The View from Under the Pew

This beautifully-illustrated storybook introduces children to the true story of Walter, a guide dog who assists Pastor Diane through her day at the church. Walter helps Pastor Diane minister to others as they visit the sick at the hospital and attend church meetings and potluck suppers. Walter is her faithful companion as Pastor Diane conducts Bible studies and leads worship. Walter loves his view from under the pew, where he can listen to the choir sing and see the faces of families who have come to church to worship God together.

Amos the Churchmouse

From his headquarters under a stark wooden pew, Amos-yep, a churchmouse-holds court as chief critic of all things Christian. His status as a furry fly on the wall gives him ample opportunity to tsk his whiskers over lame sermons, lack of vision, greed, and the general sense of malaise that has taken over the church pew underworld. As Amos encounters Freddy the Flea, Louie the Songdog, Prayer Virgil the Praying Mantis, and others, you just might recognize a few, um, animals who walk the halls of your church! Readers ages 8 to 88 will be encouraged and amused by Amos's discoveries about God's love for us-and find themselves looking a little more closely before they take a seat next Sunday.

The Vatican Battle of Bishops: A View from The Pew

THE VATICAN BATTLE OF BISHOPS: A VIEW FROM THE PEW There are two problems with the Catholic Church: the Hierarchy thinks they own the Church, and the pew-Catholic is too comfy in his cushioned pew. The Catholic Laity have been enablers of the Hierarchy. The basic and formal difference is that the Hierarchy sees they own the Holy Spirit. In general, the lay folks have had their voices ignored. The Bishops of Vatican II have decreed and Pope Francis has issued a formal invitation to the pews to present their thoughts. Invited to speak, the pew-Catholics voice their inspirations. The

Hierarchy [most] disdain the Faithful's inspirations. That suggests a Vatican Battle: Bishops defending the status quo versus Bishops defending the pews. Three factors explain why the Church Hierarchy does not listen to the Holy Spirit from the pews. The Hierarchy is not open to "becoming." They view the status quo as sacred. Second, the Hierarchy is truly convinced they constitute the Church. The oils of Holy Orders mark the anointed with the special gifts needed to guide God's society. Finally, the Hierarchy has traditionally been a caste of privilege. The Roman Emperor Constantine gave the clerics official Roman rank which in turn offered a paycheck. The clergy were no longer required to work for a living alongside the regular believers. They lost touch with all the other believers. In their minds, the ordained are above listening to the laity. In the pews, Catholics have long been second class citizens. They need question how did the Hierarchy arrive at their status. The Roman Emperor Constantine saw the community-minded Christians as a unifier for his empire, and made all clergy officials of the State. The clergy were the ones who had the time and leisure to make memorial meal arrangements. That's when the clergy took on a culture of clericalism, i.e. The clergy own the Church and the Holy Spirit through ordination. That was Ancient Rome. Now priests are abusing the innocence of the youth. Pope Francis calls that Church "a bride caught in adultery." In Biblical terms the use of "adultery" is reserved for the Jews when they went off to worship other gods, idolatry! Pope Francis asserts the Hierarchy worshipped a false god. They worshiped their "ordained-only-church," a sham church, trying to keep the appearance of "Holy." They were covering up the sin [also legal crime] of priests who abused children to fake holy. What about the People of God when all of this was going on? Did they just sit there? The answer is "yes" and "no." Most pew-Catholics did nothing because most did not know what was really going on. Some heard but concluded it must be a lie from some disgruntled Catholic trying to make trouble for one of the priests. These Laity were true enablers of the Hierarchy to sin. But the Holy Spirit managed to alert some of the Catholics. They followed up on what they had heard: "Trust but verify." When they learned of the abuse, they warned their pastors and Bishops about the problem priests. Their pastors and Bishops went numb, denied, hid the abuse, and some Bishops had their law team actually dishonor the victims in courts of law. Again, the Holy Spirit did not allow silence to cover the snub the Hierarchy had dealt the Spirit's counsel. An offended Spirit counseled Pope Francis to call for a Synodal Process to allow the pew-Catholics voice. Because the pew-Catholics had listened to the Holy Spirit, the Paraclete now favored them with the spiritual opportunity of a Synod. Thus, the pew-Catholic had a chance to speak. The agenda for the Bishops is out. The issues are clearly controversial, (women priests, optional priest celibacy, foundations of sexual morality, divorced-remarried catholics) for The Vatican Battle Of Bishops.

