See How Hershey's Kisses Are Made In The Sweetest Place On Earth | TODAY - See How Hershey's Kisses Are Made In The Sweetest Place On Earth | TODAY by TODAY Food 323,676 views 6 years ago 1 minute, 30 seconds - It's a (**Hershey's**), **kiss**, and tell: Take a short but **sweet**, trip to Hershey, Pennsylvania, to learn the secrets of just what makes ...

We visited Hershey's largest factory

Milk is delivered and stored in special silos.

Milk is combined with sugar, then condensed.

Cocoa powder is added to the mix.

The mixture goes through a conche: a machine that refines it to a smooth, creamy texture.

Chocolate is pumped to the Kisses depositing room.

The Kisses are deposited onto a large conveyor belt that takes them into a cooling tunnel.

The Kisses exit the cooling tunnels and head to wrapping machines, where they are wrapped at high speed.

The Kisses move to the sorting machines, where they are bagged and sent to get boxed.

The Kisses are boxed and shipped off to stores around the country!
