In *Meanings of Maple*, Michael A. Lange provides a cultural analysis of maple syrup making, known in Vermont as sugaring, to illustrate how maple syrup as both process and product is an aspect of cultural identity. Readers will go deep into a Vermont sugar bush and its web of plastic tubes, mainline valves, and collection tanks. They will visit sugarhouses crammed with gas evaporators and reverse-osmosis machines. And they will witness encounters between sugar makers and the tourists eager to invest Vermont with mythological fantasies of rural simplicity. So much more than a commodity study, *Meanings of Maple* frames a new approach for evaluating the broader implications of iconic foodways, and it will animate conversations in food studies for years to come.

A real estate scam tips Holland Taylor off to a widespread, deadly conspiracy When a drunk driver kills her entire family, Florida retiree Irene Gustafson is left rich and alone. Between savings and life insurance, the death of her son and his family leaves her with nearly \$300,000—a veritable fortune in a community where most live off social security. Following the advice of Ann Landers, Mrs. Gustafson hands the money over to an investment manager. The returns are steady until he starts investing in Willow Tree, a low-income housing development on the fringes of the Twin Cities. The money vanishes, and Mrs. Gustafson is destitute. That's where Holland Taylor, Minneapolis private detective, comes in. His recently retired parents are Mrs. Gustafson's neighbors, and they want Taylor to recover the old lady's money. It seems impossible, but as he investigates Willow Tree he finds a twisted real-estate conspiracy with deep roots in city politics—and a vicious killer hired to protect the secret.

This book, a twentieth-anniversary revised and expanded edition, includes studies that range from exploration of the philosophical structure of Eastern culture to present-day sociopolitical realities in Malaysia and China—all in support of cross-cultural methods of reading the Bible culturally and reading the cultures biblically.

Cloister Life in the Days of Cœur de Lion

A former university president tells about his later encounters in the federal bureaucracy, including an agency with more people than work to be done and how “special projects” get included in appropriation bills. He also relates global encounters, including a four-acre Philippine farm that financed two children through college, Guatemalans being paid with food aid for digging the trenches for their sewer system, a Bolivian farmer proudly showing his harvest of drying coca leaves, and Eastern Europeans’ difficult transition to free enterprise. Back in Washington, he describes political pressure to finance a cigarette manufacturing line in Turkey and a pork research center in his home state, and how membership in his home town country club risked his nomination to be assistant secretary of agriculture. Returning to operate his home farm yielded more anecdotes, including a near collision in the cornfield with a somersaulting Plymouth, potential embarrassment of dragging an implement’s tongue mid-field, and the obstacles in building an egg layer facility that now employs twenty eight local people.

Eva Traube Abrams, a semiretired librarian in Florida, is at the returns desk one morning when her eyes lock on to a photograph in a newspaper nearby. She freezes; it's an image of a book she hasn't seen in sixty-five years--a book she recognizes as the Book of Lost Names. The accompanying article describes the looting of libraries across Europe by the Nazis during World War II--an experience Eva remembers all too well. As a graduate student in 1942, Eva was forced to flee Paris after the arrest of her father, a Polish Jew. Finding refuge in a small mountain town in the Free Zone, she begins forging identity documents for Jewish children fleeing to neutral Switzerland. But erasing people comes with a price, and along with a mysterious, handsome forger named Rémy, Eva decides she must find a way to preserve the real names of the children who are too young to remember who they really are. The records they keep in the Book of Last Names will become even more vital when the Resistance cell they work with is betrayed and Rémy disappears. As the Germans close in, Eva records a last, vital message in the book. Decades later, does she have the strength to seek out its answer--and help reunite those lost during the war?