Amos the Philosophical Churchmouse

Living under a church pew can give you an interesting-and enlightened-view of Christianity - just as long as it doesn't resemble what Amos calls, "church-ianity." Amos is a mouse, but he doesn't merely wander about, searching for communion crumbs. Amos is a philosopher, and he has plenty of time to consider the meaning of it all, especially since he also has plenty of opportunity hearing about the wisdom of life in Jesus. Amos is not just a philosopher; he is also a poet. Although he has some difficulty using a keyboard (he's not fond of capital letters or punctuation marks), he has important things to discuss. In "Amos Meets an Agnostic," the clever mouse tries to share his view of faith in God. "Life in the Pit" challenges us to realize that even bad days can be redeemed as part of God's intended purpose. Amos adores free verse, almost as much as he loves talking about Jesus. He tackles everyday emotions, theological concepts, biblical issues, and current topics with the help of his church pew pals. When your house is beneath a church pew, you must retain a certain amount of wit to get by. Amos the philosopher has it, as well as an intelligent, Christian perspective on a world filled with dark corners, trap-door spiders, and lurking alley cats.

'I consumed it. It is the electric charge we need' Daisy Johnson, author of Everything Under One Sunday morning, a mysterious silent figure is found sleeping in a church in an unnamed American town. The congregants call this amnesiac 'Pew' and seek to uncover who they are: their age; their gender, their race, their intentions. Are they an orphan, or something worse? What terrible trouble is Pew running from? And why won't they speak? Unable to agree on how to treat a person they cannot categorize - whether to adopt or imprison, help or harm them - this small town is quickly undone by Pew's terrifying

silence. What remains is a foreboding, provocative, and amorphous fable about the world today: our borders and our boundaries, our fears and our woes.

God is the perfect father, and you can improve your parenting style by looking to Him. He sets the example for how to be a provider, protector, teacher, and disciplinarian. This guidebook to Christian parenting explores the attributes of God a parent should try to emulate. It also brings to light four ways that Jesus grew in Luke 2:52, developing intellectually, physically, spiritually, and socially. As a parent, you can help your children follow in their savior's footsteps. Just as the Lord disciplines those He loves, parents must discipline their children. Heaven on Earth carefully describes biblical principles to help parents provide the environment children need. It offers proper and healthy techniques to aid parents in leading children to honor and respect not only their parents but ultimately the Lord. What's more, it draws a line between appropriate and abusive actions to control children's behavior. Parents can proactively develop a disciplinary plan to guard against crossing these boundaries. Parents face many challenges to lead and guide the family in godly ways, and many struggle with the feelings of anger and failure. Find encouragement and strength through the power of God's Word and the strength of the Holy Spirit, and get practical help in facing rebellious and wayward children. You can be inspired to overcome any obstacle, and raise your children for the glory of God.

Pew

""There are many others who are called into many dimensions of Christian service: missionaries, evangelists, Bible teachers, Sunday school teachers, and others; but no one touches two young hands, with God, to join them in a lifetime relationship in the way that a pastor does: No one touches the head of a tiny babe at the moment of christening to ask God to bless and sustain until that later day of accountability: No one touches the feverish hand or forehead of the hospital patient with words of hope and comfort: No one reaches forth his hand to touch the hardwood or metal beneath a floral arrangement to speak those final, earthly words - no one, in the same way as a pastor."" - Joyce Proctor Beaman

The Jurist ..

"Daddy, I'd like you to meet my children." That's Robbie Castleman's attitude about taking her children to church. She believes that Sunday morning isn't a success if she has only managed to keep the kids quiet. And she knows there's more to church for kids than trying out their new coloring books. Children are at church for the same reason as their parents: for the privilege of worshiping God. Worship, Castleman writes, is "the most important thing you can ever train your child to do." So with infectious passion, nitty-gritty advice and a touch of humor, she shows you how to help your children (from toddlers to teenagers) enter into worship. In this significantly revised and updated edition Castleman includes a new preface and two new appendices that provide new perspectives on children's sermon and intergenerational community. She also provides a study guide for personal reflection or group discussion. More than ever, Parenting in the Pew is essential reading for parents and worship leaders who want to help children make joyful noises unto the Lord.

