Debate: Creationism vs Evolution - Debate: Creationism vs Evolution by paducah2 80,208 views 8 years ago 1 hour, 24 minutes - Honors society Phi Theta Kappa presents a debate on **Creationism vs Evolution**,. Dr. Jay L. Wile debates for **Creationism**,, and Dr.

Creation Model Prediction 1: Amazing Design in Nature

Vestigial Organs are Rare Exceptions

Creation Model Prediction 4: Mutations Erode Genetic Information

Some ideas that flow from the major hypotheses are testable

Believing that the Earth is 10,000 years old today is exactly the same as believing it is flat when we know it is round

Pikaia -one of the earliest chordates

Archaeopteryx, the earliest bird (150 Ma)

Maybe even Velociraptor was feathered

But what happened to the dinosaurs?

Including the Chixulub crater off the coast of the Yucatan Peninsula in Mexico

This is called by creationists the principle of irreducible complexity; an often-cited example of which is the human eye

But many intermediate eye configurations are known among living organisms

And complex eyes are not limited to humans

An argument from incredulity

Humans have family trees. How far back do they go?

Examples from the fossil record document transitional forms

New fossil evidence documents the transition of early terrestrial artiodactyls to aquatic proto-whales

Ambulocetus ( an Eocene mammalian "crocodile") had tiny hooves on its feet!

Kenyanthropus platyops from Kenya; 3.3-3.5 Ma

Summary of evolution

Over long periods of time, gradual transformation is observed (e.g., reptile -mammal transition)

But we are against irrational thinking that leads to incorrect and bizarre ideas of how the world works

Why the Earth Can't be Old! - Why the Earth Can't be Old! by Creation Ministries International 873,846 views 7 months ago 51 minutes - Is the Earth 4.5 billion years old? How can we measure age with certainty? What about radiometric dating methods—don't they ...

Introduction

Mark's story: How origins affected his faith (An old Earth undermines the Gospel narrative)

How do we determine the age of something? (You can't measure age!)

The dripping tap example (Dating methods rely on assumptions!)

Radiometric dates aren't definitive – assumptions rule

The importance of witness testimony

The importance of worldview / starting assumptions

So, how old is the Earth?

Evidence from radiometric dating / rocks

Evidence from sedimentation / erosion

Evidence from our solar system

Evidence from Earth's population

Evidence from carbon-14 in fossils

Summary: You can't measure age! (Everything depends on your assumptions!)

An old Earth calls God's character into question

An old Earth calls the inerrancy of Scripture into question

Conclusion: Three reasons the age of the Earth matters to a Christian
