Eccentric London

Taking Off

Writing very bad poetry requires talent. It helps to have a wooden ear for words, a penchant for sinking into a mire of sentimentality, and an enviable confidence that allows one to write despite absolutely appalling incompetence. The 131 poems collected in this first-of-its-kind anthology are so glaringly awful that they embody a kind of genius. From Fred Emerson Brooks' "The Stuttering Lover" to Matthew Green's "The Spleen" to Georgia Bailey Parrington's misguided "An Elegy to a Dissected Puppy\

"The poems are so deliciously bad that they're fun . . . it might just be that there's a little bit of serious poetry play giggling behind the scenes." —Los Angeles Times Forget Shakespeare. Don't count on Donne. Shelley and Keats: banished! And there's absolutely no poet laureate from the golden or any other age. So fawning PhDs in love with little-understood verses by long-dead writers should go elsewhere. This is poetry for the rest of us—bad poetry! Pamela Russell's unexalted (but thoroughly hysterical) poems mock, chide, accuse, tease, joke, undermine, point, and laugh at the world around us—and at anything that takes itself too seriously. Her non-canonical oeuvre includes: Tea for Two (A Tragedy); Nietzsche and the Ice-Cream Truck; Capitalism Can Fall Not Like I Fell for You; Inappropriately Touched by an Angel; Love Is Like a Toilet Bowl; and many more.

Very Bad Poetry

The thrust of the book is to emphasize the radical nature of Pope's interpretation of Horace, an engagement both dynamic and changing.

Richard Armour's Punctured Poems

Poetry & Money: A Speculation is a study of relationships between poets, poetry, and money from Chaucer to contemporary times. It begins by showing how trust is essential to the creation of value in human exchange, and how money can, depending on conditions, both enable and disable such trustfully collaborative generations of value. Drawing upon a vast range of poetry for its exemplifications, the book includes studies of poetic hardship, religious verse and debt redeeming, the South Sea Bubble and the economic revolution, debates over metallic and paper currency in the eighteenth and nineteenth centuries, as well as modernist struggles with the gold standard, depression, inflation, and the realised groundlessness of exchange value. With its practitioner's attention to the minutiae of poetic technique, it considers analogies between words and coins, and between poetic rhythm and the circulation of currencies in an economy. Through its close readings of poems over many centuries directly or indirectly engaged with money, it proposes ways in which, while we cannot escape monetary economies, we can resist, to some extent, being ensnared and diminished by them – through a fresh understanding of values money may serve to enable, but ones which are nevertheless beyond price.

This is an excerpt from QZ.Blaze's Found Poetry, focusing on criticism of the SEXUAL poetry being pushed by the industry in the 1990's. It rings more true now than ever.FOUND POETRY made a splash through the poetry community with its parody of the Iowa School of poetry and commercial poetry product in general. The form of the poem is a trinity, so to speak, with the entire poem able to be read from beginning to end but also the capitalized part, which exists as a line of poetic narrative on its own and then, as the third part, the individual portions that parody or respond to the named, alphabetical publisher's poetry sample or something on their listing from particular years. Comix – A History of Comic Books in America (1988) : Covers the whole history of comic books in America to 1970—the major creations, the major creators, the major comic book lines, the major comic book enemies. Co-authors Les Daniels and The Mad Peck tell the story of how comic books captured the imagination of millions and became an American institution, and whether or not they deserved to. Adjoining the text, providing an illustrated history of their own, is a large selection of complete comic book stories. No selected snippets. Full stories. “It seems safe to say,” the authors write, “that no book to date has contained such a wide range of comic book tales Where else can one find in the same volume such divergent personalities as the Old Witch and Donald Duck, or Captain America and Those Fabulous Furry Freak Brothers?