Unique insights from an atheist's Sunday-morning odyssey When Hemant Mehta was a teenager he stopped believing in God, but he never lost his interest in religion. Mehta is "the eBay atheist," the nonbeliever who auctioned off the opportunity for the winning bidder to send him to church. The auction winner was Jim Henderson, a former pastor and author of Evangelism Without Additives. Since then, Mehta has visited a variety of church services—posting his insightful critiques on the Internet and spawning a positive, ongoing dialogue between atheists and believers. I Sold My Soul on eBay tells how and why Mehta became an atheist and features his latest church critiques, including descriptions of his visits to some of the best-known churches in the country. His observations will surprise and challenge

you, revealing how the church comes across to those outside the faith. Who better than a nonbeliever to offer an eye-opening assessment of how the gospel is being presented—and the elements that enhance or detract from the presentation. Mehta announced prior to his churchgoing odyssey that he would watch for any signs of God's existence. After spending Sunday mornings in some of the nation's leading churches, what happened to the man who sold his soul on eBay? Did attending church change his lack of belief? The answers can be found inside.

A View From the Square

Stepan Ilyich Povin, the KGB's chief of foreign intelligence, is seeking asylum in the West. In exchange he offers a stunning piece of information: The Soviets are about to capture a sophisticated American spy plane that radar cannot detect, a plane that is so crucial to America's defense that she will risk war to keep its secrets from the Soviets. The Americans send Kirk Binderhaven - an ex-CIA operative and survivor of countless perilous assignments - to destroy the plane. Deep within Soviet territory, trekking across snowbound Siberian wastes to reach his target, Binderhaven will encounter the cruelest odds of his career...and a beautiful Russian woman who will become critical to the whole enterprise. A VIEW FROM THE SQUARE is the second book in the Stepan Povin trilogy, the thrilling sequel to A Man Called Kyril

Square

From the dream team of Jon Klassen and Mac Barnett comes the second instalment in the exciting new shape trilogy. Every day, Square brings a block out of his cave and pushes it up a steep hill. This is his work. When Circle floats by, she declares Square a genius, a sculptor! "This is a wonderful statue," she says. "It looks just like you!" But now Circle wants a sculpture of her own, a circle! Will the genius manage to create one? Even accidentally?

The New York Times bestseller 'Silicon Valley needed a history lesson and Ferguson has provided it' Eric Schmidt What if everything we thought we knew about history was wrong? From Niall Ferguson, the global bestselling author of Empire, The Ascent of Money and Civilization, this is a whole new way of imagining the world. Most history is hierarchical: it's about popes, presidents, and prime ministers. But what if that's simply because they create the historical archives? What if we are missing equally powerful but less visible networks - leaving them to the conspiracy theorists, with their dreams of all-powerful Illuminati? The twenty-first century has been hailed as the Networked Age. But in The Square and the Tower Niall Ferguson argues that social networks are nothing new. From the printers and preachers who made the Reformation to the freemasons who led the American Revolution, it was the networkers who disrupted the old order of popes and kings. Far from being novel, our era is the Second Networked Age, with the computer in the role of the printing press. Once we understand this, both the past, and the future, start to look very different indeed. 'Ambitious and illuminating ... the historian who more than most connects our age to its past' Evening Standard, Books of the Year 'Captivating and compelling' The New York Times 'Niall Ferguson has again written a brilliant book ... A Short Account of the View of Lisbon, Now Exhibiting in Henry Aston Barker's Panorama, Leicester Square

"This book offers a new way of looking at the geographical spaces occupied by urban squares, proposing a different perspective on European urban squares. This might strike one as a bold statement, but it should first and foremost be taken literally. The photographs in this book, taken with a professional drone, show an aerial view of squares in a number of historical European cities. Famous squares in well-known cities across Europe, from Lisbon to Istanbul, are presented alongside lesser-known but no less interesting squares. Drone photography offers a bird's eye view. This is one of the few instances where technical and artistic languages successfully overlap. The bird's eye view is, almost without exception, spectacular. This view reveals something we might have only intuited until now: a deeper structure, which points to a new perspective on squares in a figurative sense as well"--Back cover

Logos Bookstores' Best Book in Christianity and Culture How do we live with our deepest differences? In a world torn by religious conflict, the threats to human dignity are terrifyingly real. Some societies face harsh government repression and brutal sectarian violence, while others are divided by bitter conflicts over religion's place in public life. Is there any hope for living together peacefully? Os Guinness argues that the way forward for the world lies in promoting freedom of religion and belief for people of all faiths and none. He sets out a vision of a civil and cosmopolitan global public square, and how it can be established by championing the freedom of the soul—the inviolable freedom of thought, conscience and religion. In particular he calls for leadership that has the courage to act on behalf of the common good. Far from utopian, this constructive vision charts a course for the future of the world. Soul freedom is not only a shining ideal but a dire necessity and an eminently practical solution to the predicaments of our time. We can indeed maximize freedom and justice and learn to negotiate deep differences in public life. For a world desperate for hope at a critical juncture of human history, here is a way forward, for the good of all.

