King Lear

Kommentierte Ausgabe von "King Lear"

King Lear

Theatre program.

The Arden Shakespeare: King Lear

King Lear has ruled for many years. As age overtakes him, he divides his kingdom amongst his children. Misjudging their loyalty, he soon finds himself stripped of all the trappings of state, wealth and power that had defined him. Arden Performance Editions are ideal for anyone engaging with a Shakespeare play in performance. With clear facing-page notes giving definitions of words, easily accessible information about key textual variants, lineation, metrical ambiguities and pronunciation, each edition has been developed to open the play's possibilities and meanings to actors and students. Designed to be used and to be useful, each edition has plenty of space for personal annotations and the well-spaced text is easy to read and to navigate. Each edition offers: - Short, clear definitions of words - Information about

key textual variants - Notes on pronunciation of difficult names and unfamiliar words - An easy to read layout with space to write your own notes - A short introduction to the play

King Lear: Arden Performance Editions

'King Lear' is arguably the most complex and demanding play in the whole of Shakespeare. Once thought impossible to stage, today it is performed with increasing frequency, both in Britain and America. It has been staged more often in the last 50 years than in the previous 350 years of its performance history, its bleak message clearly chiming in with the growing harshness, cruelty and violence of the modern world. 'Performing King Lear' offers a very different and practical perspective from most studies of the play, as it is centred firmly on the reality of creation and performance, as seen through the eyes of a wide selection of today's leading actors and directors, including Nicholas Hytner, Adrian Noble, David Hare, Kenneth Branagh, Deborah Warner, Derek Jacobi, Jonathan Miller, Dominic Dromgoole, and Simon Russell Beale.

King Lear

This reissued edition of Longman Annotated Texts King Lear includes comprehensive notes, annotations and an introduction, all designed to be of use to undergraduates and interested readers. King Lear is one of Shakespeare's most widely studied tragedies. However, since the late 1970s textual scholars, critics and editors have argued that there is no single 'King Lear' text. Anyone studying the play needs to be aware of two different texts, one based on the quarto of 1608, *The History of King Lear*, and a revised version published in the first folio of 1623, *The Tragedy of King Lear*. This edition offers a fully annotated, modern spelling version of the texts set side by side, identifying and elucidating the major discrepancies between the two. It presents some possible reasons for the differences between the two texts, which themselves shed light on a number of issues relating to literary transmission in the Renaissance and give an insight into the nature of performance and censorship.

Performing King Lear

King Lear is a tragedy written by William Shakespeare, most likely in 1606. It depicts the gradual descent into madness of the title character, after he disposes of his kingdom by giving bequests to two of his three daughters egged on by their continual flattery, bringing tragic consequences for all. Derived from the legend of Leir of Britain, a mythological pre-Roman Celtic king, the tragedy is particularly noted for its probing observations on the nature of human suffering and kinship. George Bernard Shaw wrote, "No man will ever write a better tragedy than Lear."

King Lear

Plays, playscripts.

King Lear

In this edition, R.A. Foakes brings to bear a number of historical perspectives and critically addresses recent explorations of 'King Lear' as a play of redemption, a play of despair and a play that destabilises all commentary.

King Lear

Unlock the more straightforward side of King Lear with this concise and insightful summary and analysis! This engaging summary presents an analysis of King Lear by William Shakespeare, a tragic tale about the consequences of betrayal and ambition. The titular character, King Lear, makes the mistake of dividing his entire kingdom between his scheming elder daughters, Goneril and Regan, who are actively plotting against him, while disinheriting his loyal youngest daughter, Cordelia. Stripped of power and rapidly descending into madness, Lear is left to wander the barren heath with only his Fool for company, while the country he once ruled tears itself apart in a bloody civil war. King Lear is generally recognised as Shakespeare's most nihilistic work, but has also been hailed as his greatest tragedy, and has been performed consistently since it was first written in the early 17th century. Find out everything you need to know about King Lear in a fraction of the time! This in-depth and informative reading guide brings you: • A complete plot summary • Character studies • Key themes and symbols • Questions for further reflection Why choose BrightSummaries.com? Available in print and digital format, our publications are designed to accompany you on your reading journey. The clear and concise style

makes for easy understanding, providing the perfect opportunity to improve your literary knowledge in no time. See the very best of literature in a whole new light with BrightSummaries.com!