Brand-X Poetry

Nicholas (U. of Melbourne, Australia) and Baloglou (State U. of New York, Oswego) have done an admirable job in creating a translation and commentary of this 15th-century Byzantine text that's accessible to specialist and non-specialist alike. The tales are of very human-like activities, banter, and scuffles between talking animals. In their lengthy (159- page) introduction to the side-by-side translation, Nicholas and Baloglou describe the political and cultural context of the work, emphasizing the political innuendo that might be gleaned from the tale's satirical tone. They describe the tales within the context of other texts, both Byzantine and foreign. Appendices provide the texts of some of these influences, as well as discussion of literary and historical issues raised in the animals' stories. Eroticography

The first poem I remember writing was school work at the age of ten, about King Canute. The teacher, I think, felt like the King, unable to hold back the tide. The stanzas, like waves, kept coming. Later, English was my main subject in which I got a Degree. However, I chose to teach juniors rather than English at a higher level, perhaps fearing frustration? If anyone asked me the question they asked Mr. Chipping, I would have answered as he did "Hundreds of them--and all boys." I had a memorable experience at a Summer School at Reading University when I recited two of my bereavement poems. "You won't cry, will you?" the tutor asked me beforehand. "No\

The background to *Origins of the Underground* is really the story of how British poets became intellectuals. As they retreated from inherited and fixed value systems, they had to think for themselves, and this was a race which intellectuals generally won. You can't just buy in ideas like a small tropical country buying jet fighter planes. What the success of poets seems to turn on is their willingness to use ideas which excite the ideas part of their brains because they are genuinely unfamiliar. Poets who prefer to stick to well-worn and inherited arguments, where they can predict every move, fail for this reason. The area of nearby uncertainty has an odd shape. Obviously, most of the ideas which were new and risky thirty years ago are now forgotten - the risk fell to earth, so to speak. A certain archaeology is needed to retrieve these "casualty" ideas. I admit that I enjoy this sort of digging, and the practice of psychoceramics (the scientific study of crackpots), but perhaps this pleasure pursuit is useful as well. The terrain is made impassable by deep mutual disagreements between different groups of poetry readers (and writers). Going in at the level of ideas offers a possible way of easing these disagreements. Admittedly, it's very difficult to find out exactly what they are.

The Brand-X Anthology of Poetry

When *Making Cocoa* for Kingsley Amis was first published, it catapulted its author into the bestseller lists and established her as one of our funniest and most eloquent poets. There are so many kinds of awful men - One can't avoid them all. She often said She'd never make the same mistake again: She always made a new mistake instead. (from 'Rondeau Redoubly')

The Underground Movie Poems

Parody often stands accused of producing derivative art deficient in taste and skill. But in the hands of writers such as Ezra Pound, Wyndham Lewis, T. S. Eliot, James Joyce, Ford Madox Ford, and Virginia Woolf, the mode engendered revolutionary self-reflexive, critical, and creative practices that were crucial to the development of truly modern art. This book contends that the jauntiness, verve, and daring of high modernism is fundamentally parodic. It argues that parody is central to the whole modernist project. As a literary technique, parody provided the means for modernists of many stripes to learn their craft, sharpen their historical sense, define themselves as post-Victorians, and respond to sources of inspiration while composing.

This *Selected Poems* by award-winning Australian poet Vicki Raymond is her first British publication, though her work has appeared widely in journals and anthologies. She is an unusually gifted poet in traditional forms, with a telling sense of humour which can be playful or savagely satirical. It is a rare pleasure to read poems of such natural virtuosity, ambitious in theme and wide-ranging in subject matter, yet unpretentious in voice and generally cheerful in tone.

COMIX - A History of Comic Books in America

Have you ever been secretly sickened by the sugary syrupy prose and goody-two-shoes stuff you have read to children? Has it ever gotten old? Real old? Did you ever wonder what would happen if it all turned out bad instead? Real bad. Really really bad. Hmmm... How about a collection of poems that strike at all the hang-ups and insecurities we shared as kids? Then add in a dose of reality, from drunkenness to thievery, and a serving of bad behaviors galore. Take a poetic journey way beyond "Go the F**k to Sleep" by Adam Mansbach. Here are a few of the unforgettable poems: Teddy Bear No More Short and moving tale of a teddy bear's demise. Pops is a Criminal Poignant poem that tells it like it is. You're Not so Special at All A warning for the next generation! Joey's Dead The danger of sniffing glue is graphically explored. Fatso This poem about being overweight is simply as painful as it sounds. Where Did our Little Angel Learn to F*cking Swear? The question on every parent's mind, with an equally obvious answer. Closet If you weren't scared of your closet before... Floss. Brush. Die. An easy to read poem that brings the danger of Fluoride front and center. Bully Time Old school ways for new days... Run with Scissors Who will ever forget this practical advice? "Laughed so hard that I forgot for a moment how twisted Jones is! And yet, I loved every bad moment!" "Deliciously evil and so incredibly politically incorrect. Anti-matter for the prissy prudish straight-laced set. What's there not to love?" "I haven't read this book but I am outraged that this nasty stuff has fans. I mean really, what is wrong with you people?" "Totally different. Grossly inappropriate. Totally engrossing. Funny as hell!

