

Promoting Small Water Harvesting Structures In Dryland Regions A Case Study Of The Farm Ponds Scheme In Gujarat Working Paper

[#small water harvesting structures](#) [#farm ponds scheme Gujarat](#) [#dryland water management](#) [#water conservation programs](#) [#rural water infrastructure](#)

This working paper explores the critical role of promoting small water harvesting structures in dryland regions, offering a detailed case study of the successful Farm Ponds Scheme in Gujarat. It analyzes the effectiveness and challenges of these initiatives in enhancing local water resources and improving community resilience in arid environments.

These documents can guide you in writing your own thesis or research proposal.