King Lear

This book seeks to invert Ben Jonson's claim that Shakespeare had 'small Latin and less Greek' and to prove that, in fact, there is more Greek and less Latin in a significant group of Shakespeare's texts: a group whose generic hybridity (tragic-comical-historical-romance) exemplifies the hybridity of Greece in the early modern imagination. To early modern England, Greece was an enigma. It was the origin and idealised pinnacle of Western philosophy, tragedy, democracy, heroic human endeavour and, at the same time, an example of decadence: a fallen state, currently under Ottoman control, and therefore an exotic, dangerous, 'Other' in the most disturbing senses of the word. Indeed, while Britain was struggling to establish itself as a nation state and an imperial authority by emulating classical Greek models, this ambition was radically unsettled by early modern Greece's subjection to the Ottoman Empire, which rendered Europe's eastern borders dramatically vulnerable. Focussing, for the first time, on Shakespeare's 'Greek' texts (*Venus and Adonis*, *The Comedy of Errors*, *A Midsummer Night's Dream*, *Love's Labour's Lost*, *Troilus and Cressida*, *Timon of Athens*, *King Lear*, *Pericles* and *The Two Noble Kinsmen*), the volume considers how Shakespeare's use of antiquity and Greek myth intersects with early modern perceptions of the country and its empire.

King Lear

This major series provides the student with accessible and authoritative annotated editions of key texts in English and American literature from medieval to modern times. It provides the key teaching editions for students, academics and all those interested in literature.

The Tragedy of King Lear

This carefully crafted ebook: "King Lear (The Unabridged Play) + The Classic Biography: The Life of William Shakespeare" is formatted for your eReader with a functional and detailed table of contents. King Lear is a tragedy by William Shakespeare written between 1603 and 1606 and later revised. Shakespeare's earlier version, *The True Chronicle of the History of the Life and Death of King Lear and His Three Daughters*, was published in quarto in 1608. The *Tragedy of King Lear*, a more theatrical version, was included in the 1623 First Folio. The title character descends into madness after disposing of his estate between two of his three daughters based on their flattery, bringing tragic consequences for all. The play is based on the legend of Leir of Britain, a mythological pre-Roman Celtic king. Life of William Shakespeare is a biography of William Shakespeare by the eminent critic Sidney Lee. This book was one of the first major biographies of the Bard of Avon. It was published in 1898, based on the article contributed to the Dictionary of National Biography. William Shakespeare (1564 – 1616) was an English poet and playwright, widely regarded as the greatest writer in the English language and the world's pre-eminent dramatist. He is often called England's national poet and the "Bard of Avon". His extant works, including some collaborations, consist of about 38 plays, 154 sonnets, two long narrative poems, and a few other verses, the authorship of some of which is uncertain. Sir Sidney Lee (1859 – 1926) was an English biographer and critic. He was a lifelong scholar and enthusiast of Shakespeare. His article on Shakespeare in the fifty-first volume of the Dictionary of National Biography formed the basis of his *Life of William Shakespeare*. This full-length life is often credited as the first modern biography of the poet.

The Works of Shakespeare: King Lear

Ann Thompson is Professor of English Language and Literature and Head of the School of Humanities at King's College London. She has edited *The Taming of the Shrew*, and her other publications include *Shakespeare's Chaucer*, *Shakespeare, Meaning and Metaphor* (with John O. Thompson), and *Women Reading Shakespeare, 1660-1900* (with Sasha Roberts). She has also published widely on editing Shakespeare and Shakespeare's language. She is one of the General Editors of the Arden Shakespeare. Neil Taylor is Dean of Research and Dean of the Graduate School at Roehampton University. He has edited *Henry IV, Part 2* and (with Brian Loughrey) *Thomas Middleton: Five Plays*. He has also published widely on editing Shakespeare, Shakespeare on film, and other aspects of Renaissance and modern drama. This text is designed as a supplement to the Arden Hamlet and refers to the Introduction and Appendices of that volume for a full discussion of dating, sources, textual matters, afterlife, and all other topics usually covered in an Arden edition. In order to make use of