Well done Jones." Well... for all my fellow commiserants ... Here, for your mature adult consumption, and DEFINITELY NOT FOR CHILDREN, is my latest collection of irreverent, sophomoric, politically incorrect, harsh, horribly wicked, tasteless, mean, cruel, uncaring, admittedly twisted, and simply vile poetic filth. Hope you enjoy my parody! Ira Jacob jones

Underground Poems

An illuminating new study of modern Polish verse in performance, offering a major reassessment of the roles of poets and poetry in twentieth-century Polish culture. What's in a voice? Why record oneself reading a poem that also exists on paper? In recent decades, scholars have sought to answer these questions, giving due credit to the art of poetry performance in the anglophone world. Now Aleksandra Kremer trains a sharp ear on modern Polish poetry, assessing the rising importance of authorial sound recordings during the tumultuous twentieth century in Eastern Europe. Kremer traces the adoption by key Polish poets of performance practices intimately tied to new media. In Polish hands, tape recording became something different from what it had been in the West, shaped by its distinctive origins behind the Iron Curtain. The Sound of Modern Polish Poetry reconstructs the historical conditions, audio technologies, and personal motivations that informed poetic performances by such luminaries as Czesław Miłosz, Wisława Szymborska, Aleksander Wat, Zbigniew Herbert, Miron Białoszewski, Anna Swir, and Tadeusz Różewicz. Through performances both public and private, prepared and improvised, professional and amateur, these poets tested the possibilities of the physical voice and introduced new poetic practices, reading styles, and genres to the Polish literary scene. Recording became, for these artists, a means of announcing their ambiguous place between worlds. Kremer's is a work of criticism as well as recovery, deploying speech-analysis software to shed light on forgotten audio experiments—from poetic sound postcards, to unusual home performances, to the final testaments of writer-performers. Collectively, their voices reveal new aesthetics of poetry reading and novel concepts of the poetic self.

Jabberfucky

In "The Hollywood Catechism," his latest collection of poems, Paul Fericano shines a bright searchlight on our addiction to pop culture, our fixation on celebrity worship, and our suspicion of religious ideas. Each poem is a small lens flipped to reveal an alternate universe into which the reader enters bravely with no exit sign in sight. Fericano's unique perspective is marked by a skill and talent that blends socio-political satire with suffering and sentiment. In the process, he manages to acknowledge our shenanigans and celebrate our humanity. Elizabeth Taylor, Jesus, and Joe DiMaggio join hands with Freud, The Three Stooges, and Ann Landers, as Burt Lancaster, Charles Bukowski, and Johnny Unitas break bread with Wallace Stevens, Dean Martin, and Dinah Shore. And as U2's Bono and Tyrone Power's Zorro haunt each other's dreams, the Marx Brothers discuss opera with Oprah. From the wickedly satirical "Sinatra, Sinatra" and its use of the crooner's name in vain, to the irreverent appeal of "The Actor's Creed," "The Halle Berry" and "Prayer of the Talking Head," Fericano's lampoons are equally deft. The book's empathetic "Howl of Lon Chaney, Jr." is not only a luminous parody of Allen Ginsberg's epic poem "Howl," but a stunning work that stands on its own merits. American/British poet and critic, Robert Peake, captured it best when he wrote: "Paul's poetry is a distinct turn of mind—able to sweep up humor, irony, and deep feeling in a winning trifecta. It is precisely in the moment I am laughing in a Paul Fericano poem that my guard is down. It is then when Paul slips in a modicum of pathos, reminding me of how complex it is to be human, how, as Virginia Woolf puts it in Mrs. Dalloway,

'dangerous it is to live even just one day.' These are poems that read like the messages in a bottle that might be written by the last sane man on Earth, when everyone else has gone mad."
