Session Topic Overview with Moderator Dr. Kris Lowe

Dr. Sarah MacDonald Introduction

AI App: "Virus Vision"

Dr. Marc Fuchs Introduction

Dr. James A. Stamps Introduction

Are there research tools that can be easily adapted for Growers to use?

"Virus Vision" showcase

What are some unique revelations about the virus vector of Red Blotch?

How do you approach sampling a vineyard mother block for Red Blotch?

How does Red Blotch enter the vineyard in the first place?

Is the threecornered alfalfa hopper the vector for Red Blotch?

What do we know about the threecornered alfalfa hopper as a vector?

What research still needs to be done to help Growers?

Let's Look at Animal Legs

"Simple text and photographs present a variety of animal legs and their uses"--Provided by publisher.

Animal Tails

Describes Different Animal's Tails And How They Use Them.

Let's Look at Animal Tails

Furry, curly, long, and short, animals use their tails in all kinds of ways.

Let's Look at Animal Wings

Full of feather and open wide, animals use their wings to get where they need to go.

Whose Tail Is This?

"Examines a variety of animal tails, noting how they look different and function in different ways. Animals shown include a peacock, a monkey, a kangaroo, a humpback whale, a gecko lizard, a rattlesnake, and a sea horse."

Let's Look at Animal Feet

Provides an introduction to animal feet, and explains how they work, and how different animals use them.

Animal Tails

Introduces, in simple text and photographs, the tails belonging to a mosquito larva, lemur, guppy, tadpole, pig, earwig, and chameleon.

Whose Tail?

This book describes various animals' uses of their tails for steering and balance, swimming, defense, and brakes.

Animal Tails

Most animals have one, but that's where the similarities end! Squirrels balance with theirs, rattlesnakes use them as a warning, hippos use them to flick poo around, scorpions use theirs to inject venom and many birds use them for showing off! The variety of ways in which animals use their tails is truly staggering and this fantastic book has got all the facts on animal tails, whipped! Gorgeous photographs illustrate the tails of the animal kingdom and all the extraordinary ways they have evolved to help their owners live in harmony with the environment. You didn't know you needed a book on animal tails - but you'll soon be wondering why you haven't had one sooner! It's a cool way to take a sideways look at the animal kingdom and you will be enthralled and delighted by this incredible book. For readers aged 8+ Also available in this series: Animal Tongues.

American Book Publishing Record

Twelve delightful animal tales to entertain your children while they discover the habitat of each animal. This personalised book twins as a colour in book for many hours of fun.

Animal Tails

Examines a variety of animal tails, noting how they look different and function in different ways. Animals shown include a peacock, a monkey, a kangaroo, a humpback whale, a gecko lizard, a rattlesnake, and a sea horse.

Collection of Tails

How do we know it's winter? The air is cold and snow falls. Animals look for food. Many plants turn brown, but evergreens stay green. This book shows young readers how to recognise the changes that happen in winter.

Whose Tail is This?.

How do we know it's spring? The sun shines, and rain falls. Baby animals are born, and flowers bloom. This book shows young readers how to recognize the changes that happen in spring. Includes a video, which launches via a 4D app.

Let's Look at Winter

Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

Let's Look at Spring

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

The Horn Book Guide to Children's and Young Adult Books

In this third book of the acclaimed series, Percy and his friends are escorting two new half-bloods safely to camp when they are intercepted by a mantichore and learn that the goddess Artemis has been kidnapped.

School Library Journal

A bold, riveting debut novel of desire, betrayal, and loss, centering on three teenage girls, a horse ranch, and the tragic accident that changes everything. Rory Ramos works as a ranch hand at the stable her stepfather manages in Topanga Canyon, California, a dry, dusty place reliant on horses and hierarchies. There she rides for the rich clientele, including twins June and Wade Fisk. While Rory may have unwittingly drawn the interest of out-and-proud June, she's more intrigued by Vivian Price, the beautiful teenager with the movie-star father who lives down the hill. Rory's blue-collar upbringing keeps her largely separate from the likes of the Prices--but, perched on her bedroom windowsill, Rory steals glimpses of Vivian swimming in her pool nearly every night. After Rory's stepfather is involved

in a tragic car accident, the lives of Rory, June, and Vivian become inextricably bound together. Rory discovers photography, begins riding more competitively alongside June, and grows closer and closer to gorgeous, mercurial Vivian, but despite her newfound sense of self, disaster lurks all around her: in the parched landscape, in her unruly desires, in her stepfather's wrecked body and guilty conscience. One night, as the relationships among these teenagers come to a head, a forest fire tears through Topanga Canyon, and Rory's life is changed forever. *Kept Animals* is narrated by Rory's daughter, Charlie, twenty years after that fateful 1993 fire. Realizing that the key to her own existence lies in the secret of what really happened that unseasonably warm fall, Charlie is finally ready to ask questions about her mother's past. But with Rory away on assignment as a war photographer, Charlie knows she must unravel the truth for herself.