this volume, the reader will need access to the Arden Hamlet (but not vice versa). This volume gives readers the First Quarto text of 1603 and the Folio Text of 1623, modernized and edited to the usual Arden standard. As a companion to the Second Quarto volume, the Arden Hamlet, it will be of particular interest to scholars and students of textual history and comparison, or to anyone studying Hamlet at an advanced level. Both plays are edited and annotated, and the introduction contains the fullest available stage history of the First Quarto text. The Arden Shakespeare has developed a reputation as the pre-eminent critical edition of Shakespeare for its exceptional scholarship, reflected in the thoroughness of each volume. An introduction comprehensively contextualizes the play, chronicling the history and culture that surrounded and influenced Shakespeare at the time of its writing and performance, and closely surveying critical approaches to the work. Detailed appendices address problems like dating and casting, and analyze the differing Quarto and Folio sources. A full commentary by one or more of the play's foremost contemporary scholars illuminates the text, glossing unfamiliar terms and drawing from an abundance of research and expertise to explain allusions and significant background information. Highly informative and accessible, Arden offers the fullest experience of Shakespeare available to a reader.

The Winter's Tale

'The Scottish Play' is Shakespeare's shortest tragedy, but its characters are some of the most memorable in his oeuvre: the misguided Macbeth, the ruthless Lady Macbeth and the otherworldly Weird Sisters are recognisable as classic Shakespearean roles. Saturated with blood and despair, the tragedy of Macbeth is a concentrated study of guilt and ambition inflamed by the supernatural.

The Works of Shakespeare

Shakespeare's plays are works of art made out of words. To read the plays closely, that is, to pay careful attention to the multiple, shifting meanings of and relationships between their words, is to gain a deep and lasting appreciation for the complex artistry of their construction and of their effects. In fourteen chapters, the book takes readers on a guided tour through some of the most productive sites in Shakespeare's plays for analysis, providing an introduction to the practice of reading Shakespeare's plays closely, and some examples of the interpretive work that such close reading can enable. Topics of analysis include verbal patterning, dramatic structure, staging and stage directions, soliloquies and character-construction and poetic meter. This is an ideal teaching text for introductory courses on Shakespeare. Offering a wide range of examples from nearly all of Shakespeare's plays, it will give students the analytical tools they need to develop sustained close readings of their own.

King Lear

An introductory critical study for first year undergraduates which bridges the gap between A Level and university study. The book offers an accessible overview of key critical perspectives, early modern contexts, and methods of close reading, as well as screen and stage performances spanning several decades. Organised around the discussion of fourteen major plays, it introduces readers to the diverse theoretical approaches typical of today's English studies. This is a go-to resource that can be consulted thematically or by individual play or genre. Critical approaches can overwhelm students who are daunted by the quantity and complexity of current scholarship; Bickley and Stevens are experienced teachers at both A and university level and are thus uniquely qualified to show how a mix of critical ideas can be used to inform ways of thinking about a play.

King Lear by William Shakespeare (Book Analysis)

Based on three lectures given by Professor Richard Proudfoot in October 1999 to celebrate the 400th anniversary of The Globe, The Arden Shakespeare's centenary and Professor Proudfoot's retirement from King's College; this enjoyable volume aims to give a general and non-specialist audience some sense of what scholarship has achieved in three critical areas of Shakespeare studies at the end of the twentieth century. Freshly and engagingly written, this lively volume will appeal to all those with an interest in Shakespeare studies.

Shakespeare and Greece

This Arden edition of Hamlet, arguably Shakespeare's greatest tragedy, presents an authoritative, modernized text based on the Second Quarto text with a new introductory essay covering key productions

and criticism in the decade since its first publication. A timely up-date in the 400th anniversary year of Shakespeare's death which will ensure the Arden edition continues to offer students a comprehensive and current critical account of the play, alongside the most reliable and fully-annotated text available.

King Lear

Shakespeare's 'King Lear' with 'The Tempest' is Mark McDonald's inquiry into the political philosophy of William Shakespeare through a reading of King Lear with reference to The Tempest. McDonald follows an argument connecting King Lear to the question of natural right and to changes in the orders of the western world at the beginnings of modernity.

