Let's Talk about Safety Skills for Kids

To Keep My Body Safe, I Have a Plan is a groundbreaking children's picture book to effectively teach safety, whether on a play date, at school, or anywhere a child might be without his or her trusted caregiver. Developed with the guidance of renowned child safety expert, Pattie Fitzgerald, Founder of Safely Ever After, Inc., and grounded in brain science, this book is essential for all school-age children, though it is appropriate for younger children as well. Safety of the body can be a difficult topic to discuss with kids, but the rules are straightforward and critical. Research by the Center for Disease Control and Prevention estimates that one in six boys and one in four girls are sexually abused before the age of eighteen. Many books on safety emphasize "stranger danger," but an estimated ninety-percent of sexual abusers are known to the child. The safety rules in this book could save your child from being a victim of child molestation. This book gently introduces children to the concept of SAFE ADULTS, INTUITION, and the ESSENTIAL RULES for keeping the body safe. Children will be empowered to L.E.A.D.: to integrate Logic and Emotions to Analyze and Decide on a safety plan. Learning safety facts, examining the emotions involved, analyzing safety tips, and deciding on a safety plan gives children security, confidence, and the tools they need to keep their body safe. Blueprint it: This *Have a Plan* title can also be personalized online at www.littleblueprint.com. Children will learn safety rules while viewing their name, personal photos, a character that resembles them, and/or a dedication. A personalized book makes a child the hero of their story, engaging them and promoting comprehension and recall of potentially life-saving concepts. Indie Reader approved! IR Verdict: TO

Illustrator Jessica Churchill combines an interesting assortment of still life photos with cartoons to bring home the point. The partnership of author and illustrator works beautifully to provide an appealing book that doesn't overwhelm the child with worst-case scenarios. Children will connect with the story and pictures as they learn valuable lessons in self-care. This book is a part of a series of books created to teach children life skills. The author began the series in an effort to help her own children take charge of the challenges they faced, and shared her secrets as the books equipped her own parenting skills. A Little Book about Safety

It is becoming increasingly important in today's world to be vigilant about all the negativity that surrounds the family unit and in particular the children. What would seem like an innocent and safe act or pass time, years ago, is no longer to be taken for granted. Get all the info you need here. For the sake of the safety of their children all parents should be aware of the following elements and perhaps even take the time and effort to ensure the children too are fully aware of them. There is a need today to inform parents or other adult family members of the daily activities and movement of the child before leaving the safety of the home. Going further to ensure the parent is aware of the activities indulged in and the approval given would be an even stronger precautionary measure to take. Also agreeing to stick to what has been planned without any sudden deviations is also something to impress upon the child unless prior approval is sought. Teaching the child to avoid talking to strangers is the oldest rule in the book but often not really enforced, especially when the parent themselves allow a stranger to coo and chuckle with the adorable child.
