Intro

Workshop goals: • Understand what action research is. • Know how to conduct action research • Be able to use action research for professional development

Action research in education: A systematic process used to study a school, classroom, or teaching-learning situation with the purpose of understanding and improving the quality of actions or instruction

It is not: a. "anything goes" methodology b. a description of your observations or ideas c. a description of an interesting project, unit, or strategy used c. an explanation of a pedagogical method that worked well

Set the problem or research topic in a theoretical context 1. Do a review of the literature

Two approaches to doing a literature review a. review literature before collecting data b. review literature as data is collected or conclusions drawn

Onus is on researcher to prepare a credible, coherent report grounded in theoretical context

Make a plan for data collection 1. Methodology a. What data are going to be examined? b. How is it going to be collected! c. How often will it be collected?

Begin to collect and analyze data 1. Collect and analyze data

Allow question or problem to change as data are collected 1. Action research is a dynamic, ever-changing process

De final analysis and organization of the data 1. Could be the final step in an ongoing process

Make conclusions and recommendations 1. Interpret the data tell what it means

Create a plan of action 1. This is the action in action research