King Lear

The Arden Research Handbook of Shakespeare and Textual Studies is a wide-ranging, authoritative guide to research on Shakespeare and textual studies by an international team of leading scholars. It contains chapters on all the major areas of current research, notably the Shakespeare manuscripts; the printed text and paratext in Shakespeare's early playbooks and poetry books; Shakespeare's place in the early modern book trade; Shakespeare's early readers, users, and collectors; the constitution and evolution of the Shakespeare canon from the sixteenth to the twenty-first century; Shakespeare's editors from the eighteenth to the twenty-first century; and the modern editorial reproduction of Shakespeare. The Handbook also devotes separate chapters to new directions and developments in research in the field, specifically in the areas of digital editing and of authorship attribution methodologies. In addition, the Companion contains various sections that provide non-specialists with practical help: an A-Z of key terms and concepts, a guide to research methods and problems, a chronology of major publications and events, an introduction to resources for study of the field, and a substantial annotated bibliography. The Arden Research Handbook of Shakespeare and Textual Studies is a reference work aimed at advanced undergraduate and graduate students as well as scholars and libraries, a guide to beginning or developing research in the field, an essential companion for all those interested in Shakespeare and textual studies.

King Lear 1901

How are unwarranted dislikes and prejudices portrayed in the works of Shakespeare and to what extent does Shakespeare differ from his contemporaries in their portrayal? What can we learn about Shakespeare's times and our own through a close reading of prejudice depicted in his plays? In this study, B. J. Sokol examines what King Edward in Henry VI Part III calls 'your scorns and mislike' (4.1.23) – the unfounded prejudices depicted in Shakespeare's works and targeted at five distinct areas: education, the arts, peace, 'strangers' or outsiders and sexual love. Through a close reading of his plays, comparison with the works of other Elizabethan writers and a consideration of Shakespeare's social environment, this study provides a detailed appreciation of Shakespeare's dramatic method and his insights into the psychological motivations behind the prejudices portrayed. Presenting Shakespeare's prejudice against education, Sokol examines numerous representations of pupils, teachers and schooling, focusing on anti-educational prejudices in *The Merry Wives of Windsor* and in *King Henry VI Part 2*. The distaste of characters for art is considered alongside Shakespeare's repeated depiction of the destructive downgrading of the arts that erupts during political upheavals, while prejudice against peaceful living is traced in Shakespeare's various portrayals of 'honour'-driven feuding, such as in *Romeo and Juliet*, and in warrior characters such as *Coriolanus*. Prejudice against strangers as depicted in plays including *Titus Andronicus*, *Othello* and *The Merchant of Venice* is contrasted with that of plays by his contemporaries, including Christopher Marlowe's *The Jew of Malta*. A final chapter examines prejudice against sex and the representation of many male and female characters who evade the erotic, subordinate the erotic to power seeking, or regard their own or others' erotic attachments with revulsion.

King Lear (The Unabridged Play) + The Classic Biography: The Life of William Shakespeare

If you have ever been stuck trying to identify a Shakespearean quote, or if you just love Shakespeare, then this is the book for you!

The Works of Shakespeare: King Lear, ed. by W. J. Craig. New & cheaper issue. [1905]

Marking the 400th anniversary of his death, leading Shakespeareans reflect back on key developments in criticism and look forward to new areas of study

Hamlet: The Texts of 1603 and 1623

A unique exploration of the challenges and rewards of performing "King Lear" based on interviews with leading actors and directors.

King Lear

A collection of new and specially commissioned essays by an eminent team of Shakespeare scholars, focusing on the particular issues relating to the editing of Shakespeare and other Renaissance texts. The editing of dramatic and other literary texts has always been an important aspect of literary studies. In recent years, editing and the theoretical frameworks that underlie editing practices have become a lively and controversial focus of debate, sparked both by philosophical discussions on 'the death of the author' and by the technological challenges presented by the possibilities of electronic texts. Most national and international conferences on literature and drama include sessions on textual studies and editing, and a number of monographs address particular issues relating to the editing of Shakespeare and other Renaissance texts, but this is the first overall survey of the current state of the field. The essays have been commissioned to honour Professor Richard Proudfoot, Senior General Editor of the Arden Shakespeare, and an internationally recognised authority in the field of Shakespeare textual scholarship, who retired from King's College London in 1999 after 35 years. This is a well-planned, focused and co-ordinated volume makes a significant contribution to Shakespeare studies. The contributors are a formidable and global group of scholars, representing both traditional and contemporary viewpoints. They include a number of Arden editors, past and present, as well as scholars who have edited texts for the main competitors.