The Other End of the Leash

A year after escaping from certain death in a Tephos prison, Volle finds himself in self-imposed exile on a farm in Ferrenis with Streak, the white wolf who helped him escape. When a letter arrives from Volle's friend Tish urging him to return to Tephos to defend his honor against the charges of espionage that landed him in prison, Volle gives in to the excitement and intrigue of a noble's life and returns to face his accusers. He is soon enmeshed in a web of murder and intrigue set in motion by his longtime enemy Dereath Talison, endangering him and his friends. To regain the life and status he wishes for without losing the love he has, Volle must confront some unpleasant truths about himself and those closest to him, and solve a mystery that reaches far beyond a dead body, into the reaches of the heart.

New York Magazine

Alice in Wonderland (also known as *Alice's Adventures in Wonderland*), from 1865, is the peculiar and imaginative tale of a girl who falls down a rabbit-hole into a bizarre world of eccentric and unusual creatures. Lewis Carroll's prominent example of the genre of "literary nonsense" has endured in popularity with its clever way of playing with logic and a narrative structure that has influenced generations of fiction writing.

The Percy Jackson and the Olympians, Book Three: Titan's Curse

Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. *I Know Why the Caged Bird Sings* captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. "I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin

Jersey Bulletin and Dairy World

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

The Jungle Book

A Bank Street College of Education Best Children's Book of the Year! Meet Olga, the amazing child scientist who LOVES animals (because they are super-cute)! Brightly put this heavily illustrated don't-miss book on their "Ultimate Summer Reading List for 9- to 12-Year-Olds." *Olga and the Smelly Thing from Nowhere* is jam-packed with fun: vibrant illustrations, word bubbles, quirky humor, olgamus facts, and plenty of excitement for readers who love making discoveries and meeting new friends. Olga is a charming combination of independent, curious, and smart—making her the coolest girl scientist around—perfect for fans of *Dork Diaries* and *Captain Underpants*. When Olga crosses paths with a

weird creature and becomes the first kid to discover the species *olgamus ridiculus*, she is ecstatic! What does an *olgamus* eat? How does it poop? Why does its burp sound like the word rubber? With her trusty observation notebook and the help of a librarian, a shopkeeper, and some friends, Olga sets out to do science—learning the facts about her smelly, almost-furry pal and searching for him when he goes missing. The scientific method is the best way to discover anything!

Kept Animals

FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations.

Pendant of Fortune

Tarian Tarbell-Udonis, born to a single mother in a shanty village of Sala, outside of the Realm of Salatonía. At the age of five his mother died. Being assigned a maid in secrecy, who mysteriously disappeared, Tarian was left to survive on his own. Sitting on a curb was a boy dingy, sad, and withdrawn. The King took pity, taking him back to the Castle. It was now the duty of the King to keep the truth from everyone! a dark secret! Tarian was never satisfied, always wanting more with each passing day. He craved to know the truth about the stories of the Amulet of Salatonía. The very charm that would divide the family, bringing them to encounter death, fueled hatred, betrayal and misery. With each glance at the Amulet, Tarian had to have it. He couldn't resist its calling. Its mythical wonder drew him closer until Tarian couldn't restrain himself any longer. He had stolen the Amulet. Travel with Tarian, and engage yourself with the many mythical creatures in hopes that Tarian reaches his destiny.

Alice in Wonderland

Denise Scicula shows techniques for painting eccentric art on rocks. Create Scottish terriers, houses, happy faces, bugs, daisies, moons, stars, feathers, starships, bees, peapods and much more.

Le dictionnaire royal

Now, for the first time, the stories of Spanish writer Leopoldo Alas have been translated into English. This is an important collection from a writer who is remembered as a master story-teller.

Sweetness

Summer Dream

Just My Imagination

The Frequency Of Knowing

Use Me

I'll Follow The Sun

Love Me Do

Mercy Mercy Me

I'm Not The Only One

Lean On Me

Always

Where Is The Love?

Ain't Nothing Like The Real Thing
