Transfer the photographs from your mobile phone to your PC or laptop

Fix orientation and apply to all pages

This process takes a few minutes. You may need to split some pages manually

Remember to save the project

Select "margins". I like a 10mm margin top and bottom

You can set the alignment. The default is align centre top

The final stage is "output"

The "output" stage takes a few hours, so I usually run it overnight

Final checking and editing is done using Advanced Tiff editor

The tiffs outputted from Scantailor are merged in batches of 150

The merged files are saved as pdfs when proofchecking is complete

The pdfs and then combined in Adobe Acrobat...

and an OCR is run

Remember to save the file before optimising it to reduce the file size

When optimising it important to process only the text-only pages, as images can become mushy

Gregg Braden discussing The Gospel of Thomas

When you come to know yourselves, then you will become known, and you will realize that it is you who are the sons of the living Father.

But if you will not know yourselves, you dwell in poverty and it is you who are that poverty.

If you do not fast from the world, you will not find the (Father's) domain.

His disciples said to him, "When will the kingdom come?"
