Small Arms Firing Manual

Sir Norman Angell, pioneer both of international relations as a distinct discipline and of the theory of globalization, winner of the Nobel Peace Prize, and one of the twentieth century's leading internationalist campaigners on both sides of the Atlantic, lived the great illusion in three senses. First, his 'life job', as he came to call it, was founded upon and defined by *The Great Illusion*, a best-seller whose original version appeared in 1909: it perceptively showed how economic interdependence would prevent great powers profiting from war; yet it made other, less felicitous, claims from whose implications he spent decades trying to extricate himself. Second, his magnum opus and all his best work derived, to an extent unusual for a public intellectual, not from abstract thinking but from an eventful and varied life as a jobbing journalist in four countries, a cowboy, land-speculator, and gold-pro prospector in California, production manager of the continental edition of the *Daily Mail*, author, lecturer, pig farmer, Labour MP, entrepreneur, and campaigner for collective security. Third, he fostered many an enduring illusion about himself by at various times giving wrongly his age, name, nationality, marital status, key career dates, and core beliefs. By dint of careful detective work, this first biography of Angell reveals the truth about a remarkable life that has hitherto been much misrepresented and misinterpreted.

The Oxford Dictionary of English Etymology

Even in the harsh conditions of total war, food is much more than a daily necessity, however scarce—it is social glue and an identity marker, a form of power and a weapon of war. This collection examines the significance of food and hunger in Germany's turbulent twentieth century. Food-centered perspectives and experiences “from below” reveal the social, cultural and political consequences of three conflicts that defined the twentieth century: the First and Second World Wars and the ensuing global Cold War. Emerging and established scholars examine the analytical salience of food in the context of twentieth-century Germany while pushing conventional temporal frameworks and disciplinary boundaries. Together, these chapters interrogate the ways in which deeper studies of food culture in Germany can shed new light on old wars.

Eyewitness Companions: Whiskey

This comprehensive volume, often called the “HVAC bible,” has been thoroughly updated to cover the latest code changes, equipment, and techniques HVAC Equations, Data, and Rules of Thumb, 3e offers all of the information an HVAC student or professional needs in one resource. The book thoroughly explains the expansion of piping systems and temperature limitations of new materials such as polyethylene, polypropylene, PVC, CPVC, and PEX. Detailed information is included for all types of facilities, including offices, hotels, hospitals, restaurants, commercial spaces, and computer rooms. This practical handbook reflects all the latest code changes—including the ASHRAE standards—and explains how to interpret and put them to use. It includes completely updated coverage of new pumps, chillers, air handling units, cooling equipment, boilers, and pipe material. You will get complete coverage of sustainability organizations that have become more important since last edition, including LEED, USGBC, Energy Star. Features hundreds of equations and rules for everything from ductwork to air-handling systems Includes a brand-new chapter on sound, vibration, and acoustics Contains an updated list of equipment manufacturers for all products featured

Colleges That Create Futures

Six Ochiltree families immigrated from Scotland or Ireland to the United States. The principal family dealt with in this book is that of Matthew Ochiltree (d. 1798), who immigrated from County Armagh, Ireland to Delaware about 1760. He married Mary Maxwell in 1761. Some descendants moved to West Virginia, Ohio, Iowa, Indiana, Kansas and elsewhere. Also include information on the following families: Gilmore, Hays, Lackey, Leech, Ramsey, Wilson.

Report [of the Commanding General]

A study of Europeanization in the Baltic Rim 1075-1225 AD, comparing the indigenous civilisations to the prevailing western one. A new approach to the period's narrative sources brings real people's attitudes and daily toils to life in the midst of a change of epic dimensions.
