This is a perfect way for parents of students in Preschool and K-8 to thank a special teacher. This is also suitable for High School and College students to use as a Thank You note to a beloved teacher any time of year. Parents who home school and take on the enormous and loving task of double duty should also be recognized. This is a sweet way for one parent to help his/her children to acknowledge and thank the teaching parent for being not only an amazing parent but also an amazing and appreciated teacher.

Each and every day teachers show up in their classrooms with a relentless sense of optimism. Despite the complicated challenges of schools, they come to and remain in the profession inspired by a conviction that through education they can move individuals and society to a more promising future. In *Teaching with Heart: Poetry that Speaks to the Courage to Teach* a diverse group of ninety teachers describe the complex of emotions and experiences of the teaching life – joy, outrage, heartbreak, hope, commitment and dedication. Each heartfelt commentary is paired with a cherished poem selected by the teacher. The contributors represent a broad array of educators: K-12 teachers, principals, superintendents, college professors, as well as many non-traditional teachers. They range from first year teachers to mid-career veterans to those who have retired after decades in the classroom. They come from inner-city, suburban, charter and private schools. The teachers identified an eclectic collection of poems and poets from Emily Dickinson, to Richard Wright, to Mary Oliver to the rapper Tupac Shakur. It is a book by teachers and for all who teach. The book also includes a poignant Foreword by Parker J. Palmer (*The Courage to Teach*), a stirring Introduction by Taylor Mali (*What Teachers Make*), and a moving Afterword by Sarah Brown Wessling (*Teaching Channel*). Where *Teaching with Fire* honored and celebrated the work of teachers; *Teaching with Heart* salutes the tenacious and relentless optimism of teachers and their belief that despite the many challenges and obstacles of the teaching life, much is possible.

A monumental novel capturing how one man comes to terms with the mutable past. 'A masterpiece... I would urge you to read - and re-read ' Daily Telegraph **Winner of the Man Booker Prize for Fiction** Tony Webster and his clique first met Adrian Finn at school. Sex-hungry and book-hungry, they would navigate the girl-less sixth form together, trading in affectations, in-jokes, rumour and wit. Maybe Adrian was a little more serious than the others, certainly more intelligent, but they all swore to stay friends for life. Now Tony is retired. He's had a career and a single marriage, a calm divorce. He's certainly never tried to hurt anybody. Memory, though, is imperfect. It can always throw up surprises, as a lawyer's letter is about to prove.