Beginning Xamarin Development for the Mac

Long-Listed for the 2010 Independent Foreign Fiction Prize From hostage-video makers in Baghdad, to human trafficking in the forests of Serbia, institutionalised paranoia in the Saddam years, to the nightmares of an exile trying to embrace a new life in Amsterdam... Blasim's stories present an uncompromising view of the West's relationship with Iraq, spanning over twenty years and taking in everything from the Iran-Iraq War through to the Occupation, as well as offering a haunting critique of the post-war refugee experience. Blending allegory with historical realism, and subverting readers' ex-

pectations in an unflinching comedy of the macabre, these stories manage to be both phantasmagoric and shockingly real, light in touch yet steeped in personal nightmare. For all their despair and darkness, though, what lingers more than the haunting images of war, or the insanity of those who would benefit from it, is the spirit of defiance, the indefatigable courage of those few characters keeping faith with what remains of human intelligence. Together these stories represent the first major literary work about the war from an Iraqi perspective. 'Perhaps the best writer of Arabic fiction alive...' – The Guardian, 12 Jun 10.

Henry James was born in the United States, in New York City, on April 15, 1843 and is considered an American writer, though he spent most of his life in England and, a year before his death in London on February 28, 1916, became a British citizen. He is regarded as one of the key literary figures of the 19th century, writing mainly narrative fiction. He influenced many other writers, most notably Edith Wharton. James was the son of Henry James, Sr., a well-known intellectual of his day, and the brother of William James. Henry is known especially for the novels in which he portrays Americans encountering Europeans. His style of writing, often verbose and indirect, especially in his later years, can make him difficult to read. Often, too, he writes from the point of view of the characters within a tale, exploring issues related to consciousness and perception. James contributed significantly to literary criticism, especially in his later years when his works were republished with extensive introductions by James. He insisted that writers be allowed the greatest freedom in their writing, and that narrative fiction be true to life, giving readers a view of life that is recognizable. He felt that the only way to judge whether a novel is good or bad is by whether the author is good or bad. His imaginative use of point of view, interior monologue, and narrators who were not necessarily reliable, brought depth and interest to his fiction. *The Aspern Papers* is one of his most notable short novels, along with *The Turn of the Screw*. In addition to fiction he published articles, books of travel, autobiography, biography, criticism, and plays. Among his masterpieces are *Daisy Miller* (1879), *The Portrait of a Lady* (1881), *The Bostonians* (1886), *What Maisie Knew* (1897), *The Wings of the Dove* (1902), and *The Golden Bowl* (1916), available in this series, *Classics Condensed* by Cowley.

The Global Public Square

"Harvard Square isn't what it used to be." Spend any time there, and you're bound to hear that lament. Yet people have been saying the very same thing for well over a century. So what does it really mean that Harvard Square—or any other beloved Main Street or downtown—"isn't what it used to be"? Catherine J. Turco, an economic sociologist and longtime denizen of Harvard Square, set out to answer this question after she started to wonder about her own complicated feelings concerning the changing Square. Diving into Harvard Square's past and present, Turco explores why we love our local marketplaces and why we so often struggle with changes in them. Along the way, she introduces readers to a compelling set of characters, including the early twentieth-century businessmen who bonded over scotch and cigars to found the Harvard Square Business Association; a feisty, frugal landlady who became one of the Square's most powerful property owners in the mid-1900s; a neighborhood group calling itself the Harvard Square Defense Fund that fought real estate developers throughout the 1980s and '90s; and a local businesswoman who, in recent years, strove to keep her shop afloat amid personal tragedy, the rise of Amazon, and a globalizing property market that sent her rent soaring. Harvard Square tells the crazy, complicated love story of one quirky little marketplace and in the process, reveals the hidden love story Americans everywhere have long had with their own Main Streets and downtowns. Offering a new and powerful lens that exposes the stability and instability, the security and insecurity, markets provide, Turco transforms how we think about our cherished local marketplaces and markets in general. We come to see that our relationship with the markets in our lives is, and has always been, about our relationship with ourselves and one another, how we come together and how we come apart.

The Madman of Freedom Square

The manner; in which Sir Isaac Newton has published his philosophical discoveries; occasions them to lie very much concealed from all; who have not made the mathematics particularly their study. He once; indeed; intended to deliver; in a more familiar way; that part of his inventions; which relates to the system of the world; but upon farther consideration he altered his design. -Introduction
